What You Hear

Over the Radio

PARSON TELLS OF LETTERS
RECEIVED DURING YEAR

OF 1928

The following address was given at the annual banquet of the Fulton Advertising Club, Thursday, December 12th, at 7:30 P.M.

The Rev. J. U. Wade, Education Committee Chairman, invited the Rev. J. M. Wade, President, to introduce the speaker.

The Rev. J. M. Wade, President, introduced the Rev. J. U. Wade, Education Committee Chairman, who said:

"I am honored to introduce the Rev. J. U. Wade, who will speak on "What You Hear Over the Radio.""

The Rev. J. U. Wade, Education Committee Chairman, said:

"Thank you, Mr. President. I am glad to have this opportunity to speak on a subject which is of great interest to all of us.

"Today, more than ever before, the radio is playing an important role in our lives. It is a medium that is reaching millions of people around the world, and it is shaping the way we think and act.

"But what you hear over the radio is not always what you might expect. There are many problems associated with radio, including the spread of misinformation, the influence of the media on our society, and the impact of technology on our culture.

"In this speech, I will discuss some of the challenges faced by radio today, and I will offer some solutions for how we can use this medium for the betterment of society.

"First, let me say that radio is a powerful tool. It has the ability to reach people in remote areas, and it can provide education and entertainment to those who are otherwise isolated.

"However, this power also brings with it responsibility. We must be mindful of the content that we broadcast, and we must ensure that it is accurate and unbiased.

"Secondly, I believe that radio should be more inclusive. Too often, we hear the same voices and perspectives over and over again. We must work to give a voice to those who are often shouted down or ignored.

"Finally, I believe that we must be more thoughtful in our use of technology. The internet and social media have changed the way we communicate, but they have also created new challenges.

"In conclusion, radio is a powerful tool that can be used for good or for ill. We must be mindful of the content we broadcast, and we must work to create a more inclusive, thoughtful, and responsible medium.

"Thank you."

FOOD LIKE YOU GET AT HOME

This is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve food like you get at home.

Many patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they come here so frequently to eat.

Years of entering to the appetites of particular people make it possible for us to serve appealing appetizers.

The next time you want to eat away from home, bring your family here.

Crisp, Brown Toast Puts a Keen Edge on the Breakfast Appetite!

(A Hint to Housewives)

Send your husband off to his work with a good breakfast tucked somewhere under his coat and he'll not only tackle his job with enthusiasm--he'll tell the world you're the most wonderful little woman in the universe.

Just before leaving the house, write down the breakfast he'll need--complete down to the plums. Crisp, golden brown toast, made in an electric toaster or the oven, will make him feel he's head fast awaiting. And when you've set an appearing breakfast before him, your husband will be pleased with the day.

One thing about it, the modern habit of the photographer is not of much use when a man is running or skiting.

American women are the best dressed, they are the foreign export. Just what does he mean, dressed?

The next place to change your mind is in a revolving door.

The old-fashioned girl who used to keep between a straw weather and another bed and break the ice in the wash pan the next morning, never had to feel about what she was to keep her face fresh.

Oh, for the days of the country friends, who used to come to town and bring the editor some cups of coffee and a layer of newsberries!

A lack here is one in which the people know that a report was a closed and not a final shot.

When a dark shaded call, an open, is flatterer, but when a back subtenant call is a misfortune.

Correct this sentence: "Who are the people you are getting along with?"

At any rate it is a bargain home if the radio dials are stained with jelly.

It is so hard for some men to get a load from one and the other at a single, that they don't think it worth while after they marry.

Words that are never spoken, "Son was used to his mother and the other sister.

The next thing about the woman who knocked for home town, is that he refuses to hear.

The Value of Transportation

Producers are able to get more for the things they sell and consumers are able to pay less for the things they buy as a result of the service railroads perform.

Take producers first. The commercial value of any product depends on transportation. Coal is of comparatively little value to the miner unless it can be transported from the mine to the customer. Cotton and livestock have a limited value, unless they can be transported from the producer to the consumer. In fact, transportation is the most important factor in selling them.

Producers are able to get more for the things they buy as a result of the service railroad perform.
