PHILIP GARDNER FATALLY INJURED

Son of Wells Hall Matron and
Murray Graduate Dies
August 2

Funeral services were held in Princeton Thursday, August 4, for Philip Gardner, 27-year-old Murray graduate, who was fatally injured in a truck crash near Shiloh, Tenn., August 2.

The son of Mrs. D. H. Gardner, matron of Wells Hall, Gardner, who had resigned a position with the Kentucky State Highway Department on July 4 to accept a place with the U. S. Engineers, died in the Government Hospital at Pickwick Dam, Tenn. The accident occurred when a truck on which he was riding struck a tree.

Thirteen other engineers riding in the truck suffered various injuries.

Surviving are his mother; a sister, Miss Sarah Gardner, of Bowling Green; an aunt, Mrs. Lida Wilkinson, and two uncles, Felix Wilkinson and Harry Wilkinson, all of Cadiz.

Training School to Graduate Seniors Thursday, Aug. 18

Five Training School seniors will be graduated next Thursday, August 18. A list of the graduates and their varied activities follows:

George Boaz—attended Mayfield high school in '34 and was vice-president of the Dramatics Club and president of his class. He went to Lowes high school from 1934 to '37, was vice-president of the FFA and president of his class. He has attended the Training School since '37, and took part in the productions, "Mama's Baby Boy" and "Campus Quarantine."

Edith Armstrong—attended Coldwater junior high school '35-'36 and went to Lynn Grove and Kirksey high schools. She was a member of the Home Ec Club '36, the Beta Club '36, and Glee Club '36 at the Training School. She plans to enter college at Murray State this fall.

Martha Lou Hays—was president of the sophomore class of the Training School in 1936, and of the junior class in '37. She played in the Training School orchestra from '32-'33; the college band during the summers of '37 and '38; the college orchestra in '37 and '38. She was secretary of the Dramatic Club '37, a member of the Glee Club '35-'38. She sang in the sextet in '37, and in the All-State Chorus in '38.

Anne Howell Richmond—attended Frankfort high school until 1936. She was a member of the G.A.A. Club '36, Latin Club '35, Art Club '36, Girl Reserve '35-'36. She sang in the Glee Club from '35-'38, and played in three Girl Reserve plays in '35. She won a scholarship in '38.

Lottie Venable has been an honor student throughout high school. She played in the orchestra '37-'38; the college band (summer '38); was a member of the Dramatics Club '37; 4-H Club '35-'38; Beta Club '38; International Relations Club '38. In the algebra contests, she ranked in the upper 10 per cent in the state in '35-'36.

Wrather Reports Gain in Study

"We have a great increase in our correspondence students this summer," Prof. M. O. Wrather of the extension department stated this week. "More work has been done by correspondence this summer than previously," he said.

Prof. E. H. Smith, head of the extension department, is taking a two-weeks vacation which started Monday, August 8. Mr. Smith is visiting friends and relatives in Detroit, Mich.

Mr. Wrather went to Hopkinsville last week and called on City School Superintendent Hoffman, Christian County Superintendent Hooks, and Dr. Gains, president of Bethel Women's College. While in Hopkinsville, Mr. Wrather contacted many prospective students and alumni.

TO AID FRESHMEN

Girls who were elected to be "big sisters" will be given a list of freshman girls for next year, and will write to these new students this summer, trying to be of help to the new freshman next fall, according to Miss Edith Barnes Parrish, president of the girls' organization, which sponsors the big sister movement.

53 TO RECEIVE DEGREES AUG. 18

Total for 15 Years
Will Reach
1167

Fifty-three seniors will be granted degrees from Murray State College at the final commencement exercises of 1938, to be held Thursday morning, August 18, at 10 a. m., in the college auditorium. To date, there have been 1114 graduates of Murray College, and the August class will increase that number to 1167.

Following is the list of seniors who will receive degrees with the August class:

Miss Henrietta Mungle of Wickliffe took an elementary education course to receive the B.S. degree in Murray's graduating class in August. She is a teacher in the school at Wickliffe, Ky.

Miss Martha Roberts of Clinton will be awarded her B.S. degree, after taking the elementary education curriculum. Miss Roberts was a member of the Portfolio Art Club.

She has taught in the Hickman County schools for the past two years, and has been elected to teach in the elementary grades at Central School in Clinton next year.

Miss Zelma Presson of Camden, Tenn., is now teaching in Benton County, Tenn., and is listed as one of the 53 graduates who will be granted degrees on August 18. She majored in both social science and mathematics to receive the B.S. degree.

Before entering Murray State, Miss Presson attended Union University and Bethel at McKenzie, Tenn.

Miss Goldye Rosenthal of Paducah took the elementary education course, and will be awarded her B.S. degree in the August class. She is a teacher in Paducah.

Miss Anna Bess Cannon of Clinton took the required Smith-Hughes work to be granted her B. S. degree in home economics in the August class at Murray College. She was president of the Household Arts Club in '38, and was a member of the Chemistry Club.

She says of Murray State: "So nice a place—I really hate to leave."

She has been elected to teach home economics in Bandana, Ky., next year.

Paul Edward Fowler of Aroma Park, Ill., will receive his B. S. degree in August, after majoring in health education and social science at Murray. Fowler, better known as "Sad", has been one of the outstanding athletes at Murray State. He was a member of the 1937 SIAA championship football team and a member of the 1936 SIAA championship basketball team. He played varsity football '35-'36, '37-'38, and basketball in '35-'36, '37-'38. Last year he was a member of the Physical Education Club and president of the varsity "M" Club.

Fowler said that "Murray is a good place to prepare yourself for life's future work." He has been elected to teach and coach at Sloan, Iowa, and will begin his work there in September.

William H. Nichols of Crofton, Ky., will be awarded his bachelor of science degree, with majors in biology and history. At Murray, "Winky" has taken part in varied activities, including: Editor-in-Chief of the Shield, college annual of 1938; president of Pre-Med Club '37-'38; director of junior minstrel '37; junior editor of Shield of 1937; chairman of senior class of summer of '38; member of Chemistry and Physics Clubs.

When questioned about his future work, Winky replied, "I am going in search of 'Utopia.' He said 'to me Murray State is truly the 49th state, the greatest of them all.'"

Louis Ethridge McKeel, the basketballer from Rector, Ark., will be awarded his bachelor of science degree. He has majors in commerce and health education.

McKeel said that "Murray State College is the home of southern hospitality. I will never forget the friends I have made in and around Murray is just four years."

He was captain of the freshman basketball team of '34-'35. During his varsity career, he was listed on

the following teams: second team SIAA, '35-'36; All-SIAA, '36-'37; '37-'38; All-KIAC, '36-'37; '37-'38. McKeel was a member of the M Club and the Physical Education Club, co-captain of basketball team '38.

Miss Josephine Sullivan came from Hickman, Ky., to work toward her B.S. degree, with a major in commerce, and minors in French and English. At Murray, her activities included: Pep Club, English Club, Les Camarades, '37-'38; Beta Pi Theta French fraternity, secretary-treasurer of Les Camarades '38.

Miss Sullivan stated that Murray State is a fine college in which one may obtain the fuller and more abundant life.

Miss Katherine Williamson of Fulton, Ky., will be graduated in August, after obtaining her bachelor of science degree in elementary education. She has been reelected to teach in the Fulton city school system.

Miss Williamson stated to a reporter her opinion of this college: "Murray College is one of our few

Exercises To be Held in Auditorium at 10 A. M.

cultural centers in western Kentucky and its influence is reaching over a vast radius. We are proud of what it symbolizes and I am happy to have my degree from Murray."

Miss Elizabeth Foster of Lacenter will be granted her bachelor of science degree, after doing the required Smith-Hughes work in home economics. Miss Foster says "Murray is a great place and I am glad I came here to school."

She was a member of the Household Arts Club, Pep Club, and Big Sister organization. She has been elected to teach home economics in Kuttawa High School next fall.

Miss Bernice Boughter of Hopkinsville will receive her bachelor of science degree in elementary education, in August. She has been elected as principal of the elementary school.

CO-EDS ORGANIZE MUSIC CLUB ON MURRAY CAMPUS

Pi Gamma is Provisional
Chapter of Sigma Alpha
Iota

MISS FRANKLIN NAMED PRESIDENT OF GROUP

Pi Gamma, the girls' music club on the Murray College campus, is now a provisional chapter of the Sigma Alpha Iota professional music fraternity.

Officers of the club are: president, Josephine Franklin, senior from Dawson Springs; vice-president, Edith Barnes Parrish, senior from Martin, Tenn.; secretary, Mary Elizabeth Roberts, sophomore from Murray; treasurer, Margaret Marshall, senior from Kuttawa.

The club, which was organized in June, will be a pledge group to the fraternity until December at which time there will be a formal initiation under the direction of the national officers.

Sigma Alpha Iota upholds the highest of musical standards and only girls of superior scholastic and musical ability will be members of the local chapter, according to the members.

Overby Outlines Debate Prospects at Murray School

"Prospects for debating at the Training School next year are pretty good," says James Overby, former Training School debater, who is now coach of the Training School team.

Last fall the Training School needed a debate coach. James Overby then a junior in college and a member of the varsity squad, was recommended for this job.

"I had to build from the ground up," James stated. "I wanted those boys and girls who were interested in debating to work on the high school question of the year. We worked out a case, and then I invited Bob Miller and Wilson Gantt to work out with us. Miller and Gantt had no case; hence they depended upon refutation and wise cracks. It had the desired effect. The Training School debaters were completely stunned. After a nice 'licking,' they became serious about the matter. They wanted to win. The rest was easier. All that remained for me to do was to direct them."

