FULTON, KY., JANUARY 18, 1929

R. S. Williams, Publisher

The New Year In Our Community

The festivities are over in Fulton and now another year of work is before us. Let's hit the ball before it hits us. It was a merry Christmas, anyway, and a Happy New Year—as usual.

Prosperity comes to those who urgently and diligently and intelligently seek it, unless it is left by a rich parent who conveniently fades away. It is greater prosperity that we want in this community, and in the state and nation.

Let's go after it and stick until we get it. Then hang on to it when we do get results. Talking is sometimes good because it puts us in the right shape of mind. But work is better because it enables us to accomplish definite and desirable results.

Therefore let us do both in 1929—talk and work. Its the sure road to prosperity. And while we are engaged in beguiling prosperity, we should also endeavor to promote harmony. If the doors are open, harmony will always seek admittance. It doesn't like to wander around without a home—and its home is in the head and heart.

Harmony will do wonderful things for us in the run of a year. And along with harmony comes good fellowship—its twin brother. Good fellowship promotes harmony and harmony promotes good fellowship, and when the two are joined, the result is a community that is a credit to its neighbors.

By all means we should strive to have good fellowship, too. But that isn't all. Harmony and good fellowship promote kindness and generosity and thoughtfulness and a willingness to do for others as well as for self.

That, also is good—very good. The fellow who lives for self alone doesn't really live. He only afflicts us with his presence for a time. But when we perform a kindly act for others it leaves a warm glow in the region of the heart—that heart which should never grow cold.

We must have all these, too. In fact, there are many things we have and do in this community in 1929—things that work for improvement, prosperity and sociability. We might suggest that the new year will be better if made, instead of being marred.

Making a community is not difficult. It only requires intelligence and a will to accomplish. Marring a community is even less difficult. In fact, it is not hard at all. It only requires that spirit of indifference that is so often found where it should not be.

RIDA JOHNSON YOUNG FAMED AUTHOR OF GREAT SONG

Rida Johnson Young, who wrote "Mother Machree," which John Ford produced for Fox Films, is the author of some of the greatest hits of the American stage as well as of the song which has made her name a household word in all English speaking countries. For the author of the story of "Mother Machree" is also the poetess who has sung her way into the hearts of a race with her beautiful song of the same name.

The picture version of this story is an epic of the sacrifices of motherhood. And with Belle Bennett in the title role and a cast of supporting players of stellar rank, Fox Films have achieved one of the outstand-

ing productions of this season. Drama, gripping and universal in appeal, humor of the kind for which the Irish people are noted and a story that touches every heart, all these are to be found in this splendidly directed and acted photodrama.

"Mother Machree" is coming to the Orpheum, Jan. 21-22 and a long remembered treat is promised to all those who see it.

FIRST NATIONAL ELECTS SAME BOARD FOR 1928

R. H. Wade Again President of Town's Oldest Bank

At a recent meeting the same board of directors and officers was named to head the First National Bank for the coming year. The following men were elected:

R. H. Wade, president; R. B. Beadles, vice president; Geo. T. Beadles, cashier; Paul Boaz, assistant cashier. They, with T. E. Williamson, make up the board of directors of the bank.

The annual statement of condition indicated that the affairs of the bank were in good shape, and that gains have been made during the past year.

CITY NATIONAL ELECTS DIRECTORS AND OFFICERS

Annual Reports Show Flourishing Business.

At a recent meeting, officers and directors of the City National Bank were chosen as follows:

Officers: W. W. Morris, president; W. A. Terry, vice-president; N. G. Cooke, active vice-president; Clyde P. Williams, cashier; B. J. Pigue, assistant cashier.

Directors: W. W. Morris, Joe Browder, T. N. Fields, W. A. Terry, Enoch Browder, Sam T. Butler, N. G. Cooke, W. P. Murrell, E. F. Karmire, L. F. Burke, C. P. Williams.

The annual dividend was declared, and reports showed a flourishing condition, with steady progress made during 1928.

FARMERS BANK ELECTS OFFICERS

Regular 10 Per Cent Dividend Is Declared

The board of directors of the Farmers Bank met in regular session on January 14, and attended to the annual election of officers and directors.

The following board of directors was elected:

A. Huddleston, I. H. Reed, W. J. Willingham, John C. Browder, Charles Brann, U. H. Scott, A. M. Nugent, A. G. Baldridge and Louis B. Weeks.

The following officers for the coming year were elected: A. Huddleston, president; I. H. Reed, vice-president; A. M. Nugent, cashier; G. W. Lane, assistant cashier; D. W. Smith, assistant cashier.

The annual report showed satisfactory progress for the year 1928, and the regular 10 per cent dividend was declared.

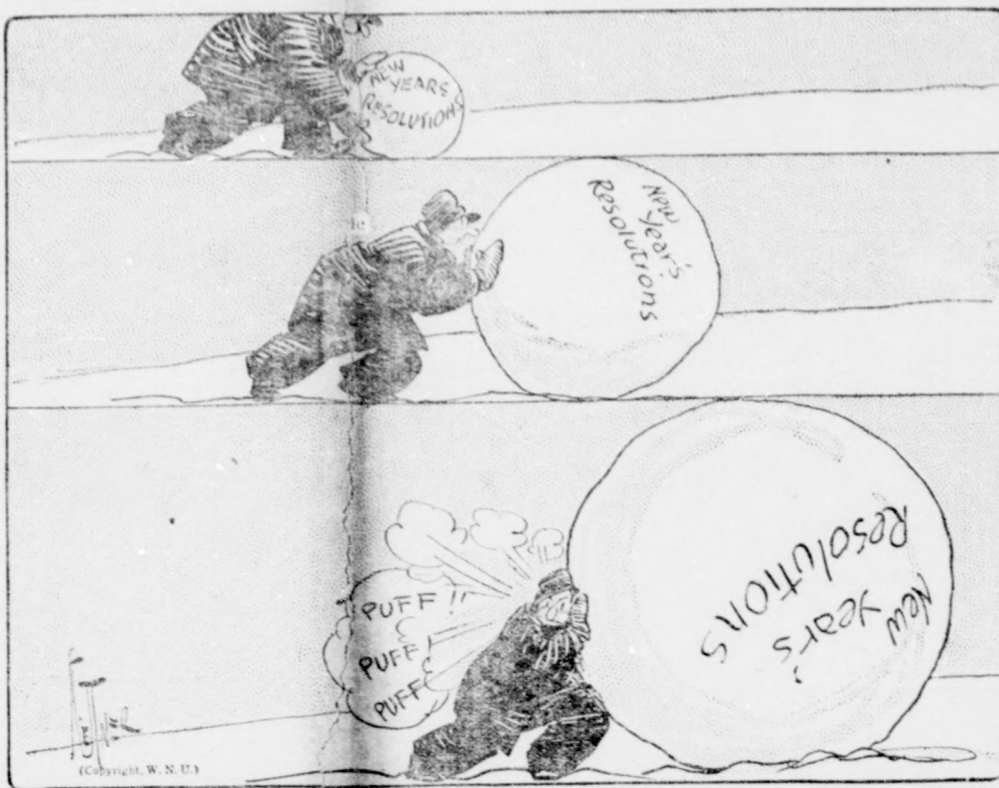

TAX NOTICE

I will be at the City National Bank, Fulton, Ky., with the tax books on Saturday, Jan. 19. Come in and pay your taxes before the added penalty goes on.

