## NEWS CAMPAIGN CLOSES SATURDAY

The day of days is here! Saturday is the last day of the balloting!

When the clock points to the hour of 10 p. m., Saturday, there will have ended the greatest and most liberal, and the hardest-fought newspaper campaign ever conducted in this vicinity.

The stage is set. Everything is in readiness for the overwhelming rush of subscriptions that will come. Every hour that remains has immense possibilities and every minute is vitally important. Your supreme effort may land that prize for which you have been working and set your heart on getting. The friends who have responded with supporting force, can hardly refuse now at the moment when a little help may mean victory.

It has been predicted that this will be a race of narrow margins hence every subscription, no matter how small, is valuable. Think what victory means in this race—pleasure—the very best things that life holds out in store for some. Who? Ah, that is the matter that only hustle and organizing ability will determine.

This has been a fairly fought campaign. It has been conducted along absolutely impartial lines. The best campaigners are going to win.

All subscriptions deposited in the sealed ballot box must be accompanied by cash, money order or certified checks to cover the full amount less commission. Personal checks will not be accepted for more than \$10. This rule is made in fairness to all candidates and will be strictly adhered to.

Every stub must be accompanied by a remittance to cover same and no money will be refunded after votes have been issued on their subscriptions. This rule will be strictly enforced for the mutual protection of the News and the candidates.

Your subscription now for four, three, or two years may be the deciding factor in the race for your favorite candidate. Here is an opportunity to do a real kindness which may mean a prize worth \$750, \$400, or \$300. The first winner has a choice between the \$750 in cash or a new deluxe Plymouth Sedan. This car is now on display in the window of the Bob White Motor Co.

Don't wait to be asked to subscribe this last week. In her haste to cover as much ground as possible during the closing hours, the one you would like to help may not be able to reach you. Too, the offer of voluntary support would be very pleasing and heartening to your favorite candidate.

Candidates should devote every minute of their time to the campaign. Better be safe than sorry, or a "wish I had."

Candidates that do not verify votes in Campaign office, by Friday noon, May 6, give notice to the judges to accept Campaign office vote, according to the rules and regulations.

## THESE JUDGES NAME WINNERS

The judges who will compile and count the votes in the News campaign at the closing Saturday at 10 p. m., and who will decide to what candidates the awards will be made on a basis of the vote scheduled are: K. P. Dalton, Chief of Police; Rev. Fuller, pastor the Baptist church; Frank Wiggins, insur. agent.

## Shooting Brings Death To Negro Saturday Night

Frank Williams, local negro, was fatally shot last Saturday night at about 9:00 o'clock by Henry Morgan, colored, in an argument occurring at the restaurant of the latter in Missionary Bottom. Morgan, who contended he shot in self-defense, was taken into custody by Officers McDade and Boaz and held to the action of the Circuit Court now in session.

Williams, who formerly worked for Hunter Whitesell, had been residing in Fulton recently doing odd jobs about town. He died shortly after being shot, and he is alleged to have attacked Morgan with a knife.

## KITTY SEASON OPENS HERE ON TUESDAY

Fulton will hail the opening of the 1938 Kitty League season in gala fashion next Tuesday when the Union City Greyhounds will invade Fairfield Park in launching a pennant race.

Hap Bohl, manager of the Tennesseans, and Cracker Clonts, have drilled their teams for the opening game, which is expected to fill the revamped Fairfield Park to overflowing, with thousands of visitors attending from out-of-town.

Fulton is prepared for the new season with a newly conditioned park, where the grandstand and new bleachers will seat approximately 3,000 fans. A new \$5,000 lighting system has been installed for night games, and a fine opening program has been arranged.

Business firms will declare a half holiday, schools will turn out for King Baseball. The Fulton High School Band under the direction of Yewell Harrison will lead a parade and play at the park. Old Glory will be unfurled from the centerfield, and flowers distributed. Mayor Paul DeMyer is scheduled to hurl the first ball to J. E. Hanneppin, president of the Kitty league.

Of the 123 boys who attended the baseball school at Fairfield Park last week, only a few have stuck, but others have been sent to other clubs. There are still about 20 boys in the camp, and it is indicated that many of the old squad will be on the firing line the opening day. Skipper Clonts this week traded Norman Veasey to Greenwood, Miss., for Bill Cooper, who played with Fulton last year and led the Kitty league in home runs.