And direct them he did! The Murray Training School debate team won its first four encounters last year, losing the fifth to Tilghman. The Training School team won the rest of its regular season debates. These included Murray High, Benton, Clinton, Lone Oak, Almo, Heath, Hickman, Lowes, and Tilghman. The Training School team qualified for the finals in the Mid-South high school tournament, defeating Memphis Tech and Massac. It is interesting to note that Massac was champion of the Mid-South tournament in 1937. Murray was defeated in the semi-finals of the district tournament.

Not a bad record for a student who in addition to coaching, debated on the college varsity squad, do you think?

Prof. L. R. Putnam Is Music Judge

Prof. Leslie R. Putnam, of the Murray music faculty, acted as a judge in a music contest held in Paris, Tenn., July 29.

Students of John Travis, Murray graduate who has been teaching in Paris this summer, appeared in a joint recital and band concert at the city auditorium.

Murray students aiding in the program were Bonnie Walker, who will take over the Paris band September 1, Letcher Melton, and Tom Flake, a former member of the band.

Sheltons Visit on Murray Campus

Mr. and Mrs. Robert ("Nub") Shelton and little daughter, Virginia Lee, visited on the Murray campus during the past week. Mr. Shelton is a graduate of Murray State, and is now physical education director in one of the large high schools in Oklahoma City, Okla.

His wife, the former Sue Wyman, also attended Murray College. She received her BS degree from Peabody College.

Commerce is Added to Training School Curriculum

Commerce will appear in the high school curriculum of the Murray Training School for the first time this fall, it was stated today by Prof. W. J. Caplinger, supervisor and superintendent of this school.

Typing I and Shorthand I will be the only subjects listed for the first year while the next year Typing II, Shorthand II and Bookkeeping I will be added. There will be 16 typewriters at first and more added the next year if necessary.

By adding this course, many students in college will be able to do their practice teaching in the commercial field, which has not been possible up to now, except in business arithmetic and commercial geography in the elementary grades.

"Those students who will be juniors this fall will be able to get the three main commercial courses during their last two years in high school," stated Mr. Caplinger.

It is believed that many students will enroll for these new courses and soon this new department should be as large and in as great demand as the other courses offered in high school.

Prof. G. A. Murphey has been selected to teach these new subjects in the Training School. He has been teaching shorthand and typing in the commercial department of Murray State College this summer. At present, Mr. Murphey is in Lexington, Ky., completing his work for his M.A. degree in commerce.

Dr. Richmond Is Speaker for Motorcade

Dr. James H. Richmond, president of Murray State College, and Prof. M. O. Wrather of the extension and business office accompanied the "Good Will" Motorcade sponsored by Paducah Thursday, August 11.

Stressing the value of free bridges, President Richmond paid tribute to the Kentucky Free Bridge Association in brief addresses at various cities on the tour. He predicted that the toll bridges would be free by 1941.

The group had luncheon at Clinton where Dr. C. E. Crume of the Murray board of regents attended the meeting. Among the cities visited were Mayfield, Clinton, Kevill, Wickliffe, Fulton, LaCenter, and Hickman.

Student's Mother Dies in Crash

Mrs. Stanley Greer, mother of Miss Virginia Greer, a Murray sophomore, was fatally injured Tuesday night when her automobile crashed into a concrete bridge abutment near Paris, Tenn.

Mrs. Greer died in a Paris hospital early Wednesday morning. Her daughter suffered a cut on the head and three other passengers received bruises and cuts.

Governor Promises Barkley Support

Final unofficial results from the 120 counties in Kentucky, gave Senator Alben W. Barkley, of Paducah and majority leader of the senate, a majority of 70,785 votes over his opponent Governor A. B. Chandler for the democratic nominee to the United States Senate subject to election in November.

Governor Chandler sent Senator his congratulations and promised him his full support in the coming November election against John P. Haswell, the Republican nominee.

Dr. James H. Richmond, president of Murray State College, excused from classes all students who wanted to go home to vote.

PROFS WIN TITLE IN TENNIS MEET

Blackburn and Carman Defeat Bagwell Brothers in Tournament

Prof. Walter Blackburn and Dr. M. G. Carman, chemistry and mathematics instructors respectively, defeated Willard and Key Bagwell for the championship of the men's doubles tennis tournament to the tune of 4-6, 6-3, 8-6.

The Bagwell brothers gained the right to play in the finals by defeating Ashmore and Prof. McGovern 4-6, 6-4, 6-4, and McMuray and Palmer 6-0, 6-0. Dr. Carman and Prof. Blackburn took Bennett and Coach John Miller by counts of 6-3, 6-4 to be eligible to meet the Bagwell brothers in the finals, having drawn a bye in the first round.

206 Courses Offered for Fall Term at Murray

Six New Members Are Added to Staff

TERM OPENS SEPTEMBER 19

Two-hundred six different courses will be offered at Murray State College during the fall semester of 1938, which will begin September 19. Two-hundred thirty-nine different classes will be taught.

The courses offered in different subjects include: Agriculture 7, art 11, biology 7, commerce 11, education 21, geography and geology 8, health education 26, home economics 15, language and literature 29, mathematics 7, music 31, physical science 23.

Six new members have been added to the faculty. They will assume their duties with the opening of the fall semester. The new members are: Prof. William Everett Derryberry, head of the department of language and literature; Miss Jane Haselden, dean of

10 INITIATED BY SINFONIA FRAT

Alumni of Murray State College
Are Given Banquet by
Phi Mu Alpha

Ten Murray alumni were formally initiated into Phi Mu Alpha Sinfonia last Tuesday night, the first new group to be initiated into the music fraternity since the Gamma Delta chapter was installed here last spring.

Informal initiation services were held late in the afternoon, followed by a banquet in honor of the pledges, who were instrumental in securing the local chapter but graduated before it was established.

Three of the novices were pledged August 3 and pledge services for the other seven were held August 9.

The new Sinfonians and the school systems in which they are music supervisors are: W. W. Carrier, Jr., North Fork, W. Va.; James Elkins, Clay, Ky.; Everett Crane, Murray; Paul Bryant, Benton; Grever Carson, Augusta, Ga.; Carl Neumeier, Geneseo, Ill.; Harwood Tilton, Gallatin, Tenn.; Ruy Darnall, Danville; John Thompson, Clinton; and Floyd McClure, Thomasville, Ala.

Morris Carter, of Mayfield, president of the Murray chapter, was on the campus for the initiation ceremonies as were several other members who are not in school this summer. Eddie West, Highland Park, Ill., is vice-president.

Miss Parks Elected to Teach at Boaz

Miss Rovine Parks, who will receive her bachelor of science degree in home economics here next week, has been elected to the faculty of Boaz high school in Graves county, according to Prof. M. O. Wrather of the Extension Department.

At Murray, Miss Parks has been a member of the Household Arts and Sock and Buskin clubs, taking an active part in dramatics.

Judge Gardner Discusses Panama Canal and Policy of Isolation

President Presents Former Regent in Chapel

As guest speaker on the August 3 chapel program, Judge Bunk Gardner of Mayfield, Ky., United States district judge in the Panama Canal zone, and former regent of Murray College, in his outline of the history and future of the Panama Canal, warned of the danger and uselessness in a policy of isolation in United States foreign affairs, and of the harm lying in the anti-U. S. government propaganda being circulated in this country.

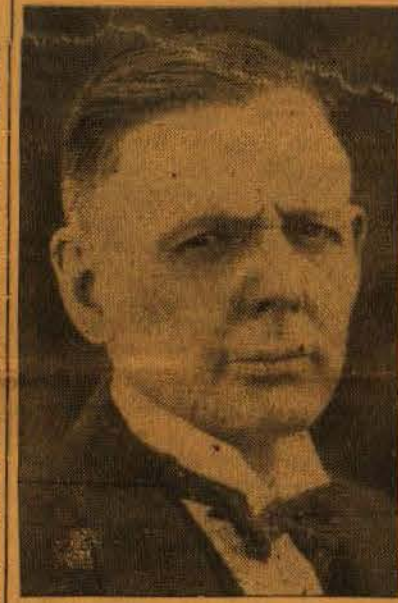

Introduced by President Richmond as "a real friend of this institution," Judge Gardner stated that Murray College was the first institution to put Jackson Purchase on the map.

In his talk he described the struggle of the United States with the jungle, fever, and other obstacles, to conquer where another nation had been defeated—to complete the Panama Canal. He told of the life and customs of the 40,000 people who live there in the zone, and of the duty of rendering impartial judgment to them. These people are gathered from all parts of the world, and the population has a ratio of 50-50 blacks and whites. He described the island republic, Haiti, and the results of her terrible revolution.

He said that to believe all the circulating stories that have been put out by certain people as poison bait for the public, one would get the impression that the United States was a country without a will or power of its own—instead of the invincible nation of science and culture that it really is. This country is the greatest nation in the world and a policy of isolation means only hindrance to this potential state, he asserted. He said that if nations would learn to know each other they would find that they are all made up of the same stuff, just as a person from one country finds the people in the next county no different from his home folks.

Judge Gardner was born in western Kentucky and was U. S. attorney in the western district of Kentucky before his appointment to his present position. He has lived an active social, religious and political life in this state, and while a regent of Murray College he contributed much to the good of the institution, officials stated.

Speaks in Chapel

JUDGE BUNK GARDNER

FDEA SCHEDULED TO MEET OCT. 14-15

Jack Gardner, Bardwell, Is President of District Association

With Jack Gardner, a Murray graduate, as its president, the First District Education Association is scheduled to hold its annual meeting on the Murray State campus Friday and Saturday, October 14-15.

According to the constitution of the organization, the meeting is held on the second Friday and Saturday every October.

President Gardner is superintendent of the Bardwell high school. Other officers are Adrian Doran, of Sylvan Shade, vice-president, and Holland Rose, superintendent of the Marshall County Board of Education, secretary.

Certain proposed constitutional changes are scheduled for consideration at the 1938 meeting, a committee having been appointed last year to draft several alterations.

