NUMBER FORTY-FIVE

## COUNCIL IN MEETING HERE MONDAY NIGHT

The Fulton city council met in regular session here Monday night, when two new members took office, and the body was reorganized to resume activities during the ensuing year. The two new members are H. H. Bugg, local grocer, and R. C. Pickering, Illinois Central clerk. Bugg and Pickering succeed E. N. DeMyer and R. C. Peoples.

Mayor Paul DeMyer, who has served two terms, will begin his third 4-year term in January. Among the highlights of activities of the past administration are:

The widening of Lake street at the approximate cost of \$6,000; the purchasing of two Diesel engines and the erection of a new building to house these engines for the purpose of pumping water for the city and lighting the whiteway in the business district; the concreting of Mears street and Fourth street extension from Second street; starting work on Third street extension connecting with Lake street, which project will be completed in the spring; curbing and gutting some of the city streets; refinancing the court house debt to pay off at \$1,000 a year.

Old members of the council re-elected in November were: T. T. Boaz, grocer; J. N. McNeilly, grocer; Bert Newhouse, shoe retailer; Kellie Lowe, cafe operator.

K. P. Dalton was re-elected as chief of police and Mrs. Mary Chapman was re-elected city clerk.

Visitors who were present and spoke briefly were Mr. Abe Thompson, representing the Kentucky Utilities and two gentlemen who represented the Hartford Boiler Insurance Company.

At this meeting an ordinance was passed which prohibits the soliciting of funds on the streets, such as beggars or hoboes, without a permit from the Chief of Police.

## COMMUNITY CHEST DRIVE FALLS SHORT OF GOAL

The drive to raise funds for the Community Chest fell short of its \$2,000 goal this year, Rev. J. S. Robinson states. But the committee secured sufficient money to carry on the work, and the fund will be distributed carefully and sparingly in order to accomplish the most good.

The purpose of the Community Chest is to aid those families in dire need here this winter. Anyone who wishes to contribute to this fund may do so by taking their donations to Mrs. Dorothy Edwards at the city clerk's office.

## J. H. Lowe Elected Mayor South Fulton

The municipal election in South Fulton was held Tuesday, with J. H. Lowe being re-elected mayor over his opponent, S. A. McDade, the vote being 116 to 79. Nine candidates sought election on the Board of Aldermen, with Roy Adams, W. E. Baucum, W. B. Davis, Abe Jolley and Sam Jones being re-elected, and Virgil Davis receiving a plurality to succeed J. G. Houston.

H. L. Ferguson, Carlos Grissom were also candidates for aldermen.

## APPEAL SOUGHT TO OUST MAYOR DEMYER

J. E. Melton, citizen and taxpayer of Fulton, has filed an appeal from the Fulton Circuit Court to the Court of Appeals, in which an ouster is sought against Mayor Paul DeMyer, on the ground that he is a non-resident of the city of Fulton. The case when heard here before Judge L. L. Hindman was dismissed.

In the original suit, the petition was filed against C. N. Holland, county court clerk, seeking to restrain the appearance of Paul DeMyer's name on the November ballot. Mayor DeMyer states that he will fight the case in the Court of Appeals.

## HANNEPHIN, BUGG ATTEND CONVENTION

J. E. Hannephin, president of the Kitty League, and H. H. Bugg, treasurer of the Fulton Baseball Association, returned home Saturday night, after attending a convention of Minor League Baseball officials at Milwaukee, December 1, 2 and 3. Other representatives of the Kitty League included: Rip Fanning, manager of the Lexington team; Cecil Moss, president of the Union City Greyhounds; B. F. Howard, vice president of the Kitty League; J. C. Miller, president of the Owensboro club; Hugh Wise, manager of the Owensboro team.

Mr. Hannephin states that he enjoyed the meeting, and that he obtained much valuable information for the Kitty League. He was particularly impressed by the importance of statistics and good umpiring.