Clyde Batts, Harold Gregory, Tucker Joyner, Johnny Long, Elmer Wenning, Nick Zanter, and the Skipper are back for duty. Mike Ulinney and Raymond Brown are fight it out for the utility berth; Koval is now on short; Daulphin, sensation of the trout camp, at centerfield; Badnor in left garden. On the pitching staff are: Camp, Robertson, Fisher, Chartrand, Pickel, Smith, Sidesky. Some of these will have to go, and the infield will probably see some changes before opening day.

## 4-H Club Spring Rally Day At Cayce Friday

Fulton County 4-H Clubs will hold their Spring rally day at the Cayce high school building Friday (today). At this meeting the following are scheduled for the program: 4-H girls style review, clothing judging contest, baking judging contest, girls demonstration team contest, boys demonstration team contest and terracing team contest.

Girls who have finished their 4-H food project will bring a plate of four muffins, either corn meal or whole wheat, and a plate of four biscuits; also food record books to enter in the contest. Prizes will be given.

Girls who have finished their clothing project will bring their outfit and record books so that the county winners may be selected to represent Fulton county at the state contest.

## Fulton Council Asks Price Distribution System

Fulton city council met in regular session Monday night with Mayor DeMyer and all members of the board present. Minutes of the previous meetings were approved and bills read and okayed. It was agreed to address a letter to the president of the Kentucky Utilities at Lexington, asking the company's price for the distribution system here, and to contact the TVA headquarters at Knoxville with regard to a contract for Fulton.

The board adopted the recent resolution of the Fulton school board setting the tax rate at \$1.25 per hundred for 1938-39 and the poll tax at \$2.00 a male person.

Business was rather brief at the Monday night session.

## MOTHER

You may be only a freckle-faced, dirty-cared, tousled-haired boy to most people in your native town, or about the countryside over which you roamed if you were born on a farm. But to your mother you was a king of royal blood. To the teacher at school you were possibly a common pest in need of a seat on the chair reserved for dunces. In the eyes of your mother you were the height of all that was loving and thoughtful, and one who would later on become qualified to sit in the highest executive office in the nation.

And as the annual observance of the sweetest holiday in the year approaches—Mother's Day—time finds mother thinking the very same thoughts. Your mind and your interests have wandered far afield so far as your thoughts of her are concerned, and there may have been since first saw you at her breast and a little later at her knee more or less neglect of her. You haven't been always as promising and considerate of her as you told yourself as a boy you would always be. But Mother is not thinking of that. She is recounting the joys you brought to her heart in your childhood days, the sunshine you cast into her world and the happiness your presence and your smile brought, joys that no other happiness can bring a mother like those she had from you. There are never two sides to a boy's life in his mother's heart—the good side. So it must be your own heart that aches on Mother's Day if there memories of neglect in connection with it.

So that is, in all possibility, the reason why we have this beautiful holiday, and one of the reasons why we observe it. It affords an opportunity to soften such memories by a display of genuine love and thoughtfulness for the most noble, faithful, loyal and sacrificing friend a boy can have—his Mother.

If she in health and near enough for you to be with her this Mother's Day—spend the day in loving conversation and communion with her. One day spent at her side, now when memories are about all she treasures, will make amends for those acts of thoughtlessness of earlier years. Ahead of her alone is life's highway, and it is nearing the sundown for her. One smile from you now will serve to light the road for her as nothing else can; one kiss from you would make of it the path to glory in her tired, kindly, loving old heart. If she has passed on to the end of that road, lay some blossoms on her resting place, or wear in this Mother's Day as evidence that through the turmoil and strifes of life, and in all your wanderings you have not forgotten the dearest creature who ever had a part in your life.

But a fortnight ago Fulton citizens raised their voices in praise and bowed their heads in humble observance of the resurrection. Then we honored Jesus Christ, the savior of man. Now we come to honor the mothers of men. Join in, for your Mother was among them. And if there has ever been anyone approaching the Savior of Men in all his glory and majesty, and goodness and love it is—Our Mothers.

## Sunday Decoration Day In Fulton

Sunday has been set aside as Decoration Day in Fulton, under proclamation by Mayor Paul DeMyer. The graves of departed loved ones will be decorated at Fairview and Greenlea cemeteries with beautiful floral sprays and potted plants.

Many out-of-town visitors, former residents of this city, are expected to visit local resting places of loved ones, and Fulton citizens will pay their respects to their dead.

## MRS. FARLEE BARD

Mrs. Parlee Bard, 98, died here Thursday morning. Funeral arrangements had not been completed at the time this paper went to press.

## Riceville Bridge Now Open To Traffic

The new \$80,000 bridge at Riceville, which has been under construction for several months, is now open to traffic. Although the overpass itself has been completed for some time, paving for the approaches on either side has delayed the opening. Traffic has again been routed over Lake-st, which had been going via a detour from Riceville to the Union City highway.