We will soon publish the delinquent tax list.

JOHN THOMPSON
Sheriff and Tax Collector.

The First Weeks Are the Easiest

Albert Smith Out For Sheriff.

To the Democratic Voters of Fulton County, Kentucky:

Ladies and Gentlemen:

I am taking this opportunity of advising you that I am a candidate for the Democratic nomination for Sheriff of Fulton county, for the term beginning January 1, 1930, and respectfully solicit your vote and good will in the Democratic primary election, August 3, 1929.

I know of nothing I could say in the way of promises, except, if elected, I shall perform the duties of the office as legally and effectively as I know how, with the idea of performing every duty incumbent upon men as a sworn officer of the law, at all times recognizing the importance of my position, the responsibilities attached to it, and the service I shall owe to those who have trusted me.

I will appreciate your vote. Thanking you most heartily in advance for your good will during the campaign, I beg to remain,

Yours very truly,
ALBERT SMITH.

The above announcement of the candidacy of Albert Smith of Fulton, for the office of Sheriff of Fulton county, subject to the action of the Democratic primary, August 3, 1929, will be gladly received by the voters throughout the county who have persistently urged him to make the race.

Albert Smith is an outstanding unit in Fulton business circles and few men have contributed as much to its welfare and advancement. During his term of office as city councilman he won the distinction of never missing a council meeting, a record no councilman had ever

attained during the history of the city. He was a faithful official, setting a splendid example and always taking an active interest in matters pertaining to the city's general welfare. Since his retirement from office he has lost none of his public spirited energy and takes a keen interest in county affairs.

Mr. Smith is a man of excellent moral character and a devoted family man. He has his home life, and keeps his sparks of happiness aglow in the family circle.

He was indeed modest in making his announcement, but we are going to tell you now that he has the distinction of feeding more hungry mouths within the past 23 years than anyone else in Fulton county, and Smith's Cafe of Fulton, has the reputation of being one of the cleanest and best conducted restaurants in the country.

Yes, he has fed many hungry people who paid the price, but believe us, he has fed thousands who couldn't pay. No wonder he is held in the highest esteem of all who know him and would make an ideal sheriff. He is well qualified to fill the office with the highest degree of satisfaction. He will appreciate your vote and support, August 3.

WONDERFUL IMPROVEMENT

A statement showing the exact cost of the new streets, curbs and gutters included in the street improvement project in west Fulton last year will be found in this issue of the Advertiser with the names and amounts assessed to each individual property owner. It is a lengthy statement and many will get a genuine thrill out of it as he or she sees what part they took in advancing the city's progress. It is a wonderful improvement which we can look to with pride for many years to come.

TERRY MOTOR COMPANY NEW FIRM

Chas. Terry has purchased the interest of Lon Pickle in the Pickle-Terry Motor Sales Co., and the partnership has been dissolved. Mr. Terry is now manager of the Terry Motor Company and will continue as the authorized local dealer of the Oakland-Pontiac line of automobiles, and also operate a first class repair and service station at the old location, 208 E. State Line Street.

Send the Advertiser to a friend one year—only \$1.00.

Henry Collier Announces For Jailer

The Advertiser is authorized to announce the candidacy of Henry Collier for the office of Jailer of Fulton county, subject to the action of the Democratic Primary, August 3, 1929.

Mr. Collier is too well known in this vicinity and throughout the county to need an introduction from us. He was born and reared in the adjoining county, and for many years has resided in this county, near Fulton, in the Palestine neighborhood, where he was engaged in farming.

His large circle of friends, knowing him to be a life-long Democrat, and realizing that he would make a good jailer, urged him to make the race. No man is more capable or better suited for the office and if elected, will do his utmost to meet every requirement of Jailer to the very best of his ability. During the campaign he will make an effort to see every voter in person throughout the county and press his claims. He will appreciate your good will during the campaign and earnestly solicits your vote on August 3.

AT THE GRAND

When First National Pictures secured Willard Mack's sensational stage play, "The Noose," for a screen production there was no doubt in the minds of film fans as to who would be starred in the picture.

Richard Barthelmess is the ideal type to portray "Nickie Elkins, the boy who so narrowly escapes the gallows, and is also the artist who can best bring to the screen a sincere portrayal of the misguided youth, victim of gangsters.

When "The Noose" comes to the Grand Theatre on Monday and Tuesday, Barthelmess will be seen in one of the finest roles of his career. His work in this picture has drawn universal approval everywhere it has been shown, and is another triumph to be added to his long list of successes, including "Tolable David," "Way Down East," "Broken Blossoms," "The Patent Leather Kid," and similar screen classics.

"The Noose" is splendid entertainment, and the star is surrounded by an exceptionally clever cast. The direction by John Francis Dillon is superb, and First National Pictures, has given an entirely adequate production to the picture throughout.

MOTHER OF C. R. YOUNG DIES IN BOWLING GREEN

Mrs. Belle Young, aged 69, died Monday, January 7, after an illness of three weeks. She had been in ill health for several months, but was not seriously ill until only a few days before her death. The burial occurred in Bowling Green, with Dr. George Cheak, pastor of the First Presbyterian church, in charge.

Mrs. Young is survived by her husband and two children. C. R. Young, formerly superintendent of the Tennessee Division, Illinois Central Railroad, but now superintendent of transportation in Chicago, is one son while the other is Mrs. J. R. Huff of Water Valley, Miss. Mrs. Young had visited her son in Fulton on several occasions and had many friends here. These friends, as well as the host of friends which Mr. Young has here, deeply regret to learn of her death, and extend deepest sympathy to the bereaved.

Send The Advertiser to a friend one year—only \$1.00.

Just what you have been waiting for.

POULTRY FACTS

ORNAMENTAL AND OTHER CHICKENS

(Prepared by the United States Department of Agriculture.)

Chickens of the Continental European, oriental, game, ornamental, and miscellaneous classes often have an unusual aspect, and a breeder who may first be attracted to such fowls by their unusual plumage or form may later develop a flock which has decided utility value, says the United States Department of Agriculture. Farmers' Bulletin No. 1507-F, "Standard Breeds and Varieties of Chickens II," just issued, discusses the qualities of the various breeds and varieties listed so that the inexperienced person may make a wise selection by reason of familiarity with the merits of each.

