### The New Trend In Industry

An Address by Dr. Henry  
Place Payne, Consulting En-  
gineer to the American  
Mining Congress

The natural resources of a state are its industrial currency for the future. In discussing them we are visualizing the commerce of tomorrow. When we study their uses, we emphasize the great world market awaiting their fabrication.

In no other nation are to be found such an abundance of fuels, both liquid, gaseous and solid; building materials, both wood and stone; limestones and constituent elements of cement; cotton, wool and flax; agricultural products and fruits of the widest diversity for human consumption; fish and wild game in abundance; transportation facilities and means of communication wholly adequate; great manufacturing plants on inland waterways and trunk line railroads; extensive deposits of non-metals; unmeasured stores of the basic metals; vast areas of pasturage for cattle and sheep; stock farms for the breeding of blooded stock; phosphate rock and marl for fertilizers; huge potential water powers; climatic conditions from plain to mountain peak, wet and dry, hot and cold, to suit the extreme tastes of the individual; compared to other countries, a health rate unexcelled; churches and schools, colleges and universities, hospitals and libraries; in fact, everything necessary to human enjoyment and industrial prosperity.

The problem of today is the utilization of natural resources near their point of production; the intelligent development and adaptation of hydro-electric power and its transmission over large areas; intelligent and far-reaching programs of forest preservation and of reforestation; of highway systems, of education, of mental and moral welfare, all of these to be accomplished through cooperation and coordination.

No state or country ever became rich through the production of raw materials alone. The advancing waves of progress sweep over the unchanging shores of indifference, and a state insensitive to the value of decentralization and diversification of industry, remains on the back roads of prosperity.

All progress is based on vision, and "where there is no vision, the people perish." In the past 75 years, man's ability to produce, has increased sixty times, or 6000 per cent.

In America today 15 workers can produce all the necessities of life for 100 men, thereby releasing 85 men to supply luxuries and articles of commerce; while in China it requires 85 men to provide the necessities of existence for 100 men.

The income of American wage earners is \$60,000,000,000 a year, while they spend only \$45,000,000,000. The remaining \$15,000,000,000 represents an annual individual reserve against sickness and poverty, and constitutes an unanswerable argument against communism and class hatred.

The workman of today enjoys heat, light and power, educational and recreational facilities, good roads and communication, beyond the imagination of the richest man a few years ago.

The high standard of living is the result of the co-partnership between brains and business; wealth, collective or individual, is the product of brains, and labor is productive

[Continued on last page]

### FULTON GIRLS RUN DOWN BY AUTOMOBILE

A negro driving a big Morgan car, belonging to Mr. Snell, of Murfreesboro, Tenn., ran into six students of Tennessee College at Murfreesboro, early Saturday morning, injuring all in the party, composed of Misses Mary Nell Nall, Mary Louise Smith, Evelyn Williams, of Fulton; Mary Virginia Green of Mayfield; Evelyn Long, of Union City; Martha Little, of Dyersburg.

Three inches of snow had fallen and the girls were walking along the edge of the road when hit by the car.

Miss Mary Nell Nall, daughter of Mr. and Mrs. W. C. Nall, probably suffered more serious injuries and is now at the hospital in a plaster cast. Her hip was badly dislocated, besides receiving cuts and bruises.

Miss Mary Louise, daughter of Mr. and Mrs. Albert Smith suffered cuts and bruises, and the wheel of the car stopped on the tip of her toe, holding her fast until assistance was rendered to relieve her.

One of the girls fell beneath the car and when she realized what had happened, was laying upon her back looking upward under the machine, however, she was not seriously injured or any of the balance of the party.

Albert Smith left for Murfreesboro immediately upon hearing of the incident and returned home Monday night, bringing with him three of the injured girls. His daughter, Miss Mary Louise, Miss Evelyn Williams, of this city and Miss Mary Virginia Green of Mayfield. All are reported recovering and will probably be able to return to school Monday.

Mr. and Mrs. Nall also left immediately for Murfreesboro on hearing of the accident. Mr. Nall returned home and reports Mary Nell will recover. Mrs. Nall remained with her daughter at the hospital.

After the accident it is said the negro went to the police station and reported what had happened and was locked up, but later released.

The matter is now in the hands of attorneys and school officials.

All are thankful that the girls escaped with their lives and hope that the injured will soon fully recover.

### INTERESTING COUNCIL MEETING PROMISED FOR MONDAY NIGHT

Monday night, December 2, promises to be an interesting session of the city council when newly elected members will take their seats in that body.

T. T. Boaz, W. P. McAdams, T. H. Irby and J. A. Colley are the new members, while L. S. Phillips and J. E. Hannephim are the old members. Mayor-elect Paul DeMyer will not take his seat until Mayor W. O. Sharple turns over the reins of office to him on the first Monday night in January, 1930.

The old councilmen will retire with having accomplished much to their credit for the betterment of our city during their terms of office. It has been a progressive administration, and while city officials get little praise for their work, there is no denying it that the outstanding improvements have almost transformed our city, elevating it entirely out of the village class.

Veal calves wanted at stock pen Monday, Dec. 2.

### GOOD MAN PASSES AWAY SMALL FIRE IN BUSINESS DISTRICT

M. W. Moore, one of the old and highly esteemed citizens of Rock Springs community, passed away Sunday evening at his home near Crutchfield. The deceased was a good man and at the time of his death was 81 years old.

He will be sadly missed and the community is bowed in grief with the bereaved wife, four sons and four daughters surviving. Funeral services were held Monday at Rock Springs conducted by the Rev. Bunn Ross, of Martin, burial following with the Fulton Undertaking company in charge.

Send The Advertiser to a friend one year—only \$1.00.

### PRETTY WEDDING

A wedding of unusual interest to their many friends took place in the lodge room of the Order Eastern Star Monday evening, Nov. 25, when Miss Carline Moore was united in marriage to Mr. Boyce Dumas, the Rev. McCoy performing the beautiful ring ceremony.

The lodge room was artistically decorated for the occasion. Preceding the ceremony Mrs. Hardeman Howard sweetly sang "I Love You Truly" with Mrs. T. D. McWhorter at the piano.

The bride, accompanied by her sister, Miss Marie Moore, as bridesmaid, entered the room and proceeded to the altar as Miss Cornell McKee played the Wedding March. The groom was accompanied by Mr. Don Snow. Mrs. James Dumas, mother of the groom was matron of honor.

The bride was lovely in a beautiful white wedding gown and veil, carrying a bouquet of sweet-heart roses.

Mrs. Dumas is the charming and accomplished daughter of Mrs. M. F. DeMyer and for several years has held a responsible position in the insurance office of Fall & Fall. She is a member of the O. E. S.

Mr. Dumas is employed as salesman at the U-Tote-Em grocery store and a young man of sterling qualities.

Both are popular young people attested by the large number who attended and witnessed the ceremony. A reception followed and refreshments were served. The newlyweds departed amid congratulations and showers of rice.

### MOTT-JONES

Mr. and Mrs. J. L. Mott of Union City, Tenn., announce the marriage of their daughter Willie Mott, to Mr. Billie Bryan Jones, of Fulton, Ky.

The wedding was solemnized Wednesday, November 20, at the home of the bride's parents at 5:30 p. m., Rev. E. D. Fritts, pastor of the First Christian church of Union City officiating. For the occasion the home was decorated with giant chrysanthemums and all pink lighted tapers, which threw a soft glow over the scene. The impressive ring ceremony was said in the presence of only the members of the two families.

The bride wore a beautiful navy blue flat crepe gown, with all the accessories to match, and carried an arm bouquet of pink rosebuds. The bride is a graduate of Union City high school and has many friends who will be interested in her marriage.