Boilers Will Be Installed in Plant

Two 20-ton water tubed boilers are ready to be installed in the new heating plant at Murray State. The old plant will be increased to a height of 38 feet to provide sufficient room for the reconditioned boilers that will be 28 feet high when completed.

After fire boxes have been constructed and the boilers installed, brick walls will be built around them to keep the steam from escaping.

Each boiler, when in operation will have an output of 1500 pounds of steam per hour. Westinghouse under-feed stokers will carry the coal to the fire boxes of the boilers. The steam line to the health building is near completion. The line has been laid and the ditch is being filled.

Ashmore Will Enter Drum-Major Contest

Guy Ashmore, of Paducah, a sophomore music student, will leave August 19 for Chicago, where he has been entered in the national drum-majoring contest sponsored annually by the Chicago Tribune.

Ashmore, who was formerly drum-major for the Tilghman high school band, has received recognition throughout this territory as a talented baton-twirler and performed several times with the college band last fall.

While in Chicago, Ashmore will visit Jack Pritchard, another Murray student, and plans to go from there to Superior, Wis., for the football game between Murray and Superior State College.

CALENDAR

First Semester, 1938-18 Weeks

September 19, Monday, Registration of students.
October 3, Monday, Last day to register for credit.
November 24-26, Thanksgiving recess.
December 17, Friday, Christmas holidays begin.
1939—
January 2, Monday, Class work resumed.
January 27, Friday, First semester closes.
Second Semester, 1939-18 Weeks
January 30, Monday, Registration of students.
February 13, Monday, Last day to register for credit.
April 3, Monday, Mid-semester registration.
May 28-June 1, Commencement week.
June 2, Friday, Second semester closes.

THE COLLEGE NEWS

Entered as second class matter at the postoffice of Murray, Ky.

The College News is the official newspaper of the Murray State Teachers College, Murray, Kentucky. It is published bi-weekly from September to August by the Department of Publicity and Journalism of the College.

Member of the Kentucky Inter-Collegiate Press Association and the First District Press Association of Kentucky.

Editor-in-Chief: Elizabeth Williams

"THY TRADITIONS"

"May we cherish thy traditions," Murray State College. In only 15 years, you have wrought a wonder in Western Kentucky. . . . You have trained nearly 7000 young men and women for various pursuits of life. Thy traditions are worthy to be cherished.

By an act of the General Assembly in 1922, Murray State College was established. It began operations in September, 1923, under the presidency of Dr. John W. Carr. The original faculty consisted of five members: Mr. W. M. Caudill, Mr. E. H. Smith, Mr. James H. Hutchinson, Miss Mary Moss, and Mrs. Belle Walker. Three years later in 1926, 12 students received their degrees from Murray: Murrell K. Moody, Lucille Glasgow, W. B. Moser, Mrs. Reba Brown Miller, Emma J. Helm, Evelyn Linn, Mrs. Mary C. Williams, M. O. Wrather, W. E. Morgan, Mrs. Martha Arter, Mrs. Blanche Martin, and Miss Robbie Tinsley. The graduating class of 1938 will number 128 and the faculty now consists of 60 members. What growth in only 15 years!

The College News believes that such astounding progress should be celebrated. It believes that Murray's first class should be invited back to participate in a Founders Day celebration, on Murray's 15th anniversary, September 24. Let us celebrate in a special way, "honor thy traditions."

SOMETHING MISSED

A tourist from the state of New Mexico drove a little leisurely along the highway west of Murray enjoying the summer landscape. On his right he saw a little sign which read "Murray, Ky. Pop. 5,500." "A town," he said, driving on.

By the time he arrived down town he remembered, "Why this is the place where that college with the Thoroughbred basketball team is located." It won third place in the National Tournament last year. But where is the college?

He passed through town and at last, looking back again to try to find the college, he saw the gigantic sign erected by the Young Business Men's Club telling of the school but he had missed the \$2,000,000 plant.

How simply could this story have been different. Whether it will be changed the next time or not the alumni of Murray State may decide. All that is needed is the placement of a sign at the west entrance to the campus to tell the passerby that they are approaching the home of MSC and the birthplace of radio.

To bring this about the College News suggests Mr. Everett, president of the Alumni Association, organize the graduates and ask each one for a contribution of a dollar. Assuming that only half of them responded, enough money would be collected to erect a large neon sign over the west campus entrance.

By contributing this amount each alumnus would be doing much toward the progress of the school that gave him his training and will do the same for his children in the years to come.

LET'S START TO WORK

Let's attack the Boulevard problem before the winter season spreads its cold weather, snow and ice.

We all know that winter is not

the logical or satisfactory time for beautifying plots of ground or laying pavement. The citizens should take it upon themselves to improve the grounds. We are sure that the college will be responsible for beautifying the center of the boulevard which is in front of school property. The remaining section should be taken by some of the clubs or societies made up of Murray citizens. Dividing the entire boulevard into such sections will not place too great a responsibility upon any one organization.

Besides beautifying the center, the boulevard needs paving. The walks and curbs are very good and by having them we have a good start on a beautiful modern boulevard.

We suggest that the city of Murray make application for a PWA loan for the paving project before the period for these applications expires.

THANKS

There comes a time in every editor's life when he must relinquish his noble position. Whether or not his efforts have been noble has been judged by you as readers.

Of course there is a certain amount of sadness connected with departure from a chosen field—yet I say that the sadness is not so much from a relief of duty as editor, but rather from associations with those whose efforts have made the College News an outstanding publication.

This is YOUR paper and as such, has been YOUR thoughts. An editor's job is nothing more or less than the placement of the correct pieces in the jig-saw of news. Your contributions have made my job enjoyable and enabled me—as it would have any one—to adhere to the standard of stellar publications.

—Elizabeth Williams, Editor-in-Chief

Congratulations Grads!

We offer sincere wishes to the 53 graduating seniors.

We are proud to boast of being affiliated with Murray State College just as we are proud to boast that our bread "Tastes like Mother's Bread."

Bread that is good for toast, for sandwiches, for table use. Fresh and snowy in its golden crust it comes to you daily as the best food value you are able to obtain. It's fresh and wholesome.

- FIRM EVEN SLICES
- UNIFORM QUALITY
- DELICIOUS FLAVOR
- NUTRITIVE VALUE
- VERY LOW PRICE

THANKS A MILLION

The College News and the entire journalism department wish to express their gratitude for the recent enclosing and re-working of the College News office. The new office, it is felt, will be much better suited to the needs of the department.

Take Pencil and Paper, Please

Imagine a pencil equal in length to the height of the Empire State Building. Then while your imaginative faculties are still working, extend that pencil to five times its original length, to 7,300 feet or about one fourth the height of the highest mountain peak in the world.

Imagine using that much pencil. That is just what the students of Murray State College do in a year's time, according to statistics derived from accurate sales estimates given by Mr. Clark, operator of the College Book Store. A mile and half of pencil is a pretty good pencil and costs enough to send a student to Murray College for one year, but the writing paper has a greater story.

Murray students use, exclusive of all stationery bought at the bookstore and secured otherwise from the official college supply, 118,588,500 square inches of writing paper per year.

This paper, if bound into volumes of 250 pages each, would amount in a year's time to 5,256 books.

The money spent for this annual supply of paper is sufficient to send five students to Murray for more than a year, with all expenses paid. To be exact it totals \$1,642.50.

In number of sheets this paper amounts to 1,314,000 sheets annually, which if placed end to end would cover a distance of 228 miles. Upon this basis we may conclude that since the beginning of Murray State this line of paper has reached the length of 3,420 miles or equal to the distance from America to Europe.

Admitting that the average page of single-spaced typewritten material contains 600 words we can easily understand that Murray students have used enough paper to write 788,400,000 words. A typist working eight hours per day at an average of 40 words per minute would be required to work 105 years to fill all this space.

If you doubt the veracity of these statements you should take pencil and paper and prove them otherwise.

What's In A Name—Anyway?

By TOM FLAKE
Once or twice every year, there's a story like this in the College News. Now's as good a time as any for another one.

Names make news, so the registration list comes in handy. There's nothing unusual about Joneses, Smiths, and Browns being enrolled in a college but it might be interesting to note that the Smiths have a slight lead over the Joneses this summer. There are six Smiths and only five Joneses.

The Johnsons and the Johnstons are tied with three each and only two Browns are with us at present. Most of the other well-known names are represented.

There are those more picturesque, though. For instance, we have a Cost, a Price, a Dollar, a Nichols, a Byers, and a Seller. And, if you can stand an even worse play on words, there is a Quartermouse, though the mouse has nothing to do with the gag.

How do you like these? Hale and Harding; Pickle and Olive; Summer and Winter; Inman and Outland; Walker and Wheeler; Corn and Flake; Biggs and Littleton; Seay and Beach; Hight and Lowe. And here's a foursome for you: Treas, Wooden, Woodson, and Underwood.

Gosh—we could carry this story on indefinitely! It's Quirey how you can get strung out on this stuff.

We weren't Abell to find a name to go with Ruhl or Riddle. There's a Key, but no Locke; a Roach, but no other insects.

Make your own pun for Drew, Waters, and Washer. We'd Wrather not.

Here are some Moore for you; we're just passing 'em along: Key, Reno, Peck, Mix, Cross, English, Flowers, and Ransom.

Aw, Shuh! Who started this, anyway?

Boyd To Take Flight Training

Ralph B. Boyd, of Mayfield, a senior in Murray State College, has been approved for flight training by the U. S. Navy Department and is scheduled to enter the Naval Reserve Aviation base at Robertson, Mo., August 15.

Boyd, who is a physics major, is a graduate of Water Valley high school and has taken work at the University of Kentucky. He is a member of the Nathan B. Stubblefield Physics Club at Murray and also is a talented musician.

Ranch Romance!

