DISTINGUISHED CITIZEN DEAD.

Lebanon, June 19. — Ex-Governor Proctor Knott died Sunday evening at 6 o'clock. Proctor Knott had had a distinguished career. He served several terms in congress from Missouri and was attorney general of that state before returning to Kentucky, where he was elected governor on the democratic ticket.

He was born April 29, 1830, in Marion county, Ky., then Washington county. He was educated at Center college and after his admission to the bar, he began the practice of his profession at Memphis, Mo. He soon rose to a position of prominence politically in the new state and was elected to congress in 1850. In 1861 he was elected attorney general of Missouri, and in the later sixties was returned to congress. Then he returned to Kentucky and was elected governor of the state in 1883. He was delegate to the constitutional convention in 1891 and until 1901 was professor of civics and economics and dean of the law school of Center College. He also had a famous horse named after him.

Alternates—T. N. Smotherman, Harrison Evans.

Alternates—Lamar Wiggins, Frank Poyner.

to neglect liver trouble. Never do it. Take Dr. King's New Life Pills on the first sign of constipation, biliousness or inactive bowels and prevent violent indigestion, jaundice or gallstones. They regulate liver stomach and bowels and build up your health. Only 25c at Dale & Snodgrass field.

THE INITIATIVE & REFERENDUM.

These are old principles under new names. The Initiative means, in modern parlance, the right of the people by petition, ordinarily eight per cent of the voters, to initiate a law that the people want, which must be submitted to them at the next regular election. A majority of the voters may thus adopt the law for which the petition has been made. This is called direct legislation.

The referendum is the right of the people by a petition, usually five per cent to suspend any law passed by the legislature or city government and compel it to be submitted to the vote of the people at the next regular election.

The Recall is the right of the people by petition, usually twenty-five per cent in cities, to nominate a successor for an officer who proves to be crooked or unacceptable for any reason, the former officer can be a candidate, if he likes, but the people pass upon the question of his continuance in office. Usually the law is not applicable for a reasonable time, during which the official may become used to his office.

Ed Foster, the popular young manager of the Belvedere hotel, Second street and Broadway, has resigned after having charge of the hotel for 21 months and will locate in the west. His resignation will take effect immediately after a manager has been appointed to succeed him. Mr. Foster has made a capable manager, enterprising and courteous and has won the friendship of not only a large number of friends in Paducah but among the traveling public. His resignation is regretted but he has decided to return to Los Angeles, where he expects to locate permanently. His successor will be named in a few weeks. — Paducah Sun.

Cadiz Merchant Assigns.

Henry H. Garton, a hardware merchant at Cadiz, Trigg county has filed a petition in bankruptcy in the United States court. His liabilities are \$2,991.29 and his assets \$2,840.05. Garton had been in business at Cadiz for several years and was thought to be in a prosperous condition.

Glut of Week's News Stripped of Un-
Necessary Variations and Prepared
for Quick Consumption by
Busy People.

The federal grand jury investigation
of the lumber trust was practically
completed at Chicago, and it was re-
ported that a number of indictments,
both individual and against compa-
nies which are said to belong to the
trust, have been agreed upon.

Senator Nelson of Minnesota began
the debate on Canadian reciprocity in
the senate with a strong appeal
against the measure and criticized
President Taft for approving the
treaty. Senator Nelson declared that
the action of the president was "novel,
unusual and without precedent."

Making a direct demand for the
criminal prosecution of John D.
Rockefeller, Senator Pomeroy (D.),
Ohio, delivered a powerful arraignment
of Standard Oil and tobacco
trust magnates in the senate.

Fire supposed to have originated
from the spark of a locomotive in the
rear of the Huttig Sash and Door
company's plant completely wiped out
eight acres of lumber, warehouses and
factory property, in St. Louis, involv-
ing a loss of \$1,000,000.

The seamen's strike was formally
declared at London, Glasgow, Liver-
pool, Cardiff, Bristol, Southampton and
other British ports. The chances of
any great international strike being
declared seem remote.

James Gayley, former vice-president
of the United States Steel corporation,
took the stand for the fourth time
before the Stanley committee investi-
gating the Steel trust, and members
of the committee immediately re-
sumed their questions regarding the
agreement as to a price of \$23 on steel
rails.

Mrs. Ford testifies in the Cooke em-
bezzlement case at Cincinnati that she
got \$20,000 from Cooke, who told
her it came from the "Big Four."

The sentence of Luther Berry, who
was to have been hanged at Spring-
field, Ill., for the murder of Bessie
Smith, alias Elizabeth Hadden, August
23, 1910, was commuted to life im-
prisonment by Governor Denen, who
will go to the Chester penitentiary.

Directors of the Continental and
Commercial National bank and the
Hibernian Banking association ac-
cepted the plans for a consolidation
of the two big financial institutions.
The total assets of the new concern
will be \$265,000,000; making it the
second largest bank in the United
States. The Hibernian has \$20,000,000
in assets and the Continental \$245,
000,000.

Loyds is carrying heavy insurance
against rain on coronation day and
the following day at London. Twenty
guineas per cent is paid to cover a
total loss in the event rainfall exceeds
one-fifth of an inch any time during
the 24 hours.

Subpoenas for a number of promi-
nent men to testify in the new Lor-
mer investigation have been issued
and a special officer from the office
of the senate sergeant-at-arms has been
detained to serve them.

Equipped with search warrants and
shotguns, Attorney General Dawson of
Kansas, with seven federal policemen
of Topeka, invaded Cherokee country
to raid the joints in Columbia. Judge
Charles Sapp of the district court
halted the attorney general and told
him only citizens of the county could
enforce the prohibition law.

Her features marred, her eyes
burned out and her body scarred, Mrs.
Franklin Delano, of Chicago, 23 years
old, pretty Hungarian widow, is dy-
ing, while Mrs. Elmer Morcholtz, 32,
is a prisoner, charged with throwing
a quart of vinegar over her.

Proceedings in Governor Denen's
special deep waterway session of the
Illinois legislature show the executive
must make the "right of his life" to
pass his measure through the lower
branch of the assembly.

Criminal and civil action against
the Harvester trust will be begun as
soon as the evidence now in the
hands of Senator Kenyon is put in
shape. The investigation was started
more than a year ago, when the man
who is now junior senator from Iowa
was special government prosecutor.

Removal of two feet of earth in the
park at the house of Mrs. Anna Mer-
rell of Parsons, Va., led to the dis-
covery of a crime which has stirred
the social set and promises sensational
developments. Beneath the
floor, was found the body of an in-
fant child.

The second division of the United
States Marine Corps, under command
of Major Adolphus W. Cronquist, from
St. Louis, Mo., arrived at the
States marshal at Des Moines and
gave themselves up. They are wanted
on a charge of using the mails to de-
fray.

The plant of the Albany Chemical
company was destroyed by fire. It
was at first reported that 20 persons
had been killed, but officials of the
company were unable to account for
only six of the employees.

At Senator Lorimer's request, the
senate committee investigating the
bribery charges affecting him, post-
poned the date for the first hear-
ing from next Monday to Thursday,
June 22.

Talk of a compromise on the water-
way bill vanished as the different
members poured into the capital for
the special session of the forty-sev-
enth general assembly, which was
called by Gov. Deneen.

The steamer John Lowry, with 50
excursionists on board, had to be
water's edge at Hamlet, Ill., op-
erated Smithland, Ky. Loss of life
not definitely known.

C. S. Keith, president of the Gen-
eral Coal and Coke company, Kansas
City, in the state lumber trust inquiry,
testified that the cost of yellow pine
production since 1897 had increased
88 per cent, while the selling price had
increased only 78 per cent.