The groom is the son of Mr. and Mrs. C. D. Jones of Fulton, and is associated with his father in the coal and ice business. The young couple will make their home with the groom's parents, in this city.

They were entertained on November 22, with a six o'clock dinner at the home of Mr. and Mrs. J. M. Jones.

### NOTICE, STOCKHOLDERS

All stockholders of the Fulton Building and Loan Association are requested to be present at the regular annual meeting of the organization on Tuesday night, December 3, 1929 at the Chamber of Commerce rooms on Walnut street, when directors for the ensuing year will be elected and the transaction of such other business as may properly come before the meeting, including the subject of increasing the capital stock of said Association from \$1,500,000 to \$2,000,000, to be divided into 20,000 shares of the par value at maturity, of \$100 each, and amending the articles of incorporation of said Association to carry same into effect.

J. E. FALL, Secretary.

### SOUTH FULTON WILL HAVE CITY ELECTION TUESDAY, DEC. 3

Two Tickets Are Out for Offices of Mayor and Aldermen to Be Filled by Voters

The regular city election to elect a mayor and six aldermen for South Fulton, has been called by the Obion County Election Commissioners for Tuesday, December 3, with the following officers named to hold the election: Officer C. J. Bailey; Judges, W. S. Boulton, W. W. Morris, John Fox; Clerks: Dan Horton and Sam Jones.

Two full tickets have qualified, which will insure a spirited contest. One ticket is headed by Mayor S. A. McDade, seeking re-election, with the following candidates for aldermen: A. T. Batts, J. S. Jones, J. C. Houston, Abe Jolly, B. L. Rawls and Roy Adams, while the other ticket is headed by T. N. Fields for mayor, and J. S. Crockett, J. W. Reason, E. P. Jones, J. D. Hoskins, L. B. Reams and Will Powers for aldermen.

Mayor McDade has served as Mayor of South Fulton for a number of years, and both he and Mr. Fields, who is opposing him for re-election, are very popular citizens of South-Fulton, and the aldermanic candidates are among the leading business men and citizens of the town.

### CARD A TRULY PERSONAL GREETING

It's only a very short time until the busy Holiday season is here again. Before we realize it, all of us—old and young—will be counting the days until Christmas.

We want to suggest right now, while there is time to decide without haste, that you make your Christmas greeting decidedly personal this year.

Select from our display of beautiful designs and charming sentiments the card that exactly expresses your good wishes. Then permit us to print your name below the verse or seasonal greeting, and the message will be doubly personal.

No extra charge for printing your name on Christmas cards purchased from us.

**I. C. ADOPTS NEW SERVICE**

Special low rates for the shipment of automobiles by passengers going to the Southern winter resorts will be offered by the Illinois Central System during the coming season in an experiment to build up railway passenger traffic.

Under the special rates, which will become effective about the middle of December, an automobile will be handled for the equivalent of three passenger fares provided two or more tickets are purchased and used by the shipper. The rates will apply from Chicago, Peoria, St. Louis and places south thereof to New Orleans, Gulfport and Florida points.

The winter round-trip tourist rate from Chicago to Jacksonville, Fla., is \$35.06 each way. Two persons, therefore, can make the round trip for \$70.12 each way for their own tickets and \$105.18 for shipping their car. The winter round-trip rate from Chicago to New Orleans is \$30.67 each way, and two persons can make that round trip for \$61.33 each way for their own tickets and \$92 for shipping their car.

"We believe there is an increasing number of people who want to have their own cars to drive about in while they are on their vacations and yet who want to save the time and trouble and escape the hazards of driving through," said J. V. Lanigan, passenger traffic manager of the Illinois Central System, in announcing the arrangement. "These special rates are devised to serve these people. We are hopeful that they will also attract to the trains people who otherwise would not travel by train. It is in every way an experiment. We have nothing to go by. Conditions are changing all the time, and in order to keep up with the times the railroads must change too."

"We are prepared to handle our passengers' automobiles in our fastest freight trains. From Chicago we ship freight regularly to New Orleans in 55 hours and to Jacksonville in 72 hours, and schedules from other points are proportionately fast. A passenger will be able by shipping his car in advance of his departure to have it available for use immediately upon his arrival."

"Ours is the first railroad in the Central West to make this experiment. Not only will we watch it, but it will be watched by many other roads."

**TURK CASE MOVED FROM BARDWELL TO CLINTON**

Bardwell, Ky.—Trial of Lucian C. Turk, prominent Bardwell citizen, who is charged with killing his father-in-law, W. S. McCloy, a Bardwell hardware merchant, will be held at Clinton in Hickman county circuit court, Judge J. E. Warren ruled Saturday afternoon.

Judge Warren also sustained motion of the defense to allow Turk bail for his appearance for trial. By agreement bond was fixed at \$25,000, which Turk promptly executed. He had been at liberty on \$10,000 bond since his examining trial on October 11.

The trial will be called at the February session of Hickman circuit court which convenes the first Monday in February.

The question of change in venue was debated by counsel for the defense, who contended that because of the prominence of Turk in Carlisle county and the widespread knowledge of the case against him, he could not receive a fair and unbiased trial in Carlisle county. His lawyers argued in behalf of moving the trial to Ballard county, which the commonwealth opposed.

The fatal shooting of McCloy occurred August 23 on the

main business street of Bardwell while he stood in the alcove doorway of his hardware store. Turk was seriously wounded in the duel.

An indictment preferring a formal charge of murder was returned by the Carlisle county grand jury at the present session of court.

Turk will make a plea of self defense.

**MANY PASTORS WILL FILL NEW PULPITS**

**CHRISTMAS SEAL SALE**

"Preliminary plans for the Christmas Seal Sale are more complete at this date than in any previous year in my experience," said Dr. J. S. Lock, Executive Secretary of the Kentucky Tuberculosis Association.

"Through years of faithful service, the public can see in the various communities the concrete results of the power of this little Christmas messenger. The establishment of nursing service in many counties is made possible by the Christmas Seal, while the Chest Clinic, the nutrition work and the educational program of the Association which supplements local efforts are also carried on by the funds the seal sale provides."

"With every available medium of publicity and distribution functioning, and the various counties well organized and working enthusiastically, the twenty-second annual seal sale should bring greatest results ever obtained in any previous year."

The seals will be available

at business houses, through many local clubs and organizations, and at residences through the mail. The conquest of tuberculosis is everybody's business, and the Christmas seal is the accepted weapon. Let us use it in 1929 as never before.

**MURRELL ROPER, JR., WINS TRIP TO CHICAGO**

It has been the policy of the I. C. railroad company, for a number of years, to award seven trips to the club department of the state of Kentucky, to be given to seven outstanding boys and girls in as many counties in the state. These trips are to the International Livestock Show, held in Chicago, and are given to the counties that have done the most outstanding club work. Last year Fulton county was awarded a trip and Billy McGeehee was sent to represent the county.

The club department recently notified the county agent, H. A. McPherson, that we were awarded another one of these trips to Chicago, given by the I. C. R. R. Co. After checking over the records of club work, it was decided to award this trip to Murrell Roper, Jr., of Sylvan Shade. There are other club members in the county who will probably make more money out of their project, but some of the boys are too young and others could not report on their projects at the time the report had to be made for the I. C. R. R. Co.

Murrell has done splendid work since he joined the club in 1928. He purchased a registered bred Jersey heifer from the Hickman Bank & Trust Company a year ago last June, and during her first lactation period, he sold \$160.00 worth of milk, more than enough to pay for her. He had the bad luck of losing a very fine calf from his cow, but she has her second calf, a male. Murrell has kept a record of his cow and she has proven well worth the price. Last year his cow stood ninth place at the Hickman Fair. This year she was awarded first place in the club department, first in open class and grand champion over the show. He showed his cow at the Fulton Fair and won fifth place.