Among business activities of the meeting was the formation of a new league to be known as Class E, having a salary limit of \$750. Salary limit for Class D was raised from \$1,000 to not exceed \$1,200. One of the principal reasons for organizing the new league is to do away with outlaw players. W. G. Barham was given a salary hike from \$12,500 to \$20,000 with a five-year contract.

H. H. Bugg endeavored to make contact with some major league to work with the Fulton club during the coming season. He reports that although no definite action was taken, but believes that a good connection will be made before the new season opens.

## FULTON MEN ATTEND ICE CONVENTION

Strange as it seems, a number of Fulton, Hickman and Clinton men have returned from the National Ice Manufacturers convention held in Louisville. This meeting is always held during the off season to avoid interference with business. Abe Thompson, Kentucky Utilities manager here, R. H. Wade, operator of the Fulton Ice Company; Harold Blankens and Harold Moore, Kentucky Utilities employees of Hickman and Lee Grouse, a U. S. employee, Clinton, were among those to attend from this section.

Plans were made for the coming year by the ice industry, and the local men report a good meeting.

## KEEP AMERICA OUT OF WAR BALLOT

In today's edition of the Fulton County News is published a "ballot" which the readers of this newspaper are asked to sign as a personal appeal addressed to Congress—a plea to keep America out of war. With the publication of this ballot, The News is cooperating with the Veterans of Foreign Wars of the United States in a national campaign to obtain the signatures of 25 million voters to be presented to Congress as tangible evidence of an overwhelming public demand for peace. The appeal reads as follows:

"I hereby call upon Congress, and the President of the United States, to adopt and apply policies designed to keep America out of war and supported by a national defense program adequate to preserve and protect our country and its people."

The Veterans of Foreign Wars of the United States has requested 11,000 newspaper and magazines throughout the country to publish this ballot as a means of reaching individual citizens who may be denied the opportunity of signing petitions being circulated by local units of the Veterans of Foreign Wars of the U. S. in 3,600 communities.

Confident that members of Congress will be guided by the sentiments of the people on the subject of war, Commander-in-Chief Scott P. Squyres, of Oklahoma City, is directing the efforts of his organization in a campaign to secure the signatures of at least a majority of the legal voters in each Congressional District. These names, obtained through newspaper ballots and by petitions, will be classified by states at national headquarters of the V. F. W. in Kansas City, Mo. At the close of the campaign, early in 1938, the petitions and ballots will be shipped to Washington, D. C., and presented to members of Congress on the steps of the Capitol.

The "Peace-for-America" program being promoted by the V. F. W. primarily seeks to impress Congress with actual proof of an organized demand that America must keep out of war. Simultaneously, the overseas veterans who compose the membership of the V. F. W., favor a strong national defense, one that will enable the United States to protect its peaceful relations with all other powers.

Believing the readers of The News are heartily in accord with any movement designed to avert war, this ballot will be published at intervals during the next few weeks whenever space is available, in order to give every person in this area an opportunity to register his personal plea for peace.

## South Fulton Beats Fulton High Squads

The basketball game Tuesday night at the Science Hall between the South Fulton Red Devils and the Fulton High Bulldogs was probably the most interesting and thrilling for a great number of the South Fulton and Fulton fans. The Red Devils, who have played several games previous, defeated the Bulldogs in their first game of the season by the score of 27-11.

In the first quarter of the game the Bulldogs held the South Fulton five scoreless and displayed expert handling of the ball. The quarter ended 4-0. The Red Devils came back in the second quarter to take the lead 11-6, increasing that lead throughout the game. Coach Carter used inexperienced substitutions frequently who appeared to be very prospective basketball players.

Billy Jolley, South Fulton's ace forward, led their scoring with twelve points while James Thomas Nanney, right guard for the Bulldogs, was high point man with five points.

