STAR IN MY KITCHEN GLORIFIES THE HOME

Going to school is a heartache.

It sounds a bit strange, doesn't it? But this is what a great majority of mothers in the State believe. The reason is that many mothers find it difficult to balance the demands of their jobs with the responsibilities of raising children. This article offers tips on how to make the most of your time and energy as a homemaker.

Building Activity on One Increase Here

The post war months have seen many improvements in and around Fulton. Despite the rigors of building a new home, the town has been thriving. With the coming of spring, many new homes are being built and the community is growing.

The City Council is preparing the streets and alleys for the new buildings. A small theatre, called the "Fulton Theatre," is being constructed. The theatre will be a landmark in the community and will provide entertainment for the citizens.

LAFRAS IS NAMED GRANGER PRESIDENT

Sheep and Wool Price Off!

The price of wool is expected to remain lower than last year and it is probable that you will not do any better as sheep raisers this season. The price of wool has been very low for several years and is expected to continue at the same level. As sheep raisers, we must plan our flock and marketing strategies accordingly.

And the Bananas Go Round and Round!

This season, we have noticed a significant increase in the number of bananas. The increase is due to the warmer weather and the increased availability of water resources. We encourage farmers to diversify their crops and consider adding bananas to their production.

Chapter 1 - The Railroad Situation

The railroad, or rather the railroads, are an important thing in this community. A large number of railroads now cross the country, and what influence do they exercise upon the stock of the community? They exert an influence the opposite to that of the local banks and of the local manufacturing industries. The railroads help to keep the local banks and the local manufacturing industries in a more or less healthy condition by furnishing occupation to a large number of individuals. They have a tendency to keep prosperity in the community in a more extended degree than is the case with the local banks and the local manufacturing industries. If the local banks and the local manufacturing industries have a tendency to keep the community in a more extended degree of prosperity, the railroads have a tendency to keep the community in a more extended degree of depression.

**ENJOY A COOL KITCHEN this Summer with Electric Cookery**

Electric cookery does not mean up your kitchen, because heavy insulation and closed-firing range does protect the house, and nothing becomes hot directly to bottom of cooking vessels. No steaming is needed. Ample time and temperature control make constant watching unnecessary and assure perfect cooking results.

There is more to smartness in your kitchen grilling and consumption.

Come to use one for a very interesting free demonstration show and we will show you how the different features and models of electric ranges will save time and money, and improve the taste and quality of your food.