Harry Lee Waterfield, editor, Clinton, has accepted the chairmanship of the Young Democrats Club for Barkley in the first judicial district, it has been announced by Parker Warden Duncan, state chairman of the organization.

Many members of various organizations in Fulton and vicinity will participate.

There is one thing every individual ought to decide as soon as possible and that is, "What am I living for."

## REV. LADD GAVE SERMON SUNDAY

Following is the sermon delivered by Rev. E. R. Ladd, pastor of the Cumberland Presbyterian church Sunday, May 1.

Scripture lesson and text, Matt. 3, 13-14; 4, 1-11. Subject, "The Baptism and Temptation of Jesus."

Here is Jesus facing his life work and triumphing over temptation. The baptism and the temptation are the last of his preparation for his great work, upon which he entered immediately after. There is suggested the necessity and universality of the testing by temptation; for almost every true and useful life begins in this way, sometimes by a definite and distinct battle in little things between good and evil but which are really decisive. This lesson is a mirror in which we may see our own temptations and the way to victory.

Consider first Jesus' preparation through baptism and the holy spirit. By baptism he pledged himself to the higher activity of the Messianic life on which he was entering. He was 30 years old, the age at which priests entered upon their office. Note for us baptism is a public confession of Christ and an essential to our best work for God. Every christian needs a baptism of the holy ghost. Every christian needs the manifest approval of God in some way. Christ's baptism was preparatory to his work. Jesus preparation through initiation battle and testing. What was the purpose of these temptations? They proved that he was worthy to be the Messiah, as a battleship is tested before it is sent to war. He was tested for his own sake. In one sense he was truly man. He had character to build, and testing is essential to character building. He was tested also for the sake of others. If Jesus would be a Saviour and helper of men, it was necessary that he should not only be exposed to the same temptations as we are, but that he should gain the victory over them by the same means which are available to us.

The nature of the temptation. First, there was the temptation through the body and its appetites. He had forty days and nights and was in great bodily hunger. Second, he was tempted to gain good things by a false and presumptuous faith: "Cast thyself down." Thirdly, he was tempted to gain success by wrongdoing: "If thou wilt fall down and worship me." The victory. "Get thee hence Satan." All who would become strong and useful must gain their power largely through victory over temptation.

## Annual Singing To Be Held Science Hall Sunday

Plans were announced here today by R. C. Crocker and C. L. Gardner, the music committee, for the sixth annual Singing Convention, which will be held at the Science Hall in Fulton, Sunday, May 8, beginning at 10 a. m. and continuing until 4 p. m. Between 4,000 and 6,000 people are usually present at this convention each year and it is indicated that attendance this year will surpass even that of other years.

Good talent is expected from various communities in Kentucky, Tennessee and adjoining states, including Lawrenceburg, Paris, Dresden and Memphis, Tenn., Paducah, Mayfield, Murray, Clinton, Ky., and Corinth, Miss.

## SITE CHOSEN FOR "CASEY" JONES MARKER

The "Casey" Jones committee has selected a site for the marker to be erected to his memory. The granite stone with appropriate inscription, will be erected on the corner of the Cayce High School grounds at the intersection of the highway south and east of the building.

The committee decided that it would appropriate about \$175 for the marker and use the balance of the fund for landscaping and beautification of the grounds. Members of the committee are Justin Attebery, chairman; C. P. Mabry, W. A. Johnston, Tom Attebery, A. J. Lowe, A. G. Campbell and J. F. McClellan.

Mark Bradley returned to Chicago last Friday after spending a two weeks vacation with his parents, Mr. and Mrs. R. L. Bradley.

## MOTHER.

Many years have passed dear Mother,  
Since you slipped so quietly away,  
To join God and the Angels:  
There to await the Judgment Day.  
Some day, I hope to join you  
In that bright and happy land,  
Where we can sing in the  
Heavenly chorus,  
As I clasp your loving hand.  
Our family circle is sadly broken  
By the fireplace is a vacant chair,  
As we sing a voice is missing  
In the "Beautiful Isle of Some-  
where."

Within my heart a place is empty  
A longing no one else can still  
With the same understanding  
That only, Mother, you can fill.  
I think often of your teachings  
As I journey along life's way;  
A monument to you, dear Mother,  
I wish to be through every day.  
A rose is pressed in memory  
Of you,  
Its sweet fragrance lingers on  
Like a smile from you, dear mother,  
As you taught us right from wrong.