The Continental European class includes several breeds, among them the Polish. This breed was formerly popular in the United States, but with the increase in popularity of the Leghorn, interest in the Polish variety waned. It is still popular, however, as an ornamental fowl. A characteristic feature of all Polish birds is a crest surmounting the head.

There are bantams in several classes of the larger chickens and also classes of bantams for which there are no corresponding larger breeds. The bulletin discusses the more important characteristics of the breeds and varieties in the classes mentioned.

A copy of the new publication may be obtained free upon application to the Department of Agriculture, Washington, D. C.

Finishing Poultry for Market Difficult Task

Finishing fowls for market is not fully comprehended by the average poultryman. It is practically an art, and one must be guarded largely by previous conditions.

In the case where birds have been confined to a yard the entire season, they may be penned in a small enclosure and finished up for market in about ten days simply by feeding them all they can eat.

But when fowls have had unlimited range it is best not to shut them up and begin stuffing them from the start. Such a course is often attended by considerable loss. Fattening must be done gradually.

A favorite fattening mixture is made as follows: Corn meal, three parts; ground oats, one part; bran, one part; crude tallow, one part—all well mixed.

The entire mess should be scalded and given for the first three meals of the day, with all the corn and wheat the fowls will consume at night. Sweet potatoes are also excellent for fattening. They should be cooked and thickened with cornmeal. They will put more flesh on a hen in the shortest time than any other food known.

Picking Geese Feathers

Geese yield an abundant crop of feathers, but they should not be picked until after the breeding season. The feathers are ripe for picking when the quills appear dry and do not contain blood. Although the demand for these feathers is increasing, the fanners add to the profit of goose raising. Geese should not be picked just before marketing as the feathers must be right for the fowls to bring highest prices.

Poultry Notes

Laying hens need water and neglect to provide it may seriously reduce the egg yield.

Much disease can be kept out of the poultry flock by burying or burning the dead birds.

In mixing a ration the physical effect of a feed must be considered as well as the chemical nutrients.

Poultry yards are necessary on the farm, if the flock is to be properly cared for. Disease prevention and control are impossible if the hens range all over the farm.

Ground oats may be used for growing stock or laying hens when fed in limited quantities.

A straw loft in the poultry house is an advantage to the flock owner. The straw loft helps to keep the house cool during summer and warm during winter.

Too much salt is a poison for hens, but they need a little just as humans do. A pound to 100 pounds of mash improves their appetite and aids digestion.

Let the chickens on the farm rough it and rustle for themselves and they will give little in return.

The hens should exercise and have plenty of green food. If they are fed properly and not overfed, you will have no trouble with soft-shelled eggs.

Bran mixed with meat scraps fed dry in hoppers, oats scattered in a litter of straw, corn fed on the cob and anything in the shape of green stuff, such as beets, cabbage, pumpkins, etc., should be fed to hens.

The Cottage on the Hill

By DOROTHY DOUGLAS

(Copyright.)

WHEN Mary Anne was just a tiny girl her mother had said to her, "Always remember, dearie, that anything you want in life will come to you, so long as it is a good desire. You must just keep your mind constantly on attaining it. You must never want what belongs to some one else and you must never, under any circumstances, want anything wicked or harmful to anyone." Thus it was that the power of the mind and imagination to bring forth good things from the heart of the world was early instilled into Mary Anne's receptive brain. And as she grew up, guided by her wonderful mother, she developed an utterly trustful nature.

Also as a tiny girl Mary Anne's extraordinary beauty of spirit was manifesting itself physically. Her eyes were pools of warm blue-gray and her hair was like a sheet of waving wheat with a glint of red sunset flitting over it. Her mouth was softly curved and childlike even in her mature years and seemed always ready with innocent and untarnished words of wisdom.

Her mother and father were justly delighted with her and fostered the growing tendency to live in a world made up of friends of her imagination, yet friends whom she would one day find and love.

Of such fancy was Mary Anne's Cottage on the Hill. As early as her seventeenth year, when, unconsciously, thoughts of a mate somewhere in the world came to her, she pictured vividly the cottage.

It would be on the top of a hill commanding a view toward all corners of the wonderful universe and must be a low, rambling bungalow type that caressed closely and securely the warm breast of the hill. There would be sentinel trees, a few of them, and just a scattering of fruit trees so that the blossoms could scent the air in the springtime and then blow out over the hilltop—little spirals of the wind. Needless to say, when Mary Anne entered the world of men and her charm swept them headlong into loving her, she wondered which one of them might ultimately be associated with the cottage on the hill.

There came a day when she was slightly troubled since her suitors were becoming a tiny bit trying. She made a background of her Cottage on the Hill and one by one tried to visualize any one of the men in it, but always a flat in town or a house in the suburbs floated across the vision and left Mary Anne puzzled.

"Perhaps," she said wistfully to her mother, "perhaps God doesn't think it wise for me to have my cottage—maybe it's one of the things I am not to have."

"You're young, dearie, and lots of good things require a long time to materialize. Why not take the trip abroad with the Elmers and come back refreshed to think things over?"

Mary Anne did take the trip abroad. She went to France, to England, to Ireland and to Scotland, and most of all she loved the rugged beauty of the highland country.

It was heather time on Loch Lomond and the Elmers and Mary Anne were staying at an inn on the very edge of the loch.

And during the long, glorious evening of sunset that seemed to linger for hours on the hills, Mary Anne took a walk along the loch side.

Suddenly Mary Anne felt her eyes being drawn upward and she stopped and held her breath.

"My Cottage on the Hill!" she cried, and couldn't quite believe that she was not dreaming.

A few yards ahead a tiny winding pathway led the way up the hill and there bathed in glory of the setting sun was, indeed, the cottage. It was whitewashed, with a slate roof, and lay there on the brow of the hill as if the Creator had put the cottage there as a finishing touch.

Mary Anne could no more have restrained her feet from following that path up the hill than she could have turned her back on all her dreams. Then, within a short distance of the door itself and so confused with the joy of actually seeing something that had been a mind picture for nearly eight years, Mary Anne stumbled, turned her ankle and cried out swiftly with the sudden pain.

A second later a big man sprang toward her, lifted her tenderly up and carried her within the door of the Cottage on the Hill.

"The poor wee thing—" some soft motherly voice said, and the soothing hands of a woman were attending to the business of caring for her ankle. And all the time Mary Anne was only half conscious of the big man with the burr of Scotch in his voice and the old gold of his hair and the bronze of his cheeks, hovering about with a vast and tender light in his eyes. There was also an old gentleman with silvery locks and the three of them apparently thought Mary Anne was some strange flower dropped from the sky, so lovingly did they care for her.

And suddenly Mary Anne seemed to be a tiny girl again and her own precious mother was saying to her, "Remember, dearie, that anything you want in life will come to you, so long as it is good."