Lineup—  
Fulton Pos. S. Fulton  
Allison RF Jolley (12)  
Grogan LF O'Mar (5)  
Parker (3) C Watts (7)  
Nanney (5) RG Smoot (2)  
B. Williams (1) LG McKinney (1)  
Substitutions: Fulton, Thomas, Brady, C. Williams, Underwood, Lovelace, and Batts (2); South Fulton, Creason.

In the first game between the two second teams the South Fulton team defeated Coach Killebrew's team 22-9 which was a one-sided game throughout.

## SHOP NOW AND MAIL EARLY P. O. URGES

During the holiday time the volume of mail increases approximately 200 per cent, the Post Office here states. It is a physical impossibility to handle this great mass of mail matter efficiently and promptly within a few days. Therefore, to assure delivery of their Christmas presents, cards and letters by Christmas Day the public should shop and mail early. Do your Christmas shopping so that you can mail your gifts, greetings, and letters to relatives, friends and loved ones at least a week or ten days before Christmas, according to the distance. This will not only make it certain that they are received before Christmas Day but will be a great aid to your postal service and to postal employees and enable them to spend the Christmas holiday with their families.

All packages should be carefully addressed, with the return address of the sender in the corner. All parcels must be securely packed and wrapped. Use strong paper and heavy twine. Fragile and perishable matter should be properly packed and crated, and so marked. No parcel may be more than 100 inches in length and girth combined nor exceed 70 pounds in weight.

## Supt. Lewis Re-Elected Secretary Of Conference

The West Kentucky Athletic Conference was held at Princeton last Saturday, at which time J. O. Lewis, superintendent of the Fulton City schools, was re-elected secretary, a position he has held since 1924 when the conference was organized. K. G. Gillespie of Morganfield was elected president.

The Tilghman high school at Paducah was awarded the 1937 football championship, with Mayfield second, and Sturgis third.

A committee, composed of Mr. Lewis, Jack Curtis of Owensboro and George Taylor, was named to work out plans for a tournament between the four outstanding basketball teams in February or March, at Madisonville.

The conference approved the extension of the basketball season two weeks, and the Kentucky high school athletic association will begin their tournaments around March 15.

## COUNTY COMMITTEE TO SET GOAL FOR INDIVIDUAL FARMS

A statement from the state office of the Agricultural Conservation program explains that the 1938 program provides for individual farm soil-depleting and soil-building goals, to be set by county committees. Where farmers were in the program this year, and will operate same farm next year, information for setting goals will already be on file in the county office. Farmers not in the program this year will be required to supply information.

The soil-depleting goal of a farm will be that farm's share of the county's goal of tobacco, cotton and commercial potatoes, plus a general soil-depleting crop goal.

The soil-building goal of a farm will include things to be done to improve fertility, such as applying limestone and phosphate, the sowing of grasses and legumes and maintaining meadows and pastures.

Farmers will earn payments by not over-planting their soil-depleting goals and by reaching their soil-building goals. Payments will be figured by adding allowances of so many cents a pound on the normal yields per acre or specified rates per acre of the different crops on the acreages of the depleting goals. There also will be allowances for soil-conserving acreages, for pasture, for commercial orchards and for commercial vegetables.

Farmers who meet all goals fully will receive maximum payments. If they exceed the soil-depleting goals or fail to reach the soil-building goals, payments will be decreased.

WOMEN WHO HOLD  
THEIR MEN  
NEVER LET THEM KNOW

No matter how much your back aches and your nerves scream, your husband, because he is only a man, can never understand why you are so hard to live with one week in every month.

Too often the honeymoon express is wrecked by the nagging tongue of a three-quarter wife. The wise woman never lets her husband know by outward sign that she is a victim of periodic pain.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and go "Smiling Through."