## SOUTHSIDE SCHOOL BOARD MET HERE MONDAY NIGHT

Beautifying Fulton is the business of those who live here; outsiders and peddlers will not be interested.

## DETAILS OF THE

# FINAL COUNT

In order to maintain the utmost secrecy as to the number of subscriptions turned in by each candidate this, the last week of the Fulton County News Big Trade Extension Campaign, the race will be brought to a close under a **SEALED BALLOT BOX**

No subscriptions or votes whatever will be accepted through the Campaign Department this, the last week of the campaign. Candidates themselves will deposit their final collections in the SEALED BALLOT BOX located in the Atkins Insurance Office and in this way, not even the Campaign Manager or the publisher can possibly know the voting strength of the respective candidates, which precludes any possibility of favoritism and insures fairness to the minutest detail.

Locked and sealed, the ballot box has been placed in the office of Atkins Insurance Co., where the candidates and their friends can deposit their votes and subscriptions up to 10 P. M., Saturday May 7.

When the final hour arrives the campaign will be declared closed. The judges will break the seals, unlock the box, and, immediately thereafter, or as soon as votes can be issued on the subscriptions contained therein, the last count will begin. The winners will be determined by merely adding the vote totals which were sworn to be correct by each candidate at the close of the third period, April 30 to those contained in the ballot box. There will be no waiting; no complicated count, but simply a matter of adding the vote totals and announcing the winners.

# ONLY HOURS LEFT

It is calculated that it will require some time, however, to canvass the findings in the box and determine the winners. The official results will be bulletined in the windows of the News office as soon as possible, and they will be published in next week's News.

### OUT-OF-TOWN CANDIDATES—ATTENTION

Heretofore, out-of-town candidates have had the privilege of mailing their letters containing subscriptions from their home as late as the closing hour of the various "periods." This will not be permitted the last night of the campaign. ALL VOTES AND SUBSCRIPTIONS WITH CASH TO COVER MUST BE IN THE SEALED BOX WHEN THE RACE IS CLOSED AT 10 O'CLOCK SHARP SATURDAY NIGHT, MAY 7.

Out-of-town candidates should, where it is possible to do so, arrange to deposit their envelopes in person in the sealed ballot box, but where this cannot be done, letters containing final remittance should be addressed to CAMPAIGN DEPARTMENT, The Fulton County News, and plainly marked "FOR SEALED BALLOT BOX—NOT TO BE OPENED." Particular care should be taken to post such letters in good time to reach this office before the final hour, and it is advisable that they should be under special delivery stamp.

## IMPORTANT NOTICE!

## IMPATIENT DRIVERS

One of the most outstanding facts about auto driving is the excited, nervous and impatient way a lot of people drive. You will often see a man tearing through the street, and then stopping suddenly to park his car, after which he doesn't seem to be in any particular hurry and apparently no special place to go. No reason will appear as to why he was in such haste. Yet he made people jump and forced other drivers to give the right-of-way that fairly belonged to them. This type of driver, the impatient driver, is difficult to control because there are so many of him. If there was a law with heavy penalties for such driving there would be a wide protest. But the time is sure to come when the public will see the folly and the danger of permitting such driving and steps will be taken to stop it. No man is justified in getting into such a hurry that he has to endanger the lives of his fellow-men.

## WORSE THAN WAR

When one considers that 300,000 deaths from cancer occurred in this country last year—more than were killed in all European wars combined—it is easily understood why so many deaths are added to the main list through the sale and use of quack remedies. Cancer suffer-

ers, grasping at a last straw, are not given to precaution when an offer of relief is in sight, and such occurrences as six dying in a single town from the administration of a newly discovered cancer relief, in the south recently, is just another example of that fact. Some day, and God hasten the time, a cure will be found for this disease, which now ranks second annually in the number of deaths. But until a positive cure is found every sufferer is warned to use extreme care in lending his faith to the new experiments. There are many cancer sufferers around far more than the average citizen realizes. They can aid the coming of the positive cure by withholding their support to those who offer "cure" or "relief" of a doubtful character. It is in the interest of humanity, as well as themselves that they do so.

## SPRING LIGHTNING

We find in an exchange a statement by an electrician who has been experimenting over a period of years to the effect that the chance of being struck by lightning is but one in a million. He says the most dangerous point of residence is in a house located on top of a hill, and that even then the chances are that lightning will strike there but once in a hundred years. We don't know how close he may be to it, but we do know from personal observation around Fulton that the old fear of being struck by lightning is waning. People do not fear it now as much as they used to. That is shown by the fact that fewer lightning rods are sold now by far than were sold 40 or 50 years ago. Then it was considered a necessity to equip every house and barn with them. Today we have an occasional fire from lightning, but considering how many more houses there are now, the total loss is small and even that is robbed of much of its sting by modern fire insurance.