The important development in the
general shipping strike was the con-
cession of an advance of \$2.50 a
month in wages to employees of the
White Star company and the Cana-
dian Pacific railway. This example
was followed later by the Holt and
another line in Liverpool.

The house committee investigating
the sugar trust turned down a re-
quest transmitted by Senator Smoot
that Joseph P. Smith, head of the
Mormon church, be excused from tes-
tifying before the committee.

The Kansas supreme court, at To-
peka, handed down a decision in the
state's suit against three subsidiary
companies of the Standard Oil com-
pany of New Jersey, prohibiting them
from combining to stifle competition.

George W. Chapman, a young
man, went to the "Devil's racetrack,"
Big Horn, ten miles south of Sheri-
dan, Wyo., shot his sweetheart, Miss
Amelia M. Hale, whose uncle is
manager of the ranch. He then went
to the home of C. C. Vance, his rival
in the girl's affections, and shot him
through the stomach.

Three important causes will be
held in congress this week. The sen-
ate Democrats will decide their
course on the Canadian reciprocity
agreement. The House Republicans
will map their policy toward the Tin-
derwood wool bill. The House Democ-
rats will take up the question of
adding in minor particulars to their
legislative program.

A storm of cyclonic force left a
trail of death and ruin on the lower
Virginia peninsula. Conservative es-
timates place the dead at 15 and the
property damage at about \$100,000.

Former President Venustiano Car-
rillo, who has not been in public view
for several months, is reported as be-
ing on his way back to his native land.
Concurrent reports also mention the
prospects of political rebellion in that
country.

Many of the capital city's prettiest
women met the Missouri Press asso-
ciation's special when it arrived at
Jefferson City and decorated the edi-
tors with flowers. A number of pub-
lishers joined the party at that place.

to put down the uprising of Mexican
liberals in Lower California.

A storm of cyclonic force left a
trail of death and ruin on the lower
Virginia peninsula. Conservative es-
timates place the dead at 15 and the
property damage at about \$100,000.

Former President Venustiano Car-
rillo, who has not been in public view
for several months, is reported as be-
ing on his way back to his native land.
Concurrent reports also mention the
prospects of political rebellion in that
country.

Many of the capital city's prettiest
women met the Missouri Press asso-
ciation's special when it arrived at
Jefferson City and decorated the edi-
tors with flowers. A number of pub-
lishers joined the party at that place.

The sugar trust investigation by
the house special committee was begun
in earnest when seven leading sugar
officials, past or present, were sum-
moned by telegraph to testify before
the committee.

Removal of two feet of earth in the
park at the house of Mrs. Anna Mer-
rell of Parsons, Va., led to the dis-
covery of a crime which has stirred
the social set and promises sensational
developments. Beneath the
floor, was found the body of an in-
fant child.

The second division of the United
States Marine Corps, under command
of Major Adolphus W. Cronquist, from
St. Louis, Mo., arrived at the
States marshal at Des Moines and
gave themselves up. They are wanted
on a charge of using the mails to de-
fray.

Court of Appeals.

In the court of appeals a decision
was handed down holding that a show
up is not entitled to fees for attending
sessions of the quarterly court, and
that the sheriff and not the county
pay for printing tax receipts,
books and county claim books. The
decision was given in the case of
Graves county against Wallace, sher-
iff, from the Graves circuit court.

The court held the law of the state
of school bonds for the Cadiz graded
school as valid. The decision was
given in the case of McKinney against
the board of trustees of the Cadiz
graded school, on appeal from Trigg
county. The court says the election
was valid even if two similar elec-
tions were held in the same year.
The court further says that if the
bond issue voted on was larger in
amount than authorized by the consti-
tution, that fact would not affect the
validity of the election, as the trust-
ees can issue only bonds in the
amount within the constitutional limit.

Flowers Given to Convicts.
Every convict in the Frankfort peni-
tentiary was given a rose or some
pretty flower, and exercises of a semi-
religious nature were held during the
day. It was Flower Mission day at
the prison and the convicts were given
a full holiday, no work being done
in any of the shops.

Susan M. Warner, of Louisville, origi-
nated the idea of Flower Mission day
at the prison and for many years one
day in the year has been set apart for
the distribution of flowers among the
prisoners. The convicts showed sur-
prising sentiment and seemed to ap-
preciate the flowers which afforded a
bit of color in their dull routine of
life.

Call on Banks for Statement.
Secretary of State Bruce issued a
call for a report from all the state
banks as of June 1st, and notices were
mailed. The comptroller of the cur-
rency at Washington has issued a call
for reports from all the national banks
for June 1st, and every state bank in
the union will also issue a call for re-
ports from the state banks on that
date. This united action in calling
for reports from all the banks in the
United States as of the same date, has
been taken after conference with the
comptroller and this will be done once
a year hereafter. In this way the ex-
act amount of money on deposit in the
United States can be obtained with
absolute accuracy.

On the Glorious Fourth.
The executive committee in charge
of the Fourth of July picnic to be
given by the Knights of Columbus held
a meeting to take the first steps in ar-
ranging plans. Mrs. C. E. Collins was
appointed chairman of the ladies gen-
eral committee and she will name a
number of sub-committees.

Arrangements have been made for
splendid music and a number of re-
fined and entertaining amusements. It
is believed this will be the most com-
plete and enjoyable picnic ever given
in Frankfort, as nothing will be over-
looked that will add anything to the
pleasures of the day. Two or three
fine speakers have promised to be
present.

Holt Will Case.
The special term of the Franklin
circuit court, at which the famous Holt
will case will be tried, will be presided
over by Judge L. P. Feyer, of Barker.
This case has been tried once, but
the jury could not agree on a verdict.
James Holt, resident of this county,
died leaving most of his property to
the Masonic lodge of Jeffersonville,
Ind., to be used for the comforts of
orphans of Masons.

His relatives were cut out of the

Judge Jones Presides.
Judge Samuel Jones, of Glasgow,
has been appointed special justice to
preside over the remaining term of
the Hardin circuit court by Gov. Wil-
son. Special Judge T. E. Barhead
will preside over the term of the
Hardin circuit court at Glasgow, Ky.,
in order to provide for the county
circuit court. Judge Weed S.
Chelf, the presiding judge of this dis-
trict, who has been ill for some time,
is unable to preside at the present
term.

Dr. T. J. Cree was appointed first
assistant and Dr. M. R. Davidson,
third assistant superintendent of the
Lakeland asylum, at a meeting of the
board of control. The board decided
to raise the salary of Dr. Cree to
\$2,500 in advance of the uniform wage
scale agreed upon some time ago.
This will take effect July 1.

Orders have been issued by the ad-
jutant general for the mustering in
of a new company of the Kentucky
State guard at Pineville. The com-
pany is to be composed of good men
and it is expected to make a good
showing at the state encampment, as
it has some fine rifle shots among the
recruits.

Todd's Report.
On account of the demand for the
report of McKenzie R. Todd, state
inspector and examiner, in which he
discusses the condition of the office
of County School Superintendents,
Prof. William Regenstein, Superin-
tendent of Public Instruction, is say-

port, which will be sent over the state
mail.

PROFITS MADE IN
SUGAR TRUST DEAL

OXNARD BROTHERS OF BROOK-
LYN CLEAN UP \$500,000 IN
ONE NIGHT

FORCED TO SELL OUT

H. T. Oxnard Studied Methods in
Europe and Afterwards Ap-
plied Them Against
the Trust.

Washington, D. C. Half a mil-
lion dollars' profit was realized by
the Oxnard brothers, who, after
night when they put their Brooklyn
sugar refinery, valued at \$2,000,000 into
the Sugar trust of 1887, according to
the testimony of Henry T. Oxnard,
vice-president of the American-Hook
Sugar company, before the house in-
vestigating committee. Had the Ox-
nards held their trust certificates
until today, the witness said, the deal
would have netted them \$500,000, be-
sides the dividends on the certificates.
They sold the certificates two years
after they received them for \$250,000.