# "THE NEWS" WEEKLY SCRAPBOOK

## WEEK'S BEST RECIPE

Scrambled Hamburger—4 table-  
spoons bacon fat; 3 tablespoons  
minced pimientos, 2-3 pound ground  
beef; 1-4 teaspoon salt; 1-4 teaspoon  
paprika; 1 egg yolk; 2 tablespoons  
milk. Brown onions and pimientos  
in fat melted in frying pan. Add  
meat and let cook until it has  
browned, about seven minutes. Add

rest of the ingredients and cook for  
two minutes when it is ready to  
serve.

## KITCHEN KINKS

Add a few drops of lemon juice to  
powdered sugar cake icings; it will  
add to the whiteness. Cocoa will  
dissolve more readily and be free  
of lumps if the cocoa and sugar are  
mixed well together first. Run  
cold water over dried fruits before  
chopping in the food chopper and  
they will not stick together.

## ON WASH DAY

Printed linens should be put  
quickly through the washing ma-

chine without preliminary soaking  
as such material does not hold the  
dye as well as some other fabrics.  
If washable by hand, materials are  
washable in the washer. If the edge  
remains soiled after washing they  
can be rubbed with a soft bristle  
brush. Violent hand-rubbing will  
break the threads.

## LITTLE STUNTS

To make an attractive waste pa-  
per basket, take the colored linings  
from Christmas card envelopes cut  
them in irregular shapes and paste  
them around the outside of large  
oatmeal boxes. Then shellac the en-  
tire box. Each child may have his  
own waste basket for scraps when  
cutting paper dolls.

## THE FAMILY DOCTOR

One excellent way to treat child-  
hains is to paint the afflicted area  
every two or three days with  
iodine, either pure or diluted with  
alcohol. Another method is to apply  
equal portions of grated potato and  
salt for three successive nights.  
Wrap with both to hold the mix-  
ture in place.

## AN INSPIRATION

The feet of the humblest may  
walk in the field  
Where the feet of the Holiest trod.  
This, then, is the marvel to mor-  
tals revealed  
When the silvery trumpets of  
Christmas have pealed  
That mankind are the children  
of God.

## SILO SIMPKINS SAYS

Two hens in a comfortable house  
are worth half a dozen roosting in  
a tree.

Good care of livestock does not  
always bring success, but neglect  
always brings failure.

The opportunity of having most  
modern conveniences is within the  
reach of most farm families, if  
there is any real desire to have  
them.

With electric lights in the farm  
home, the "bright lights" of the  
city will not seem half so attrac-  
tive nor inviting to the farm boys  
and girls.

Due to an unfavorable season  
there is still a lot of unpicked cot-  
ton in the state. The ginning of  
damp or wet cotton should be  
avoided because it results in a  
loss to both farmer and ginner.

The most valuable part of stable  
manure, nitrogen, is the part most  
quickly lost by careless handling.  
Like other fertilizers, manure is a  
valuable asset, and should be

handled as such.

The average farm milk cow in  
Tennessee gives on an average of  
300 gallons of milk per year, which  
is about one-half the amount that  
she should produce if provided with  
the proper feed and care.

Many Tennessee farm boys and  
girls are paying their way through  
college this year with money earn-  
ed from 4-H club projects, and in  
addition they have gained knowl-  
edge and experience that will be of  
value to them in future years.

The history of the dairy herd,  
past and future, is written in the  
calf. Blood breeding is essential for  
a good calf. Careful feeding and  
management are essential for the  
calf to be of the most value to the  
herd.

Efficiency in farming includes  
maintaining soil fertility, control-  
ling erosion, economical production  
of crops and livestock, better distri-  
bution of work and income through-  
out the year, and the production of  
food and feed needs of farm and  
home.

## SPARKS of WISDOM

A New York judge says men  
should not be allowed to pin diapers  
on babies, and the babies probably  
think the same thing.

It's natural for other nations to  
think only of war, for they don't  
have championship fights and world  
series and nerve-racking football  
contests.

A Chicago physician says the  
way to save civilization is to make  
men over. Well, a lot of wives  
around Fulton are trying to do that  
very thing.

