The following good job is told by Mr. T. J. and Ed Howard.

Last Friday we had a very interesting time, and our social life, in looking at their house. Mr. Howard opened up a discussion of what he had learned in the course of his education. In the process, he learned that he had a very good wife, and that she knew a lot. This was a great surprise to him, and he was very grateful for her knowledge. After he had received and come to his senses, he told us his story, and how he had been educated, and how he had become a successful man. We were all very impressed with his story, and we knew that he was a very intelligent man. He then told us about his wife, and how she had helped him to learn a lot, and how she had been a great help to him. We were all very impressed with his story, and we knew that he was a very intelligent man. He then told us about his wife, and how she had helped him to learn a lot, and how she had been a great help to him. We were all very impressed with his story, and we knew that he was a very intelligent man.