"We were rather glad to sell out,"
said Oxnard. "Cutthroat competition
existed in those days, and unless the
best sugar business turned out as we
thought it would, it was a little doubt-
ful about our keeping going."

Plant Worth \$200,000.
The witness said the capitalization
of the Brooklyn factory was only
\$100,000, but that the plant was worth
\$200,000.

"You would have been satisfied to
get out what you had put into it,
wouldn't you?" inquired Chairman
Hardwick.

"Well, I don't know," was the re-
sponse. "On this little transaction you
cleaned up half a million. Now, how much
water was in the other deals? How
much did Captain Thomas make?"

"I do not know," was the response.
"I do not know," was the response.
"I do not know," was the response.

"Why?"
"They wanted the name," said Ox-
nard. "They really bought out the Ox-
nard brothers."

He said he did not stay with the
trust, but went abroad and, after
studying the best sugar industry in
Europe, returned to America to en-
gage in that business in earnest op-
position to the trust.

SENATE MUST VOTE AGAIN

Gristow Amendment Will Be Rejected
and Resolution Sent Back, Thus
Forcing Reconsideration

Washington, D. C.—Speaker Champ
Clark and Floor Leader Underwood
decided upon a policy which will com-
pel the senate to take another vote
upon the Gristow amendment to the
direct elections resolution.

Prospects are excellent that the sen-
ate, which adopted the amendment
only after Vice President Sherman
had broken a tie, will reverse itself.

Members Clark and Underwood found
sentiment among the house Democrats
is overwhelmingly against the Gristow
amendment. This feeling is intensified
by the growing certainty that the
amendment, if accepted, in the end
must cause the defeat of the long
sought for reform in the method of
electing United States senators.

Aid Sent to Lake Boat.
Cleveland, O.—Wireless telegraphy
was successfully used by a steamer in
the distress on the Great Lakes for the
first time when the "Cleveland" Western
States, with a thousand on board,
summoned the City of Cleve-
land and transferred to the latter
boat 225 passengers.

St. Louis River Freight.
St. Louis, Mo. The Agent of the
St. Louis and North Western
that has reached St. Louis from New
Orleans since the old day of river
traffic arrived on the steel large Ed-
ward H. Green. The boat is loaded
with 50 carloads of sugar, consisting
of 2,500 barrels and 2,500 sacks.

Stop Monarchist Arms.
Villavieja, Spain.—Advices from
Portoviedra state that the Spanish au-
thorities stopped and seized at the
railroad station there two cars filled
with arms and ammunition destined
for the use of Portuguese monarch-
ists.

Woman Killed as Horse Throws Her.
Evansville, Ind.—While riding near
Evansville, Mrs. Margaret Cunningham
was thrown upon the tracks of the
Louisville and Nashville railroad and
instantly killed by a train at which
the horse became frightened.

A Baby If Wanted.
Wilmington, Del.—Samuel, a
week-old baby, as defendant, John
Bancroft, Jr., son of John Bancroft &
Sons, textile manufacturers, has filed
suit here for divorce from Maudie
Dugan, Bancroft.

Harshing Man Harshing.
Harrisburg, Ill.—Here, even an in-
nocent man, said Alex. King, con-
fessed murderer of John Mitchell, just
fore he was hanged here by Sheriff
Mahan. King said he was pre-
pared to die.

The Kaiser Likes the Bible.

The Kaiser is a great reader, and
while he tries to keep himself abreast
of current events, his favorite book is
the Bible, says the London Chronicle.
A well-thumbed and marked copy is
always by his bedside. When Mr.
Roosevelt visited Berlin last year, the
Kaiser made him a present of a num-
ber of books. About half of them re-
ferred to theology and the others to
military subjects. These two classes
indicate the Kaiser's two passions.

FREED FROM SKIN DISEASE

"Our boy was born in Toronto on
Oct. 15, 1908, and when three months
old a slight rash appeared on his
cheek. What appeared to be a water
blister would form. When it
broke, matter would run out, starting
new blisters until his entire face,
head and shoulders were a mass of
scabs and you could not see a par-
ticle of clear skin. Other parts of
his body were affected, but not to
such an extent. We tried about every
remedy without avail, in-
deed some of them only added to his
suffering and one in particular, the
remedy almost put the infant
into convulsions. The family doctor
prescribed for him and told us to
bathe the baby in buttermilk. This
did not do any good, so we took him
to a hospital. He was treated as an
outpatient twice a week and he got
worse, if anything. We then called
in another doctor and inside of a
week the boy was, to all appearances,
dying and the doctor said his work
was done. But the very next day it
broke out as bad as ever.

"We decided that it could not be
cured and must run its course and so
we just kept his hands bandaged to
his side to prevent his tearing his
flesh. We left Toronto and shortly
after our arrival in Duluth, the Cui-
cua Remedies were recommended.
We started using them in May, 1909,
and soon the cure was complete. You
would not think he was the same
child for Cui-cua made his skin per-
fectly clear and he is entirely free
from the skin disease. There has
been no return this year. We still
use only Cui-cua Soap for baby's
bath. Robert Mann, Pro

RECIPROCITY PACT SAFE IN SENATE

CHAIRMAN PENROSE IN CHARGE
EXPECTS AGREEMENT ON
EARLY DATE FOR VOTE.

AGAINST ROOT AMENDMENT

Poll Shows Over Fifty Votes Against
Proposed Change While Forty-
six Will Insure Its
Defeat.

Washington, June 19.—A careful canvass of the senate shows that 60 senators—two-thirds—are in favor of the reciprocity measure. The canvass also shows that more than that number are against the Root amendment. This formal statement is made by Senator Penrose, chairman of the finance committee, and in charge of the Canadian reciprocity agreement on the floor. He added:

"We shall make rapid progress on the reciprocity bill within the next two weeks and at the end of that time we ought to see a date for a vote."

The following careful poll shows the Root amendment to be certain of defeat:

For the Root amendment—Bulley, Clark of Wyoming, Crane, Dillingham, Dixon, Du Pont, Frye, Gallinger, Griggs, Heyburn, Johnson, Jones, La Follette, Lodge, Lorimer, McCumber, Martin, Nelson, Oliver, Simmons, Smith of Michigan, Sutherland and Warren; total, 25.

Against the Root amendment—Hatch, Borah, Bradley, Brandegee, Bridges, Brown, Bryan, Burnham, Burton, Cullum, Cummins, Davis, Fletcher, Gamble, Gore, Guggenheim, Hitchcock, Johnston, Kenyon, Kern, Lea, McLean, Martine, Myers, Nixon, O'Gorman, Overman, Owen, Penrose, Percy, Perkins, Poinsett, Potlatch, Rainer, Reed, Richardson, Shively, Smith of South Carolina, Stephenson, Stone, Swanson, Taylor, Terrell, Townsend, Watson, Williams and Works; total, 35.

Noncommittal—Bankhead, Bourne, Hristov, Chapp, Clarke of Arkansas, Curtis, Foster, Lippitt, Newlands, Pace, Paynter, Thornton and Wetmore; total, 13.

Absent—Smith of Maryland and Tillman; total, 2.

Necessary to defeat Root amendment, 16.

RUSSIA-BAPTISTS ASK AID

Delegates to Convention Tell of Persecution and Ask Aid to Intercede.

Philadelphia, Pa., June 19.—President Taft is asked to intercede for the Baptists in Russia in a resolution adopted by the Northern Baptist Convention. Widespread interest has been aroused among the delegates by the accounts of persecutions told by members of the delegation from that country and it is hoped to win greater freedom for Russian Baptists.