It seems that a free country is  
one in which every 100 people have  
100 different ideas of what con-  
stitutes wickedness.

Last year automobiles killed more  
than 34,000 people in the United  
States. There is no way of getting  
at the number they kept broke.

What has become of the old-  
fashioned Fulton man who refused  
to get his hair cut in winter time  
for fear he'd catch cold?

GOOD CITIZENS.

Blessed are those Fulton citizens who plant trees and shrubs in their yards and along our streets, for future generations will enjoy their thoughtfulness. Blessed are they who appreciate God's gift of birds and flowers and who encourage their growth. Blessed are they who scatter flower seed and keep others from destroying the wild flowers along the roadsides. Blessed are they who banish billboards from their property, for they are protectors of outdoor beauty. Blessed are they who keep their property in repair and their houses painted for they beautify the town in which they live. Blessed are they who speak well of schools and churches, and of the men and women who give them their support. Blessed are they who greet the stranger with a smile and their neighbors with a handshake. Blessed are they who do all these things for there shall be joy and happiness in their hearts the whole year round.

OLD AS THE HILLS.

A few days ago there appeared in American papers a news item from London in which it was stated that excavators who are bringing to light the secrets of ancient and buried Carthage recently found a clay lamp in a temple erected centuries ago, before Christ came upon earth, and that engraved on the bottom of the lamp is this legend: "Why not buy our lamps; they are the cheapest in Carthage." The price, one drachm, was also cut into the clay. Can the fellow who thinks advertising is a new and costly fad want any better evidence that it is as old as the hills? And can't he find a lesson in the fact that if advertising was good in the early days of the world when it was difficult to get an ad before the public that it ought to be better now that millions read them?

It's worth thinking over, anyhow, and we pass it on for the consideration of our non-advertising friends with the hope that they will decide to show as much enterprise as the old merchants of Carthage—that they will make the balance of 1937 and all of 1938 the best months in their history—a thing that can be done through the use of printers ink.

SOMETHING FOR NOTHING

The Fulton citizen who contends that "you can't get something for nothing" is wrong. All he has to do is catch cold and he will realize that he can get enough "cold remedies" to fill a book. Of the number, some may be beneficial, yet all of them are worthless to those who know how to avoid catching cold. Comfortable clothing, fresh air in the sleeping room, careful attention to the elimination of waste matter from the system and drinking of fresh water daily will, it has been determined, go far in preventing what we know as the common cold. But even this fails at times—and then is when a cold becomes dangerous. In that case the best possible advice is—go to bed. Don't try to wear it out. Bet-

ter the loss of little time spent in bed than contracting one of the serious conditions that common colds are capable of bringing on. Don't look lightly on a cold. Go right after it the moment you feel it coming on, and don't stop doctoring it until you have it under control.

A SAFETY STUNT

A Cleveland, Ohio, man has suggested that it might help to reduce auto accidents if every time a motorist kills a pedestrian a bright red license tag be substituted for the regular one he has on his car. The number would remain the same, of course; only the color would be changed, and that to a bright crimson. In this way the public would know, he points out, the moment he spied a car with a crimson tag that it had been the agency through which someone had met death, and other drivers, fearing the publicity and comment such a tag would bring, would naturally drive more carefully. We have heard many suggestions for safer driving offered by motorists around Fulton but never anything touching on this line, and while such a suggestion will probably never be adopted by any state in the union, it shows to what extremes those who make a study of safety are willing to go to cut down the nations annual death toll.

IT ALWAYS WORKS

Everybody knows the story of Robinson Crusoe, how he was stranded on an island with only a goat, a parrot and a black man as his only companions, and how badly he wanted to get off the island. But most people do not know that it was advertising that got him off. He had only a ragged shirt with which to do the advertising, but he stuck it on a pole, planted the pole in the ground, and waited. He didn't get discouraged when no one came the first day—no good advertiser does. But he kept advertising his predicament by means of that old shirt waving in the air—and finally he got results. If Robinson Crusoe with one old shirt could reach the people he sought, how much more easy is it for the merchants of this territory to reach the people they want to sell goods to through the columns of a modern, home-town newspaper? Now that the winter buying season is in full swing, this is a pretty timely subject to devote a little study to.

