A woman quick to appreciate values looked at our attractive display of

**McDOUGALL KITCHEN CABINETS**

and said, "That is a thoroughly practical piece of furniture. It's what has always been needed in a kitchen. I can see what a great help it would be and I'd like one—but I have no room for it."

Closer inspection showed her that the cabinet occupied only the needed space for an ordinary kitchen table, with every inch of space above and below, utilized in the most careful and practical way.

By the use of a McDougall Kitchen Cabinet, the housewife may dispense with kitchen cupboards, thus saving space. By its use she may have all the elements of her craft assembled at her finger's ends, thus saving strength. By its use she may have all her utensils and supplies arranged in the most systematic manner, thus saving time. A look at these McDougall Kitchen Cabinets will tell you more than columns of talk. You have seen them advertised in the leading magazines—now you can see the cabinets. More than a dozen models will be on display at our store during this week, for you to inspect carefully and let us have the benefit of your judgment, your suggestions—and your criticisms—if any which—yes which. You will be amply repaid for your visit as no such complete and attractive display of kitchen furnishings has ever before been attempted.

The general order, however, is to be paid for by the city, and the cost of the sewer lines and other necessary sewers, etc., shall be assessed against the abutting property owners.