The following officers were elected for next year:

President, Rev. Emory W. Hunt of Ohio; vice-presidents, Rev. Harry Bond of Massachusetts and Rev. Fred Drast of Oklahoma; corresponding secretary, Rev. William Hitting of Missouri; recording secretary, Rev. J. H. Franklin of Colorado; treasurer, Rev. William E. Lincoln of Pennsylvania.

OIL TRUST SUIT IS FILED

Kansas Action Follows Decision of Supreme Court—Other Cases to Follow.

Abilene, Kas., June 19.—Suits against the Standard Oil company of Indiana, the Oil and Gas company and other associated companies, alleging agreements and conspiracies in violation of free competition, were filed by Attorney General Dawson and County Attorney Rugh.

It charges that business was done September 1, 1909, same 1910, July 1, August 1, September 1, 1910, two counts, on which penalty is fine of \$100,000 and attorneys' fees are asked under the laws of Kansas. State Oil Inspector Longshore and local inspectors are named as witnesses. The petition is a printed form and is to be filed in many counties of the state.

INDICTMENT FOR BURNS

Marion County (Ind.) Holds Detective as Kidnaping in McNamara Dynamiting Case.

Indianapolis, June 19.—The Marion county grand jury returned eight indictments in connection with the kidnaping and dynamite charges in the McNamara case.

John J. McNamara was indicted in connection with the dynamiting case. Detective Burns was indicted for kidnaping.

MISSOURI RATES ADVANCED

Washington, June 19.—Following an investigation, the interstate commerce commission permitted an advance of 2 cents in freight rates on live stock from Kansas City to St. Louis and other Mississippi river crossings.

DIAS TAKES GLOOMY VIEW

FORMER CHIEF SEES DISRUPTION OF GOVERNMENT.
Exile in Spain, Declares He Will Not Return to Mexico Unless Country Calls.

New York, June 19.—A cablegram from Vigo, Spain, to the American, quotes former President Porfirio Diaz, who arrived there Friday, as saying:

"I have never seen Mexico unless my country calls me to her aid because of war with some foreign nation. My day is done; my sun is set. I am an old, old man. I have been here for those I trusted most. All my troubles have come from those I helped."

"The result of the Madero regime will be chaos and disorder, the disruption of government, the dissatisfaction of the people. I did not run away from my people, but escaped the hands of ambitious assassins. Here I am, my Mexico now in the hands of mountebanks, and I never will return."

"Of course, in a way, I saw this impending trouble. By strenuous means I might have held my government together, but with a majority of the people dissatisfied, endless outbreaks would surely have brought upon us the intervention of some other nation."

"That would have been repugnant to me. I am far better satisfied to be the retiring president of the Mexican Republic than to be the tool and plaything of an alien and unsympathetic power."

"Before the last election I begged that a younger man be placed in nomination for the presidency. I felt I had done my duty during thirty years I had served as chief executive of my nation. I was ready and willing to retire, but the people would not hear of such a thing."

LOCKS OFFICIAL IN VAULT

Kansas Bandit Gets \$2,000 While People Are in Building and Sheriff Next Door.

Lawrence, Kas., June 19.—A bandit robbed the county treasurer's office in the courthouse here and got away with \$2,000 in cash, after locking the sheriff in the vault.

Several persons were in the court house at the time, and the sheriff was on his porch next door. But none of them knew of the robbery until a half hour later, when attracted by his cries, they found the sheriff in the vault.

The vault is air tight, and Eddy soon found breathing difficult. When repeated calls failed to bring assistance he groped around in the dark and found a revolver.

Several shots from this against the steel ceiling caused the sheriff to make a search through the court house, and Eddy's plight was discovered.

The sheriff has not the faintest clue.

FARM WOMEN IN CONGRESS

First International Meeting of Farm Women Will Convene at Colorado Springs.

Denver, June 19.—The first international congress of farm women will be held the week of October 10 in Colorado Springs simultaneously with the sixth international dry farming congress.

The Colorado board of control of the dry farming congress conferred with the governor, asking his cooperation in soliciting the aid of the farmers throughout the state in gathering a big exhibit for the coming congress.

The call for the congress of farm women is the direct outcome of the Roosevelt movement to create a new interest in the "back to the farm" in the United States.

For the first time women are to be recognized as an important factor in the farm life of the country. Advocates of farm life for the masses have concluded that women can make or mar the popularity of the home on a farm.

BURNED WITH GASOLINE

Woman Fatally Injured Who Lights Match in Gas Filled Room.

St. Louis, June 19.—Mrs. Kate Turner, wife of Fred G. Turner, president of the Turner-Simpson company, East St. Louis, probably was fatally burned while cleaning her bedroom with gasoline.

Mrs. Turner had finished saturating the beds with gasoline, and the atmosphere was still filled with the vapor, when she lighted a match to set fire to a pan of sulphur to fumigate the room. Instantly there was an explosion, and Mrs. Turner, who was clad in a light house wrapper, was enveloped in flame.

Mrs. Turner was taken to St. Mary's hospital, where it was said she inhaled the flames, and her recovery was doubtful.

MISSOURI RATES ADVANCED

Washington, June 19.—Following an investigation, the interstate commerce commission permitted an advance of 2 cents in freight rates on live stock from Kansas City to St. Louis and other Mississippi river crossings.

Uncle Sam—Why Don't They Look Around a Bit?

WATERWAY BILL VERY UNCERTAIN

DEFERRED ACTION IN ILLINOIS HOUSE MAY RESULT FATEFULLY TO DENEEN MEASURE.

Springfield, Ill., June 18.—The lower house of the state legislature will not pass the waterway bill until after July 1, thereby seriously interfering with the enactment of a law this year, in the opinion of Speaker Adkins.

The bill is passed before July 1. It could not become a law until July 1, 1912, and this delay, according to the views held by Gov. Deneen, would be fatal to the aims of the bill, which seeks to authorize the acquisition by the state of valuable water power sites.

Speaker Adkins said that on next Wednesday and Thursday the house would meet in committee of the whole, at which time there would be prominent engineering experts and others on hand to address the legislature on the waterway project. It is possible these hearings will extend into the following week and this would bring the house question before the house June 28. No meeting of the waterways committee, of which the bill was referred by Speaker Adkins last Wednesday, has been called, and it now looks like an almost certain that the bill will not reach a vote in the house before July 1.

DENEEN IN LORIMER CASE

Illinois Governor, Together With Richard Yates, Will Go Before Committee.

Springfield, Ill., June 19.—Governor Deneen and former Governor Richard Yates, with several legislators, will leave here early next week for Washington to testify before the United States senate committee which is investigating the charges that William Lorimer obtained his seat in that body by bribery.

Mr. Yates is eager to testify, he says, and his testimony is regarded as being particularly important. He hinted that the testimony might be productive of an explosion in Illinois Republican circles.

Sea Strike Growing.

London, June 19.—The steamer and the Atlantic Transport line was unable to sail because of the seamen's strike.

A number of other vessels are held at their docks. The strike presents a more serious situation than on any other day since it began.

Although as yet the strike can not be called general, the union leaders are hopeful of gradually extending it. Several hundreds were added to the strikers' rolls.

At Liverpool substantial concessions have been made by the ship companies, although it was necessary to import large numbers of seamen for the boats in the Mersey.

The situation at Greenock is serious. The Parnassia, Ionian and Cassandra, all due to sail, were without crews.

New Professor for Dartmouth.

Hanover, N. H., June 19.—Dr. Carl H. Page, professor of English literature in Northwestern university, will come to Dartmouth next fall as professor of English literature.

SCHWAB BACKS UP GATES

WHO WANTS NO CONTROVERSY WITH CARNEGIE.

Schwab Confirms Midnight Meeting Between Morgan, Gates and Him self on Carnegie Company.

