High School Notes

Mr. Joe Brower gives the high school the real treat of the term in the form of a picture show on October 3rd. The show was well attended. Football is a big item in this district and the high school athlete's heart. Any football fan without feeling the home team at a game is just as well off as the heathen. No other sight in the world is so beautiful as the home team in action.

November 4th will open the football season with a 12:00 game versus the Texans. The Texan board plot good ball, and in their close game against the Owls in the last football game, were outplugged. They will be at their best in the game, and game and will be the best we have in our district.

Preparations are being made for the Halloween Fair today. Saturday, October 31st was the day set for the Fair. The Fair will be a strictly home fair with a lot of prizes to be given away. The Fair is being arranged by Mr. and Mrs. J. A. Smith, Mr. and Mrs. J. M. Johnson, Mr. and Mrs. J. W. Clay, Mr. and Mrs. J. A. White, Mr. and Mrs. J. H. Moore.

The Fair will open today, October 31st, and will continue until November 1st. The Fair is sponsored by the Chamber of Commerce and will be held in the Fair Grounds, which is located on the outskirts of the city. The Fair will be open from 9:00 A.M. to 5:00 P.M. and will be open on Sunday. The admission price will be 25 cents.

The Fair will feature a variety of exhibits, including art, handcrafts, clothing, and food. There will be a wide range of food, such as sandwiches, hot dogs, and hamburgers. The exhibits will be judged by a panel of judges and the winners will be announced on November 2nd.

The Fair offers a unique opportunity to showcase the local talent and promote the local economy. It is a great event for the community and a great way to celebrate the Halloween season.

The popularity of the Fair continues to grow each year, and it is expected to be even more successful this year. The Fair is a great way to bring the community together and to celebrate the Halloween season.

Tuesday, October 1.

SCHOOL NOTES

The Fulton City Schools now
have an enrollment of more than
800 pupils. Two hundred or
these are in the senior high
school, one hundred and eight-
do in the junior high; and the
rest in the elementary grades.

Our music department is
preparing most excitingly
under the direction
of Miss Mae McKeehip
supervisor of music.

At the student election, Friday
Seamore Williams was elected
president of the student body for
the present school year. Seam-
ery is an active student, an
athlete of distinction, and popular
with his fellow students. He
would make an excellent presi-
dent. By the conference rules all
students, who are members
of the "Big Pittson" must elect
a president. This official will
be to the confering of letters
and awards.

Heads are busy planning a
very interesting address in
High School. This will be the
first of a series of which Mr. Ni-
nes will give the year.

Practice and president prac-
tice in the law of the past half
year. Last year, Coach Podcox
and Assistant Craig Killey
have been putting the team through the rigors of the
season, and they are now
in a position to announce
their list of selected.

Our orchestra is again giving
the splendid mid-day concert,
which attracted so much favor
last year. Excellent food is
served at all of the
concerts.

COMMUNITY

BUILDING

One's Own Rooteree

Makes for Ambition

Although home growing in the olden day was the natural method of food production, that is not to say it is without value today. It can be very useful, even in the city, to provide a certain portion of the food supply. There are many people who keep a bed or two in their gardens and enjoy all sorts of vegetables and fruits that have been grown in the earth where they were wanted.

Mass Coloring Your

Object of Builders

In order to produce the best results from the use of vegetable dyes, it is important to understand the chemistry of these substances and their application. The colorants should be selected with care and accuracy, as unqualified specimens of color may result in unsatisfactory results.

City Planning Page

The city is planning to improve the streets and churches in the district. Special attention is being given to the street lighting and drainage systems. The project will be completed within the next few months.

Game Club Awa Planning

The game club is planning to hold a dance on Friday evening. Admission will be $0.50 per person, and refreshments will be served.

Age of Outdoor Life

Life in the open air is essential for health and well-being. The benefits of outdoor activities, such as walking, hiking, and gardening, are numerous and include improved physical fitness, mental alertness, and social interaction. Outdoor activities are especially beneficial for those with limited mobility or access to parks and recreation areas.

Ideal Dairy Barn

The requirements for a dairy barn will depend on the size and type of operation, as well as the needs of the animals being housed. Some key elements include proper ventilation, adequate space for feed and bedding, and a clean and dry environment.

FOOD LIKE YOU GET AT HOME

This is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve food like you get at home.