## AFRAID OF THE DARK

With electric lights nearly everywhere and with automobile lights flashing even on remote country roads, the nights are not so dark as they used to be, and not half so scary. The fear of the dark itself may some day become a lost institution. I wonder whether the younger generations fully realize the fears of other days, when night was a terror to small children and to many grown people. I cannot confess that I was especially afraid of dogs or snakes or Gypsies, but I was mortally afraid of invisible things, such as spooks, or "haints," and ghosts. The stories that were a part of our childhood when people came in to sit till bedtime increased rather than diminished our fear of the dark. Just how much the story-tellers belived the strange yarns they spin I have no way of knowing, but I have always suspected that they made good time going home after some of the hair raisers were told. The children, I distinctly remember, while trying to regard the whole crop of yarns as just "play-like," were afraid to move afterwards. On hot nights, after such an orgy of story-telling, we would cover up, head and ears, with a jenas quilt, if such were available, to shield ourselves from things that might devour us or swallow us whole. We fairly died of thirst, that great enemy of childhood, rather than go to the water bucket for a drink; we felt too old to ask Mammy to get it for us. But along with our own fears we had a persistent desire to scare others, either with stories or with practical jokes.

The most common device for scaring the weak of heart was known locally as a "tick-tack" or a "dumb-

## FARM FACTS

A good garden is the first step in producing the family food supply.

Hay cures quickest in the swath and should remain there until thoroughly wilted. When raked, should be placed in a small wind-row.

Baby chicks should have plenty of fresh, clean water available at all times unless they have access to all the skim milk they will drink.

Comfortable brooding quarters should be provided for baby chicks with sufficient heat to keep them warm, plenty of ventilation and sanitation. Do not crowd chicks.

Two big annual farm meetings will be held in Tennessee in May. They are the Middle Tennessee Farmers' Institute, May 17-18, and the East Tennessee Farmers' Convention, May 19-20.

Like trees, grass anchors soil against erosion. Fibrous, close-growing roots lash the soil in place and decaying plant residues make an absorptive sponge to hold water.

Keep a new born calf in a clean place. It is best to remove the dairy calf from its mother by the second day. Feed it warm milk from its mother in a clean pail. By the time the calf is two weeks old provide a little well-cured hay and grain.

A total of 281 head of purebred cattle consigned by 71 Tennessee breeders to six cooperative sales held in Knoxville, Lebanon, Nash-

ville, Jackson and Dyersburg recently sold for an average of \$101 per head or a total of \$28,409.00. For the care of the cow immediately after calving, it should be seen that she is not left out in the rain. All her milk should not be removed the first two days as this may cause milk fever. Feed a little laxative feed, such as wheat bran the first day, and follow up with a regular grain ration slowly at first and increase it gradually so as to reach full feed at about three weeks after calving.

Haunted houses excited fear, but every neighborhood had some dare-devil who secreted himself in suspected houses and helped carry out the neighborhood tradition. Those who were in on the trick got too much fun out of it to reveal the secret; the others indulged in the most primitive types of fear, probably not even daring to find out the truth. Graveyards were places to test out people's bravery. All sorts of foolish things were resorted to bringing a clod of dirt from a new grave, plucking a flower-car lights they must not seem half sleeping on a grave to win a wager. These neighborhood fun-makings are probably still going on, but with matches and flashlights and car lights they must not seem half so scary as they used to.

## "THE NEWS" WEEKLY SCRAPBOOK

Week's Best Recipe—FISH CROQUETTES—One pint cold boiled fish, free from skin and bone, minced fine, with 1 pint hot mashed potatoes; 1 tablespoon butter; 1-2 cup hot milk; 1 egg well beaten; pepper and salt and little chopped parsley; mix thoroughly and let cool; when cold mix into balls, dip into beaten egg, roll in bread crumbs and fry in hot fat, or just roll them in flour if egg prices are too high. For a sauce, add 2 hard-boiled eggs cut in thin slices to white sauce.

## On Washday—

Candlewick spreads should be washed in plenty of hot water and soap suds. They should then be rinsed several times in clear, warm water and hung up in the shade to dry. When they are perfectly dry they should be placed, tufted side

down, in a cotton blanket and pressed gently with a warm iron.

