**THE LISTENING POIN**

In a world where words weigh daily on the order of things that happen, there is always something to consider. It is the only standard of the opposite and if there is no reader reason and it is this where the world has been a place well as a job on the condition to change their style radically. Reading means we are always to estimate it does. So long as it is lighter suddenly, although what got up as the pleasure in a moment, what will be in a skin of being read—and that is the only standard of words worth.

Full Debate On Lease-Lend Bill

Washington. — Wendell Willkie, the powerful New York stockbroker, has announced that he would be a candidate for the presidency of the United States in the event of a primary election in his home state. The announcement was made in a letter to the Times, and will be held by Willkie as a private party of international situations.

Mr. Willkie, who is the former governor of Kansas, expressed the necessity for change in the program of the previous administration. He declared that the present situation was the result of a failure to make the necessary changes, and stated that the country should not be "bored" into its present condition.

Mr. Willkie further declared that the country should not be "bored" into its present condition, but that it should be "bored" into a condition where the country was not "bored" into its present condition.

Mr. Willkie stated that the country should be "bored" into a condition where the country was not "bored" into its present condition. He declared that the country should be "bored" into a condition where the country was not "bored" into its present condition.

GREEK VICTORIES TO BE SHORT LIVED

Against stiffened Italian resistance, Oberst Klima in Central Albania has captured the strategic stronghold of Kifissia, only 13 miles from Teppelini and 30 miles from the important port of Valona. If the heroic little Hellenic army can succeed with a series of such actions as those in November, the Fascist supplies and gunners may find themselves isolated in the barren northern section of their protec tors, their outposts and factories and without communications.

Kifissia is not Libya. The Greek campaign is not what it was when Italian troops surrendered by the score and took flight leaving all their equipment and supplies. For more than a month the Greek advance has been held in check in the central sector. The last flight leaving Porto Edda has been a solid battalio. Mussolini's Black Shirts have been reorganized. They have a secret weapon that is no longer secret—secret weapon that is no longer secret—in the form of tanks. The Fascist soldiers are not only trained, but also have been trained in primitive conditions. They are not only trained, but also have been trained in primitive conditions. They are not only trained, but also have been trained in primitive conditions.

We are always delighted to explain our home ownership plans. Call us.

Why not start using this magic book to make that dream of home ownership come true this year.

Many others have taken this important step and have regretted it. Let 1921 be the year for you.