Murrell has recently purchased another registered cow and heifer, which makes him a total of 4 head. He is very much interested in farming and livestock raising. His acre of corn is probably the best in the county and he won first place at the Hickman fair on his corn.

**LIONS CLUB HOLDS ANNUAL BANQUET**

The Lions club held its annual banquet and ladies night Tuesday evening at the First Methodist church, the ladies of the church serving the splendid meal. About 75 or 80 persons were present, including District Governor Orville of Frankfort, Ky. The out of town guests were as follows:

Orville Harford, district governor, Frankfort, Ky., Mr. and Mrs. F. W. Brooks, Mr. and Mrs. L. L. Hindman, Mrs. C. W. Bridges of Clinton, Ky., Mr. and Mrs. Raymond Smith, Dresden, Tenn., Senator and Mrs. Sam R. Bratton, W. G. Reynolds, and Rev. Fritz of Union City, Mr. and Mrs. R. A. Compton, Mr. and Mrs. A. Homer Jordan of Paris.

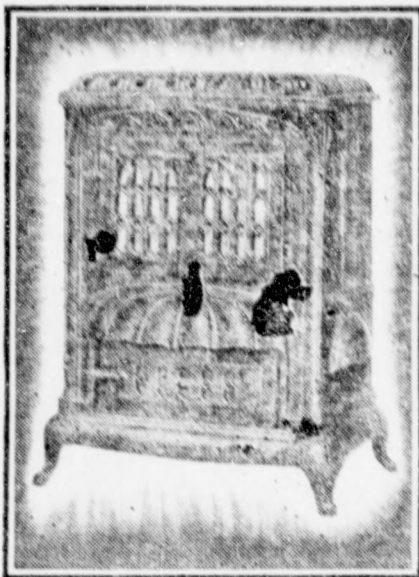

Music was furnished by a quartet composed of Messrs. Paul Hornbeak and Steve Wiley, Messdames Loel Hindman and Hugh Pigue. Mrs. Hindman also gave several enjoyable solo numbers. Mrs. Paul Hornbeak was the accompanist.

President Louis Weaks presided as toastmaster and was given able assistance by Harry Murphy and Fun Promotor Smith Atkins. Many enjoyable skits and contests added to the enjoyment of the occasion.

**REMOVAL NOTICE**

The Coca-Cola Bottling Co., has moved from Fourth street to their new plant at corner of Burton avenue and Lake Street extension.

L. T. BELL, Mgr.

**Demand these 2 features in the Parlor Furnace You Buy!**

Here is one style Charter Oak Parlor Furnace. It will fill the whole house with warm, moist air, burning any grade of hard or soft coal or wood. Comes in beautiful Walnut Enamel, the steel parts grained to imitate wood and the cast parts buff. Equipped with night check latch.

**1. Coal Saver****2. Heat Deflectors**

Here are the latest improvements that now give you more heat with less coal. An actual saving of half a ton or more every year is made with the new Charter Oak Parlor Furnaces.

**Automatic Heat Control**

The Coal Saver, included as standard equipment on every Charter Oak, not only makes a remarkable saving in coal but it gives automatic, uniform, heat control. It opens a check draft when the fire burns too rapidly and closes it when the stove cools down. This checking and quickening is continuous and so well regulated that you cannot feel changes in the temperature of the room. Nothing to wind, nothing to get out of order. The Coal Saver will work automatically for years without attention.

**Keep Your Floors Warm**

The floor around the ordinary heater is cold and drafty, but the Charter Oak heats the floor with heat that the ordinary furnace wastes. The patented heat deflectors send out an abundance of excess heat to keep the floor warm and prevent drafts which are the cause of so much sickness.

For the health and comfort of your family, insist on getting a Charter Oak. These features don't cost you any more. They are on every Charter Oak no matter what the size or how little the cost.

### OUR MESSAGE OF SERVICE

There is going to be a lot of activity in the building line this year. Architects and contractors, carpenters and masons all, are busily sharpening up their pencils and their tools, and getting set for business. It is not the young married folks alone who are going to build homes—who dream dreams of happiness in homes of their own—but many others who have long, too long, been renting the roofs over their heads are going to try this year to realize their desire to have a home of their own.

Whatever you plan to do by way of  
BUILDING — REMODELING  
REPAIRING

we want you to feel perfectly free to come in and consult our service department without the slightest obligation. Whether it's a big house or a bungalow, a new garage, new roof or new floor, a sun parlor or a sleeping porch, an alley fence, or built-in fixtures—we are prepared to give you unequalled service and low prices on Quality Material.

LET US HELP YOU MAKE YOUR  
DREAMS COME TRUE.

### Lesson for December 1

THE CHRISTIAN HOME IN A MODERN WORLD

LESSON TEXT—Deut. 6:3-9; Matt. 19:3-9; Luke 2:40-52; 24:28-32; Eph. 6:1-3; 11 Tim. 1:3-5; 11 Tim. 14:15; Luke 2:40-52.

GOLDEN TEXT—Honor thy father and thy mother.

PRIMARY TOPIC—Pleasing God in Our Home.

JUNIOR TOPIC—Pleasing God in Our Home.

INTERMEDIATE AND SENIOR TOPIC—Living as Christians at Home.

YOUNG PEOPLE AND ADULT TOPIC—The Christian Home: Its Help and Hindrances.

Instead of an exposition of the printed text, as suggested by the lesson committee, it will be better to make a synthetic study of the salient points of the several reference texts proposed by the committee.

I. The Makers of the Home (Matt. 19:3-9).

The home is a divine institution. Its makers are the man and the woman joined together in holy wedlock according to God's primary law—one man for one woman and one woman for one man.

1. The union is so vital that God declared the man and the woman to be one flesh (Gen. 2:24).

2. Divorce was not in God's thought for man (v. 6).

It was only permitted because of sin (v. 8). Divorce has the disapproval of God and right thinking men and women.

3. Fornication the one and only ground for divorce (v. 9).

Laxness of the divorce laws causes the Christian to hang his head in shame.

II. The Ideal Child (Luke 2:40-52).

Marriage has as its primary purpose the propagation of the race. Children are to be desired and expected. Christ stands as the ideal child in the home.

1. His central interest (v. 49).

“My father's business.” Being conscious of His Mission He entered the temple to inquire into the meaning of the ordinance of God's house.

2. His obedience (v. 51).

Though fully conscious of His divine being and mission, He went down to Nazareth and lived a life of filial obedience.

3. His development (v. 52).

(1). Bodily—“Increased in stature.” His body became strong. A strong, healthy body is the inalienable right of every child, and parents are obligated to provide food and raiment such as to preserve their health.

(2). Mental—“Increased in wisdom.” As a normal human being, his mental powers developed.

(3). Spiritual—“The grace of God was upon him,” and He increased in favor with God and man. How beautiful is the picture of the symmetrical development of the Savior of men.

III. The Place of God's Word in the Home (Deut. 6:3-9).

The home has a vital teaching function. The child develops slowly; remains in the home for a long time to give an opportunity to be taught the things of God.

1. The central truth to be taught (vv. 4, 5).

This is twofold. The unity of God (v. 4) and man's supreme obligation to God (v. 5).

2. How the truth was to be kept alive (vv. 6-9).

(1). It was to be diligently taught to the children (v. 7).

(2). It was to be talked of every where and under all circumstances.

(3). It was to be bound upon the hand and placed as frontlets between the eyes (v. 8).

(4). It was to be written upon the posts of the houses (v. 9).