Petite and blond Lotaine Krueger is the perfect foil for Joe Penner, black-haired and quizzical, in "I'm From the City," in which Joe is starred in the role of a circus performer who hates horses, but becomes an amazing equestrian when he has been hypnotized. Much of the RKO picture has scenes on a Western ranch. Starts Sunday, August 21, at The Capitol Theatre.

Students Are More Studious, Ambrose Tells College News

"The present student body of Murray State is the most studious that I have seen since I have been in Murray," stated W. S. Ambrose, proprietor of Ambrose Tea Room, in an interview with a College News reporter today.

Mr. Ambrose expressed great optimism for the growth of Murray State College. "It is my opinion that the enrollment at Murray will advance to 1800 in the next three years." He gave as his basis the new dorm to be constructed at Gilbertsville, and the increased population caused by this project, as well as the huge sums of money to be spent in the construction of this dam.

When questioned about his fountain trade, Ambrose said that the consumption of sandwiches and soft drinks by girls was greater than by boys. He further stated that the taste in cigarettes was changing.

The reporter always takes a wide journey (vicariously) whenever engaged in conversation with Mr. Ambrose. Always ready with an anecdote or a story to apply to the present situation, Mr. Ambrose takes one with him over a large territory (geographically as well as in experiences).

His favorite subject for discussion at present is his new oil well near Owensboro, Ky. To new students he may be identified by: The small man behind the largest cigar in the place.

How Would You Spend \$1000.00?

When asked the question: "What would you do if you were given \$1,000 to spend as you pleased?" students of Murray State College gave different answers.

Virgil Gipson, Paducah, said "I would spend the money as far as it would go on education." He stated that his plans were to get a master's and doctor's degree.

Eldred Hill, Lowes, Ky., said that he would have to pinch himself to be sure that it wasn't just another of his hallucinations.

"I would pay all of my debts, and save the rest of the thousand dollars to use in going to the New York World's Fair in 1939," stated Charles Miller, senior at Murray State.

Ralph Boyd, who has been recently appointed to the Navy flying service, said that he would use the money to buy an airplane. Boyd, who is always ready with a good joke, stated further that parachute jumping was the only occupation in which one did not start at the bottom.

Plan Broken

"No, I can't rob that bank that I intended to," declared Ralph Boyd a day or so ago.

"Why not?" he was asked.

Well, you see, the other day I signed up in the air service of Uncle Sam's Army. And do you know, my body could be riddled with machine gun fire, and if there was a piece left an inch square in size, they'd recognize it. They took my finger prints and took pictures of me at every possible angle.

"Well, that's too bad you can't rob that bank, but do you think you'll like army aviation?"

"Yep, I know I will. The question is, how they'll like me?"

And Ralph will be off to the army this August. We'll miss him.

Miss Margaret Marshall spent the week-end of July 30 at her home in Kuttawa.

How Will You Spend Your Holiday?

How do you intend to spend your vacation? Here are the plans of a few campus people:

Prof. E. L. Brown is going to take a trip to Herrington Lake near Lexington.

James Overby is going to get his tonsils removed, he says, and incidentally, get a little rest.

Miss Verna M. Goode will visit friends in North Carolina, South Carolina, and Virginia.

Mr. Lee Clark of the bookstore says he will be content to stay at home and work about the place.

On the whole, the summer school students replied to the question: "Just going home to rest up and have a good time."

Band Plays for Governor Chandler

Playing and marching in true Thoroughbred fashion, the Murray State College band headed a motorcade escorting Gov. A. B. "Happy" Chandler from the eastern city limits of Murray to the courthouse on Thursday afternoon, August 4.

Governor Chandler made a short address in behalf of his candidacy for election to the United States Senate.

The line of march for this parade started at the railroad at First and Main streets and extended to Fifth street, then south to Depot street, where the parade stopped and the band dismissed the members to return to their classroom.

During the summer semester, "the best band in the SIAA" has played on several different occasions for political gatherings.

Pogue Declares His Studies Developed Different Viewpoint

"I studied abroad to gain a different viewpoint on the subjects pertaining to our national government and its relation to the people of the United States," stated Prof. F. C. Pogue to a College News reporter today. "You don't have any idea as to the arguments and discussion you can get into, when you go to Paris and start to telling those people there that America is the best place to live and Europe should be slapped like a little boy, for the way she acts sometimes."

"In making a statement like this, you have to have your argument well planned as you will be asked to prove it and do so quickly, as those people are from various countries in Europe," he further stated.

Some of the countries represented he said are France, Germany, Japan, Italy, Russia, and Poland.

These people are their country's best and you have to get up early to get ahead of them," said Mr. Pogue.

"The average expense for studying abroad is a little more than what you have to pay for that same time in one of our larger universities, which is about \$600. You can make it cost you what you want it to," he added.

Mr. and Mrs. Preston Ordway had as their guests on Sunday, July 31, Mr. and Mrs. G. P. Ordway and Mr. and Mrs. Buster Ordway of Kuttawa.

"It Does Make a Difference Who Writes Your Insurance"

Co-Ed Chatter

30. This week we are writing the column backward. Anyone noticing such, please write or call in person at the business office next fall—and, upon payment of a full-year fee, receive a year's subscription to the College News with the compliments of the writer.

We were at the show the other night and as usual the house went dark and after a few minutes the house lights were turned on. We of course settled down to the customary wait. An usher (not Abell) appeared and some one asked what the trouble was. Nonchalantly he replied, "Oh, there's a fire upstairs."

We hear that Bill Carrier made his exit so fast he left his gun under the seat. However, he got the seat number, and hopes to retrieve it as soon as money for another ticket can be mustered up.

We were notified that "dear Albert"—with no reflection to our recent nominee—Seay will appear on the campus this week-end, and that the famous bear-skin coat has been converted into a jacket, zipper and all. And speaking of visitors, good old Nub Shelton was very much "she-grinned" in that his recent edition of jokes was already making the rounds on the campus, due to his very good friend (?) Joe Torrence. Explanation: Joe arrived several days before Nub.

Congratulations to Mr. Pogue. After four years he has finally gotten Spike's man off the anvil. Has anyone offered you an opportunity to retire at the age of 65? If not, you'll probably be approached soon by one of our classmates who first tells you he isn't a salesman and then definitely he isn't selling insurance, but "living protection."

Question of the week. How many doors are in the new hut? Answer found on page 7.

Mr. Inglis's recent informal review of Bernard Shaw's new book, "London M'te" was really keen . . . it at least relieved our listening to HIS cracks . . .

Eddie West just came in and someone said we should put him in the column, cause he's not funny, either . . .

Famous Last Words:
Glen—"No mail today."

Mr. Johnston—"How many see?"

Mr. Lowry—"Piffle."

Mr. Inglis—"Play like mad."

Gene Hughes—"It's almost finished."

Lee Clark—"Slightly torn—six bits."

Bonnie Walker—"I'm going to Paris."

Me—"Good-bye!"

Lamb, '27, Visits on Murray Campus

Gaylon Lamb, graduate of Murray State College in 1927, and a member of Murray's first basketball team, visited on the campus, August 1.

Lamb, who now is a principal in a Covington school, formerly taught at Morgan, Ky., where he sent his last three valedictorians to Murray. Miss Mary Ann Collinsworth is still in school.

Lamb thinks Murray should have a swell football team next fall, and plans to see at least one Murray contest. Three other Murray grads are employed in the Covington school system, Miss Maribel Holland, Hyland Boyd, and James McNeil.

Joe Torrence, Joe Mullins, and Virgil Stewart, all graduates of Murray College, spent the week-end of July 30 on the campus, visiting friends.

Dean Caudill Says Students Write from Carolina, Michigan

"We have received letters from students as far away as North Carolina, Massachusetts, and Michigan, who state that they plan to enter Murray State this fall, showing the influence of Murray State College that is being felt throughout the nation," declared Prof. W. M. Caudill, dean of men and student personnel, declared in his office Tuesday.

"Judging from the inquiries from out of the state as well as other sections of Kentucky there will be a better enrollment in Murray State College than there has ever been," remarked Mr. Caudill.

The records in the offices show that Murray has had a serious minded group of students here this summer doing very satisfactory work, he explained.

The students have been very liberal in their praise of the college during the summer and have expressed their appreciation for such an institution.

Special attention will be given to the Freshmen who enroll this fall.

The Student Council has planned a reception for them, and they will be welcomed to Murray State College.

There is going to be a greater attempt than ever before this year to tempt the freshmen feel at home.

"We are planning a more extensive guidance program this fall than it was possible for us to have had last year," the dean asserted.

When asked what his hobbies were Mr. Caudill said that his main hobby was tending his 10-acre farm just north of the northeast end of the campus. Gardening and forestry are the outstanding features of his farming.

Mr. Caudill has planned to attend the seventh Caudill reunion to be held on top of Pine Mountain near the tower in the National Forest August 21.

Following the reunion he will spend a few days in Eastern Kentucky visiting friends and relatives.

Mr. Caudill sponsors the World's Affairs Club, organized in 1924, the first club on the campus. He has taught geography since 1923.

Mrs. Sue Stanley, of Sedalia, was a visitor here August 1.

35 to Start Grid Drills Sept. 1 at Murray State

24 Lettermen, 11 Newcomers To Report

When September 1 rolls around, 35 determined football players will don headgear and pads in quest of their second consecutive SIAA title, and their third in six years for Murray State College.

Twenty-four of those reporting have already won letters; 12 of them will be going into their final year of college football. The other 11 are all anxious to jump the gun and join the pack of lettermen in trying to hurdle Murray's stiffest football schedule.

The boys reporting will have only 11 days in which to show Coaches Stewart, Moore, Miller, and Cutchin exactly what they can do, and just why they should be carried on the trip to Superior, Wis. Coach Stewart has said that he would carry only 25 men on this trip, but should all the boys show the necessary pep, and reasons why they should be on the squad, he might be lenient as he was last year when he took the whole squad to Abilene for the Hardin-Simmons game.

