Points Making Profitable Hens

There are a few hens in my flock that
are not the most productive but
are the most profitable because
they are in the right family.

The reason for this is that
they are fed the best feed.,

which provides the best growth
and the best body condtion for
laying.

In this way, the hens are
profitable because they

are not only productive,

but also profitable.

Nowadays, we would look upon
the town lamp lighter and the flickering
street lamp as picturesque objects . . .
Our streets are efficiently lighted with
electricity. There is no record that the
lamp lighter considered himself or his job picturesque—
especially on blustery winter evenings.

Not did our grandparents see anything
picturesque in the poorly lighted streets
of their childhood and youthful days.

For the well lighted streets of our cities and
towns we can thank the inventive

genius of Thomas Edison and others and the
expertise of electric power companies which
have made immediate use of every stage in
the development of electrical science.

Ville Meeting

Chevrolet Motor Company
has established its 1929 pro-

duction quota of $125,000,000

on its major plants, according to J. E. Earle, who has

just returned from Detroit, where he was in conference

with factories and sales managers.

John Earle was enthusiastic in his comments on the

meeting which drew into Louisville 100

dealers from Kentucky and

other states. The dealers

visited the Keeneland Race

Track in the afternoon, when they

witnessed the most

ingenious methods of

sponsoring events by any

company in the industry.

Following the banquet on Sunday night, the

dealers paid a visit to the Louisville

Theater of Employment.

At the afternoon meeting, Mr.

Earle, who was heard from

the floor, said that Detroit, among the most

insatiable centers for the production of luxury

automobiles, is completely

out of the world's largest

production of 1,200,000 auto-

mobiles.

FOOD LIKE YOU GET AT HOME
This is truly a home-like restaurant because it has endeavors to break down the prejudice based on the theory that restaurants could not serve food like you get at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they come here so frequently to eat.

Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.

The next time you want to eat out from home, bring your family here.