London, June 19.—The laird of Skibo is an old man and I don't care to become involved in a controversy with him. If he were a man of my age and strength I might answer his attack.

This was the only reply that John W. Gates would make to the statement attributed to Andrew Carnegie, in an interview he gave at Skibo, in which he said:

"This man Gates is a broken-down gambler. I have nothing to do with him."

A part of Gates' testimony before the Stanley steel trust investigating committee has been substantiated by Charles M. Schwab, who has just arrived in London. He confirmed the midnight meeting between Morgan, Gates and himself, at which plans were discussed for taking over the Carnegie company.

BAPTIST WORLD ALLIANCE

International Meeting Opens at Philadelphia With John Clifford of England in Chair.

Philadelphia, Pa., June 19.—The opening session of the Baptist World Alliance was held this afternoon, a great number of members of that church from many countries being present. President John Clifford of England was in the chair and the devotional service was conducted by Edward J. Jones of New York. Augustus Strong of Rochester, New York, made the welcoming address, and F. W. Patterson of Canada also was on the program. The sessions will continue through next Sunday and on Monday the Baptists will have an excursion to Washington.

This morning the general convention was held, the chief speakers being Prof. J. T. Henderson of Virginia for the southern Baptists, W. J. Moore of Toronto, for the Canadian Baptists, and Dr. W. T. Stachhouse of New York for those of the north.

Sonder Yachts of Several Countries Start in Big International Regatta at Kiel, Germany.

Kiel, Germany, June 19.—In the presence of Emperor William, Prince Henry of Prussia and a great throng of yachting enthusiasts from all western Europe and America, the international sonder regatta for the Kaiser's cup began today. There is a large number of contestants, representing several countries, and the race is certain to be close. From America have come the yachts Babelot, Beaver and Cima, and they are expected to make a good showing. The Yankees have won two of the three regattas, but were defeated here in 1907.

BOY BANDITS ROB TRAIN

Clerks Held Up at Point of Revolvers. Mail Sacks Looted Near Portland, Oregon.

Portland, Ore., June 19.—Two posers are securing the country between Drain and Yacalla, searching for two youths who burst into the mail car of the Shasta limited on the Southern Pacific railroad, held up the clerks at the point of revolvers, looted mail sacks and escaped by stopping the train at Yacalla.

Although the two robbers brandished three revolvers, not a shot was fired. The mail clerks were helpless, as one robber kept them covered while the other tore open the mail sacks and rifled their contents.

It is not known how much booty the desperadoes got.

The train neared Yacalla, one of them pulled the emergency signal and the train stopped. They leaped out of the mail car and disappeared down a village street.

The mail car was the only one disturbed. The conductor is certain the mail clerks were helpless, and believes they crawled across the roofs of coaches to reach the mail car.

WILL BOOST IRRIGATION

Guatemala Will Be Represented at the Coming Meeting of the National Irrigation Congress.

Chicago, June 19.—The Republic of Guatemala will be represented by an official delegate at the nineteenth session of the National Irrigation Congress here, December 5 to 9.

Dr. E. McQueen-Gray, president of the University of New Mexico, Albuquerque, and foreign secretary of the National Irrigation congress, has received a letter from Senor M. Estrada, president of the Republic of Guatemala, in which the South American official commends the work of the American development organization, and advises that he has given instructions that his country be officially represented at the nineteenth meeting of the congress.

ONE KILLED; TWENTY HURT

Ottawa, Ont., June 19.—One person was killed and twenty others seriously injured when a Grand Trunk train was wrecked near New Castle, Ont. On board the train were sixty delegates to a convention in St. Paul, Minn., who were on their way to that city from Toronto and other Massachusetts towns.

WILL APPEAR BEFORE THE COMMITTEE—CALLS GATES BROKEN-DOWN GAMBLER.

HE HITS AT CORONATION

Denounces Ceremonies as Foolish Display and Sinful Waste of Money and Time—Expects International Union.

Edinburgh, June 19.—Andrew Carnegie, in an interview at Skibo castle, declared his intention of appearing before the congressional committee investigating the steel trust and telling the real story of his own connection with the formation of the United States Steel corporation, and added:

"When I have finished, the public may then judge for itself whether I or this man Gates has told the truth. This man Gates is a broken-down gambler. I have nothing to do with him."

Never Owned a Share.

Regarding the statement that he sold out to the steel trust, he said: "I sold out to Mr. Morgan simply because I wanted to get out of business. I never owned a share of steel trust stock."

Turning to the subject of the coronation, the ironmaster said:

"The coronation is all a gigantic farce, a sinful waste of money. I don't know if there will ever be another coronation, but I don't believe England will ever stand for another foolish display such as this."

"This is not criticism of the royal family," he hastened to explain.

"George will make an excellent king as his father. He will wield a great influence for good and will be thoroughly in sympathy with the architects of the new empire. As for Queen Mary, it is a long time since England has had so noble a woman and mother as she. She never paints nor smokes, and her love for her children is an object lesson for the whole world."

Calls Attention to Flag.

As the correspondent was about to take his leave, the ironmaster called attention to the flag floating from the topmast turret of his castle.

"That shows what is coming, and it is coming before I die," he said.

The flag was so made that one side showed the Union Jack of Great Britain and the other the Stars and Stripes of the United States, embracing each other in the breeze.

BOY KILLS HIS BROTHER

Youngster Who Shot Did Not Know Gun Was Loaded—All in Play.

St. Louis, June 19.—Hiding behind a rose bush in the front yard of his father's home at New Meilla, St. Charles county, Mo., little Theodore Roosevelt Saylor, 5 years old, played that he was a rabbit.

His brother Otto, 6 years old, was the hunter, and carrying his father's shotgun the older boy stalked around the yard making believe he did not know where Theodore was hiding.

Finally he stopped at the right rose bush and Teddy, like a real rabbit, bounded away, holding his hands beside his head and waving them back and forth in imitation of a rabbit's ears.

The older boy shot, the charge striking his brother, who died soon afterward.

AMMONIA STOPS RUNAWAY

Syracuse Chemist Saves Children by Blinding Horse's Eyes With Drug.

Yonkers, N. Y., June 19.—Professor Charles Edgar Roake of Syracuse university turned his knowledge of chemistry to practical account in unusual fashion. He was walking on Jerome boulevard, when he saw a runaway horse approaching. Two screaming children were in peril in the cart which the horse dragged along.

The professor happened to have in his pocket a package of an ammonia compound with which he had been experimenting. He threw a handful in front of the horse's eyes as it came opposite him and the blinded animal stopped as if shot. Then, while a bystander held the horse, he stepped to a hydrant and prepared a solution of another character. With this he washed the horse's eyes in time to save its sight.

KILLS HIMSELF IN PARK

Bridegroom of Five Months Suicides at Third Effort Made in Attempt.

St. Louis, June 19.—John Francis Fabey, a bridegroom of five months, committed suicide in Forest park by swallowing carbolic acid, after two futile attempts on the preceding nights in the same place.

Fabey, who disappeared from home at 2534 1/2 Caroline street, three days before, wrote his bride from Granite City that he was going to end his life in the Mississippi, and she had been distracted ever since. In a letter to his bride he says the trouble to money lenders.

ANNOUNCEMENTS

STATE TREASURER.

We are authorized to announce THOMAS S. RILEY, of Logan county, as a candidate for the office of state treasurer, subject to the action of the democratic state primary, July 1st, 1911.

REPRESENTATIVE.

We are authorized to announce HENRY CHINN, as a candidate for reelection to the office of representative of Calloway county, subject to the action of the democratic party.

The outlook for the fall crop of forest nuts and grapes promises to be better than for many years. The blackberry supply will also be plentiful. Mayfield Mirror.

