KENTUCKY MECCA FOR TOURISTS

KENTUCKY AND HER HISTORICAL SHRINES

An address by Dr. Henry H. Hahn, who is identified with the American Council of Education, at the World's Fair, Louisville, Ky.

Kentucky, industrial state of the Bluegrass region, is the cradle of the Western world in the sense of being the birthplace of the most famous and influential of the early American heroes. At the very beginning of the 19th century, Kentucky was already a land of opportunity for those seeking a new life. Its strategic location on the Ohio River made it a hub for trade and commerce, and its fertile land attracted settlers from all over the country.

The state of Kentucky is a treasure trove of historical sites and landmarks, each with its own unique story to tell. From the Battle of Spottsylvania to the Lincoln Birthplace, Kentucky is a living museum of American history.

The state is known for its Bluegrass culture, which is a blend of English and Irish traditions. The state is home to the world's largest horse farm, and is known for its thoroughbreds and racing industry.

Kentucky is also known for its Derby, which is held in May each year and is one of the most anticipated events of the year.

In addition to its cultural heritage, Kentucky is also a natural paradise, with its rolling hills, beautiful lakes, and stunning landscapes.

The state is home to the world's largest horse farm, and is known for its thoroughbreds and racing industry.

The state is also home to the world's largest horse farm, and is known for its thoroughbreds and racing industry.

In conclusion, Kentucky is a state rich in history and culture, and is a must-visit destination for anyone interested in American history and culture.
Demand these 2 features in the Parlor Furnace You Buy!

1. Coal Saver
2. Heat Deflectors

Here are the latest improvements that new furnaces have to offer you! This is a must have for every year you make with the new Henry Bonnell Parlor Furnace.

Automatic Heat Control
The Coal Saver will adjust the heat instantly to the desired temperature. It will be a year-round comforter in the house. It is the best safeguard for the house and a must have in every modern house.

Keep Your Floors Warm
The Heat Deflectors will keep the heat away from your floors. It is a must have for every year you use the new Henry Bonnell Parlor Furnace.

Fulton Advertiser

November 1st, the time has come for the do-it-yourselfer to begin planning for his first turkey to be raised. The time for raising is limited and the bird folly will be very profitable. If you have been raising poultry for any length of time, you have probably been sold your equipment and materials by a man who is also raising poultry. He will tell you that raising poultry is a very profitable business.

Do it yourselfer, this is a mistake. Raising poultry is a very profitable business, but it is not a be-all and end-all. You must have a good load of eggs to raise a successful flock of poultry. You must have a good load of eggs to raise a successful flock of poultry. You must have a good load of eggs to raise a successful flock of poultry.

If you have not been raising poultry, you may have been sold your equipment and materials by a man who is also raising poultry. He will tell you that raising poultry is a very profitable business. You must have a good load of eggs to raise a successful flock of poultry. You must have a good load of eggs to raise a successful flock of poultry.

Does each year find you wishing and hoping for better things in the future—and regretting lack of accomplishment in the past?

There is one sure way to fill your heart of plenty to the brim with all the good things of life. It entails no sacrifice now. It merely means the forming of a good habit.

Sure! That good old formula for success in an uncertain time as it helped build the fortunes of our pioneer railroad builders, manufacturers and promoters.

Applying it on a small scale in your own way will bring you results in proportion.

Poultry Work

By H. A. McPherson, Fulton Farm

Poultry work over the county during the past year has been a happy satisfaction and unlike the previous most bumper season of 1928. The poultry industry has been going steadily all year. Probably the first thing that should be done to rear the birds is to have a good comfort- able, sunny house, and to settle all undependable birds. The second thing to do is to provide them with plenty of feed and water.

The poultry industry is not increasing in this community. Thousands of dollars are constantly going in and getting out, but the poultryman who stays on the job looks after his birds, and would look after other farming operations, will make a nice profit on the money he has invested. Not only doing that but also feeding them. It is the farmer's duty to rear the stock for this time last year totalling about 500. Two new dormitories for men, a new citation building, and Memorial Hall, a new building for the increased attendance, have been named including a copper-service range, although it is a matter of expense, you can get along very well with a range.