IV. The Early Training of the Child (11 Tim. 1:3-5; 3:14, 15).

Timothy was taught the Scriptures from his childhood by a godly mother and grandmother. The Holy Spirit uses the Word of God in the salvation of children as well as adults.

V. Christ a Guest in the Home (Luke 24:28-32).

At the urgent invitation of certain disciples, Christ tarried in their home and sat at meat with them. Christ will come into the home and bless those who sincerely invite Him.

VI. Mutual Relation of the Members of the Home (Eph. 6:1-9).

Each member has certain rights and privileges which must be respected. Children are to obey and honor their parents. Parents are not to provoke their children to wrath, but to bring them up in the nurture and admonition of the Lord. Servants are to be obedient to their masters and to render service as unto the Lord. Masters are to show consideration to their servants, since they themselves are servants to the heavenly Master.

Faith

When we are confronted by misery which needs relief, suffering which requires sympathy, folly which should be reproved, ignorance waiting for counsel, sin pleading forgiveness, the true prayer is, “Lord, increase our faith.” Nothing is impossible to faith.

A Daily Thought

I say to you truly, the heart of him who loves is a paradise on earth; he has God in himself, for God is love.—Lamennais.

# REMARKABLE VALUES!

You can't go anywhere and find used cars that will give the service that ours will for the money we sell them for.

March 3, 1879.

### BE THANKFUL

Be thankful to be alive in 1929 in Fulton, U. S. A. You could do a lot worse, both in time and place.

Thumb the history books and pick a page at random. What is there that was in the lot of the average man that you would trade for the place of the free-man of today? The old civilizations, magnificent, glittering, were but a thin, transparent crust. Better a self-determining, flivver-driving American than a hewer and hauler for a Nebuchadnezzar. Better a stage hand for democracy than a gladiator for a Caesar. The glory that was Greece rested on the wearied shoulders of the silver-digging serfs of Laurium.

Thumb your geography, latest revision, wet from the presses of November, 1929. Pick out the happier spot than Fulton. Ships sail everywhere, but there is no rush for passage.

No post-war Maeterlinck is needed to convince us that the blue bird of happiness is here and now.

Of course, Fulton in 1929 isn't perfect, far from it. Be thankful, then, to know with Carlyle that "Here in this poor, miserable, hampered, despicable Actual, wherein thou even now standest. Here or nowhere is thy ideal; work it out therefrom, and working—live, believe, be free."

Because, measured by the yardstick of time, the Actual wherein we stand is neither poor nor miserable, nor despicable, our working should be militant and confident. And if the Actual be hampered, it is hampered alone by our own shortcomings, misgivings, indolence and lethargy. We should be thankful, then, that the cure for these lies within ourselves.

If we see sorrow about us and grief, let us be thankful if our heart warms with zeal to assuage it. If we see wrong, let us be thankful if our spirit grows hot with will to right it. And whatever there is of error or failure, let us be thankful that recognition is the first step to correction.

And, lastly, if we be thankful that our lot is happier than that of others, let us be thankful if God has given us the heart to share our plenty, to lift the fallen, to support the weary, to comfort the comfortless, and feed them who famish.

Only that we may be the instrument to help our fellowmen has the patient Father put us here, in Fulton, U. S. A., in 1929.

### The Christmas Spirit

"Its only 25 day, the shortest days in the year, till Christmas." In a practical way it is well to remember that the chief festival of the Christian world is only a little way down the road. Santa Claus' outline is almost visible over the chimneyed horizon, the sound of the tinkle of his sleigh-bells is nearly audible. It is a time for doing what there is to be done in preparation for the holiday. Shopping early is a good piece of business, early in the morning of each shopping day. It will be to the advantage of the buyer, to the pleasure of the seller and for the relief of the overworked store forces.

All the systematic work done in advance of the rush to avoid the confusion that sometimes makes the Christmas eve a hor-

ror and the Christmas day one in which there is no rest and delight because one is all in and tired out—will not be its best unless there is a flavor of the Christmas Spirit through it all. In the rush and confusion, if there must be such, in the crowd who surge through the stores, in the jam and push of the street throngs, take the Christmas lesson to heart for use in the advance days—and be pleasant. Be patient with the clerks and the delivery men; be courteous to the folks you buy from; be pleasant to the jostlers who almost knock the parcels from your arms as they stumble, themselves package-laden, on the street; use the smile that helps everybody over every stressful time and some distressful times.

Indeed, there are opportunities now for more effective and beneficial use of the Christmas spirit in its fine unselfish expression than there will be after the day's climax is over. It will not be regarded by Santa Claus as in any way violative of his rules of "don't peep" to use "before" Christmas cheer, the same unselfishness, the same courtesy, the same thoughtfulness, the same spirit of "giving happiness" that you will lose on Christmas Day.

### Thrifty Christmas Cheer

There is, this year, a something besides the usual Christmas cheer in the air. It isn't the feeling of don't-care-extravagance that so often characterizes this time, but an atmosphere of satisfaction that comes from calculated thrift. The thrift clubs of the banks, in which one saves a small sum weekly for next year's Christmas money, were well patronized this year.

It is easy to spot the patrons of the thrift clubs, the owners of the "accumulated funds" which have been faithfully fed according to the budget. They buy carefully, and without extravagance, but they buy comfortable and adequately. There are still the hurried ones, the wild-eyed ones dashing around in flurries of uneasiness lest they forget some one important, lest the bills of January get too big. But they grow fewer, year by year. There used to be something a little contemptuous in the attitude of the flurries toward the savers Christmas, they said loudly, ought to be a time of extravagance and foolishness and fun.

### NOTICE

The Christmas mail will soon be moving, and the Post Office Department wishes to again request that all parcel post packages be addressed on one side only. One good address is better than several for the reason that if a package is sent Insured or C.O.D. these markings are only placed on one side of the package at the post office and if the package has more than one address placed on different sides it is often delivered by the office of address as ordinary mail thereby preventing a complete record being made of the handling of the package. This often causes confusion and complaint if inquiry has to be made regarding the package. Also if a package has more than one address and is sent by Special Delivery it often happens that the receiving clerk will fail to notice the fact the parcel is a Special Delivery and thus cause the parcel to be delivered as ordinary mail, which in most instances would cause delay and complaint.

Therefore to avoid delay address your mail plainly and completely on one side only and MAIL IT EARLY.

For a short time we will accept subscriptions for this paper and the Memphis Weekly Commercial Appeal—both papers one year for only \$1.25.

### Among the County Agents

One of the largest corn crops ever produced was grown in Russell county this year. Practically enough hay was produced to feed stock on hand for two years. The value of the tobacco crop is thought to be five times that of previous crop.

Ten Kentucky model poultry houses have been built or will be built in Bracken county this fall. All are from plans furnished by the Experiment Station.

C. C. Tinsley, a Hopkins county farmer, reports a profit of \$1.27 per hen from a flock of 400 White Wyandottes.

Eighty Trimble county flocks have been drenched from one to four times this year, with no losses, while untreated flocks in the county have lost lambs from stomach worms.

Roy Smith, a Shelby county farmer, reports a big yield of red clover hay where three tons of limestone were applied per acre, while drouth nearly destroyed clover seeded on four unlimed acres.

Grant county farmers and farm women made a survey of the county, scoring the conditions on the farms and in the homes, including such factors as home, health, education, religion, business, agriculture, citizenship and recreation.

Seed crops of clovers and grasses were an important source of income in Warren county this year. Two thousand and five hundred bushels of sweet clover seed, 1,000 bushels of red clover seed and a large amount of lespedeza seed were threshed.

Eleven Allen county community leaders met and made plans for the use of state limestone crushers in every community in the county next year.

