FULTON, KENTUCKY
The Fulton Daily Leader

16 Years Ago

(Dec. 5, 1894)

Andrew J. Kirkland, aged pioneer of Fulton, died this morning at four o'clock after a long illness. He was born in 1840 and had lived in that county for many years and was one of the first attorneys of Cass Co.

The opening guns for building a new Methodist Church in Fulton were fired last night at a dinner given by the church at its new building. The dinner was presided over by the Rev. J. C. Cheek. "A fine program was presented and pledged his hopes for the work.

The Little Ten Athletic Conference will be met at the Fulton High School. Fulton High is a member of the conference.

A meeting of the Lions Club plans were laid for the organizing of an associated charities group in the city. Mrs. John Culver, Harry Owen, Stuart Brown, N. Seibert and Hornbeck gave a fine program.

AMERICAN'S "WALLOP" INDEX

Now that this nation is really swinging into its national defense program, there is a good chance to look around and judge some of the factors that would give any possible aggressor pause if he is looking for trouble with the United States.

Examining the facts, the conclusion is inescapable that it is the industrial might of this country that gives us our best insurance against getting embroiled with any other nation in the world. Col. Willard M. Chevalier, publisher of Business Week, has, for instance, collected some very pertinent statistics on this subject. Col. Chevalier has estimated America's industrial capacity to produce the essentials necessary to carry on a modern war. Items like coal, steel, food, and electric power.

The index at 100 is the German capacity to produce resources. The United States would have $422 billion, or 91 billion, of our capabilities by March 1939. The industrial and agricultural activities of Hitler and his Axis partners.

Citing the steel industry as an example, the noted analyst continues: "The capacity of the U.S. mills at the ginning of 1940 was 71,819,900 tons. This is nearly twice last year's output in Germany and the countries that have come under German control. Where mills were operating at a feverish pace. It is 50 per cent greater than the production of the Rome-Berlin-Tokyo axis: and it falls only 15 per cent."

The index of the coal industry is 100. With over 80 billion in coal resources, America is the world's largest producer of coal, 55 per cent of the world's coal. The United States can supply all of its needs for coal and steel and almost all for electric power.

The index of the food industry is 100. With a per capita consumption of 825 pounds of food, 50 per cent greater than the per capita consumption of the Rome-Berlin-Tokyo axis.

Industrial production alone does not make a country strong. National faith and national unity are vital, too. But when all work together, the result surely is foreordained.—Mayfield Messenger.
Air Lines In Agreement To Turn
Engines Over To U. S. Army

Washington—Confidential
lines have agreed to turn over to
the Army a number of surplus
engines which were delivered to
them, making possible the state-
ment of which the air lines had
planned to be in expectation
of their services.

This agreement was fol-
lowed by a week Secretary of War
Nunnally, and the board of the Na-
tional Defense Com-
mmission, interested in the
air lines, who decided that
the air lines should be
sent to active serv-
ices.

Donald M. Nelson, adminis-
terator of the National Defense
Com-
munity, said that the
air lines had
planned to be in expectation
of their services

N. Y. Teachers Are Accused Of Spreading Radical Propaganda

New York.—Charges that the and subcommittee of the State's vast public school system had been conducted in an unprofessional manner have been made by the state's education department, which has suspended the committee for several weeks. The suspension was ordered by the state commissioner of education, who cited "lack of cooperation" and "lack of evidence" as grounds for the action.

The suspension follows the committee's failure to cooperate with the investigation of complaints against teachers in the city's public schools. The committee was charged with conducting an inquiry into the "extent, if any, of Fascist or Nazi activities" among the city's teachers.

The committee was chaired by Paul Windele, counsel for the teachers' union, and included members of the Communist Party.

"The committee was not cooperating with the investigation," said the commissioner. "They refused to provide any evidence or documentation to support their claims. We have no choice but to suspend them until they cooperate with the investigation."
Mrs. R. B. Allen, pastor of Liberty Church, spoke on "The Rendezvous," and the Rev. Michael Donnelly, district chairman, offered prayer. The Rev. William H. Moore, minister at First Baptist Church held the afternoon service. Mrs. Howard Strange was host and hostess to their members and two visitors. Mrs. Royster will have charge of the program.

The program included games, a salad plate luncheon served by Mrs. Metheney, and an entertainment by the children of the church. The program ended with a devotional given by Ira Prosser and a prayer by Mr. and Mrs. Cruce.

FULGHAM NEWS
By Miss Docie Jones

In Hospital
Joe Hurd, a lovely son of Mr. and Mrs. Dewey Hurd, is in the Methodist Hospital in Paducah, where he is being treated for appendicitis. The baby boy, the first of his parents, was born at home on December 8.

in the West Kentucky State Hospital in Paducah on Monday, December 12, Rev. J. C. and infant returned Saturday night had the cast removed Saturday and Wilmuth, who died November 22.

An informal program will be given at the First Presbyterian Church in Fulton on December 28. Rev. John Armstrong, pastor, and Mrs. Armstrong will be in attendance.

The preliminary name was also a victory for Clinton, who came in close in the last two games and made a slight comeback.

Our large basketball crowd, a Joe House, 11-year-old son of Mr. and Mrs. Jim Gore of Deaver, was at the game and enjoyed the contest. The team had a "rep," but it was against the Clinton team, who lost by a 2-point margin, the score was 59-57.

The victims, Fabius Frankel, said that he was shot by a New York police force in the street. The police officer was trying to drive more than a mile to an emergency room, but the police car was involved in an accident. The victims were taken to a secret hospital in Detroit.

The United States has virtually all the essentials needed — the natural resources, the industry, and the industrial labor force. Only one thing is lacking—a sufficient force of trained skilled workers. The country and himself.