As long as there are sufficient men and women in the county, we will continue to have our full quota of poultrymen during the year and keep the poultry operations going.

The University of Kentucky and its poultry work over the county during the past year has been a happy satisfaction and unlike the previous most bumper season of 1928. The poultry industry has been going steadily all year. Probably the first thing that should be done to rear the birds is to have a good comfortable, sunny house, and to settle all undependable birds. The second thing to do is to provide them with plenty of feed and water.

Mention is made of some new men who have shown some interest in poultry work and who are anxious to learn the trade. These men are provided with feed and water and are encouraged to continue the work. Thousands of dollars are constantly going in and getting out, but the poultryman who stays on the job looks after his birds, and would look after other farming operations, will make a nice profit on the money he has invested. OUR MESSAGE OF SERVICE

There is going to be a lot of activity in the building line this year. Architects and contractors, carpenters and masons all, are busily sharpening up their pencils and their tools, and getting set for business. It is not the young married folks alone who are going to build homes—who dream dreams of happiness in homes of their own—but many others who have long, long been renting the roofs over their heads are going to try this year to realize their desire to have a home of their own.

Whatever you plan to do by way of BUILDING—REMODELING—REPAIRING—
we want you to feel perfectly free to come in and consult our service department without the slightest obligation. Whether it's a big house or a bungalow, a new garage, new roof or new floor, a sun porch or a sleeping porch, an alley fence, or built-in fixture, we are prepared to give you unexcelled advice and low prices on Quality Material.

LET US HELP YOU MAKE YOUR DREAMS COME TRUE.

NEW CHOPS IN FLOODED STATES BRING PROSPERITY

The introduction of new crops in the development of farms often means a new prosperity to a community. With a new crop comes vitality and hope.

In the three States of Alabama, Georgia and Florida, cotton and many other crops, whose yield is so inseparable from the prosperity of these states, are being planted. Cotton production is up 19 per cent, mostly due to these new crops.

Everything considered, the Delta State of the South is showing improvement due to new crops.

RED CROSS HONOR FLAG
GOS TO NEW HAMPSHIRE

The Honor Flag was presented to the State of New Hampshire on November 1, 1929. The flag is a reminder of the services of Red Cross workers in the United States and is symbolic of the work of the Red Cross in the service of the community.

FIVE RED CROSS CAMPS
HOUSE FLOOD REFUGEES

A total of 23,150 persons were housed by the American Red Cross in connection with the flood of early last Spring. Post offices were closed and relief centers established in many places.

The Red Cross, with the full cooperation of the local authorities, did everything that could be done to help with food and clothing in the flood stricken areas.

A Red Cross Field Service Station was established in the flood stricken areas and volunteers were sent out to assist in the work. The Red Cross has continued to do everything possible to help the flood victims.

YOUTH PAYS HOMAGE TO HERO

Iron Crosses and Beer for Signal Boys

Eleven months. November 11th, 1918, which brought a world-shaking end to four years of war. In Germany, the huge armies of that country surrendered their arms, and the world turned toward the dawn of peace. The news brought joy to all hearts, and even the signal boys of the American Expeditionary Forces in Germany were not immune to the glad tidings.

World's Best Fed Into the Red Furnace

On this glorious day, the signal boys of the American Expeditionary Forces in Germany received a treat they will never forget. The Red Cross, in a show of generosity and humanity, provided them with a feast that would be remembered for years to come.

LESSON OF WAR

The signal boys were not just fed, but they were also taught a valuable lesson. They were reminded of the sacrifices made by their comrades, and the importance of peace. They were encouraged to work towards a brighter future, free from the horrors of war.

HEALTH PRESERVATION IS AIM OF RED CROSS

The organization of the Red Cross was established in 1863 to provide medical and humanitarian aid during war. Since then, it has grown to become one of the largest voluntary organizations in the world, with a mandate to protect life and health in times of crisis.