## The Sewing Room—

When using buttons for trimming it is best to use the shank style of button. Instead of sewing on in the usual way, work tiny buttonholes the size of the shank. Slip the button into these holes and fasten on the underside with a safety pin. This saves much time when laundering and lengthens the life of the button.

## Kitchen Kinks—

Make leftover rice into cakes, fry them in bacon fat and serve with maple syrup. They're delicious. . . Too much flour in cakes causes them to hump in the middle or have a tough, cracked crust. . . To prevent griddle cakes from sticking, rub the hot griddle frequently with salt tied firmly in a piece of cloth. Keep this up during the baking.

## The Flower Grower

The dwarf dahlias used for bedding purposes are single but are very pretty and have a long flowering season. The Coitess gem hybrids are the best known, but several other kinds are being listed in this spring's catalogues. These dahlias are grown from seed.

## An Inspiration—

'The sluggard will not plow by reason of the cold; therefore shall he beg in harvest, and have nothing.'—Proverbs.

## COUNTY AGENT NOTES

Since the army worms have destroyed some pastures and some hay, men who have enough livestock to make pasture a problem, sudan grass should be sown to supplement the summer pasture.

If twenty pounds of seed are sown per acre a good thick stand should be secured. If sowed on a seed be similar to alfalfa or soy beans and if sowed near well made pasture that can be used all the summer until frost. If there is not enough stock to keep the sudan grazed down a moving machine should be run over the field in order to clip the grass and keep it from going to seed. After seed have matured the grass becomes tough and unpalatable, therefore, unless the grass can be kept short clipping is necessary.

## SHEEP

Two drenching demonstrations have been scheduled to show farmers who are raising sheep how to drench and what can be used for drench and tape worms in sheep. These meetings will be held at Deal Little's at Crutchfield on Thursday, May 5th at 2 p. m. and Parke Wheeler's near Montgomery on Friday afternoon, May 6th at 2 p. m. If flock is treated two or three times during the summer worms can be controlled so that only a small amount of damage. At the above meetings the question of importing some grade Hampshire ewes for breeding stock will be discussed and order taken so that it will be known soon the number of head wanted. All farmers who have sheep or who are interested in securing sheep are invited to attend these meetings.

## CORN

It is still impossible to tell farmers what their allotted acreage will be for this year.

## SOIL CONSERVATION CHECKS

\$37,615.37 of the soil conservation checks have been received in Fulton county and notices are being sent to the producers as soon as the checks have been received. This is about one third of the amount of money that farmers of the county will receive for diverting land from the production of soil depleting crops and practicing of soil building practices.

## HISTORY OF OBION COUNTY

### THIRD CHAPTER

Although Troy dates its existence from March 16, 1825, Union City had its beginning in 1854. At present Union City is the largest

town in Obion county. It is situated on the Mobile & Ohio and the Nashville, Chattanooga & St. Louis railroads. It was laid out on land owned by General George W. Gibbs in 1854, but previous to the Civil War attained but little importance. The first store was opened by Dabney Glass in 1855. At the same time a postoffice was established with C. N. Gibbs as the first

postmaster. The latter and W. B. Gibbs were the first resident attorneys of the town. Among the other merchants during the years prior to the Civil War, were A. W. Patton, Rice & Thomas, M. Pierce, James Wilson, Thomas Ray, Felix McGaughey, Isaac Foster, Bynum Bros., and Robert and William Seay. The first physicians to locate in Union City were Drs. Chittum and Thompson. Drs. Samuel Cutter, Robert McMullen and Gus Batte were also among the early residents.

In 1856 Charles N. Gibbs built a steam sawmill in which was used the first circular saw in Obion county. At the breaking out of the Civil War Union City, on account of its excellent railroad facilities, was made a camp of instruction by the Confederate authorities, and at one time it was occupied by from 5,000 to 20,000 men. After the fall of Fort Donelson it was captured by Col. Harvey Hogg, with a regiment of Illinois Cavalry. It was afterward taken twice by Forrest's cavalry but at the close of hostilities was in the hands of the Federals.

After 1866 Union City again began to improve, and continued to grow until 1873, at which time the population had reached about 1,000. An epidemic of cholera during that year caused about one-half of the inhabitants to flee from town and of the remainder about 100 died from the disease. Demoralization incident to such a calamity, together with the financial depression of 1873, seriously interfered with the growth of the town during the next two or three years. Since that time, however, the growth has been remarkably rapid, the population numbering 5,000 even in 1886.

