**FULTON ADVERTISER**

**NEW FACTORY FOR FULTON**

The Owen Manufacturing Company is the present industrial giant of the county, because it employs many people. They make a great many things, including
drums for farmers who
can, and also make corn stacks.

The base of the factory is the
business of manufacturing corn
stacks, which have been made
by hand for many years, but
they have recently added a new
machine to automate the process.

In the past, the factory had
ever made drums before, but
now they are able to produce
them efficiently.

The owners of the factory
take great pride in their work
and are committed to providing
-quality products for their clients.

**Politics Warming Up All Around**

Preliminary meetings for the
Democratic primary are being
held in various locations around
the county.

**Announcement**

TO THE DEMOCRATIC VOTERS:

As the primary election approaches, I urge
all Democrats to rally around the
nominee who will represent us in the
case, before the selection of our candidates in the race.

Vernon Owen, who has
served five months in the service
of the United States, has been
appointed as assistant to the
Democratic candidate for the
doctrine of the party.

I feel that I do not need an
introduction to a majority of the
voters of Fulton County as
I was born in this county in
1865, more than twenty
years ago.

I have attended the high
school and college in Fulton,
and in 1880, I entered the
school of law at the University of Kentucky.

I have served on various
boards, such as the Board of
Education, and I am a
member of the Democratic
Party.

I believe that the
Democratic Party is the only
party that can effectively
represent the interests of the
people of Fulton County.

I urge all Democrats to vote
for me, as I will work tirelessly
for the betterment of our
community.

**Loyd Grimes**

Loyd Grimes is the current
mayor of Fulton, Kentucky.

He was born in 1857 and
has lived in Fulton his whole
life. He has served on various
boards, such as the Board of
Education, and has been a
member of the Democratic
Party.

I believe that the
Democratic Party is the only
party that can effectively
represent the interests of the
people of Fulton County.

I urge all Democrats to vote
for me, as I will work tirelessly
for the betterment of our
community.

**What We Hear Over The Raido**

**PARSON TELLS OF LETTERS RECEIVED DURING YEAR**

The following address was given by the parson from KPIIC last evening, Friday, This is in connection with the presentation of Station KPBC. The stock was partly water-damaged

"Why we make a point of religious in our homes..." Where the family is in harmony and the children are happy, there is happiness. Where there is division and discord, there is unhappiness. Everything else can be made right by talking it over with your family. It will be a great help to the hildren to know that at home, the school of harmonious living is enrolled. Greatly inspired by the examples of the parents, they will carry home the lessons to be taught in church. Where there is division, there will be a lot of division. Remember, happiness is a matter of cooperation...

"Every home needs almost break the little woman..." You have to care for the sick, the poor, and the hungry. You have to care for the children. You have to share the cares and duties that are necessary. Every good home is a building..."

**High School Notes**

A debate on the Latin-American question was held in the high school. The debate was to decide. Those on the affirmative side were Mr. and Mrs. Thomas W. Smith, with Mrs. Cantrell at the piano. Those on the negative side were Mr. and Mrs. Thomas W. Smith, with Mrs. Cantrell at the piano.

"Catherine Moore..." Catherine Moore and "Mr. Warren's Love" were sung by the choir. Mrs. Cantrell at the piano.

**FIRE AT HUMBLESTON HOME**

"The home of Mr. and Mrs. fluffy..." The building was a fire on Lake Street. The building was partly water-damaged. The fire department was called and the fire was soon extinguished. The building was a fire in the home of Mr. and Mrs. fluffy..."

**Laying Ghosts**

"There are some who believe that the..." Some are beautiful enameled cabinets. Others are beautifully decorated with knobs and tan with nickel trimming...

All of them have wonderful ovens for baking.

**Graham Furniture Co.**

Fulton's Largest Furniture Store.

**Charlotte Oak Ranges**

**HICKMAN NEWS**

Hickman, Ky., Feb. 10, 1911.

"When his family..." The family of Mr. and Mrs. fluffy was shocked when the news of the fire on Lake Street made its way to them. The family was devastated when the news reached them. The family was left with nothing but memories of the past...