SANTA AND HIS PACK

With Christmas just around the corner, toymakers announce that the volume of business has been greater this season than at any time for the past seven years. They have manufactured a quarter of a billion dollars of toys for this Christmas and distributed them to the trade, so it is evident that Santa's pack is going to be well filled this year, especially for the children.

It should be of interest to Fulton citizens to learn in connection with this report that the toymakers have this year steered clear of war toys which have been the rage in years gone by. Through an agreement reached early last spring they reduced the manufacture of toy cannons, guns, soldiers and all other type of toys that smack of war and instead have turned out more toys stressing scientific, industrial and transportation lines. They consist of many ingenious mechanical features, and the airplane, the auto, the streamlined locomotive along with toys that do marvelous acrobatic stunts will this year direct the childish mind away from war and its destruction.

This is good news, and it reflects the sane judgement of the men who design and manufacture the things which go to make up Santa's pack.

It is high time that American fathers and mothers turned their interest of their children away from thoughts of war and directed their minds more toward the worth-while things of life.

A HAPPIER HOLIDAY

The Postmaster General has addressed a timely appeal to the people of the United States. He said "The government will be thankful to you if you will shop early, wrap carefully, address plainly and mail promptly all of this year's Christmas merchandise."

This is a reasonable and a sensible request and we feel sure that everyone around Fulton can profit by following it. Shopping early means getting the best of everything in stock before it has been picked over, and also means more time for making selections. Wrapping carefully means the goods will go through the mail without breakage and without loss. It also means quick handling, and getting the things you are sending in the hands of those for whom they are intended in good condition. Addressing plainly and mailing promptly go hand-in-hand with the other two suggestions.

Taken altogether, these suggestions mean a happier Christmas for the ones who carry them out. Merchants have more time in which to wait on you, and also time in which to personally help you solve your buying problems, if you will do your buying early and not wait until the last minute. Postoffice employees can be relieved of the heaviest part of their annual burden if you will only cooperate with them by following the Postmaster's suggestions.

But, best of all, shopping early, wrapping carefully and mailing promptly brings happiness to those who do it. It will help to make your own individual Christmas happier, too. And that is why there should be more of it.

A CHRISTMAS SPIRIT—ED HOUSECLEANING

By ELEANOR ROOSEVELT

Here is a new idea for those of us who dread spring housecleaning: combine it with the Christmas spirit. Why wait until spring? Why not make a festive occasion of the weeding out and sharing of our usable surplus possessions. Things which have ceased to be useful to us, things we are tired of, could begin life all over again under our neighbor's Christmas tree. Why not do it now and make housecleaning a joyful, generous, friendly act?

Mother should not do this Christmas salvage work alone, however. Every member of the household should join in a hunt through closets, neglected drawers, the attic. All of them should overhaul their books. If it is put in the light of an opportunity for Christmas giving in which all members of the family can join, they will probably be surprised by the things which turn up on the pile to be given away. Here, for instance, is an overcoat which father has treasured for years, thinking the time might come when he would wear it again. But there are shivering men walking the streets without any coats at all these days. Or here is an old quilt, preserved in mothballs as befits an heirloom. You thought time and again that it was too good to part with, but remember that there are children who go to bed wrapped in newspapers, and still are cold.

Be very careful about one thing. Don't give rubbish. Rubbish is no good to anyone. Clean and renovate what can be salvaged. What you are looking for is gifts, something you can enjoy giving, something you would be proud to see someone else enjoying. A good test

of what to give is whether you would be glad to receive it yourself.