In the past few decades large amounts of capital have been invested at Union City. The first large manufacturing concern was inaugurated by D. P. Shoffner about 1871. It was a sawmill and planing mill, to which was added machinery for turning out building material, and later furniture in considerable quantities. Mr. Shoffner, soon after beginning the business associated with himself Messrs. Moffat & Beck, the firm being known as Shoffner, Moffat & Beck. After about three years, Shoffner's interest was purchased by Benj. Bransford, and during the next four years the style of the firm name was Moffat, Beck & Bransford. It was then changed to Beck & Bransford, and so continued until January 1885, when the business was consolidated with that of the Eldahl Furniture Co., which had been organized in 1882, with William Askins as president. The new firm was known as Beck, Bransford and Eldahl Furniture Co., of which J. E. Beck was president and R. Garth, secretary-treasurer. This was one of the most extensive establishments of its kind in the West at that time, and had a capital stock of \$75,000. In addition to the furniture manufactured they handled large amounts of lumber, the sales of both aggregating \$200,000 or more per year. In January 1886 this furniture factory was destroyed by fire, but was immediately rebuilt.

After the retirement of Shoffner from the firm of Shoffner, Moffat & Beck, he established a factory of which he was the individual proprietor. He continued until 1883 when he made an assignment of his property, and the business was then conducted until 1886 by the joint stock company, known as the Union City Furniture Company, with John H. McDowell as president.

In 1886 the Tennessee Furniture and Chair Company was organized with W. G. Moss as president and general manager, W. A. Posey, vice-president, W. H. Gardner, secretary, J. H. Whipple, treasurer. They purchased the property and stock of Union City Furniture Co. and also that of the Union City Chair Co., a company organized in 1883, with W. G. Moss president. The new company had a capital stock of \$25,000 and did an extensive business in the manufacture of furniture and chairs.

In 1883-84 Bookwalter Bro. & Co., manufacturers of buggy and wagon wheels in Miamburg, Ohio, established a factory at Union City for the manufacture of spokes. They capitalized at \$15,000 and employed about three score men. They used nothing but hickory timber, a large part of which came from Obion county.

In 1881 the Union City Manufacturing Co., was established for the manufacture of wagon spokes, and the following year the entire business was purchased by W. H. Gardner who, in company with his son, continued it for a number of years. They turned out products

around \$50,000 annually, using oak timber.

In 1879 Trautwein & Semones established a wagon factory and machine shop at Union City and later added a foundry. They employed a capital of \$15,000. Ownby & Company's foundry and machine shops were established in 1879 and operated by Ownby and Son.

The Union City Flouring Mill was erected in 1868. In 1890 it was operated by F. M. Brown.

A tile factory was established in the spring of 1885, by Whipple & Hatcher, who did a good business. Two brick yards were in operation at that time, E. Les Bransford and R. W. Fowlkes & Co., respectively. The former was established about timber, a large part of which came

Godwin & Littleton had a broom factory at Union City about this time, H. Dietzel and Duval & Crittendon were engaged in tinware business.

## Baseball Tune-Up Games By Eagles

After playing two games last week with Union City, one here in a tied score, and another there, which the Eagles won. They journeyed to Mayfield Sunday, where they lost 11-4 to the Clothiers. The third inning gave the Mayfield team the lead when they scored six runs.

Paducah came here Tuesday and lost to the Eagles by the narrow margin of 11-10. Deadlocked 5-5 in the sixth, with two men on, Gregory, third sacker for Fulton, poled out a home run to turn the tide for the Eagles. Bodnar, outfielder, also garnered a home run for the home club, and Zanter, second bagger, connected for a three base hit.

The local club is rounding into great form as the opening of the season approaches. The Eagles play Paducah there Thursday, and Mayfield comes here Sunday to conclude the pre-season exhibition games.

Tuesday marks the opening of the 1938 season here, when the Eagles battle the Union City Greyhounds. Plans are being made for a well-arranged program in connection with the opening.

## PLAY AT WELCH SCHOOL

**SATURDAY NIGHT, MAY 7**  
"Crashing Society," a 3-act comedy, will be given at Welch school, Dukedom, this Saturday night, May 7. The final day of school will be May 10. Huel Wright, principal states, and the past term has been a very successful one.

## DUGOUT DIGS

(By B. V. N.)

Manager Clonts has dwindled his several score of players down to seventeen. Tuesday he traded Veasey and Young, a catcher, to Greenwood for Cooper. Among those who will remain until further notice are:

Argyle "Monty" Peirson, 20, hails from Mt. Healthy, Ohio and was one of the best pitchers last year. He is single, six foot one, weighs 177 pounds, and a blonde.

