**Our Sincere Welcome to Swift**

It is with more than a feeling of pride that we join today in extending to Swift & Company a hearty and generous welcome to Fulton's great new industry. We realize that it is more than an industry for the growing city of Fulton, and that it is destined to add materially in the advancement of this entire section. It is especially gratifying to know that the farmers of Western Kentucky and Tennessee will henceforth have an all-the-year-round market for their dairy and poultry products and that this diversified agriculture may go forward without restraint or interruption.

In addition to this cordial welcome to the Swift & Company plant, we beg to extend a special welcome to Manager Burns and his staff, who are to make their homes in our city.

**BIG DAY IN FULTON**

Fulton celebrates the formal opening of its new Swift & Company plant. It is a remarkable instance of industry, efficiency, and progress. This plant will give instant recognition to the accuracy, promptness, and efficiency of the management and employees of the company. It will add a new chapter to the history of Fulton and adjoining counties, and is said to be the largest and best of its kind in the country. The building was opened to the public yesterday afternoon, and is to be dedicated to the memory of Mr. William Fulton, founder of the town. It is a magnificent structure, and is a model of efficiency and modern methods of construction. It is a fitting tribute to the memory of one of the most prominent citizens of Fulton and adjoining counties.

The building of the Swift & Company plant was finished to-day. 

**Great Milling Plant.**

The thousands of visitors who attended the opening of the Swift & Company plant in Fulton were greeted with a display of fireworks, and were treated to a soda fountain and ice cream stand. The plant is a splendid example of modern construction, and is believed to be one of the largest of its kind in the country. There is going to be a lot of activity in the building line this year. Architects and contractors, carpenters and masons all, are busily sharpening up their pencils and their tools, and getting set for business. It is not the young married folks alone who are going to build homes— who dream dreams of happy in homes of their own—but many others who have long, long, been renting the roofs over their heads are going to try this year to realize their desire to have a home of their own.

Whatever you plan to do by way of BUILDING—REMODELING—REPAIRING—

we want you to feel free to come in and consult our service department without the slightest obligation. Whether it's a big house or a bungalow, a new garage, new roof or new floor, a sun parlor or a sleeping porch, an alley fence, or built-in fixtures— we are prepared to give you unequalled service and low prices on Quality Material.

NATURE'S PHILOSOPHY
The season's have changed; and the summer season is about to end. And it is time that the contemplative mind reflect on the nature of the changing seasons. As the days grow shorter, the air becomes cooler, and the landscape transforms from green to brown, we are reminded of the cycle of life and the impermanence of things. But amidst this change, there is beauty to be found in the transition, a reminder that nature is preparing for its next chapter, just as our lives are taking on new forms.

WHAT THE NATIONAL FOOD PRESERVATION PROGRAM MEANS TO YOU-

1. IN HEALTH
Food preservation is essential to keep perishable food products in wholesome, healthful, palatable form. Fifty degrees is the danger point. If the temperature drops below that point—no matter how much shade or four-poster—perishable food spoil quickly, become less appetizing, and lose their market value. Only artificial refrigeration, used twelve months in the year, will safeguard the health of your family and the food in your pocketbook. Make sure your refrigerator is plugged into the right outlet.

2. IN GOLD
Share in 835 Prize Contest Awards Totalling $25,000-

DURING THE ENTIRE MONTH OF SEPTEMBER, 1943, PRIZE CONTESTS WERE HELD IN VARIOUS SUPERMARKETS IN THE SOUTHERN STATES. THE TOTAL GROSS RETURN TO THE CONTESTANTS WAS $25,000. THE PRIZE CONTESTS WERE ADMINISTERED BY THE NATIONAL FOOD PRESERVATION PROGRAM OF THE NATIONAL FARMER'S UNION AND THE KENTUCKY COUNTRY LIVING MAGAZINE.