If to these can be added a bounteous crop of persimmons and paw-paws we see no real necessity of a country editor remaining poor in flesh, and no excuse for his not hurling defiance into the face of every delinquent subscriber.

The vote that will be cast in the more populous centers of the state like Lexington, Louisville, Covington, Newport, Paducah, etc., will decide the fate of the aspirants for the democratic nominations for state offices. The masses of the people in the country are manifesting but little concern in the coming primary, and we doubt if there is a single man in Calloway county who can name half the candidates in the race. The result of the democratic primary and the republican state convention will indicate the result of the November election soon after they are held.

There has been a considerable "still hunt" work done in Calloway during the past week in the interest of Wm. Addams, candidate for the democratic nomination for governor. Addams in the recognized candidate of the whiskey interests, and this influence together with the old ring rule element of the party are very much interested in the nomination of Addams. Also is added to these two elements the fact that Calloway has a statesman (?) who will soon be without a job. The only thing now between the aforesaid statesman (?) and oblivion is the skin of a hound's tooth.

The heavy rains of Sunday night and Monday afternoon very forcibly illustrates the necessity of removing the obstructions in the streets and gutters of the city caused by the building of concrete walks. The question has arisen as to whether this work is to be done by the property owner, the contractor or the city and as a result the streets and gutters are choked causing the water to overflow and doing considerable damage to the city highways. The question should be promptly adjusted and further damage to walks and streets averted. Decide who shall remove the debris and have it done promptly after the walks are completed.

Teething babies always have a hard time of it when this process occurs in hot weather. They not only have to contend with painful gums but the stomach is disordered, bowels loose and the baby uncomfortable. The best help you can give the little sufferer is McGehee's Baby Elixir. It corrects our stomach, cools and quiets the bowels and helps digestion. Price 25c and 50c per bottle. Sold by Dale & Stubblefield.

THE INITIATIVE, REFERENDUM AND RECALL.

The State Constitutions are determined by referendum.

The right of Recall was exercised by the thirteen colonies, and is expressly declared in Article V of the Articles of Confederation. It also appears in many of the State Constitutions, in which, by an address of the legislature, they may recall judges from the bench. The right of impeachment is the right of recall, under difficulties, however. A short elective tenure is automatic recall.

Those direct processes of passing laws the people do want and vetoing laws the people do not want and recalling public servants who prove to be crooks, has become necessary in modern days, because commercial interests have gone into the governing business through machine politics, contributing money to different town, county and state machines, and getting government privileges in return.

The new method of governing, by direct legislation, the Initiative and Referendum has received wide-spread approval in over half the area of the United States, because it has been found that a thorough-going corrupt legislature is elected by corrupt process.

These principles are essential in order to restore integrity of government. The first step in improving government is the direct primary, protected by law, then an honest registration law and an honest election law. Then comes the Initiative, Referendum and Recall, through legislatures elected by these improved processes. The best means of establishing these principles of government is by vigorous questioning of candidates to the legislatures on the progressive form of government.

The Initiative and Referendum has proven to be very economical. The sixty-four proposals in Oregon submitted by the Initiative and Referendum cost only \$47,000, and including a publicity pamphlet placed in the hands of each and every voter, giving the arguments for and against each measure.

The Initiative and Referendum stimulates the interest, the patriotism and confidence of the citizen voter, and raises the intelligence of the electorate. It prevents the legislator being tempted to do wrong. It stimulates him to do right. He cannot sell public franchises without consideration of his own private advantage and to the disadvantage of the people, because the people can vote his acts. It limits the number of bills in the legislature and puts an end to blackmailing of corporations and commercial interests. It establishes the legislature in the confidence of the people by merit. Above all, it gives stability to property and stability to government. When the people can have any law they want and veto any law they do not want, they can obviously have as good a government as their intelligence and moral sense justifies.

It perfects representative government, and makes the representative truly representative. It provides the people with the means to put an end to corrupt practices and establish integrity of government. It is impossible

to exaggerate the importance of this matter.

When the Initiative and Referendum is established the people will have as good a government as they deserve, which is not fairly to be said now because the people have been overreached by machine politics, and under the form of representative government have been governed by political machines and by commercialism.

The Initiative and Referendum is strictly Constitutional, under the decisions of the Supreme Court of the United States, as has been heretofore shown. It is a part of the organic law of Maine, Arkansas, Oklahoma, Missouri, Montana, South Dakota, Oregon and Nevada. It has been adopted by the Legislatures of California, Washington, Wyoming, North Dakota, Colorado, Nebraska and Wisconsin. It has been made the issue by one or both parties in Illinois, Indiana, Ohio, Michigan, Pennsylvania, Massachusetts, New Jersey, Arizona, New Mexico, Kansas and other states. It is sweeping the Union, because of the urgent necessity to end corrupt practices and the commercial control of government.

The Democratic National Party stands for the "People's Rule." The Prohibition Party and the Independence Party are committed to it. The old People's Party taught it. The Socialists believe in it. It is really a world-wide issue, the necessity appearing in other nations as well as in the United States. Speed the day when purity of government shall be established in the land and the rule of the people shall be accepted by all men. Then we shall enter the glorious era of equal rights to life, liberty and happiness to all human beings, where the poorest and weakest of men, under the golden rule, shall not suffer unmerited poverty or undeserved hardship. When humanitarianism and not commercialism shall control and direct the affairs of men.

Lightning Kills Few.

In 1906 lightning killed 100 people in this whole country. One's chances of death by lightning are less than two in a million. The chance of death from liver, kidney or stomach trouble are vastly greater, but not if Electric Bitters be used, as Robert Madsen, of West Burlington, Ia., proved. Four doctors gave him up after eight months of suffering from violent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. They are the best stomach, liver, nerve and kidney remedy and blood purifier on earth. Only 50c at Dale & Stubblefield.

Boatwright Items.

Crops are booming since the rain.

Farmers are very busy re-setting tobacco, which the drought had killed out.

Lois and Ruby Boatwright, Walter and Ott Compton are at home from Bowling Green.

Sunday school at Russell's Chapel is progressing nicely.

Bro. Mac Pool will preach at Russell's Chapel 4th Sunday in June at 11 a. m. A large crowd is expected.

J. F. Parker and wife of Canton, are visiting in this community.

J. T. Caraway is real ill at this writing.

There will be an all-day singing at Russell's Chapel 2nd Sunday in July by Bro. Bud Donaldson, also Children's exercises in the afternoon. ALMA MAYER.

HORSE OF THE GOBI DESERT.

Animal Discovered by Japanese. Never Has Been Famed and May Be a Distinct Species.

It is more difficult to domesticate the wild horse than it is to bring other species of wild animals under subjection.

Some years ago Prieviaty, a Russian explorer, discovered a distinct wild horse in the Gobi desert, in the south of Mongolia. A herd of 30 colts were captured and landed in Europe. Most of them were sent to Russia, but a few were shipped to the estate of the duke of Bedford, in England. They were raised of coat and of awkward gait. All efforts to tame them have failed. They will not submit to man's rule and are therefore unserviceable. They become badly frightened when a man approaches nearer than two or three rods of them.

The Russians claim that by methods of comparative anatomy and in other ways they have proved that the Gobi desert horse is a distinct species of the genus "Equus." Most naturalists have until now believed that the true wild horses with an unbroken line of wild ancestry were extinct.

It is the general opinion that the domestic horse of today was mainly derived from three wild species, which have been named the steppe, forest and plateau varieties. The Gobi horse is a representative of the steppe variety. This horse in its wild state lives in the level districts and goes at night to the pasture lands and drinking places. At break of day it returns to the desert, where it rests until sunset. New York Herald.

ANCIENT ISRAEL USED INK.

Writings of Bible Times Inscribed on Potsherds Have Been Found in Samaria.