Bud "Mollie" Siderski, 18, from Peoria, Ill. He pitched one year in Missouri. He is five foot eleven, tips the scales at 165 pounds, and has brown eyes and dark hair. It is said he is in love—well, maybe.

"Johnny" Long, just the name will be enough, but to those who have forgotten, he is 21; comes from Flora, Ill., and this is his third year with the Eagles. He is five foot ten, weighs too much (he says); claims eligibility for all feminine hearts interested.

Mike Ulskey, 20, has five years experience in Coral and Warren, Ohio as a catcher. His home is at Coral. He is 5 foot eight, weighs 160 pounds, is single, has blue eyes and dark hair.

"Nicky Mouse" Zanter, 22, pitcher, short-stop, and second baseman from West Frankfort, Ill. Six foot high, 180 pounds, with brown eyes and light brown hair. He's single too.

"Pete" Bodnar, 20, left-fielder of Detroit, Mich. He has played five years semi-pro ball in Detroit. He is five foot ten, weighs 185 lbs.; has blue eyes and dark hair. To those who don't know him he's the home-run hitter in the Paducah game last Tuesday.

"Pete" Koval, 19, another Detroit man with six years in semi-pro ball. He came here from Tallahassee. His eyes are gray, his hair light, weighs 175 lbs., and he is five foot eleven.

Harold "Hal" Gregory, 20, from Pampa, Texas. This will be his second year with the Eagles. Tuesday in the Paducah game he lost one of our balls over the left field fence, with two men on. He is five foot ten, weighs 170 lbs.; has blue eyes and dark curly hair. Unofficially he's in love too.

Harold "Jan" Garber, 21, from Metamora, Ill., another player from last year who was released on inexperience. We're rooting for you this year "Jan." He is five foot eleven, weighs 160 lbs., has blue eyes and dark hair. He is a right hand pitcher and can be identified by a corn on his left foot.

Maurice "Yank" Chatrand, 18, from St. Louis, Mo. He has had one year experience in the Ark.-Mo. League; he is five foot ten, weighs 165 lbs., with blue eyes and a curly top. He is a right-handed pitcher.

Clyde Batts, our home town boy who is playing his third year. In 1936 he was with the Union City Greyhounds. He is five foot eleven, weighs 190, with gray eyes and dark hair. He is one of the best right fielders we've seen.

Oliver Pickel, 19, of St. Louis a right-hand pitcher from the Ark.-Mo. League. He is six foot, weighs 175, very quiet, and has blue eyes. His hair is wavy.

William Robertson, 21, of Okolona, Ark., a right hand pitcher starting his first year. He is six foot one, weighs 170 and very dark complexioned.

Percy Daulphin, 19, comes from Detroit, and has had one year in semi-pro ball. He is 5 feet 6 inches weighs 145 lbs., with blue eyes and brown hair. He's single, plays center field. May be short but he's mighty.

And last, but by all means not least is "Elmer-the-Great" Wenning 20, southpaw hurler. He's from St. Louis. We lost him the first of the year to Nashville, from there he went to Greenwood where he pitched and lost the opening game 5-2 allowing six hits, five walks and struck out five. He is six foot, weighs 160 lbs. with blue eyes and blond hair.

Those who were released Wednesday morning were Bob Walstead, Malcolm Smith, Wright, Roy Wallman, Lowe, Arnold Anderson, Loy Camp, Raymond Brown, Joe Hanchar, short-stop was suspended for two weeks.

Mike Ulskey had the pleasure of having his ears lowered about four inches this week. Who's the lady?

Several boys practicing up with their BB guns. Can they be waiting for the "Umps?"

Wenning says he's glad to be back

in Fulton playing under Ray Clonts. Elmer wants to win 20 more games for the Eagles, and see the old home town in the playoff.

# "If Cigarettes Could Talk"

they would tell a story of a great American industry . . . In 1492 upon reaching America the Columbus crew noticed natives smoking rolls of dried tobacco. When the Spaniards landed in Mexico in 1519 natives were cultivating tobacco with great care and skill. Cartier, upon discovering Canada, found Indians drying leaves in the sun.

John Rolfe, at Jamestown in 1612, is credited with the culture of tobacco but it actually did not begin in Maryland until 1631.

Tobacco manufacturers have spent millions in scientific research to improve their products. Utmost care has been taken in the selection of the right crops. Tobacco industry for many years has used newspaper advertising to increase sales and put out a better product at lower cost.

Cigarettes and tobacco are no exception to the rule of nationally advertised brands. The national brand with the manufacturer's name and trade mark is his guarantee that this product is the best that can be produced for the money.
