For Better Times—

The public demand today is for business activity.

Some people think the railroads ought to stimulate business by spending more money—paying more wages, hiring more help, buying more supplies.

Others realize that can't be done unless the railroads first obtain more customers and more cash.

That in turn hinges partly upon general business activity and partly upon competition, the latter provided by carriers which the government taxes us all, even the railroads, to help promote.

There's a perfect log jam, locked in place by the protruding key log of unequal competition. To remove that log will do nothing but break that jam.

For better business we need justice in transportation. In terms of action, first give the railroads equality of opportunity, then ship and travel as your choice dictates.
Isn't this the real problem of Beer — and almost its only problem?

There are people of all ages who stand— and strongly and sincerely believe beer to be intoxicating, or that it will dull, hurt, or at best bring about "bad habits." Just as sincerely we hold that the weight of the evidence is overwhelmingly against that belief. How far we can go, as I soon will, depends on you. We do promise that you will see results from it.

We pledge our support to the duly constituted authorities for the elimination of anti-alcohol conditions wherever they exist. We promise that beer is a mild, wholesome food beverage... and that there is nothing more promising to combat the evil of too much drinking...and that "there is nothing more fastly and sincerely believe beer to be intox-

THERE ARE people of all ages who stand— and strongly and sincerely believe beer to be intoxicating, or that it will dull, hurt, or at best bring about "bad habits." The Fulton County News

Makina Vacation Pay

At the wine of the year we change the financial and work habits of our families and the unfortunate as well. There are always many who manage to scrape through those unfortunate times. There are always always many who manage to scrape through. However, most of them manage to scrape through. It doesn't have to be an expensive event to make it worthwhile and instructive too. There are ways to improve the morale before the journey starts. To have a vacation means to get out of the usual job and return to one. For some, it may be a quiet day and for others, it may be a busy day. There are ways to improve the morale before the journey starts. To have a vacation means to get out of the usual job and return to one. For some, it may be a quiet day and for others, it may be a busy day.

The Fulton man who gets the most out of his vacation program for at a moderate, down to a reasonable rate, may often be a laughing sport and always be at a dinner he arrives for. This is a familiar saying for a reason.

they're going to the right place.

...$75.50 for all the handsome
Palm Beach models and colors.
CORN POLICIES. While some of the opponents to the railroad's proposal are advocating something radical, the railroad's proposal is not radical at all. It is simply a plan to provide a means of transportation for the people of the area. The railroad's proposal is not only reasonable, but it is also a plan that can be implemented without causing any disruption to the current transportation system.

The average citizen who may be in favor of the railroad might wonder why the railroad is not already in place. The answer is simple: the railroad is already in place. It is simply a matter of making it available to the people of the area.

The railroad's proposal is not only a plan that can be implemented without causing any disruption to the current transportation system, but it is also a plan that can be implemented at a reasonable cost. The railroad's proposal is not only reasonable, but it is also a plan that can be implemented without causing any disruption to the current transportation system.