"That the ancient Israelites had a cheap and easy method of sending written messages which was in fairly common use is now an established fact," said George A. Reisner, assistant professor of Egyptology at Harvard, who for the last fourteen years has been conducting excavations in Egypt and Palestine. Professor Reisner just returned on the Campania.

We were excavating in Samaria, once capital of the northern kingdom of Israel, in 1908, when we came upon the palace of the Israelite kings. Last summer we found on the floor of one of the chambers of the palace a number of potsherds and on these shards were written messages; they related to taxes paid to the king, and were written in an ink made of pure carbon or lampblack. These, perhaps, are the earliest specimens of Israelite work contemporaneous with the Bible. They were written in the reign of King Ahab." New York Evening Post.

Precocious Infant.

William Lyon Phelps tells this story about Robert Louis Stevenson, as illustrating the cosmopolitanism of Russian character, which Professor Phelps says is accountable, in a measure, for the international effectiveness of Russian novels. Stevenson, writing from Mypongo to his mother, 7 January, 1874, said: "We have two little Russian girls, with the youngest of whom, a little polyglot totton of a three-year-old, had the most laughable scene at lunch today." She said something in Italian which made everybody laugh very much. After some examination, she announced emphatically that she was a German. "That I was a madchen." "What a hasty conclusion as to my sex she was led afterward to revise," but her opinion, as was announced in a language quite unknown to me, and probably Russian. To complete the scroll of her accomplishments she said good-by to me in very commendable English." Three days later, Stevenson added, "The little Russian kid is only two and a half, she speaks six languages."

Economy in Smoke Prevention.

After remarking that there can be no hope of the general adoption of means to prevent the fouling of the air of great cities with factory smoke unless it can be demonstrated that the adoption of such means will result in the saving of money to the makers of the smoke, Prof. J. A. Switzer of the University of Tennessee records the result of experiments which he has made with smoke consumers based on the principle of infecting with steam jets fresh air into the furnaces whenever fresh fuel is put upon the fires. He finds that the claim that such apparatus increases the efficiency of the boilers by increasing the evaporation of the water is well founded and that there is a real economy in their use. Youth's Companion.

"Neblesse Oblige."

In Mrs. Walford's story of Lord Mansfield, in her recent book, entitled "Recollections of a Scottish Novelist," the top note of propriety is reached. The noble lord's young nephew, seeing him annoyed at a railway station by no servant at hand to get his newspapers, ran post haste and procured them. Lord Mansfield showed no gratitude whatever.

"Edward," was all he would say, "recollect, Edward, that a gentleman should never hurry himself in public."

Buggy Was Overturned.

While Misses Grace and Brady Denham were returning from a visit to relatives in the country last week the buggy in which they were riding was overturned near Harris Grove, throwing the occupants to the ground with much force, as the horse was going at a rapid gait at the time. Miss Grace was considerably bruised by the fall, but Miss Brady was so fortunate as to escape with very little injury.

Saved His Wife's Life.

"My wife would have been in her grave today," writes O. H. Brown, of Muscadine, Ala., "if it had not been for Dr. King's New Discovery. She was down in her bed, not able to get up without help. She had a severe bronchial trouble and a dreadful cough. I got a bottle of Dr. King's New Discovery and she soon began to mend and was well in a short time." Infallible for coughs and colds, the most reliable remedy on earth for desperate lung trouble, hemorrhages, lagrippe, asthma, hay fever, croup and whooping cough. 50c \$1.00. Trial bottle free. Guaranteed by Dale & Stubblefield.

Ed Utterback, who was injured by a fall from a moving train last week in Stoddard county, Mo., was brought home Sunday morning by his father, who went to Cape Girardeau after him. His condition is about as it has been since he was hurt, and is quite a puzzle to physicians who have waited upon him. There is no outward evidence of an injury and no bones were broken, but for two or three days after the fall he remained unconscious and his mind is not yet clear.

MAY PROVE FATAL.

When Will Murray People Learn The Importance of It?

Backache is only a simple thing at first; But when you know 'tis from the kidneys; That serious kidney troubles follow.

You will gladly profit by the following experience. 'Tis the honest statement of a sufferer who was cured.

Mrs. Frank Wilkerson, Eleventh & Walnut Sts., Mayfield, Ky., says: "Kidney complaint clung to me for a number of years and recently the trouble became much worse. I suffered severely from backache and had other annoyances which plainly proved that my kidneys were disordered. It was through reading statements in local papers given by people here in town in favor of Doan's Kidney Pills that I was induced to procure a box and give them a trial. I received great relief from the first and soon felt better in every way. I willingly give Doan's Kidney Pills my endorsement."

For sale by all dealers. -Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

John Hamilton received a letter Wednesday from his brother-in-law, B. G. Whitehead, conveying the intelligence that Mrs. Whitehead, a sister of Mr. Hamilton's, was at St. Joseph's hospital, Memphis, where she underwent an operation for a complication of diseases. Her condition is critical and Mr. Hamilton will leave today for Memphis. Mr. Whitehead lives at Morrilton, Ark.

Dry and dusty. Farmers are feeling bad on account of no tobacco being set.

Some little sickness to note. E. L. Miller is right poorly with malarial.

Paul Clanton is still confined to his bed. He remains just about the same.

Greg and Galen Miller transacted business in Hazel Saturday.

Bro. Rudd filled his regular appointment at New Providence last Sunday and preached to a large congregation. Sunday school was well attended. Singing Sunday afternoon, conducted by W. L. Routen.

John Duncan and family spent Sunday at R. C. Miller's.

Edmond Cook, of Irton, Mo., visited his father the past week.

Miss Ellie Miller has returned home from Bowling Green, where she has been in school for the past five months.

Look out girls, Gordon Cook has a brand new buggy. Wants to order a good size shoe skin by the 3rd Sunday in Aug. t.

Elmer Davenport and family will move to Murray in a few days.

Dr. Hart was called to see little Charley Brooks, son of Rob Lee, supposed to have smallpox. Dr. Hart pronounced it just a case of heat.

Slayer of Blaney Dead.

Henry, Tenn., June 17. - Arthur Sweeney, who killed I. L. Blaney, a printer, in Paris, several months ago, and was awaiting trial for the murder is dead.

Mr. Sweeney attempted suicide a few weeks ago by taking an overdose of morphine, but was unsuccessful. Death resulted from a complication of disease.

Sweeney was a young man of a prominent family and killed Blaney, another young man, over a remark alleged to have been made by Blaney about Sweeney's sister. The case looked very bad for Sweeney, and it is supposed that he at least feared a prison sentence when he attempted to take his own life. He leaves a family.

His Lightning Rod Up.

A late communication from Murray, Ky., states that Rev. John South Hawkins has rented a "cottage" and over the roof erected a "lightning rod" to serve notice that he is still in the race. We take pleasure in giving prominence to this "long felt need." - Cadiz Record.

The Brush is incomparable on this score—take it from any view point. In first cost, in operation, in repairs, it costs less than any other dependable car made.

Recently a New York editor told us he had paid only \$4.65 for repairs during an entire season's constant running.

Innoculated with the big car virus, he bought a big car—but his wife insisted that he keep the Brush for her use.

She could drive it herself, feared no mechanical difficulties—having no big car complications to oppress her.

That's another beauty of the Brush.