The last team to face the Thoroughbreds last year was Superior State. The Yellow Jackets proved they had a good team last year, even though Murray did win 26-6. Superior used the double-wing back system last fall and paraded three of the best backs seen on the Murray field last season in Ted Gentile, Pasquette, and Melinovich. All three are back this fall, along with 21 other lettermen that were brought to Murray last year. Four boys off the squad were graduated. The Wisconsin men have won their state championship for the past six years, and have beaten the Minnesota Conference champs four times in the last six years.

Sixth Team
Coach Stewart who will be at the helm of his sixth Thoroughbred team, said most of the "Bred's" time during the early practice sessions would be spent in general conditioning exercises, and special drills in fundamentals, with plenty of signal drill work. Last spring's practice was most successful in blending the frosh into the varsity. Of the incoming men, Johnson may have the best chance of becoming a regular, as he will be one of the four centers who will be battling for a chance to fill in for C. W. Hardin, McMurphy, six foot, six inch end, may make the other wingmen look to their laurels.

Probably the strongest point on the team is at tackle, with six juniors and a sophomore ready to carry on where they left off last year. Murray was known last year for its "Tackle Organization."

Men who will report are:
Ends: Captain Dale Deibert, Tom Atwell, Gene Bland, Ralph Love, Bill McMurray, and Joe Baker.

Tackles: Pete Gudauskas, Herman Morris, Edd Donoho, Grant Brantley, Julian Craddock, Bob Smith, and Edd Chupa.

Guards: Dennis Horlander, Lewis Applegate, Buster Neese, Lacey Downey, Louis alters, and Bob Horlander.

Centers: Lyle Putnam, Joe Brown, James Johnson, and Gene McGarity.

Quarters: J. R. Mitchell, G. C. Beale and Tommy Wray.

Wingbacks: Captain Charles Yarbrough, Joe Spalding, and Frances LaBonte.

Tailbacks: Bill McRaven, Sammy Goodman, and Jackie Inman.

Fullbacks: Hugh Finley, John Jasper, and Cobble Lee.

Coach Miller To Get M.A. Degree From Peabody

Coach John Miller, freshman basketball and football coach at Murray State, will receive an M. A. degree from Peabody College, Nashville, Tenn., August 19.

He has been gathering information for his thesis titled, "Case Study of Murray College Men in Recreation After Graduation," during the past school year. Questionnaires were sent to 215 Murray State graduates and 93 per cent of them were returned.

A comparison was made of the sports that lettermen and non-lettermen took part in while in high school, college, and after graduating from college. He found that more of the lettermen were taking part in some sport after graduation than the non-lettermen. Among the highest ranking activities participated in after graduation were swimming, softball, tennis, basketball, and still fishing. Swimming was placed first by both groups.

"The failure of the graduates to engage in such desirable activities as golf, bowling, fly casting, fencing, and riflery may be due in part to the lack of such programs in the college," he stated.

Mr. Miller was graduated from Murray State in 1929 and became a member of the faculty in the fall of '30. During his two years of undergraduate work at Murray he was a member of the baseball, basketball, and football teams. "I wish to express my appreciation to the alumni of Murray State who were kind enough to fill out and return the questionnaires to me," stated Mr. Miller.

He also declared that it would have been impossible to secure the information for his thesis without the alumni's help and cooperation.

Cochran Praised by Eastern Writer

"Cochran, member of the Associated Press Little All-American team, comes to the All-Stars with a fine reputation as an outstanding guard. Standing 5 ft. 9 in., and weighing 170 pounds, he will be one of the smallest men on the team, but from all accounts will be capable of taking care of himself in this game which will bring together an imposing array of giants.

"A letter from Jim Moore, one-time Connecticut State line coach, and now line coach at Murray State College, to the Shrine officials carries eminent praise for his charge.

"Moore notes that Cochran made the all-opponent team of every eleven that his team played last fall, and then gained Little All-American and All-Kentucky Conference honors. He captained the team and led most of the plays as his team won the SIAA championship. His brother, Henry, was quarterback on the Alabama team, and the townspeople and family collected a fund and sent him to Pasadena to watch his brother Bama star. He made three letters in football and had a great school-boy record in Paducah, Ky., before entering Murray State."

Joe Nutter, Providence Sunday Journal

Miss Julia Hammack, graduate of Murray College from Sturgis, Ky., is attending summer school at the American Conservatory of Music in Chicago, where she is studying piano.

IN PASSING

By TOM FLAKE

THOUGHTS WHILE WAITING FOR MAIL

How quiet the News office is these days... The Sinfonians forbade Pledge "Pecky" Carrier to speak to women, which comes under the head of cruel and inhuman punishment... Wonder whether to loaf between now and September 19 or get a job?... If there were any jobs... Coach Stewart and Rotund Reporter Kellogg seem to differ in their degrees of optimism about the '38 season... Incidentally, Edd's been doing some powerful figuring with the engravers on the '39 Shield... Net results: more pictures... At first that was a good gag about the News staff being placed in a cage, but it's been going on for weeks now... Two worries of a columnist: (1) Is the stuff worth reading? (2) Will anybody read it, anyway?... Ho hum...

AS YE SEW SWING—SO SHALL YE REAP NICKELS!

According to Raymond Vaughn, who installs and maintains the nickelodeons in two of the campus watering places, collegians are most discriminating in their choice of music of all his patrons.

There are places, according to Mr. Vaughn, where he can fling a lot of "corn" music and "jam jazz" on his music boxes and reap a fairly good "take" of nickels. But not around here. It requires rather careful selecting in order to find those records which will stand off the collegiate sales resistance.

Vaughn claims he's never decided just whether swing or sweet stuff goes over best around the campus. Thinks probably it's better to compromise by using a little of each and by featuring some of the so-called "sweet-swing" recordings.

Tommy Dorsey is a top-rater and seems to have an edge on King of Swing Benny Goodman. Clyde McCoy has proven popular lately, and Fats Waller doesn't do at all bad. As an up-and-coming band for nickelodeon popularity, Vaughn selects Blue Barron, the young maestro with a unique title-singing aggregation. A new supply of Kay Kyser recordings also is expected to be popular.

ARE THEY ILLITERATE— OR JUST INCREDULOUS?

People just won't believe signs. Put up a wet paint placard and see how many passersby test the paint to see for themselves. "Out of order" signs get little better results.

The road toward the health building has been blocked while new heating plant pipes were being installed underneath the pavement. Two warnings proclaimed, respectively: "Road Closed" and "Slow, Danger Ahead."

Apparently, half the motorists believed neither sign. They've been driving up into the dormitory yard to get around the blockade and then driving like mad over the danger area.

—AND GET A NICE, LONG REST!

In another month, many of us will be getting back "in the groove," with plenty of everything to keep our minds occupied.

We'll start off with lots of football and pep meetings and good dances—and we'll have our new courses to contend with.

We really should go home now and get a good rest—lots of sleeping, good homecooked meals, and a month of relaxation. Will we do it? You know darned well we won't!

Washer Wins In Softball

Ned Washer's team won the intramural softball league at Murray State August 10, by defeating Jasper's aggregation 10-5.

Jasper won the first half of the league, and Washer came to the front and won the last half.

Washer and Jasper were scheduled to play three games this week, but because of the rain and the ending of the summer term, Jasper conceded the championship to Washer after playing one of the three games.

Carter-Brinkley

The marriage of Miss Virginia Carter of Clinton and Ronald Brinkley of Nashville, former grid star of Murray College, took place Sunday morning, August 7, at the First Baptist church in Fulton. The Rev. T. T. Newton performed the ceremony.

The bride wore a black fall outfit with a corsage of gardenias. The only attendants were Miss Dorothy Jones and Edward Williams of Clinton.

Brinkley was graduated from Murray State, and was a member of Murray's 1933 championship football team. For the past two years, he has coached and taught at Central High in Clinton. This summer, he resigned from the Central faculty, and is now traveling in Ohio, with headquarters in Delaware, O.

53 Complete Final Exams Prior to Commencement

Fifty-two candidates for degrees completed their final week of classes and final examinations Saturday and prepared for a Commencement Week beginning with the baccalaureate sermon in the college auditorium Sunday night, August 14, and ending with the presentation of degrees by President James H. Richmond at 10:00 a. m., Thursday, August 18.

The 52 August graduates bring the total number for 1938 to 128, 74 having received degrees in June.

Dr. Philander Priestley Claxton, president of Austin-Peay Normal, Clarksville, Tenn., will deliver the commencement address. Dr. Claxton, a widely known educator and speaker, is a former United States Commissioner of Education and served as a public school superintendent, college professor, and editor of two educational journals assuming leadership of the Tennessee institution.

The Rev. A. Warren Huyck, pastor of the First Baptist Church of Paducah, Ky., was chosen to deliver the baccalaureate sermon Sunday night at 8 o'clock. Also on the baccalaureate sermon program are the college symphony orchestra, and the faculty string quartet. The Rev. J. Mack Jenkins, pastor of the First Methodist Church of Murray, will deliver the scripture and invocation.

Of the 52 to receive their degrees in August, 38 will receive the bachelor of science, 4 the bachelor of music education degree, 5 the bachelor of science in home economics, and 5 the bachelor of arts.

The program for the commencement exercises Thursday is as follows: Processional—March from the

CUTCHIN HOPES FOR GOOD TEAM

Bland, Love, Carneal, Hurley, Magruder, Murray to Be Back

With football getting the nod over all other sports at Murray at the present, Coach Carlisle Cutchin hesitates to mention basketball, but will admit that Murray should play pretty good basketball during the coming year.