### Club Boy's Champion Calf Sells For \$369

Albert Ward, 14-year-old Washington county 4-H club boy, owned the grand champion calf at the recent 8th annual fat stock show at the Bourbon Stock Yards in Louisville. The calf sold for 45 cents a pound or \$369 at the auction following the show. It was a 11 months old purebred Angus calf weighing 820 pounds. In addition to the big price received, Albert won \$200 in prizes on calves which he exhibited at county fairs and at the Louisville show. He also received two silver cups and a trip to the International Livestock Exposition in Chicago.

Miss Mayme Matherly, a Washington county girl, showed the second prize calf, a Shorthorn which sold for 20 cents a pound. She received a trip to Chicago for owning the best finished Shorthorn. Ben Cunningham, Garrard county, and Frances Clements, Union county, received trips to Chicago for owning the best finished Angus calf and Hereford calf respectively.

The Garrard county 4H club won the carload championship in the junior club division of the show, with Washington county second. Harrison county had the best five calves from any county not showing a carload, with Barren county second and Christian county third.

J. T. McGinnis, Shelby county, had the best calf from any county not showing a carload. The economic production class was won by Duke Pettit, Jr., Caldwell county, and the record book class by Clarence Cobb, Owen county.

575 calves from 24 counties were shown by 4-H club members. Nearly \$3,000 in cash and many other valuable prizes were divided among the junior club boys and girls showing fat calves.

### Radio Reaches Out To Many Other Arts

In addition to transoceanic service, radio, now being developed as a point-to-point communication system, promises this year to add considerably to the transcontinental telegraphic facilities of the United States, according to David Sarnoff, Executive Vice President of the Radio Corporation of America.

"Radio as a service to the home has been reaching out for association with other established arts of entertainment and education," Mr. Sarnoff says. "In the refinement of musical and speech reproduction, in combination with the modern phonograph to render the two distinct services involved in broadcasting reception upon the one hand, and in recorded, selective programs upon the other, in the field of sound-motion picture development, radio faces another season of progress."

"It includes in its scope both sound and sight, both color and perspective. "It is the first system of communications that has largely removed the limitations of time and space from the distribution of music and speech; it promises eventually to transmit the spectacles of life by sight communication. No channel of transmission offers a greater field of expression to the entertainment art."

### INSTITUTE TO FORM SCHOOLS OF RADIO

Announcement just has been made of the formation of the R.C.A. Institute, Inc., a subsidiary of the Radio Corporation of America, for the purpose of establishing radio schools in various cities throughout the country to meet the steadily increasing demand for trained radio men. The new organization is the successor to the Radio Institute of America, formerly the Marconi Institute founded in 1909 and the oldest commercial radio school in existence. Rudolph L. Duncan, for many years Director of the Radio Institute of America, is president. General J. E. Harbord, President of the Radio Corporation of America, is Chairman of the Board.

Headquarters and the main school will be at 326 Broadway, New York. The new organization has acquired also the Philadelphia School of Wireless, founded in 1911, and the Eastern Radio Institute of Boston, founded in 1912.

### FURTHER GAIN FOR RADIO IN SCHOOLS

With the beginning of the winter school term the radio loudspeaker has taken its place beside the blackboard as an aid to teaching. According to Quinton Adams, Vice-President of the Radio-Victor Corporation of America, thirty schools in various parts of the country have begun the new term equipped with centralized radio apparatus for the distribution of educational programs to the classrooms and between sixty and seventy other schools are planning similar installations. Every school year brings an extension of education by radio.

### MORE BROADCASTS FROM EUROPE SOON

New treats in radio programs in the next few months are forecast by Dr. Alfred N. Goldsmith, Vice-President and General Engineer of the Radio Corporation of America, whose work in research since the infancy of radio gives him opinion weight.

"It is expected," Dr. Goldsmith said, "that in the coming season there will be a notable increase in the quantity

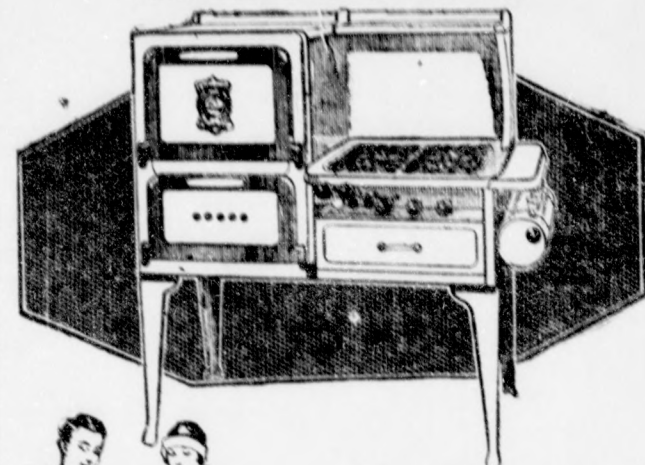

Dr. Alfred N. Goldsmith

and quality of international broadcasting and a widened interchange of programs between various European countries and the leading broadcasting agency in the United States.

"Receiving sets show a tendency toward still greater simplification of control. Tuning in is a single operation performed almost simultaneously. The control of volume is equally simple and smooth."

## Yes the Coleman IS Different

You'll quickly see that the Coleman Cooker is different from other stoves the minute you see the Gas Preheater demonstrated. This exclusive Coleman device in years ahead—the result of more than a quarter century of Coleman engineering skill. It lights instantly and in a minute or less the burners are ready with a clear, clean, hot blue flame.

## Coleman Cookers Make Their Own Gas

Besides this miracle of speedy cooking convenience, you'll find many other features that make the Coleman different—features that make a big difference in your daily preparation of meals.

Just think what a difference it would make in each day's household duties to have gas service for cooking... with its speed, its comfort and its economy. The Coleman gives you that wonderful convenience... no matter where you live. It makes and burns its own gas from regular clear-white gasoline. No piping, wiring or installation expense whatever.

And what a difference to have your kitchen free from soot, dirt... blackened pots and pans. The Coleman Range brings you that freedom. Ceilings, curtains and walls stay clean longer when you have this modern range.

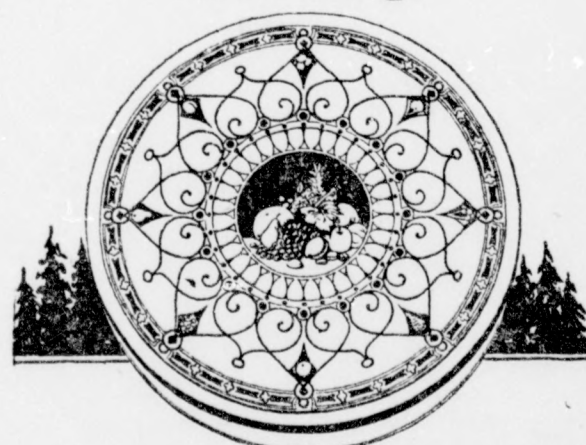

You'll find the Coleman makes a difference in the cost of preparing each meal, too. Cooks a meal for the average family on less than 2 cents' worth of fuel.

There are other features about the Coleman Range that make cooking entirely different. Come in and see them. Pick yours. There's a style and size for every cook and kitchen.

## Christmas Goodies That Will Keep

No matter how determined their effort, it is never possible for the children to eat all the good things with which they find themselves surrounded at Christmas time. So it is an excellent plan to get at least half of your cakes and candies in tin containers which will keep them fresh for a long time. Handsome boxes, beautifully decorated, containing fruit cake, chocolate, glacé fruits, hard candies, nuts, all ready to eat or keep indefinitely, can now be obtained anywhere.