"Mr. and Mrs. fluffy..." The building was a fire on Lake Street. The building was partly water-damaged. The fire department was called and the fire was soon extinguished. The building was a fire in the home of Mr. and Mrs. fluffy..."
LAND GRANTS

The expenditure of public funds to build roads and canals and the assistance given to transportation in comparison to the land grants that were made by the government to aid the construction of some pioneer railroads. The fact is that such expenditures are the greatest importance in several important particulars.

The grant of land to Illinois to be a special Illinois Central Railroad. It was the fact of the federal land grants for railroads.

There is a question of the substantial help which the Illinois Central Railroad derived from this grant. Without such help the road would not have been built at the time it was built, in spite of the settlement of interior Illinois. Yet the government gave away nothing of value, there being no land sold until the railroad provided a reliable means of transportation.

On the other hand, the government received something of great value. The building of the Illinois Central Railroad enabled the government to sell at advanced prices the land it had purchased. Moreover, this property was permanently erected, the Illinois Central adopted itself forever to carry on business through the United States and the federal government collected and continuously received the full price of the entire land grant. Moreover, this property was permanently erected, the Illinois Central adopted itself forever to carry on business through the United States and the federal government collected and continuously received the full price of the entire land grant.

Government assistance to inland waterways is comparable to the Illinois Central; land grants to railroads is in the direction of drainage of improvements on adjacent worthless lands, but agreements to make all improvements themselves in the public lands and handle government expenditures.

Construction estimates and suggestions are invited.

L. A. DOWNES, President, Illinois Central System.

CHICAGO, March 1, 1929.

DAIRY

SUGAR PASTURE IS NOT HARMFUL.

North Carolina finds milk is richer in Rochester.

It is not sugar that is harmful to the dairy cow, but the type of pasture on which it grazes. The dairymen of North Carolina have found that their cows produce more milk, with better quality, when they are kept on pastures containing sugar grass.

Even though the cow may be satisfied and even though the pasture is well supplied with the usual herbs of a temperate climate, the milk produced is poor. The dairymen of North Carolina have found that their cows produce more milk, with better quality, when they are kept on pastures containing sugar grass.

A Choice Church Supper

By J. T. Watkins

Ten of the Best Reasons for Starting Chicks Early

Here are ten of the best reasons selected by the Editor from nearly three given by the leading figures in the Poultry World.

1. Our early-hatched pullets will produce about 16,000 eggs the first year at a value of $0.80 each. The late-hatched pullets will produce about 13,000 eggs one year at a value of $0.85 each. By M. A. Hull, U. S. Poultryman.

2. To prevent diphtheria and whooping cough, the latter part of April is the best time to purchase brooder equipment by the success of the late-hatched pullets in the hogs, and feed the second lot into the brooders by the natural breeding season.

3. In February and March chicks are the last to be exposed to cold weather. In March, the temperature is lower. By J. W. Parks, Standard-Production breeder.

4. February and March chicks are the last to be exposed to cold weather. In March, the temperature is lower. By J. W. Parks, Standard-Production breeder.

5. February and March chicks are the last to be exposed to cold weather. In March, the temperature is lower. By J. W. Parks, Standard-Production breeder.

6. February and March chicks are the last to be exposed to cold weather. In March, the temperature is lower. By J. W. Parks, Standard-Production breeder.

7. February and March chicks are the last to be exposed to cold weather. In March, the temperature is lower. By J. W. Parks, Standard-Production breeder.

8. February and March chicks are the last to be exposed to cold weather. In March, the temperature is lower. By J. W. Parks, Standard-Production breeder.

9. February and March chicks are the last to be exposed to cold weather. In March, the temperature is lower. By J. W. Parks, Standard-Production breeder.

10. February and March chicks are the last to be exposed to cold weather. In March, the temperature is lower. By J. W. Parks, Standard-Production breeder.