And she opened her heart to that good thing which had come to her—it was in David's eyes and those of his mother and father—in that Cottage on the Hill.

Community Building

Home Owner Leader in Community Life

How the ownership of a home has become the best way known to obtain a full enjoyment of the many comforts and conveniences offered by modern civilization, was discussed recently at a meeting of real estate men at Detroit. Among opinions expressed was the following:

"Both urban and suburban life offers finer attractions than in olden times. Cities are ceaselessly spreading out and absorbing adjacent districts, giving city life and city conveniences to ever-widening areas. The services and sanitary benefits modern communities provide to home owners are vastly more than in former periods. The many devices now incorporated in the construction of homes, such as heat and electric refrigeration, insure greater comforts."

"Yet, even long before the home was much more than a primitive shelter, land had acquired such a value as to bring about the long era of its control by the rich and noble. Long before America instituted its liberal methods of functioning, ownership of land gave the right to vote and was the sign of the freeman."

"Only the home-owner can today feel himself a true part of the progress of his locality because, in all forms of social advancement, community life always has been the leader."

House Not Real Home Without Its Setting

Those who include a bit of the outdoors in their premises come closest to making their homes ideal. Too many builders ignore this feature of the home, erecting great, expensive houses on small lots which afford no possibility of proper treatment.

Every house should have grounds surrounding it, and they should correspond in extent to the size of the house, for the grounds are the setting of the house. Often a new house has a bare, forbidding appearance when the workmen left it complete and perfect in every detail, but a lawn and a few well-chosen and properly placed trees and shrubs change the entire effect and give the place an attractive and inviting aspect.

The setting must be thought of constantly. It must be in mind when choosing the lot, planning the house and in deciding what part of the house will be on a fine lot, and wild bush are valueless. They should be preserved and they add beauty and comfort to the house.

Duties of Civic Bodies

Through our civic bodies and local governments we should assure protection for residential districts from wanton intrusion by means of sane, comprehensive city planning and good zoning ordinances, playgrounds within easy walking distance of children in closely built districts, parks for breathing spaces, safety on the streets, and effective public health measures. Well-drawn and enforced housing laws requiring light, air, privacy, and sanitary facilities can do much to prevent the growth of slums.

High standards of business dealing among those who build and sell houses, and adequate, reasonable financing for home seekers, also help to advance home ownership. The services of public utilities may be extended over a great number of homes by sound policies worked out in friendly co-operation with local officials.—Herbert Hoover.

City and Town "Homes"

He who feels that nature has included him "in her program" must also feel that he is part—insignificant it may be—of the cosmic process. Stability and "rootedness" in a life clothe it with a dignity that it can hardly have without those qualities. The old Aeneas myth is everlastingly true. The dwellers in great cities seem for the most part to be content, and yet many of them must be conscious of missing something, though they may not know what it is, which is perhaps just as well. There are, of course, homes, and real ones, in the cities, even in the big ones. But conditions certainly are not favorable to their creation and maintenance.

Watch for Deterioration

The man who raises an awful "howl" if he thinks he is being "done" out of a little money, often does not realize that necessary repairs on his property may soon cause him really big losses. There is only one way to eliminate these expensive repairs, and that is to keep your property protected through painting before repairs are necessary. Property should be regularly inspected. Paint should be applied to all places that appear worn and not delayed until the appearance of rust or decay when repairs become unavoidable.

Keep Up Property

Keep your property well painted and you will have mighty few repair bills. Paint is far cheaper than new wood or metal replacements. Watch the less obvious vulnerable points, such as roof, eaves and down spouts, porch columns, etc. The trim is usually the first to suffer.—Exchange.

Trade among Friends

No matter what some folks say to the contrary, there certainly is a lot of sentiment in business. Friendship, for instance, makes more satisfactory sales than all the cleverness and argument in the world.

You like to trade at a certain store—not because its counters are arranged in a scientific way, but because the folks who serve you are always friendly and helpful.

Just that very thing—FRIENDLY SERVICE—is the power that draws people together into communities like this, where everybody can enjoy the many benefits of neighborly cooperation.

And FRIENDLY SERVICE is the sentimental reason why you find it very much to your advantage to trade with our advertisers—to buy where you feel at home, where your friends will see that you are well satisfied.

Political Announcements

FOR SHERIFF

The Advertiser is authorized to announce the candidacy of ALBERT SMITH for Sheriff of Fulton county, subject to the action of the Democratic Primary, August 3, 1929.

FOR JAILER

The Advertiser is authorized to announce the candidacy of Henry Collier for the office of Jailer of Fulton county, subject to the action of the Democratic Primary, August 3, 1929.

The Advertiser is authorized to announce the candidacy of JOHN WILMATH, of Hickman, for Jailer of Fulton county, subject to the action of the Democratic primary August 3, 1929.

FROM J. T. WATKINS, SECRETARY FULTON POULTRY ASSOCIATION

Through the courtesy of Mr. Williams, the Poultry Association is to have a column of good live poultry news each week.

The column will be conducted by "Chicken" Watkins, who will try and make it a worth while column.

A great deal of the printed matter will be reprints copied from the best writers of poultry news, but will be culled down until it will be suitable for local poultry raisers.

GOOD TIMES AHEAD

Here's what you want to know about the poultry business for 1929. These are the latest reports on selling conditions, not only for baby chicks but for breeding stock, hatching eggs, and all kinds of poultry.

Conditions listed below, why the poultry business will be exceptionally good this coming year, are not our own conclusions but these reasons are based on government reports, and likewise, on reports from poultry experts, who have been making a careful survey and study of poultry conditions throughout the country.

Everything looks good. All indications point to a larger volume of chicks hatched and sold this season, a much larger poultry crop raised, and with it an increasing sale of feeds, remedies and all kinds of poultry supplies.

Conditions really never looked more promising for the poultry farmer. The coming year ought to be a big money making season for every poultryman. This is not mere guesswork, but everything points that way. Here are the facts:

1. Government reports indicate a scarcity of hens and a short crop of pullets on all farms throughout the country. Chicago Produce News says, "about 30,000,000 less than a year ago."

2. This naturally means fewer eggs laid and higher egg prices. Even now eggs are 25 per cent higher than last year.

3. Reports also indicate bumper crops of corn and oats. Poultry feed prices are declining as the result of these big crops.

4. The serious shortage at the present time of beef cattle, swine and sheep is going to make even a greater demand for poultry meat and eggs.

5. Prices of meat, especially beef, are being forced to new high levels which may exceed the wartime peak.

6. If poultry meat is cheaper than beef, folks are just naturally going to eat more chickens.

7. Thousands and thousands of poultry farmers everywhere are now eager to replenish their flocks so as to increase their egg production.

8. Besides, thousands of new folks will start in poultry raising. Higher egg prices and lower feed prices generally influences thousands to take up poultry keeping.