### The Containers Count

The contents of these tin boxes aren't the only things that count, for very few of the containers themselves are ever thrown away. Long after the last piece of carefully doled out cake or candy has disappeared down an eager young-

ster's throat the big round fruit cake boxes, the rectangular cookie boxes, the tall containers for hard candies are all in use brightening the kitchen and pantry shelves, or serving as a sewing, a manicure, or a handkerchief box, or to keep cigarettes dry out on the porch.

These boxes are so finely made and decorated that they keep as fresh looking for years as their contents keep fresh until they're consumed. Many grocery stores and chain stores handle these tin containers of Christmas goodies, and one grocer said of the fruit cake boxes:

"The combination of fruit cake and that bright red box comes as close to eating your cake and keeping it as anything I have ever seen. No one ever throws the boxes away."

## The DAIRY

BADGER HOLSTEIN  
BEST AT MILKING

### Wisconsin Four-Year-Old Makes New Machine Mark.

A new national record in the "Farmers' Class" milkings has been established by Wisconsin Mandy Homestead, a four-year-old Holstein, according to the Holstein-Friesian Association of America.

On a two-time milking, with a milking machine, "Mandy" produced as a junior-four-year-old, 682.48 pounds of butterfat (833 butter) in 29,114 pounds of milk in 393 days. This is 45 pounds more butterfat (54 more butter) and 1,947 pounds more milk than the previous record holder, Chesney Pieterie Street, owned by the county of Essex, Cedar Grove, N. J.

At no time during the year, according to the owners, Charles Hughes and son of Neenah, Wis., was Mandy milked more than two times a day, and it wasn't until she had been in milk for seven months that they suspected that she was headed for a record. She was milked with a milking machine throughout the year.

Mandy calved May 1, 1928, and started her test on May 7. She weighed 1,500 pounds at that time, and also as the test year closed. She carried a calf for seven months of the test and is due again in July.

No special care was provided for Mandy, and she was put on pasture a few days after calving and remained there with the rest of the herd until November 1. According to Hughes, her ration consisted of ground corn, oats and barley, with the addition of bran, oilmeal, and gluten feed. She ate from eight to sixteen pounds of this a day in addition to hay and pasture. No special mineral feed or mineral mixture was provided at any time, although several commercial feeds were tested but without result.

### Poor Dairy Ration Not Bad in Many Respects

The commonly considered poor ration is not so bad in some respects, according to Dr. F. B. Hadley of the department of veterinary science of the University of Wisconsin. The data that have been gathered on this subject have come from the herds of dairy cows at the experiment station that are being put through a five-year test to determine the importance of ration in the ability of cattle to withstand the ravages of the abortion germ.

The poor ration is one composed of corn, silage, timothy hay, non-legume pasture and corn gluten meal. The ration is not balanced in protein and low in minerals. The other herd of cows is on a ration of legume hay, silage, legume pasture, oilmeal, bone meal, salt and a well-balanced grain ratio plus a half pound of cod liver oil daily. The cows on the low protein and mineral ration maintained their weight and gave practically as much butterfat in a year as did the herd on the better balanced ration and getting the cod liver oil.

### Healthy Calves Raised Without Use of Milk

Although it is much easier to raise calves by feeding them milk for six months or more, good calves can be raised without milk after the first two months, provided that they have a good start and are strong, healthy calves at weaning time.

It is essential that such calves be allowed to eat grain and hay at an early age. The grain fed during the first two or three weeks is cracked corn or crushed oats, or a mixture of both, fed dry. When the milk is discontinued a more complete mixture is used. It is best to feed some form of leguminous hay, because of the protein content.

### Dairy Notes

Higher production from the dairy cow means higher profits.

Young bulls as well as older ones should have access to salt.

Every calf should be provided with plenty of roughage, such as alfalfa or mixed hay, as soon as it will eat it.

Members of New York dairy improvement associations prove that a larger ration of grain for cows is not an expense but an investment, and in some instances the return is as much as 300 per cent.

It takes two purebreds to make a world record at the fair. The best cow in the world can't do it with a scrub to handle her!

There is no better dairy feed than silage, legume hay, ground corn and cob meal, cottonseed meal, and wheat bran or ground oats.

That the feeding of silage to the dairy herd increases milk production and brings greater profits is just one of the many talking points in favor of the silo on the farm.

### HOT ROLLS

Where is the person who doesn't like hot rolls? And yet knowing this to be a fact, many women never attempt making hot rolls for their families, thinking it is a difficult process. Making hot rolls is easy. Once a woman starts making them, she will always make them. Her friends will demand them when they come dining, and almost over night she has a reputation for making rolls that fairly "melt in your mouth."

The recipe I am going to give you requires little kneading and handling and only a short time of mixing until ready for the oven. The secret of this

Every Member of the Family Welcomes Hot Rolls.

quickness lies in the fact that we use soft wheat and plenty of yeast. We call them Parker House rolls, and you make them as follows:

2 cups scalded milk 6 to 7 cups soft wheat flour  
2 tsp. sugar 1 1/2 tsp. salt  
2 compressed yeast 1 1/2 tsp. salt  
cakes 2 tsp. fat

Scald the milk, add the sugar, and let cool until it is lukewarm; add the yeast and stir until it is dissolved. Then beat in enough flour to make a soft batter. Add the salt and fat and stir in enough flour to make a soft dough. Place on a floured board and knead just enough to obtain a smooth dough. Place the dough in a greased bowl, cover with a cloth, and let stand until the dough is double in bulk; cut with a large biscuit cutter, grease the biscuit with melted butter, crease through center with knife, and fold one-half over the other; grease the top of each roll and place on a well greased baking sheet to rise. When the rolls double in bulk, bake in a hot oven (400 degrees F.). These delicious rolls require only about 1 1/2 hours.

## ...SUCCESSFUL HOMEMAKING By GRACE VIAL GRAY

### THE NATIONAL BREAKFAST

Morning's at seven, God's in His heaven, all's right with the world in America, if breakfast is pancakes. Call them what you will—pancakes, griddle cakes, "plate o' wheats," pancakes are the national American dish.

At the family breakfast table, in the kitchen or hotel, in the farmer's home or boarding apartment, at lunch counter, boarding house or palatial hotel, on board train or boat, the breakfast cry is the same the country over. The American choruses swell from coast to coast, East, West, North, South, calling for pancakes.

For the man of the house the pancake is tasty nourishment, a morning foundation on the work of the day. For the lady of the house it is stamina for the morning's housework. For the children, it is a treat, and a healthy foundation for sturdy body and busy mind. The whole family wants its pancakes.

By the use of self-rising flour, the housewife, whatever her means, can save time and expense, besides insuring success, in the preparation of this great national breakfast. The following recipe, utilizing self-rising flour, is always successful:

Griddle Cakes.  
2 cups self-rising flour 1 tsp. sugar  
1 cup milk 2 tsp. fat  
1 egg 1 1/2 cups milk

Directions: Sift and measure flour. Add beaten egg, milk and sugar. Add fat and bake immediately on hot grid die.

## ...SUCCESSFUL HOMEMAKING By GRACE VIAL GRAY

### THE LUNCH BOX

"Early to bed, and early to rise,  
Makes a boy healthy, wealthy and wise."

All very well, as far as it goes. But what the boy eats before he's "early to bed," what he eats when he's "early to rise," and what he has in his school lunch box—that's what "makes a boy healthy, wealthy and wise."

Wise mother knows her boy's nutritional needs at home and at school. She knows his need for calcium and phosphorus, as well as for proteins and vitamins of meat and eggs and vegetable. She knows that if she halves her boy's foods at home, with self-rising flour, that she is giving her boy the benefit of the miller's combination of important minerals for growth—all the essentials of a well-balanced diet.