The Thoroughbreds will have Captain Gene Bland, Ralph Love, Bill Carneal, Ross Magruder, James Hurley, and Walter Murray, all lettermen, back in harness. Squadmen George Bland, James Mitchell, Robert Brown, and Elbert Pennebaker should help out with the filling of shoes left vacant by All-SIAA men Ethridge McKeel and Floyd Burdette, and lettermen Theron Riley and Paul Fowler. Incoming sophomores Ken Park, Ned Washer, Novis Copeland, Lon Wright, James Garrigus, Joe Baker, Carlisle Wallis, Tommy Neathamer, Cobble Lee, Bill McMurray, and Leslie McKeel should be able to fill in adequately.

Although a definite schedule has not been announced Murray will probably meet Central Missouri, who showed strength in the National Intercollegiate Basketball Tournament last year; University of Arkansas, defending Southwestern Conference champs and Sugar Bowl representatives, Western Kentucky, KMAC and SIAA champion; Union University, Morehead, Eastern, Millsaps, Delta State, quarter-finalist in the National Tournament; Berea, Union College, Tennessee Tech, Middle Tennessee, and West Tennessee.

Hardin-Simmons was well represented in this wheat elevator, since 16 members of the football team of that school worked on the job with Beale and Donoho. These boys left the impression with the two Thoroughbreds that much trouble will be encountered when the two teams clash in Paducah this fall, October 22. Although some of the stars graduated last spring, plenty of reserves are left to carry on in the true Hardin-Simmons fashion.

Donoho said that the schedule for the coming season is plenty tough, but if the boys work together and nobody gets hurt, Murray College should have a good season, winning the majority of the clashes on its 9-game schedule.

Woodson Expects Western To Bow To Vanderbilt

Western will go down in defeat this fall, when they go up against the Vanderbilt boys", Woodrow Woodson stated to a College News reporter today.

Mr. Woodson came from Vanderbilt to Murray for the summer term. He says that he can go to Murray for three years for about the same expense that it would take to go just one year at Vanderbilt.

He further stated that "Vanderbilt will have one of the best backfields in the South".

Mr. Woodson, who is taking a pre-law course, plans to get his law degree from the University of Louisville after completing his two years of pre-law at Murray State.

NOTICE

We are receiving the list of those people who want to keep roomers, light house keepers, and boarders. All who are interested please call at my office and report the number you can keep, the price, and whether you want boys or girls. Do this so that your name will appear in the fall list.

W. M. Caudill.

Sideline Slush

By EDD KELLOW

The Truth At Last: After three months have elapsed since Murray's track team snowed under Western's Hilltoppers, a discrepancy in the records has been revealed thanks to Shield photography...

Not that it would have made any difference in the way the two teams scored, but individual ratings for each event would become juggled. According to track judges, Thompson was awarded the 100-yard dash, with McRaven second, and Spalding third. In the 220-yard event, McRaven was awarded first and Thompson second.

With the Shield's photographs of the meet, just printed, the pictures reveal clearly that the decisions were just reverse, with the two Bills each getting a first and a second. No doubt is left since it was clear that Spalding finished in third place in the 100-yard dash, thus eliminating any possible juggling of photos.

Zwiskowskiz: Wait until you start to pronounce some of Murray's freshman footballers names next year, and then... I personally recommend that Coach John Miller discard names at the start of practice and give each man a number.

Murray Supporter: Former line coach and Dean of Men Otis Edmonds, who is now athletic director at the LaPorte, Ind., High School brought two of his stars Steve Leverdoski and John Schmidt, to look over the Murray campus over the week-end. Both boys who play in the backfield, were pleased with Murray, and plan to return September 1, for beginning workouts.

And with the heat and such making my head go round and round, I'll close this summer's efforts by predicting the following football scores:
Murray 14 Wisconsin State 0
Murray 37 Middle Tennessee 0
Murray 21 Morehead 7
Murray 20 Birmingham - Southern 7
Murray 12 Hardin-Simmons 20
Murray 15 Union 0
Murray 7 Southwestern 13
Murray 0 Howard 0
Murray 21 Western 7

Marvin Wilkerson, former editor of the College News, now teaching in Hiwassee College, Madisonville, Tenn., visited on the campus August 2-3.

Finley is Head of Student Organization at Murray

Body to Begin Its Third Year on September 19

The Student Organization of Murray State will begin its third year of existence at the opening of the fall term, September 19, with Hugh Finley as its president. Officers and representatives for the school year 1938-39 were elected by the student body last April. Lee Williams was chosen vice-president; Marie Holt, secretary; and Martha Nellie Wells, treasurer.

Two Student Council members from each of three of the four classes also were chosen last spring, with two freshman representatives to be chosen this fall.

Senior representatives elected were Dennis Horlander and Frances Wake; the junior class chose Hal Saunders and Ruth Anna Black; and the sophomores, John Travis Brown and Mary Elizabeth Roberts.

President Finley, whose home is in Dyersburg, Tenn., succeeds Lewis Applegate of Neptune, N. J., to the office. Other officers last year were Charles Baugh, vice-president; Laone Young, secretary; and Vaginalee Thomson, treasurer.

The student organization was established in 1936 "to expand and promote interest in student affairs, to provide the means for the clear expression of student opinion and its presentation to the administration when advisable to unify and

systematize campus activities, to increase and clearly define student responsibilities, and to foster in every manner possible student character and initiative."

A host of matters for disposal await the incoming officers. One of the most important is the financing of dances for the fall semester. A newly-appointed Concessions Committee, appointed by President James H. Richmond last spring, also will be busy.

Murray Stars Enter Paducah Meet

Prof. C. R. McGavern, music instructor in Murray State College, Jimmie Bailey and William McMurray, students at Murray, went to Paducah, Ky., Friday, August 12, to enter in the swimming meet being held there.

Bailey entered the back stroke contest and was a member of the relay team. McMurray competed in the breast stroke race and also was a member of the relay team. Prof. McGavern entered the diving, the free style, the crawl contests and still found enough energy left to compete with Bailey and McMurray on the relay team.

Miss Anne Howell Richmond has as her guests Misses Martha Coleman, Margaret Brown, and Marian Williams of Frankfort, Ky. They plan to remain until next Friday, August 19.

BOOKS, MAGAZINES ADDED TO LIBRARY

Mrs. Doyle, Dr. Poret, and Mrs. Houston Make Donations to Murray State

Books and magazines are still being donated to the college library, according to Prof. W. J. Gibson, head librarian.

Mrs. Price Doyle has donated a complete file of the drama section of the New York Times for the past two years.

Dr. G. C. Poret gave a complete file of the American Legion Magazine for about two years.

Mrs. E. B. Houston, mother of Dr. Hugh Houston, donated three books and some old issues of Ladies' Home Journal, American, and Harper's.

"These odd issues will be very helpful in filling the gaps of our files," said Prof. E. L. Brown, librarian.

In the past few years, the Murray library has grown very much, according to the records that have been kept. On July 1, 1937, there were 24,732 volumes. Since that time, 972 books have been purchased, and 505 volumes have been donated. Lost books and those that have been discarded due to wear amount to only 39.

This year, there have been 61,361 books in circulation in the college alone, or approximately 100 books per student, which is about a 10 per cent increase over the circulation of the previous year. Records show a marked increase of the circulation of books of information and more serious types of books, which appears to parallel the increased scholarship in the college that is shown by the report of Dr. J. H. Richmond, president.

Lowry Will Teach Commerce in Wingo

James Lowry, of Pilot Oak, Ky., who will receive his bachelor of science degree August 18 with a major in mathematics and minors in biology and commerce, has resigned his position as principal of the Fairbanks Junior high school, Fairbanks, Ky., and accepted a position in the commercial department of the Wingo High School, Wingo, Ky.

This is a new department in this school and will be organized by Lowry for the first time this fall. The subjects that will probably be taught are typing, shorthand, bookkeeping or commercial law, he stated.

While in school at Murray, Lowry has been active in intramural sports and was a member of the basketball squad of the 1937-38 season.

Mother Dies

Mrs. Mannie Smith, 56, mother of Bill and Leon Smith, died at her home at Heath, Saturday, August 6.

Funeral services were held at Palestine Church with the Rev. H. L. Lax officiating.

Burial took place in the Spring Boyan Cemetery.

Leon Smith is a graduate of Murray State College and is doing some work here in science this summer.

Bill Smith, also a graduate of this college, was captain of a Murray basketball team.

Howard Allen of Nashville, Tenn., graduate of Murray College, was a recent visitor here. Allen was quarterback on the championship football team of '33.

Andrews-McClure

The marriage of Floyd McClure, Murray graduate in 1937, to Miss Edwina Andrews of Thomasville, Ala., took place Saturday, August 6, in Thomasville.

The bride is a graduate of Montevilla College. McClure was an outstanding music student at Murray State, and also took part in various campus activities. Last year, he taught music in Thomasville, Ala., where he will teach again next year and the young couple will make their home.

Mr. and Mrs. McClure visited in Murray this week, enroute to Chicago on their honeymoon.

Dr. Carr Lists Reasons for Success

TO THE MEMBERS OF THE CLASS OF 1938

The following extracts have impressed me very much and I pass them on to you. They are from a little pamphlet, "Teaching As a Profession", published by the Western State Teachers College, Kalamazoo, Mich. Several copies are in our library.

Why Teachers Succeed

In the "Review of Educational Research" the following summary has been made by listing the number of times any personality trait has been considered most important.

- 1 Fairness
- 2 Kindness and instruction skill
- 3 Good-natured or pleasant; good disciplinarian; knowledge of subject matter
- 4 Sense of humor; patience
- 5 Personal appearance; inspiring, sociability; interest in work; personality

- 2 Strong character; sympathetic, ability to make class interesting
- 1 Politeness; neatness; seriousness and dignity; interest in pupils; broad educational interest; efficiency in use of class time; intelligent; broad-minded" (p. 39)

Causes of Failure in Teaching
After interviewing several hundred superintendents and board members, Morrison finds the causes of failure group themselves in the following order:

1. Poor discipline.
2. Inability to co-operate.
3. Gossip.
4. Immorality.
5. Lack of teaching skill.
6. Disloyalty.
7. Inability to get along with people.
8. Unwise choice of social companions.
9. No desire for professional growth.
10. Irresponsibility.
11. Criticism of colleagues and superiors." (p. 44)

"You will note that there are 18 personal qualities and only 6 professional ones which are listed as leading to success; also that 8 personal qualities and only 3 professional ones are listed as causes of failure. The ratio in each instance is practically three personal qualities to one professional quality which lead to success or failure.