Many patrons will testify that there is no difference between our meals and the meals they get at home. That’s the reason they come here as frequently to eat.

Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.

The next time you want to eat away from home, bring your family here.

Food Riot in New York

A STRIKE and Ten Cent Store Kidnapped

NEW YORK, June 26 - Thousands of New Yorkers are expected to take part in a strike today in the Ten Cent Store, the largest in the city.

The strike is due to the labor dispute between the store and the workers over wages and working conditions.

The workers have called for a boycott of the store and have been supported by various labor organizations.

Airing the Subject

A new article from the Times of London has sparked a debate among the editorial staff about the current state of the world's economies.

The article, which discusses the impact of globalization on traditional industries, has been met with mixed reactions.

Some editors believe it provides valuable insights into the future of the global economy, while others argue that it oversimplifies complex issues.

Our Message of Service

There is going to be a lot of activity in the building line this year. Architects and contractors, carpenters and masons all, are busily sharpening up their pencils and their tools, and getting set for business. It is not the young married folks alone who are going to build homes — who dream dreams of happiness in homes of their own — but many others who have long, too long, been renting the roofs over their heads are going to try this year to realize their desire to have a home of their own.

Whatever you plan to do by way of BUILDING — REMODELING — REPAIRING

we want you to feel perfectly free to come in and consult our service department without the slightest obligation. Whether it's a big house or a bungalow, a new garage, new roof or new floor, a sun parlor or a sleeping porch, an alley fence, or built-in fixtures — we are prepared to give you unqualified service and low prices on Quality Material.

LET US HELP YOU MAKE YOUR DREAMS COME TRUE.

Trade among Friends

No matter what some folks say to the contrary, there is a lot of sentiment in human beings. Friendship, for instance, makes more satisfactory sales than all the cleverness and argument in the world.

You like to trade at a certain store—not because its floor is arranged in a scientific way, but because the folks who serve you are always friendly and helpful.

Just that very thing—FRIENDLY SERVICE—is the power that draws people together into communities like this, where everybody can enjoy the many benefits of neighborhood cooperation.

And FRIENDLY SERVICE is the sentimental reason why you feel very much to your advantage to trade when you feel at home, where your friends will treat you as you well intended.

Read the Ads in This Paper and save yourself money by trading at home.
Helping Business

The motto "live and let live" is not enough for the railroads in their relations with other lines of business, according to L. A. Donner, president of the Illinois Central System. In his October letter to the public, the railroads are not content that other lines of business shall merely live, he continues; they want business to...!

Yasser, all of business shall merely live, he continues: they want business to...

The maxim "live and let live" is...
Helping Business

"Live and let live" is a well-regarded maxim of business life. Let us see how it relates to the railroads.

The railroads are not content that other lines of business shall merely live. They want business to be prosperous, and through their service they help others to prosper.

The present trend of the nation's business is an illustration. Few lines of business lack a measure of prosperity; most of them are doing better than ever before; the average is high-

ly satisfactory. It is generally rec-
ognized that the progress of the rail-
roads has contributed greatly to this
favorable situation. There have been plenty of cars and locomotives and other facilities. The time of freight in transit has been reduced from weeks to days and from days to hours. Passenger trains have been speeded up. Schedules of all kinds are maintained with remarkable ex-
dependability of railway service
prices and promoted regularity of

The railroads are invited.

WHERE PROPER DIET IS SUPERLATIVE

The sun thru were able to ignore the fact that the book in hand which is devoting these pages to the subject of diet and health was sent out by a highly-respected medical authority. The fact is that it is written by a medical authority who is not only an authority on diet and health, but who is also an authority on the subject of the economy of the world. In other words, it is written by a man who is able to show that the principles of diet and health which he advocates are not only sound, but are also economical.

As a result, the book is a valuable guide to those who wish to improve their health and to those who wish to improve the health of their families. It is also a valuable guide to those who wish to improve the health of their communities. The fact is that it is written by a man who is able to show that the principles of diet and health which he advocates are not only sound, but are also economical.

Electric Brooders Are

Used in Poultry Houses

Electric brooders are now used in poultry houses throughout the country. They are used to provide warmth and light for the young broilers and pullets. They are also used to provide heat for the hens and roosters. They are also used to provide heat for the young chicks.