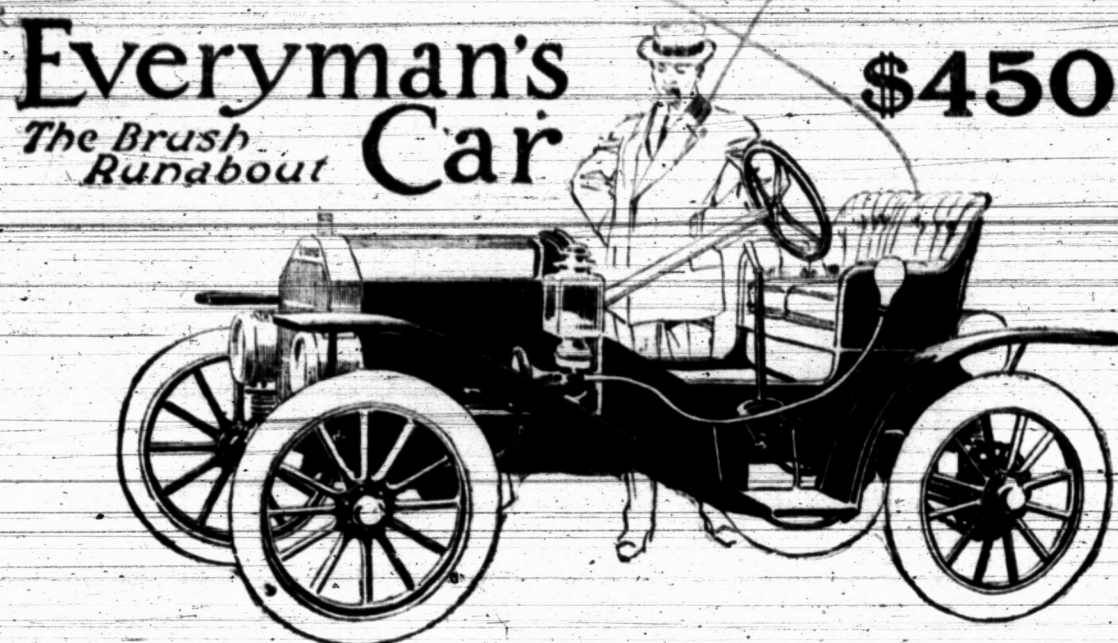

It's so simple anyone can drive it.

It's so dependable no mechanical knowledge is necessary to handle it.

It's so economical anyone can afford to own and operate it.

That's why it's called Everyman's Car.

Let us show you why hundreds are using it to advantage both for business and pleasure.

Wheat at 9, Bread at 6.

Owensboro, Ky., June 19.—Emmett Haynes, a farmer of Daviess county, who raised something like 4,000 bushels of wheat this year, has made a record that will, no doubt, stand for many years. He cut his wheat at 9 a. m., thrashed it at 11 a. m., delivered it to the mill at 3 p. m., it was ground to flour at 5 p. m., and Haynes ate biscuits at 6 p. m. made of the wheat cut at 9 a. m. This was the first delivery of the year and is said to have been the earliest delivery made in this section for years.

Almo Route 1.

Dear Editor. As I have not noticed any letter from this locality in quite a while I thought I would drop in.

We have had a glorious rain on the east side, and we hope they receive plenty in other places where they so much need it.

Mrs. John Falwell is still on the sick list.

Ben Carraway is better.

Mrs. Sam Holsapple is sick.

The W. O. W. unveiled the monument in memory of Curt Holland at Friendship Sunday in the presence of a large concourse of people: the east side seems to be wedded together in friendship fraternalism.

The tobacco crop will be short in spite of the good rain as plants were scarce and some of them had been ruined before the rain.

We were sorry to learn of the action of the state committee in regard to the rights of the Calloway county democrats. But be it understood that we will not have such as that cranked down our necks as Democracy.

We believe that O. J. Jennings would be the best available man in this senatorial district at this time to represent us in the next legislature, because: He is capable. He is a champion of democracy. He can carry Calloway county by a big majority. He is tried and true friend of organized labor. We hope that Mr. Jennings will permit his name to be used in connection with this race.

Now a word to you liberty loving people across the river. We know nothing about Seldon Glenn except to judge him by the crowd that is behind him and the fake nomination that he accepted. We believe that to elect him would weaken the Democratic party instead of strengthening it. Instead of a progressive step forward towards the reforms we so much need, it would be taking a step backwards, and we are not going to take it. Union Boy.

K. OF P. LODGE WILL ORGANIZE.

W. R. Duke, of Paducah, district deputy for the Knights of Pythias lodge, was here some several days ago and secured a sufficient number of applications for membership to institute a lodge, and was here again Tuesday of this week and together with the signers of the charter met in Dr. S. D. Yongue's office Tuesday night and effected an organization. Application was made for a charter and when granted the lodge will be instituted. Paducah lodges will do the work and Tuesday night, July 11th, has been set for the date.

The K. of P. lodge is one of the greatest fraternal orders in America and is especially strong throughout the south and west. Those who signed the petition for charter were Dr. E. F. Day, M. D. Holton, E. B. Irvan, R. M. Falwell, O. J. Jennings, Dr. S. D. Yongue, Dr. B. B. Keys, Rev. W. A. Russell, J. C. McElroy, Rev. J. S. Hawkins, Harry Patterson, Kenney Kendall, H. B. Gilbert, Hewlett Clark, J. D. Sexton, A. J. G. Wells, H. W. Hills, Ben Grogan.

Sweep Wilson is Dead.

Sweep Wilson, who lived in this county for many years and who left here several years ago and went to New Mexico, died at the last named place last Saturday of consumption. He was about 50 years of age and is survived by his wife, who was a Miss Burks, of this county, and one child. He was well and favorably known in this county and his many friends here will regret to learn of his death.

A bilious, half-sick feeling, loss of energy, and constipated bowels can be relieved with surprising promptness by using Herbine. The first dose brings improvement, a few doses puts the system in fine vigorous condition. Price 50c. Sold by Dale & Stubblefield.

O. B. Bedwell, charged with shooting and wounding John Morgan some few weeks ago and whose examining trial was set for Tuesday of this week, waived the examination and was held to await the action of the August grand jury under bond which he promptly executed. A warrant was issued for Morgan and his son for breach of the peace and upon trial before Esq. Ellison were fined \$10 and \$12.50 respectively.

CHICAGO MERCHANT MAKES STATEMENT.

After Spending Thousands of Dollars and Consulting the Most Eminent Physicians, He Was Desperate.

CHICAGO, ILLS.—Mr. J. G. Becker, of 134 Van Buren St., a well-known wholesale dry goods dealer, states as follows:

"I have had catarrh for more than thirty years. I have tried everything on earth and spent thousands of dollars for other medicines and with physicians, without getting any lasting relief, and can say to you that I have found Peruna the only remedy that has cured me permanently. Peruna has also cured my wife of catarrh. She always keeps it in the house for an attack of cold, which it invariably cures in a very short time."

County Teachers' Institute.

The Calloway County Teachers Institute will convene at the school building in Murray for its regular annual session commencing August 17th. Prof. Ship, superintendent of the Winchester Ky., schools will be the conductor. The session promises to be one of the most interesting in the history of the county and will be largely attended.

We Don't Have to tell you what it's for it's name tells. Dr. Bell's Pine-Tar-Honey is the best cough medicine and several million people already know it. Look for the bell on the bottle.

FLIES have no use for a Westinghouse Electric Fan—they are as helpless in the air currents which it produces as a bi-plane in a hurricane. No matter what tempting morsels your table affords, turn the button that starts the fan and every last fly will vanish.

That's one reason why the larger sizes of Westinghouse Fans are used in all the best restaurants and why you should have a little Westinghouse Fan in your home. Another reason is solid comfort. You find the air currents that are shunned by the flies very agreeable and refreshing on a hot day.

You use the fan in the dining room at meal time and in the kitchen before and after, then in the living room, then on the porch, then in the bed room. It is always in demand somewhere. Keep it going all day—from 2 o'clock in the evening till 12 at night, and the cost for current will be between two and three cents. Pretty cheap comfort, is it not? Telephone for one to-day.