To collect and distribute these gifts effectively should not be difficult, if one person in each community makes it his job to provide leadership, and if the rest of the community is willing to cooperate. A committee should be formed to work with the organizations which know who the needy are, so that the gifts may be properly apportioned and distributed.

Everyone who reads this appeal can help push the campaign. The time for organization is now. Take it up with your clubs and your churches, draw upon the energy and civic pride of the Rotary, the Kiwanis and the Lions Clubs, and on the experience of the welfare agencies.

One of the agencies best qualified to cooperate with your local committee is, of course, the Salvation Army, which has excellent facilities for collecting such gifts and responds quickly to a telephone call. There are many others. The Volunteers of America distribute things to the families of men in prison. The social service departments of many hospitals dispose of clothing. The Goodwill Industries, from Maine to California, recondition clothes and household equipment in their shops, and serve the double purpose of giving employment and salvaging discarded articles. Tuskegee and Hampton Institutes, the Penn School in South Carolina and the Calhoun School in Alabama knows the

needs of Negroes and are eager to receive all kinds of useful goods. The American Merchant Marine Library Association, the Seamen's Church Institute and the American Library Association have branches in many cities and welcome good books and magazines.

This movement could be made to echo through every community in the United States. It would help to draw communities together, whether large or small; it would make them conscious of the needs of those who have too little, and it would offer the chance for a real community Christmas. Ministers would surely be glad to announce this campaign from their pulpits; local radio stations and newspapers would gladly give information about it. In many communities firemen have for years generously helped similar campaigns. Merchants, Boy Scouts, Girl Scouts, would surely be helpful volunteers in the work of collecting gifts.

On Christmas morning some attics would be emptier, but some bare homes would be better furnished. Moths might have less food this winter, but many human beings would be warmer.

Here seems to me an idea which would be both far-reaching and good fun. Surely Americans have the organization, common sense and good will to carry it out successfully.

Christmas is the time of year when we ought to remember how much more blessed it is to give than it is to keep.

Brief Thoughts

Success Story. He lost money on the farm. So he moved to town and got rich so he could lose money on the farm.

Sature evens things. The one who attends one party in a year gets as much joy out of it as another gets from 50 parties in the same period.

Providence knew we would have a hard lot. That's why we have imagination—so we can dream and forget the mess we're in.

There is only one reason for political or military censorship. "Men love darkness rather than light because their deeds are evil."

What the future has in store for you depends a good deal on what you put in store for the future.

If you want to see a Fulton old-timer wiggle with delight just let a good looking woman tell him he has a fine forehead.

Some of the girls around Fulton who get married these days know just enough about housekeeping to think that an electric iron does its own ironing.

And what doth it profit a nation to have so much gold when another nation has so much brass?

One thing that never seems to break down in Hollywood is the marry-go-round.

"The man who thinks he knows it all," asserts Livingston Read, "is trading on very small capital."

The increased number of births in Germany is helping to revive that country's depleted toy industry.

One-half of Mexico's 16,000,000 population is pure Indian.

### Muscular Rheumatic Pains

It takes more than "just a salve" to draw them out. It takes a "counter-irritant" like good old Mustero's—soothing, warming, penetrating and helpful in drawing out the local congestion and pain when rubbed on the aching spots.

Muscular lumbago, soreness and stiffness generally yield promptly. Better than the old-fashioned mustard plaster, Mustero's has been used by millions for 30 years. Recommended by many doctors and nurses. All druggists. In three strengths: Regular Strength, Children's (mild), and Extra Strong.

The average Fulton man's idea of the pursuit of happiness is to keep one step behind his neighbors and two jumps ahead of the sheriff.  
Another difficult thing to under-stand is why a waffle supper will get people into a church faster than a good sermon.  
Still another nice thing about the wars in Ethiopia and China is nobody thought to write any dirty songs about them.  
Potatoes must be getting cheaper for several people living in the Ful-ton territory. It is reported that about the wars of 1937 is that they didn't give a few Americans a chance to get rich in the stock mar-ket.