9. All this should certainly mean a greater demand this spring for chicks and a much larger volume hatched and sold.

10. The poultry business is now sailing along on a sea of opportunity with indications pointing to a much larger poultry crop being raised this season and with it an increasing sale of feeds, remedies, and all kinds of poultry supplies.

I. C. RAILROAD NEWS

Fifty-two farm boys and girls in Illinois Central System territory were the recipients of free trips given by this railroad to make possible their attendance at the recent International Livestock Exposition in Chicago, according to the January issue of the Illinois Central Magazine. The group included 35 boys and 17 girls, all winners in local 4-H club contests. Eleven states were represented by winners, as follows: Alabama, one; Mississippi, twenty; Louisiana, five; Tennessee, three; Kentucky, seven; Illinois, four; Indiana, one; Iowa, seven; Wisconsin, two; South Dakota, one; Minnesota, one. The railroads as a whole gave twelve hundred free trips to boys and girls.

Mardi Gras, the preliminary celebrations of which for 1929 are already in progress at New Orleans, is now numbering the years of its history in the centuries, according to the January issue of the Illinois Central Magazine. It was in 1827—102 years ago—that the first celebration was recorded, and that was 29 years after the founding of New Orleans. The parade was held in 1839.

The postage required to mail a letter would just about cover the average robbery loss on a carload of railway freight, according to a quotation from T. T. Keilher, chief special agent of the Illinois Central System, in the January issue of the Illinois Central Magazine. The average robbery loss is 2.2 cents a car for the more than fifty million cars loaded annually. Railway police the country over made more than 100,000 arrests last year and obtained convictions in 98 per cent of their cases.

Memories of the late General Lee Christmas, soldier of fortune, who made and unmade governments in Central America, are brought up by a 40-year old picture reproduced in the January issue of the Illinois Central Magazine. This photograph, owned by S. P. Bolian, engineer on the New Orleans division, shows the old roundhouse of the Illinois Central System's predecessor railroad, the Louisville, New Orleans and Texas, at Galvez and Poydras Streets, New Orleans. Leaning against one of the old-fashioned locomotives is seen Lee Christmas, then an engineer in the railroad's employ. Also shown in the photograph are Engineer Bolian and Jerry Cronin, now traveling engineer of the New Orleans division.

Twenty years on a night job is the record which has just been attained by J. A. Hardy, night chief clerk in the freight office at Jackson, Miss., according to the January issue of the Illinois Central Magazine. Hardy's eyes have become so accustomed to the dark that he claims he can see just about as well by night as by day. His hobby is hunting raccoons and opossums at night.

Community Building

House Owner Profits by Regular Painting

Too often painting is of a trial and error process. It takes us once to learn how, and experience is, in this case, a costly teacher. Yet there are other equally effective ways of learning. Inform yourself of the facts before you plunge ahead. Incidentally, informing yourself of the facts will not mean delay and prolonged deliberation, but on the contrary, earlier painting than you had probably planned. For if you will investigate appraisal statistics you will find an amazing difference between the relative values of regularly painted and partially neglected houses. Paint prevents weathering of wood and corrosion of metal, and in doing so maintains property values. The economical time to repaint a frame house, under average weather conditions, is every three to five years.

Regular painting alone does not mean the best that can be had in economy. A good job is likewise a requisite. The first requisite for a good job is good paint. And the second is good workmanship.

Inferior paint covers less surface and for this reason alone equals or even exceeds the cost of good paint—that is, if you are considering cost per square foot rather than cost per gallon. Inferior paint will probably require renewal in two years or less, whereas four years would otherwise have been the interval. When it is remembered that the cost of application is usually about three times the cost of the paint itself, the importance of this factor may be thoroughly appreciated. In addition to being of good quality, paint should be used only for the purpose for which it is intended—for exteriors, exterior paint only, and so on.

Home Ownership First Basis of Prosperity

Home ownership as the best road to the prosperity of the individual and the country was the keynote of a conference of representative retail lumber dealers from various sections of the United States, held recently at Chicago.

Organization of a council whose object will be to help home builders build better and more livable homes was the outcome of the gathering. The lumbermen met primarily to discuss many of their merchandising problems, but the home ownership theme was injected into the conference.

"The keynote of the conference," said one speaker, "is the keynote to the real prosperity of the individual. People should own a home before they own an automobile or a radio. 'A man who owns a home is a better citizen and a better influence for the community in which he lives.'"

Good Paint Pays

When painting your house, it pays to go a good job: one which will leave a foundation of sound paint for the next time the work has to be done. It will pay you in dollars and cents when it comes time to paint your house again, for instance. The cost of painting materials after all is small compared to the cost of the painter's time. When that time has to be spent laboriously removing scaled and cracked paint before the repaint job can even be commenced, the expense is high.

Paint authorities have estimated that 82 per cent of the paint used is applied to old surfaces. Therefore, the importance of a good surface for repainting can be seen.

Architectural Expression

Communities built to look like "peas in a pod" have aroused the American Institute of Architects into developing a plan for a union of effort in the arts of designing. C. Herrick Hammond, president of the institute, announced.

The movement would bring about collaboration among architects, sculptors, mural painters, landscape designers and craftsmen in creating a new mode of architectural expression, Mr. Hammond said.

The institute's committee on allied art, headed by J. Monroe Hewlett of New York, will direct the movement.

Reforestation in Parks

Reforestation of tracts in Denver's municipal park system has been undertaken by 1,000 boys and girls, the American Tree association says. Activities under the direction of the forestry committee of the chamber of commerce include the planting of pine trees in the park of the Red Rocks near Morrison. The boys of the State industrial school near Golden set out trees on their campus. Manual Training high school set out groups of trees in Dix park.

Single Family Home Ideal

The family is the unit of society and the single-family home is the ideal setting for that unit. There it gets its best opportunity for development, for light and air and sunshine and the companionship of growing things, all of which are desirable from the family viewpoint. A community built upon homes is solidly built, and will endure.

CITY ORDINANCE

"An ordinance accepting the improvement of the streets and parts of streets designated as Improvement District Number Three provided for by ordinance adopted by the Board of Council of the City of Fulton, Kentucky, on June 29, 1928, entitled "An ordinance providing for the improvement, construction and reconstruction of certain streets and parts of streets, including curbing and guttering, in the city of Fulton, Kentucky," and confirming the estimate of the cost thereof made by Messrs. Black & Veatch, consulting engineers of said city, and apportioning the cost of said improvement to be paid by owners of the abutting property, and assessing and levying a local tax on the parcels of abutting property sufficient to pay same.