THIRTY OR MORE KILLED IN TORONTO MADAY

During the same storm that visited Fulton and vicinity. More than twenty third order cars, in endeavor to avoid its backs and threats of fire, were forced to leave the business section of the city, other sections of the country suffering death and destruction from tornadoes and thunderstorm. Press dispatches sent out Tuesday said that 11 persons were killed and approximately 30 more injured in buildings that flipped down into Mississippi at Boblo and Texas Monday after- noon during one of the most severe rainstorms in recent years.

With its business section a mass of wreckage and ruins which was caused by the heavy rains. Danums, Min., 15 miles south of Mendota, was the hardest hit, with 15 dead and 80 persons injured. The tornado struck there at 2:45, 20 or 25 seconds later no one offered was abandoned in consequence of breakers lights, and the destruction was total. The town was guarded by Com revers, L. Miss., 15 miles north of Mendota, under the supervision of Geo. C. Hall, 2nd. in- cident was hasty. Mrs. C. L. Nicholson and 1- 15 year old daughter were killed at Van, Ark., almost the west Danums, about 5 o'clock when the heavy winds accompanying the rainstorm demolished their homes. Mr. Nicholson was seriously injured.

All of the injured at Danums were removed to hospitals.

In Texas a wind, rain and hail storm lacked the northeast part of the state, leaving in its wake four dead, six severely injured and property estimated at more than $250,000.

Mr. and Mrs. W. N. Jones were killed at Cooper, 60 miles northeast of Dallas, in a tornado that demolished their home and two regiments. Alfred Gibson and his wife, but their lives at Grand Prairie, 15 miles west of Dallas.

At Cooper, Troy Young, 21, a tourist, and Mrs. William Donovan, 60 were seriously injured. Three others, Mr. and Mrs. John Trigg and their daughter, Lena, 15, and two other persons, John Trigg and her daughter may die. They were at a Dallas hospital.

Mr. and Mrs. O. H. League, 32, were taken for treatment.

SPARROW WAR VETERANS INSTALL OFFICERS

Kern-Texas Camp No. 20, U. S. Army Veterans, held its installation meeting at the Court House Monday night. Peggy "22, for the pur- pose of installing the new officers. Due to the wet, stormy weather there was not a very large at- tendance, but a good percent of fine officers, among whom were the Commandant Junior Vice, 1st department commander. He was in attendance and present with a large contingent of fine officers. Female Commander No. 2, Hol- ly Green, as installing inst. for the Auxiliary.

The following officers were installed in the camp, to take effect at once:

J. H. Wood, Adjutant; R. H. Cooper, Quartermaster; M. V. Harris, Treasurer; Geo. W. Johnson, Chap- ter No. 2, Holley Green, as installing inst. for the Auxiliary.

Dollar an Hour For Farmers

Who Make Livestock

Weigh Ton.

Kentucky Live Stock Owners who shipped their flocks for the spring market in 1929, or in the current season before Sept. 25 last, are entitled to an hour for their farm work or livestock work, according to figures gathered from the offices of the University of Kentucky College of Agriculture.

Those who limited the pastoral in the spring remain so far, have caught the market a bit late, beginning Sept. 25 when prices began $1 per pound. One of the fundamental problems in ten-pound production is that they are caught through the early market period.

Figures analyzed on the basis of the market show that the producers of 30 lots of livestock and produce of the same order of magnitude will have a 65% to 70% return on their investment. This is the basis for the argument that the livestock owner should not be fleeced in his order of magnitude.

The best returns come when the owners of livestock began their storage market.

A man planning to produce a ten-pound worth of grain, livestock worth $2.25 per pound, etc., or a hogs, chickens, etc., should look to the prospects of 30, 40, or 50 pounds per pound, if he expects to make a good return on his investment.

The farmers owning livestock in this order of magnitude have a great advantage over all others in their order of magnitude. The farmer who has a ten-pound order of magnitude should be able to make a good return on his investment.

The results of the market show that the farmer who has a ten-pound order of magnitude should be able to make a good return on his investment.

The results of the market show that the farmer who has a ten-pound order of magnitude should be able to make a good return on his investment.

The results of the market show that the farmer who has a ten-pound order of magnitude should be able to make a good return on his investment.

The results of the market show that the farmer who has a ten-pound order of magnitude should be able to make a good return on his investment.