So wise mother makes the lunch box sandwiches of quick breads made with self-rising flour, butters them well, and fills them to capacity with chicken or other lean meat, or with sliced hard-cooked egg. A raw vegetable, carrots preferred, and a little fresh fruit, she adds to the sandwich for balance.

And then comes the schoolboy's delight, and the object of all his sweet toothed anticipation—cake, cookies, popcorn ball—any of the tasties made with self-rising flour.

## POULTRY

WINTER QUARTERS  
NEED RIGHT CARE

### Great Drawback Is Keeping Fowls Free of Vermin.

More interest among poultry raisers and "small flock" owners centers around the fall and winter season than at any other time of the year. Many flocks of chickens are ruined by lack of knowledge in caring for their winter quarters, picking out the right fowls and keeping them in shape for the long winter season to follow.

One of the greatest drawbacks of the small raiser is keeping their birds free from vermin, lice and different parasites which infest the chicken quarters. The owner is besieged with different kinds of literature on this subject, some too expensive to try and others not practical for their use. In order to raise chickens profitably one must have "building" material that will not use up all the income received. In the feeding line your feed man can, in most cases, sell you feed of the right kind at the right price. In the disinfectant line everybody has a different method and generally too expensive for the average small raiser. In this line perhaps the best is none too high, but several have been tried and proved successful.

Take a full handful of tobacco stems and soak in lukewarm water for one hour, drain and use the water—adding one-half pint of kerosene and one gallon of water. Spray just before chickens go to roost. If tobacco stems are not obtainable, use smoking tobacco, a small package the same way. If too bothersome to soak tobacco get nicotine at the drug store or nursery and use two teaspoonfuls to the same proportions as tobacco.

To be sure you are getting results, place a sheet of paper on the dropping board after spraying and if the chickens have vermin you will see them drop off onto the paper.

### Hens Are Tempted by Eggs Broken in Nest

One of the most common vices is egg eating, of which most poultry keepers have had some experience.

Although the habit may be formed at any period of the year there is no doubt that a large number of the outbreaks are recorded during the summer.

This is partly due to the fact that large numbers of eggs are produced, and many of them are deposited in nests devoid of litter, thus creating a tendency for the eggs to become damaged.

The habit is often the result of a broken one being left in the nest or on the manure board, to be devoured by some bird later.

Very few, if any, hens can resist the temptation, and the habit quickly spreads from one to another, developing into an epidemic which frequently proves costly for the owners. Unless the nests are kept well covered with soft material the shells are certain to get damaged. Later on other hens frequent the nests, and broken eggs follow.

### Poultry Hints

Cleanliness is the best preventive of poultry diseases.

Old hens are the most common spreaders of poultry tuberculosis.

Canker is a sore throat similar to diphtheria. Remove a sick hen at once.

Generally speaking, the hens with white shanks, big red combs, and old, dirty, and ragged plumage are the ones to keep, according to the specialist.

If eggs are found in stolen nests, in the litter or otherwise, so that their condition is not absolutely known, candle such eggs before taking them to market.

A hen that is laying will have a big, red, waxy comb, but as soon as she quits, the comb will begin to shrivel.

New corn can be fed in the ear if the birds are started on it gradually, with the amount increased from day to day.

Muslin curtains, if used in ventilating poultry houses, should be clean and in good condition. The old muslin area which is clogged with dust is not an effective medium for the diffusion of the air.

In addition to mash and scratch grain hens should have free access to grit, oyster shell and water. Green feed such as cabbage or mangels is also helpful.

For winter feeding yellow corn is superior to white. The yellow types are rich in vitamin A, which is necessary to keep the birds in good health and particularly to prevent eye trouble. This vitamin is also found in green feeds, but little of it in white corn, wheat, oats, buckwheat, barley and other common feeds.

### Willingham Bridge

Mr. and Mrs. Willie Jeffress and Louise, Mr. and Mrs. Herman Harris and family and Mr. Bob Roper were Sunday guests of Mr. and Mrs. Harry Sams.

Mr. and Mrs. Henry Waiker and children were Sunday guests of Mr. and Mrs. Tom Stallins and family.

The Union Ladies' Aid met with Mrs. Malcom Inman Wednesday.

Morris Stallins of St. Louis, is spending a few days with friends and relatives here.

Miss Maurine Winter of Memphis, was the Sunday guest of Miss Louise Jeffress.

Mrs. Coston Sams and sons spent Sunday with Mrs. Tom Sams.

### Route 4, Fulton Ky. (New Hope Community)

Messrs. Harry and Milton Hodges of Detroit, are visiting their brother, Mr. H. H. Hodges and family.

Mrs. Laura Presley and Miss Mollie Ross spent last week end in Clinton with Mrs. Geo. Kimbell.

Mrs. Carl Drysdale has been on the sick list for several days.

Mr. and Mrs. Herman Magruder and daughter, Frances, Clinton, were guests of Mr. and Mrs. F. C. Irvine, Sunday.

Mr. J. P. Moore accompanied his daughter, Mrs. C. F. Jackson, of Fulton, to Paducah, Saturday, where she underwent an operation for appendicitis at the I. C. hospital.

Mr. and Mrs. Haggard, of Tecumseh, Okla., spent last week with relatives here.

Mr. Lincoln Latta of St. Louis, is visiting his parents, Mr. and Mrs. W. C. Latta.

Mrs. Byron Moultrie, who has been seriously ill in the Mayfield hospital for several days, is now slightly improving.

### Route 5 News

Mr. J. J. Coffman, who has been seriously ill for several days, is again rational and is sitting up a little. His mother in law, Mrs. McDade, is some better, also, at this writing.

Quite an epidemic of colds over this region.

The exceeding cold weather and snow comes as a surprise, and as usual, found us unprepared. Corn in the field and everybody scurrying about doing the last minute jobs before a real freeze. Mr. Finch and I spent Friday making the poultry houses warmer, chinking cracks, putting up curtains, banking earth around the base, and the contented murmur of the birds tells us they appreciate it.

Mrs. Etta Binkley is spending a few weeks with her brother, W. H. Finch and family.

"Welfare Workers" received Thursday, the announcement of the arrival of a little son in the home of Mr. and Mrs. Eugene Young, of Akron, Ohio, November 14. His name is Melvin Lee, and his mother was a valuable member of the club before their removal to Akron. The club immediately instructed a committee to buy the young man a present and send a letter of congratulation to his parents.

Quite an interesting meeting of "Welfare Workers" Thursday afternoon, with Mrs. Ruth Vaughn, 11 members and one visitor present. The program presented for the next meeting November 12 at the home of Mrs. A. J. Butts is as follows:

Bible reading, Mrs. Vaughn; prayer, Mrs. Roy Watts. Roll call, answered by a joke, "My Favorite Work in Housekeeping," Mrs. Calvin Orr. "My Favorite Work Out of Doors," Mrs. Ruth Finch. "Benefits I Have Derived from the Club: Contact with Having Gained From," led by Mrs. Ocie Yates, each member responding.

"My Preferred Breed of Poultry, and Why?" Each member present.

### Austin Springs News

Mr. and Mrs. Ben Cantrell have moved back to their farm near here since Mr. Jim Cox and family have vacated.

Mr. Elton Alderdice has plans on foot for the erection of a stock barn and crib at the place near here. Work will begin as soon as the lumber is cut.

Mr. and Mrs. Eric Cunningham have again attended the bedside of their sister, Mrs. Earl T. Mitchell, who remains in the I. C. hospital in Paducah where she has just recently undergone an operation for appendicitis. They report her making splendid progress towards recovery.