WHEREAS, the Mayor of the city of Fulton, Kentucky, has transmitted to the Board of Council of said city the copy of the estimate of the cost of the improvement of the streets and parts of streets designated as Improvement District Number Three in the city of Fulton, Kentucky, done under the ordinance of said city adopted June 29, 1928, which estimate was prepared by Messrs. Black & Veatch, consulting engineers of said city, and delivered by them to the Mayor of said city; and,

WHEREAS, the Street Committee of said Board of Council has made its report to said Board accepting said work or improvement as having been done and the cost thereof estimated in accordance with said ordinance and contract therefor; and,

WHEREAS, all protests against the acceptance of said improvement and the estimated cost thereof have been duly considered and disposed of; and,

WHEREAS, the members of the Board of Council of said city are of the opinion that said work or improvement has been done and the cost thereof estimated in accordance with said ordinance and contract;

THEREFORE, BE IT ORDAINED by the Board of Council of the city of Fulton, Kentucky, as follows:

Section 1. That the work of the improvement of said streets and parts of streets, including curbing and guttering therein, designated as Improvement District Number Three, done under ordinance adopted by the Board of Council of the city of Fulton, Kentucky, on June 29, 1928, entitled "An ordinance providing for the improvement, construction and reconstruction of certain streets and parts of streets, including curbing and guttering, in the city of Fulton, Kentucky," is hereby accepted, and the said estimate made by Messrs. Black & Veatch, consulting engineers of said city, is hereby in all respects approved and confirmed, and is as follows:

Total cost chargeable to abutting property owners, including curbing and guttering \$132,681.95
Total cost to be paid by the city of Fulton, Kentucky 2,043.68

Beaten Paths Today

Ages ago, someone, some place made a statement about mouse traps—better mouse traps—and today in modern business that old axiom still holds true.

The sentence which was uttered is recalled as follows: "If a man can write a better book, preach a better sermon, or make a better mouse trap than his neighbor, though he build his house in the woods, the world will make a beaten path to his door."

Today these beaten paths are being made in every community. Probably it is not due to a sermon, a book or a mouse trap. It is being applied every day to general merchandising.

Advertising in newspapers today has turned many a beaten path into a broad highway. A shoe dealer in a large city, far from the main thoroughfare once called attention to that saying. For many years people have beaten a path to this dealer's store because he proved the truth of this famous axiom. People today find out which are the best mouse traps, books, groceries, wearing apparel and hundreds of other items, by reading newspaper advertisements, and they buy them in preference to others. They know that when a merchant puts advertising back of the things he sells, he is telling the community that the path to his door is a broad highway.

Co-operation Necessary For Success.

Both H. A. McPherson, county farm agent and Miss Myrtle Jackson, home demonstrator, have outlined programs for this year's farm work in Fulton county. They will be assisted by specialists from the University of Kentucky. Miss Inaly, field agent in foods from the university, was in Fulton county last week to confer with Miss Jack-

son and to make plans for a training school which she will conduct in February. There are 7 Homemakers clubs in Fulton county and each club will be represented by two leaders at the school.

Mr. McPherson has asked the continued co-operation of the banks and newspapers in the county, without which, he says, progressive farm work in a county is doomed to failure, and urges, above all things, soil improvement, more diversification, and dairying.

In last week's Advertiser Mr. McPherson briefly reviewed the work contemplated for this year and it will be greatly to the advantage of every loyal citizen throughout the county to give their wholehearted support in his endeavors to carry out the program as outlined.

Pioneer Citizen of County Passes Away.

Jerry Johnson, 86 years of age, Confederate veteran and pioneer citizen of Fulton county died January 9th, at his home in Cayce. Mr. Johnson was born in Fulton county and had lived all of his life within a mile of his birthplace. At the beginning of the war he volunteered in the 7th Tennessee Infantry, and was wounded in the Battle of Shiloh. Up until a few years ago Mr. Johnson was a regular attendant at the Confederate reunions. He had never married and for many years made his home with his brother, Herhall Johnson. His brother and several nieces and nephews survive him.

The funeral was held Friday morning at 10 o'clock, with the Rev. J. W. Lewis conducting the services. Burial in Cayce cemetery.

For a short time we will accept subscriptions for this paper and the Memphis Weekly Commercial Appeal—both papers one year for only \$1.25.

Obion County Court Selects Officials

Obion county Court held a busy session last week in Union City, with a number of committees appointed and other work done. Reports were received from the highway department, county agricultural department and others.

Prof. J. M. DeBow of Kenton was elected superintendent of county schools to succeed Prof. C. F. Fowler.

C. M. Montgomery was elected chairman of the county highway commission to succeed Bob Gray resigned. Other members of the commission chosen were Frank Sellers, T. W. Dickerson, Andrew L. Burrus, Albert Hayes H. D. Smith and Cannon Moore. W. T. Stover was elected county surveyor.

The finance committee for this year is composed of S. A. McDade, J. F. Gregory and W. L. Blackley.

Harvey Reeves of District No. 8 was elected to the county school board to succeed J. C. Thompson who resigned.

A jail committee elected to have supervision of the county jail is composed of J. F. Gregory, Luke Latimer, S. R. Bratton and W. G. Reynolds.

County Agent G. L. Cleland was retained in office as agricultural agent.

The poor house commission is composed of Esquires T. P. Finch, Saunders and Paul Erwin.

The following list of notary public was elected: W. B. Morris, J. Lee Hughes, C. L. Brooks, J. R. Mills and Chester Caldwell.

The remainder of the session was taken up with routine matter.

In ready funds is the magnet that will draw opportunity, not once but many times to the thrifty man's door.

The funds need not be large. There are opportunities of all sizes. But the possession of capital, no matter how limited, implies the presence of other desirable qualities—such as business sense, stability, ambition.

By starting a savings account with us now you will soon have sufficient savings accumulated to enable you to welcome Opportunity when she next knocks. Without money you may not even recognize her.

Many Problems to be Considered at Farm Convention

Wide Variety of Subjects up for Discussion at Meeting at State University

Lexington, Ky., Jan. 16—A wide variety of subjects affecting farm men and women and others interested in agriculture will be discussed at the 17th annual Farm and Home Convention to be held at the University of Kentucky Jan. 29—Feb. 1.

Soil fertility, stock raising, crop production, animal and plant diseases and pests, poultry raising, dairying, marketing, production and price trends, the agricultural outlook, and many other subjects will be discussed by prominent Kentucky farmers and specialists from this and other states.

The convention will open on Tuesday, Jan. 29, and continue through Friday, Feb. 1. Farmers and homemakers will hold separate sessions all four days, with a special program on two days for poultry raisers. All meetings will be in the livestock pavilion on the Experiment Station farm.

Special features of the week will be the selection of 10 master farmers and 5 master farm home makers. There will be a big banquet of all attending the convention on Thursday evening, with a special banquet for the master farmers on Wednesday night and a luncheon for the master homemakers on Friday. The Jersey Holstein cattle associations and other farmers' organizations will meet during the week.

Railroads have granted reduced fares for the convention. County homemakers' associations in many counties have raised funds to send delegates to the homemakers' meetings, and farm men and women in many counties are planning to attend the convention.