This is important and significant and, because it is in accord with my long experience, I am passing it on to you.

With every good wish for your success, I am

Very truly yours

J. W. Carr, Dean

Misses Virginia Whayne, Martha Roberts, Cornelia Shaw, and Dola Camp, students in Murray this summer, spent the week-end of August 5 at Clinton, Ky.

53 WILL RECEIVE DEGREES

(Continued from Page One)

tary school in Troy, O., for next year.

Her comment on Murray was: "Murray is a fine school and has grown remarkably. I know, for I was here when the school opened in 1923."

Miss Virginia McDowell, Paducah, has majored in English and social science to receive the bachelor of arts degree in the August class.

At Murray, she was a member of Beta Pi Theta French fraternity; vice-president of Big Sister council; senior representative to Wells Hall student council; member of English and Pep Clubs; of Westminster Fellowship and Les Camarades.

She says "Murray is certainly a fine school and I will be sorry to leave it." She will teach English and history in the Cadiz High School, Cadiz, Ky., next year.

Bonnie Hicks Walker, of Bruce-Tenn., will receive the degree of bachelor of music education. Walker's music major was trombone, with minors in cello, and history and political science.

At Murray, he has been a member of the college band and orchestra, Vivace Club, Phi Mu Alpha, and International Relations Club. Commenting on the college, Walker said, "I admire Murray's students and faculty in their hospitable spirit. I think we have a fine music department and faculty and I am expecting Murray to continue its growth."

Walker will direct music in the Paris, Tenn., schools next year.

Miss Ocie Mae Owen of Paris, Tenn., has completed her majors in mathematics and physics to earn her B.S. degree. She was a member of the Chemistry Club, Pep Club, Math Club, and Physics Club (president for two semesters, secretary-treasurer, three semesters).

Miss Owen stated "Murray is a college unique in its very rapid, yet constant, development and in its sincere congeniality."

James Alton Lowry, of Fulton, has been elected to teach commerce in Wingo High School for next year. He will be graduated with a B.S. degree in August. He majored in mathematics, with minors in biology and commerce.

His activities included: International Relations Club, intramural basketball, softball, and tennis. Commenting on Murray, Lowry said, "Murray State is a growing institution and I know of no other in its field that exceeds Murray."

Miss Louise Acree of Model, Tenn., has majored in history and geography to be awarded her bachelor of science degree. Next year, she will teach in Stewart County, Tenn.

At Murray, she was a member of the Pep Club and International Relations Club. She said, "I have thoroughly enjoyed my association at Murray and wish I could have spent all four years here."

Miss Ruth Pickard of Paducah will receive a B.S. degree in elementary education, with a minor in physical education. At Murray she took part in intramural basketball, softball, and tennis.

She belonged to the Wilsonian Society in '33-'34, was vice-president of the McCracken County Club in '34, and a member of International Relations Club.

Miss Pickard stated "Murray has been wonderful and my only regret is that four years of joy and happiness here are nearly over."

Charles C. Miller of Murray majored in music and will be granted the bachelor of music education degree in August. His major was voice, and his minors were piano and journalism. His activities include: A Capella Choir, mixed chorus, Men's Glee Club, college male quartet, band, Vivace Club, College News staff member, Phi Mu Alpha fraternity, and Kappa Pi journalistic fraternity.

Miller says "I am very proud to have Murray State for my Alma Mater. May she continue to break records, win titles, and make history."

Letcher Melton of Madisonville majored in music and minored in art to obtain his bachelor of music education degree. His activities at Murray were: college band, orchestra, chorus, Phi Mu Alpha, Portfolio Club, Vivace Club, Men's Music Club.

Melton has been elected as music supervisor in Grayville, Ill., for next year.

Mrs. Ruby Krider of Paris, Tenn., will be awarded her bachelor of arts degree, with a major in English, and minor in speech. She was a member of Alpha Psi Omega, Sock and Buskin, English Club, and Classical Club.

She said, "Murray, with its excellent facilities, its superior and most courteous faculty will always be dear to me." She will teach speech in Grove High School in Paris, Tenn., next year.

Zolon Clayton of Buchanan, Tenn., majored in commerce and mathematics and will receive his B.S. degree in the August class. Next year, he will teach in Henry County, Tenn.

When asked his opinion of Murray, he replied: "Murray State is a great college."

Miss Estelle Hayes Erwin of Murray took the required Smith-

Hughes work to obtain a bachelor of science degree in home economics. She was a member of the Household Arts Club here.

She stated "I have enjoyed my work at Murray College and will enjoy coming back in the future."

Carmie Hicks of Fulton, Ky., will be awarded his bachelor of science degree with an administrative certificate. He majored in mathematics and minored in social science and chemistry.

He belonged to the Math Club and Westminster Fellowship. Next year, he will teach math and coach at Sylvan Shade High School in Fulton County.

Of Murray, he said, "The best teacher's college in America!"

Miss Rovine Parks of Murray will receive a bachelor of science degree, in the August graduating class. She did the necessary Smith-Hughes work in home economics. She says "with the school growing as it is, I am indeed proud to have my degree from Murray."

She was president of Sock and Buskin Club, secretary of Alpha Psi Omega, reporter of Household Arts Club, member of Pep Club, and took part in numerous plays, including "Nora" of "The Doll's House."

Rex Lashlee of Buchanan, Tenn., majored in social science, with minors in chemistry and geography, and will receive his B.S. degree with Murray's August class. He was a member of the International Relations Club.

"It has been good to be in school at Murray State. May it grow in the future as it has in the past," is Mr. Lashlee's statement. He has been elected to teach in the Henry County school system next year.

Mrs. Mayrele Jones Clark came from Lynn Grove, Ky., to attain her bachelor of science degree in home economics. She will teach in Kirtsey High School next fall.

She was president of Household Arts Club in '38, and a member of the International Relations Club. She says, "Murray State means a lot to me. I am proud that I am a graduate of such an institution."

Sanders Brent Clayton of Hazel will receive a bachelor of science degree with a provisional high school certificate. He majored in mathematics with minors in commerce and physics.

He was a member of the Ag Club and Math Club. He states, "I think Murray is a good school, and one that is equipped to fill most needs of its students."

Miss Magdalene Kemper of Salem, Ky., will be awarded her B.S. degree, after majoring in social science and geography. She will teach school in Salem next fall.

At Murray, she was a member of the Wilsonian Society, Christian Association, Young Democrats Club, International Relations Club. She says, "I have enjoyed the last semester's work more than any other and know Murray College to be an outstanding institution in Kentucky."

Morris Brandon, an art major from Dover, Tenn., will receive his B.S. degree in August. He minored in agriculture and social science. At Murray, he was vice-president of the Portfolio Club, member of the Ag Club. Mr. Brandon says that Murray is a "swell school."

Milton Hamilton, of Union City, Tenn., graduate in the August class, has been elected to teach in Obion County, Tenn., for next year. He says that Murray State is "a great place for teacher-training."

He majored in social science and minored in geography and mathematics to obtain his B.S. degree.

Miss Mary Crice, who will be graduated in August, thinks Murray is "finest place in the world." Majoring in art and minoring in music, Miss Crice, whose home is in Bandana, Ky., will receive a B.S. degree.

She was a member of the Vivace Club, Portfolio Club, and Pep Club.

With a double major in social science and in English, Dallas Lancaster, of Dexter, Ky., is a candidate for the B.S. degree in August. He was a member of the International Relations Club and the English Club.

"Murray State," Lancaster says, "is a great contributing factor to the development of Western Kentucky's cultural level."

Miss Ruth Roberts of Puryear, Tenn., is a candidate for a B.S. degree in August, with a certificate in elementary training. Her activities were: English Club, Household Arts Club, Les Camarades Francais, Glee Club, A Capella Choir. Miss Roberts says "Murray is a grand school."

Miss Anita Ciprian of Murray will be granted her A.B. degree in August, with a major in art. She was a member of the Portfolio Art Club. "I have enjoyed my work at Murray State," Miss Ciprian stated.

Miss Eloise Kesterson of Paris, Tenn., majored in mathematics and minored in biology to receive her B.S. degree from Murray College in August. She will teach in Henry County, Tenn., next year.

With a major in commerce and minors in journalism and physical education, Miss Margaret Smith of Hickman is a candidate for a B.S. degree in August. She was a

member of the Kappa Pi journalism fraternity and the Physical Education Club. She plans to enter Vanderbilt in the fall to study law.

David A. Dickerson of Paducah will receive his B.S. degree in August. He has majored in chemistry and minored in physics and mathematics, and has been an active member of the Chemistry and Physics Clubs. He will be employed with the U. S. Engineering Department branch in Paducah after graduation. Mr. Dickerson believes that Murray State is "a great contribution to the welfare of western Kentucky."

Mrs. Charlene Walker Curd of Hazel will receive her B.S. degree in elementary education, in the August class. She was on the honor roll every year since she attended Murray.

Mrs. Vivian Rowland Parker of Paducah is among the graduates who will receive degrees in the August class. She majored in primary education, and has a minor in geography. She says, "I've always enjoyed coming to Murray College."

John W. Watson of Marion, Ky., majored and minored in commerce to attain the B.S. degree. He has been elected to teach commerce in Grenada, Miss., for next year, and will take up his duties there in September.

