Geyda Gives United States Fair Warning That Limit Is Nearing

Rose.—Priscilla Geyda, authoritative fashion editor, replied today with a warning that the American woman's height limit is nearing its finality. Commenting on the preposterously short hemlines seen today, Miss Geyda said:

"In my view, the hemline should not be allowed to fall too low, for it is necessary for the health and well-being of the wearer."

Donaldson and Caller Picked for Border Control

Denver, Colo.—John Donaldson, a recently appointed Border Patrol agent, was named by Senator Brown today to fill the vacancy left by the resignation of Caller. Donaldson, a former police officer, is well respected in the community. Senator Brown said:

"Mr. Donaldson's experience and dedication make him the ideal choice for this important position."
16 Years Ago

A first page story tells of the stirring development of Fulton High School, in reference to the beginning of the Commercial Department. This Department was in charge of Miss Elizabeth Hackett, who is receiving a warm and hearty welcome from the school community. The Fulton county fire department reported that it had a total of 76 runs during the year 1945, with a total loss of $1,000.

Dr. C. H. Warren, pastor of the Methodist Church, was the speaker this evening at the chapels exercises of Fulton High School. The Rotary Club, in its first meeting of the year, discussed plans for the coming year. Among the committee members were Mr. and Mrs. Ed Williams.

Russell Rudd returned to school in Christmas Week, after spending the holidays with his parents, Dr. and Mrs. R. T. Rudd.

A house built in the air

With most of Europe and a large part of India under Japanese control, the inscription of a noble Peace Prize for 1940 is apparent to everyone. Even the most ardent of the more militant peace lovers are beginning to realize that even though Neville Chamberlain had come to power in Britain in 1937, his foreign policy had undoubtedly have been designated. This year the failure of that policy is so conspicuous that war fears, not only in the fields of physics, chemistry, medicine and literature, are concerned by Swedish agencies. The Nobel Peace Prize was widely published and seen that it was at the grant of the Norwegian parliament, the Rotting.

The ironic part is that Nobel was the inadvertent dynamist, first of the "safe" explosives. The scientist was diluted into thinking that because of the tremendous havoc it could cause, would eliminate war. Instead, dynamite and the still more powerful explosives followed which it seared upon the military men of the world to add to war's " schizophrenia."

In 1935 a change was initiated to add the world's serious history. In that year the Peace Prize was conferred on Carl von Ossietzky, a German. At that time Hitler was already firmly established and was plotting his campaigns of aggression. Ossietzky himself was under Nazi surveillance and later languished in prison while Hitler intensified against the choice of the unloved recipent of the prize.

In 1938 the Nobel Peace Prize was awarded to the Nansen Interna
tional Office for Refugees at Geneva. It was to a single person and this love was restored by Hitler, whose per
cussion was recognized by the Rotting.

The World War destroyed the mirror.

In 1939 a change was initiated to add the world's serious history. In that year the Peace Prize was conferred on Carl von Ossietzky, a German. At that time Hitler was already firmly established and was plotting his campaigns of aggression. Ossietzky himself was under Nazi surveillance and later languished in prison while Hitler intensified against the choice of the unloved recipent of the prize.

However, the Nobel Peace Prize still stands as an apostle of a world which now seems even more improbable, even than ever. In all likelihood, it will be withiled for the war as it was during the World War—Mayfield Messenger.

May we remind you that always are at your ser
tice to assign your family gifts and then help you hang for many and every day for 15 days in this Christmas season.

COOL DAYS AND NIGHTS

September is gone and the days and nights grow cooler and shorter. Right now is the right time for storing your coal bins with some of our good coal. Then you'll be ready for winter.

We also offer complete Plumbing Service

Operating a business in Fulton is always a pleasure, for we have grown to know people, so intimately and well that we are always feel that we are living with warm friends. We have seen the young people grow up; we have served more than one generation, and we trust that we will be able to serve others yet to come.

As the year comes to a close we feel that it is fitting to express our sincere appreciation to the many who have helped us make our business what it is. Without these friendships life would be a dull affair; with them it is a happy and glorious adventure through all the days that come. To all we extend our best wishes for a

Texas Advises

Bite to Eat

Peas For Luck

Amarillo, Texas - Sheriff Bill Adams is so certain that black-eyed peas bring good luck if eaten on New Year's Day that he is offering a five dollar prize to the first person who can recite the first line of "The New Year's Day Hymn." The competition promises to be keen.

Vatican Guards

To Get New Guns

Muzzle-Loaders

Vatican City. - The Vatican's 2,000 men guard have been equipped with new guns, "To get new guns, as soon as they can be procured, the last century's past.

His reason was given by Vatican sources for replacing the obsolete modern rifles with an 1840 model of the muzzle-loader which Napoleon found effective.

The Pope had stated that his wish was to procure arms and equipment of antiquity.

Vatican Fighting

Muzzle-Loaders

Vatican City. - The Vatican's 2,000 man guard have been equipped with new guns, "To get new guns, as soon as they can be procured, the last century's past.

His reason was given by Vatican sources for replacing the obsolete modern rifles with an 1840 model of the muzzle-loader which Napoleon found effective.

The Popes had stated that his wish was to procure arms and equipment of antiquity.

but man was convinced that it could not be procured.

He said his guards were to have four (4) of the new model, and in the future will have 400 as soon as they can be procured.

O'Leary was appointed to command the Vatican's forces.

Yanks warned that "the new" gun is to be given "new" gun, as soon as they can be procured.

It is said the Pope has instructed his guards to make a thorough inspection of all their weapons.

It is expected that the new guns will be in use by the end of the year.

The Pope's instructions to his guards are:

1. The new guns will be used in all future actions.

2. The old guns will be kept for special occasions.

3. The guards will be trained to use both types of guns.

4. The guards will be allowed to choose which type of gun they prefer to use.

5. The guards will be given the new guns as soon as they can be procured.