Women's Farm and Home Week.

Homemakers will have a program of their own during the annual Farm and Home Convention at Lexington Jan. 29—Feb. 1. Child training, recreation, music and other subjects of interest to women will be considered. Among the speakers will be Dr. Ada Hart Arlitt, professor of child care and training in the University of Cincinnati, Miss Georgene Faulkner, "The Story Lady," of Chicago, and Mrs. Anna Steese Richardson of "The Woman's Home Companion," New York.

A feature of the women's program will be the naming of five master homemakers. Miss Bess M. Rowe of "The Farmer's Wife" magazine, will present medals to the 5 women at a special luncheon given in their honor, Friday.

More than 200 women representing county homemakers' associations over the state will attend the meetings, which will be open to all women. The sessions will be held on the 2nd floor of the livestock pavilion on the Experiment Station farm, beginning at 10 and 1:15 o'clock, when Miss Marie Finney of the Victor Talking machine Co., will lead the singing.

Little Child Called Away.

R. C., small son of Mr. and Mrs. Ed Doran died Friday, Jan. 11, at their home in McConnell, Tenn., aged 18 months. He is survived by his parents, three sisters and four brothers.

The funeral service was held at Walnut Grove church and burial was in the church cemetery.

The parents have the sympathy of many friends in their sorrow.

For a short time we will accept subscriptions for this paper and the Memphis Weekly Commercial Appeal—both papers one year for only \$1.25, per for only \$1.25 a year.

Lesson for January 20

CHRIST THE SAVIOR

LESSON TEXT—Luke 15:3-7; Romans 5:6-10.

GOLDEN TEXT—And thou shalt call His name Jesus: for it is He that shall save His people from their sins.

PRIMARY TOPIC—Jesus Our Savior.

JUNIOR TOPIC—Jesus Our Savior.

INTERMEDIATE AND SENIOR TOPIC—How Jesus Saves Us.

YOUNG PEOPLE AND ADULT TOPIC—Christ, the World's Redeemer.

I. The Savior Predicted (Gen. 3:15; Is. 53:7).

In connection with the fall of man and the pronouncement of judgment upon the woman, man and the serpent, and the announcement of the coming of the seed of the woman and the seed of the serpent, ultimate victory was predicted of the woman's seed. This victory was to be accomplished through the ages, even to the present time. On the cross of Calvary the final stroke was made which crushed the head of the serpent (John 12:31; Heb. 2:14; 1 John 3:8). This announcement concerning the conquering One was the first gleam of the glorious gospel of Christ. A great victory was won, but at an infinite cost. The prediction of the Savior became more specific in Isaiah 53:7. The eternal Son of God was "given" to the world, but He was "born" as a child.

II. The Savior Born (Luke 2:11-30, 32).

That which had been predicted was historically fulfilled in the birth of Jesus Christ at Bethlehem. When Jesus was brought into the temple as a child, the Holy Ghost revealed to Simeon that this was the Messiah. He took the child Jesus in his arms and blessed God, declaring that he had now with his eyes seen God's salvation and that He was to be a light to lighten the Gentiles and was to be the glory of Israel. This appearance of the Savior was heralded to the shepherds by the angels as they ascribed to God the highest glory and announced peace on earth and good will to men.

III. The Savior Described.

1. He seeks the lost (Luke 15:3-7). This seeking of the lost is illustrated by the man leaving the ninety and nine sheep and going after the one which was lost, and his relating to the sinners to find them.

2. He died for the lost (John 3:14-17).

As the brazen serpent was lifted up in the wilderness by Moses, so Jesus Christ was lifted up on the cross. God gave Jesus Christ to die, to make an atonement for the sins of the world. All those who believe on Him receive eternal life and therefore escape condemnation. Christ's coming into the world was not to condemn the world, but to bring to it salvation.

3. He knows His own (John 10:14). As the Good Shepherd who seeks out the lost and gives His life for them, He has a definite knowledge of each one of them. Not only does He know them personally, but they in turn know Him.

4. He keeps His own (John 10:27-29).

Believers are Christ's sheep and because they are His sheep they hear His voice and follow Him. He not only gives unto them eternal life but holds them in His omnipotent hands. They are absolutely secure because no man is able to pluck them out of His hands.

IV. Some Blessings Received Through the Savior.

1. Physical strength (Acts 3:1-11). The healing of the lame man at the beautiful gate of the temple is a fine example of Christ's ability to heal the body. This man had been lame from birth. Because the life of Jesus Christ was brought into touch with him, he was able immediately to arise—strength came into his feet and ankle bones. Not only did he arise, but he walked and leaped, praising God.

2. Justification (Rom. 5:1-11).

The one who receives Jesus Christ is declared righteous. His guilt is removed, and because he is justified, he has peace with God, the assurance that God loves him, and real joy in God Himself.

3. Christ is the Supreme Example to the believer (Phil. 2:5-10).

Because the Savior became incorporated with the race through the incarnation, He is able to impart life to those with whom He is identified. Furthermore, because He thus imparts life, the believer is able to make Him an example. He is able to express the same spirit of devotion and humility in giving himself in service instead of being served.

Spend Time With God

It is the failure to spend a definite, even though it be short, time each day with God that is the secret of all weakness, variability, and shallowness in our spiritual experience and service.

Man Alone Able to Think

Of all God's creatures man alone is able to think immortality. What Darwin called "the grand instinct" has survived for countless aeons the shock of bodily death.—Dr. S. P. Cadman.

We Invite Your Business

Uncle Sam Shields the Federal Reserve Banks by always being ready to loan money to them, on their approved securities.

This puts us in a position to get money on sound securities when we WANT it.

When your money is in our bank you can get it when YOU want it.

The Federal Reserve System has now been tried for many years and found solid.

FOOD LIKE YOU GET AT HOME

This is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve food like you get at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they come here so frequently to eat.

Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.

The next time you want to eat away from home, bring your family here.

BEELERTON HIGH SCHOOL NOTES

On December 22, Coach Weatherspoon carried his fast traveling basket ball team to Bardwell, where they met, according to dope, the fastest five in Western Kentucky, with the exception of Almo. There Ballard county lads from Barlow came brim full of confidence, feeling that they had an easy victory over the Blue and Gold Hickman County lads. Barlow has a fast team, and we know it. Due to a game played the night before, they were probably stale. But during the last two minutes of play, "Cotton Top" Weatherspoon, while standing back of center, sank the hoop for a nice one to tie the score. After extra periods were played the game ended with a victory for the Blue and Gold warriors by a count of 19-16. In the last three minutes Moore sank a free one. Weatherspoon hit the hoops for his second long one while Brown, the galloping center, made a nice crisp. Barlow has a nice team and displayed some good sportsmanship.