Watson commented, "With the new buildings, excellent faculty, and champion athletic teams, Murray State is fast becoming one of the outstanding colleges."

Miss Annie Katherine McElya, whose home is in Kevil, Ky., will receive her B.S. degree with administration and supervision certificate. She will teach social science in the Heath High School next year.

"I think Murray has a wonderful school atmosphere and I have thoroughly enjoyed my stay here," said Miss McElya.

Mrs. Cornelia Spiceland Kirks, of Bowling Green, Ky., is to receive the B.S. degree with a double major in mathematics and Latin. Mrs. Kirks, who will teach in Stewart County, Tenn., next year, declared: "I have attended college at two other institutions but think the school atmosphere around Murray State excels all others."

That college is four years of intensive learning and experimenting both socially and intellectually is the opinion of Miss Hazel Newton, of Gilbertville, graduate of this college with the August class of '38.

Miss Newton was an English major and minored in French. She will teach English in the Grand Rivers High School next year.

Usher Abell will be granted his bachelor of music education degree with the August graduates of Murray State. He is now in Gideon, Mo., where he is teaching music in the high school.

At Murray, he majored in violin. His activities included: band, orchestra, chorus, string quartet, Men's Music Club, Vivace Club, Portfolio Club, Phi Mu Alpha.

Miss Evelyn Abbott Brown of Dawson Springs has earned her A.B. degree by majoring in Latin and minoring in English and commerce. She was a member of Phi Beta Epsilon.

She is a teacher in Dawson Springs, and says of Murray State: "I'd rather be here than any place I know."

Miss Flossie May Alsmann of Mayfield took the elementary education course to be awarded her B.S. degree in the August class at Murray. Her comment on Murray was: "Murray State is beautiful and alive."

She has been reelected to teach at Lee School, Mayfield, next fall.

Miss Mary Charles Farris, of Murray, will receive her B.S. degree in home economics. Miss Farris, a graduate of Murray High School, has been a member of the Household Arts and Chemistry Clubs. She says: "I have enjoyed my work at Murray State College."

Miss Frances Puryear Covington, of Mayfield, a candidate for the B.S. degree, has attended Western and Peabody colleges in addition to Murray. She is a teacher in Mayfield. Of Murray she stated: "A pretty fine school."

O. T. Carroll, who has taught in Heath High School, will receive his B.S. degree. His home is West Paducah, Ky. He says: "If I had my college days to go over again, I would come back to Murray."

Miss Vida Cole will be awarded the B.S. degree. Her club affiliations: Allenian, Christian Association, and Marshall County Club. She makes her home in Benton and has taught in Marshall County. "Murray State," she stated, "is a college that anyone should be proud to graduate from."

John L. Boling, Alamo, Tenn., will receive the B.S. degree. He has been active in biology and chemistry and has been a member of the college band. He has accepted a position with the Ritz Hotel in Paducah. He described Murray as "the best College in the South."

Mrs. Marguerite Jones Terrell is a teacher in the Paducah city school system. A candidate for the B.S. degree, she has done teaching also in Calloway County. She was born near Hazel, Ky.

Training School

The Training School will be redecorated this summer, according to a notice from the business office. It is a gratifying improvement, according to the teachers of the Training School.

A faculty meeting was held at the Training School Friday, August 5. Prof. W. J. Caplinger, director, introduced materials recently purchased from the F. E. Compton Co.

Prof. C. M. Graham, principal, spent a part of the time outlining the program for next year, and also the details of the fall semester opening.

The new schedule will provide for commercial work, both typing and bookkeeping which have not been included in the schedule previously.

The other features are about the same.

That there will be a demand for second year Latin is doubtful.

Some time was spent in discussing plans for replenishing supplementary reading materials in the elementary school.

Mr. Graham explained the use of a new child accounting system which is being set up.

The record is a folder type, accumulative and permanent, and runs from the first grade throughout the high school.

The Training School has been carrying on some research work in connection with the child accounting system for a period of 2 years.

"It is far superior to anything which we have been able to find for the type of organization found in the Training School," said Mr. Graham.

Final examinations will begin Tuesday, August 16, to continue through Wednesday, according to Prof. C. M. Graham, principal.

Report cards for the high school students will be in the office Friday. "Please call for them by 4 o'clock," said Mr. Graham.

The elementary school closed Friday, August 12.

R. C. Garvin, who has been instrumental in the reading clinic of Peabody College, brought an Ophthalm-O-Graph and a Metron-O-Scope to the Training School Thursday, August 4.

The Ophthalm-O-Graph is an instrument for diagnosing eye moving and reading.

The Metron-O-Scope is for remedial work in the reading.

These are new instruments now finding their places in laboratory schools and in the better school systems in the country. They are the development of 40 and 50 years of research and are recommended for teaching of reading.

Many experiments verify the advantage of their use.

The library of the Training School has added two sets of Compton's Pictured Encyclopedias. All of the books for grown people have been mended and they have started mending the children's books, according to Miss Mamie Wirtnell, librarian.

The Training School students have disproved the theory that high school students have to be made to attend the study hall.

Although library requirements were suspended because of the hot weather at the Training School, the students are spending much of their time in the library.

COLTS!

"The Colts of the Training School have the best prospects for a good year that we have had since I have been here," says Prof. Clifton Thurman, basketball coach.

None of last year's players graduated and all of the boys are expected back this fall with more experience. Some players are coming from other schools.

James Haden Washer, a 6-foot forward from Kirtsey, has considered coming to the Training School this fall. He is the brother of Ned Washer, Murray's varsity center.

Washer, 15, is a sophomore, which means he would have three years to fight with the Colts, and probably take Ned's place when he starts to college.

"I like the Training School, and I think the teachers and students are friendly," said Washer.

Some of the boys who will come out are: Richard Armstrong, Ben Bogess, Bill Dunn, Gene Graham, Wade Graham, Oliver Hood, Tels Hopson, Billy Liptford, Wells Lovett, George Miller, Hugh Perdue, James Haden Washer.

The boys' physical education class under the direction of Ethridge McKel and Buddy Schuh went to Cairo, Ill., August 6. They played water polo, had swimming matches, 6-meter races, 100-meter races with Gene Bland's boys. Bland, a Murray College student, is in charge of the Cairo swimming pool this summer.

Ten students passed the life-saving test, which includes artificial respiration, methods of breaking holds, ways to bring drowning people out of the water, and how to approach the drowning person.

Mr. and Mrs. J. C. Maddox and little daughter of Lone Oak, Ky., were guests of Miss Helen Redford on Tuesday, August 9.

College Farm Produces 531 Bushels of Wheat on 40 Acres; Corn is Good

Brevities

Miss Mary Clark Carman had as her guests this week Miss Judith Ann Wilkerson of Knoxville, Tenn., and Miss Martha Rachel Vance of Clinton. Miss Wilkerson is a student at the University of Tennessee, and Miss Vance attends Western.

Mr. and Mrs. Victor Rohrer of Detroit visited on the Murray campus this week. Mr. Rohrer, who attended Murray State, now holds a responsible position with the Packard Motor Company.

Mrs. Charlie Cooper, of Columbia, Tenn., and Miss Mary Alice Burkhalter, of McKenzie, Tenn., friends and former classmates of Miss Margaret Campbell, critic teacher of social science, visited Miss Campbell last week.

Mr. and Mrs. C. L. Manning, Jr., of Clarksville, Miss., visited on the campus this week. He is a former student of Murray State College.

Mrs. Bautey J. Franklin and Miss Mattie Morton Franklin of Dawson Springs visited Miss Josephine Franklin in Wells Halls, August 8 and 9.

Miss Inda Lou Pryor, of Arlington, visited friends in the dormitory several days this week. She was a freshman in Murray State last year.

Miss Mary Elizabeth ("Bizzie") Abell of Barlow visited here August 7-9.

Mrs. Gladys Rollins and Miss Dorothy Maxberry of Wickliffe visited Miss Taylor Bess Rollins in Wells Hall from Sunday, August 7, until Tuesday.

The farm which Murray State recently purchased has just harvested and marketed a wheat crop which produced 531 bushels on 40 acres with an average of approximately 11 1-4 bushels per acre, according to Prof. A. Carman, head of the agriculture department.

"Forty acres of corn are in the making," said Mr. Carman, "and if the rains continue to come as they have, the corn will make an average of 40 bushels per acre, making a total of 1700 bushels at harvest time this fall."

Mr. Carman said the department also has 76 acres of good lespedeza and 10 acres of tobacco that is not damaged much by the wildfire that is sweeping the country.

"Lime and phosphate are to be put into the land in the near future," Mr. Carman said.

The board of regents has approved an NYA program to employ college students on the farm and the program has been sent to Washington for approval.

Loyd-Parham

Announcement has been made of the marriage of Miss Virginia Loyd, senior in Murray College, to Snoda K. Parham of Dresden, Tenn. The wedding took place January 14 at the Christian church parsonage in Paris, Tenn., with the Rev. Charles Thompson reading the ceremony.

Mrs. Parham, who is attending summer school here now, is majoring in English and social science. Mr. and Mrs. Parham will make their home in Dresden, Tenn.

Eyes and Ears Made To See and Hear!

In the winter of 1936-37 a mother brought her infant, eleven months old boy to me.

The child was blind, deaf, his skin was covered with sores, and it was having convulsions or epileptic fits in a severe form. Several physicians had been consulted including one baby specialist without any results and with one consoling thought, that her child would never see or hear.

After a series of efficient Chiropractic Adjustments the child was made to see and hear, the skin got well, and the convulsions stopped.

Today a strong, healthful child plays at home and gladdens the heart of a father and mother, a grandfather and two grandmothers.

A small vertebra, the Atlas, at the base of the skull had been thrown out of place in a so-called big hospital by a bungler, inefficient obstetrician at a worning big price, and this so-called big doctor denounces Ch