Friday night, January 11, the Beelerton fast five defeated the Clinton Quintet by a count of 34-8. The Clinton Hurricanes led the first few minutes of the game but the fast Beelerton five soon overcame this lead and was never threatened again. Brazzell starred for the hurricane by marking four of their points, while Brown starred for the Beelerton fast five by tallying up sixteen markers. This game gave Beelerton the county championship. We appreciate the sportsmanship that was shown by Clinton team and always like to play with a team that does show good sportsmanship. We also want to thank Clinton for letting us use their court to meet other teams on. The line up for both teams are as follows:

Beelerton	Clinton
Kirby	rf
Weatherspoon	lf
Brown	c
Bennett	rg
Fite	lg
	Clapp
	Brazzell
	Harper
	Roberts
	Brown

We are very glad to have back in school those students which have been absent since Christmas holidays with the flu.

The debate was postponed last Thursday evening on account of one of the debaters being ill, but we hope to have the debate in the near future.

The museum which the students of the biology class are arranging has largely increased. They have about twenty-five specimen in the museum at the present.

FLU

Lang Bros., Druggists, Paducah, write: "We had a customer who was all run down, pale and emaciated, had a very bad cough. Some physicians pronounced his case consumption. One of our doctors prescribed Mendenhall's Chill and Fever Tonic for him and after taking several bottles he was fully restored to health. He had a cough and chronic malaria." Remember we make chill tonic, black label, free from arsenic, which should be taken in place of quinine for malaria, chills and fever, grippe or "flu" also chill tonic, red label, containing 20 minims of Fowler's Solution of Arsenic to each fluid ounce. Arsenic is indicated in chronic malaria, anaemia, inactive liver and spleen, functional nervous disorders and impoverished blood.

To A MOST IMPORTANT GROUP OF MOTOR CAR BUYERS

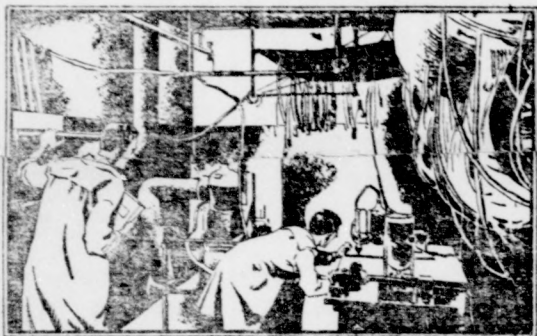

Certain American people are getting on in the world. Many of them are just starting. But they're headed up the ladder. Their ideas of luxury and beauty are expanding. They want finer homes, finer furniture, finer automobiles.

During the past three years, hundreds of thousands of these progressive Americans have been buying the Pontiac Six. Some of them have bought it as the first car they ever owned. But to most of them, Pontiac has represented the first big step up from the lowest priced field.

For this progressive group, Oakland has now created a brand new Pontiac Six. It represents an even greater advancement over everything else in its field today than the original Pontiac represented in 1926. It will take its buyers farther than ever up the ladder of motor car quality in one step. Watch for the

5000 people whose sole job is
bettering your service

THE very nature of the telephone business necessitates a single inter-connected system. The Bell System accepts its responsibility for a nation-wide telephone service as a public trust.

It is the policy of the System to use all income, beyond that necessary to pay regular dividends and maintain a surplus for financial stability, to improve and extend the service. Because of the nature of the business, speculative profits have no place in it.

The Bell System maintains in its research, engineering and business staffs and in the Bell Laboratories 5000 workers—in a total of 350,000 employees—whose sole occupation is to improve the telephone art and to make these improvements instantly available throughout the nation. These workers are a guaranty of continued progress in furnishing the public a constantly improving telephone service at the lowest possible cost.

Respectfully submitted,

Thos. H. Chapman,

City Clerk & Auditor.

The council approved the renewal of the several officials as filed.

The Board of Council authorized the borrowing of \$2,000.00 from the City National Bank.

The Street Chairman filed his report of the street work, which was duly approved and accepted by the Council.

The reading of the Street assessment-ordinance was had and duly passed and approved by the Council.

Bids were opened for the proposed concrete walks, but deferred until the next meeting until same can be duly tabulated and prepared by the City Engineer.

Upon proper motion, adjournment was taken until Friday evening, January 18, 1929.

THOS. H. CHAPMAN,

City Clerk & Auditor.

Devro Baucom Found

Dead In Paducah Hotel

(Paducah News-Democrat)

G.D. Baucom, 54, of Bardwell, was found dead in his room in the Oxford Hotel late Wednesday afternoon.

The wife of Mr. Baucom called Dr. J.T. Marshall Wednesday afternoon to attend her husband, but Baucom died before the physician reached him. The cause of death was not determined by Dr. Marshall.

The body was removed to the Shelby Undertaking Co., where an inquest will be held by Coroner R. L. Nelson, after which the body will be sent to Bardwell.

Mr. Baucom was a son-in-law of the late J. W. Turk, of Bardwell.

DO YOUR EYES BOTHER YOU?

Dr. W. T. Dallas, the D. C. Eye Specialist, of Dyersburg, Tenn., will for the convenience of those in need of eye service and properly fitted glasses, make house calls by appointment only.

If in need of glasses just mail a post card to Dr. W. T. Dallas, Dyersburg, Tenn., stating that you are in need of eye glasses and would like for him to call at your home.

Dr. Dallas' prices are reasonable, and you are not under any obligations whatever to buy when he calls.

Eyes examined free with scientific electrical instruments. Satisfaction guaranteed.

Arranging Nests for Easy Cleaning Is Best Plan

Arrange nests for the hens and the new pullets as soon as possible. It is best they become accustomed to this equipment so that they are not afraid of it later on. If possible, build the nests in a long row, using a 12-inch board for the back, and square sections of same for partitions. Fasten together with hooks like screen door hooks, so the whole structure will come apart for thorough cleaning. This is infinitely better than nailing up a few old boxes, and expecting the hens to use them.

Hens prefer dark nests, and if given choice between a dark nest and a light nest, will almost always avoid the light. It is convenient, also, if you can arrange the nests along the wall, so that the eggs can be taken up without going into the scratching area. This is convenient, and avoids disturbing the chickens.

Attend to Ventilation

Those who expect any great number of winter eggs from old hens are doomed to disappointment unless they have especially favorable conditions such as electric lights. Old hens will molt. The poor layers start shedding in June while the best hens may not do so until late in the fall. And once in a while there is a hen that does not molt until December.

One must depend upon the pullet flock for satisfactory early winter egg production.

Blood Spots in Eggs

Blood spots in eggs are due to various causes, and often are not serious so far as the flock is concerned. Such spots are found quite commonly in eggs from commercial flocks, and unless in unusual numbers call for no change in management. If they do appear in larger numbers, examination of the ration to find whether there is not something wrong with it is recommended. The cause is sometimes feeding condimental foods such as pepper.