Mr. and Mrs. Lucian H. Abernathy and Lucian, Jr., have arrived from Danville, Ky., and are visiting relatives in and around here. It will be remembered by many that Lucian holds a permanent position as a telegraph operator in Danville.

Mr. Wess Jones of near Fulton visited relatives in this vicinity last Sunday.

Mr. and Mrs. Zach McClure will move to Fulton since their return from Detroit.

### Dukedom, Tenn.

Mr. and Mrs. Harry McClain were visitors in Martin, Tenn., Monday.

Mr. and Mrs. Elbert Webb and Mrs. Jackie Work went to Mayfield last Tuesday.

Mr. and Mrs. Tye Murphy and Mrs. Jack Wiley and Miss Willie Murphy went to Mayfield, shopping, Friday, and Mr. Lyndal Work spent Sunday with Mr. and Mrs. Edd Work.

Mrs. Mattie Murphey, Miss Winnie and Billie Murphey, Mr. and Mrs. Jessie Vincent went to Mr. and Mrs. Tommie Austins Wednesday night and listened over the radio.

Mr. and Mrs. Cal Webb spent Sunday with Mr. and Mrs. Harvey Neely and Mrs. Liza Newton, the latter, who has been quite ill for the past week.

Mr. and Mrs. Jim Mitchell and Raymond Work spent Sunday with Mr. and Mrs. Joe Work.

Mr. and Mrs. Miller Burge, Miss Winnie and Billie Murphey spent Sunday with Mr. and Mrs. Wright Taylor and Miss Virgiline Taylor.

### Old Bethel News

The farmers are quite busy gathering corn and getting their tobacco ready for delivery.

Mr. and Mrs. Herbert Hudson have arrived here from Detroit.

Mrs. Mabel Laird spent Sunday with her parents, Mr. and Mrs. Vernie Taylor.

Quite a bit of remodeling has been done to Oak Grove church.

Mr. Allie Wilson and family called on Mr. Herring, Sunday.

Mr. Vernie Taylor is attending court at Mayfield. He is one of the juryman.

Mr. Henry Jackson was buried at Bethlehem cemetery, Friday. Death was due to heart trouble. He is survived by one daughter, Miss Eva Jackson, three sons, Coleman, Clarence and Frank Jackson.

Mr. Jasper Williams sold a bunch of hogs, Saturday. Pet Cavender also sold some.

Mr. Walter Buck has sold his place at Dukedom to Mr. Will Hedge.

Mr. Willie Cavender and wife spent Friday night with the latter's parents, Mr. and Mrs. Marion Thomas Cannon.

Mr. and Mrs. S. P. Cavender, Ethel and Eugene Moody were Sunday guests of Mr. and Mrs. Jessie Thomas of Water Valley.

### FOOD LIKE YOU GET AT HOME

This is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve food like you get at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they come here so frequently to eat.

Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.

The next time you want to eat away from home, bring your family here.

## SIMPLER CODE URGED TO END TRAFFIC ILLS

Don't Cut Around the Car Ahead by Going on the Wrong Side of the Traffic Lane; It Is a Fruitful Source of Accident.

Psychology in automobile driving will make the world safer for motorists and pedestrians. That is the advice of Dr. Knight Dunlap, professor of psychology at Johns Hopkins University.

Standardization and simplicity, two names for driving psychology, is urged by Doctor Dunlap as a panacea for traffic problems and accident prevention.

For instance, the monotonous run of "dangerous curve" signs on gentle curves tends to make the driver of an automobile less cautious when approaching a really bad curve. Standardization of these signs would serve to keep the driver constantly on the alert for bad curves. He could relax

when the signs tell him things were comparatively serene ahead.

The simplifying of traffic signals would make driving of an auto a mechanical process, according to Doctor Dunlap.

Red, he says, can easily be misunderstood in traffic lights, for the reason that that color does not always indicate stop. Detour signs are red.

Drivers will never be trained to the point of an automatic, uncollecting "stop" on the red light so long as other uses of red in signals are retained," says Doctor Dunlap. "Fatal accidents have occurred from use of red lanterns on road obstructions."

## WIDER HIGHWAYS ARE GREAT NEED

Four Traffic Lanes Would Soon Pay for Themselves.

(By E. E. Duffy)

Motoring toward a large metropolitan center on a sunny Saturday afternoon, when wheeled hordes are bound for the open country, reveals pertinent facts about highways.

The first thing that is forcibly impressed upon the motorist going against the heavy traffic flow is that two lane roads are decidedly not wide enough—usually by two lanes. Slow trucks, crawling old hulks of cars, hyper-cautious drivers hold back traffic until a jam of cars a quarter mile or so long results.

Human Element Enters.

Drivers driven to distraction by delays then suddenly dart out from their prescribed lanes of travel when oncoming traffic permits of a passing. Here, the well-known human element enters in, for if a driver misjudges the open spaces a collision may result. A four-hour ride against this wave of country-bound traffic brought several narrow escapes that cannot be recounted without a rise in blood pressure.

In addition to the dangers present in forging ahead on the two-lane road, there is the inability to get speed in keeping with the tempo of modern cars, most of which travel some fifty miles an hour without excessive vibration. Fifty miles an hour is not a dangerous speed, yet it cannot be conscientiously attained on the narrow road when cars are thick.

Another criticism of the rural road, in remote regions as well as metropolitan areas, is that it usually passes through the center of every hamlet and town on the route. One little town in southern Wisconsin, with a single traffic light on the main highway running through on the chief business street, is frequently nothing short of choked with automobiles that have no business there.

Must Be Widened.

Narrow roads must be widened as fast as communities can make finances available, for without doubt congestion and accidents are costing as much or more than wider roads. Two lane roads are suitable for traffic only where week-day travel is light and week-end travel moderate. A heavy volume of traffic demands roads at least four lanes in width. Accidents would be reduced considerably if by road builders' magic all congested routes were to be widened. That would mean a distinct lowering of car insurance rates.

## AUTO HINTS

An average of 5,500 miles was traveled by each automobile in this country last year.

Motorists in England were taxed more than \$127,000,000 for the operation of 1,758,000 motor vehicles in the past year.

"Remember away back when a flat tire drew a sympathetic look from passing motorists?"—Des Moines Register. No, we are not that old.

"A hotel for automobiles is the suggestion of a prominent New York contractor—if you can imagine a well-boy rushing a quart of oil up to 703."

Are refugees losing their speed? A comparative table shows more people killed on New York streets in 1928 than at the first Battle of Bull Run.

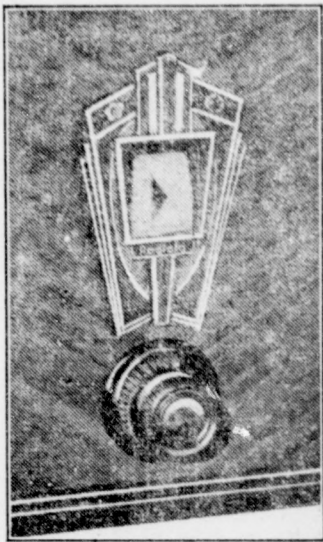

## NEW RADIO TRENDS STRESSED IN SHOWS

Simplified Tuning and Screen Grid Tubes Are the Big Features.

Simplification in tuning, popularity of screen grid tubes and exceptionally artistic cabinets for radio receivers are among the outstanding features of the radio shows which now are in progress throughout the United States. Quantity production has brought the greatest values ever offered.

An innovation is the offering by one of the largest manufacturers of the first battery operated Radiolas whose performance is comparable to those of socket power. This development, made possible by loudspeaker refinements and the increased efficiency of the screen grid at a low current consumption, is being welcomed by owners of homes unwired for electricity.

Although the screen grid leads to the new models as a radio frequency amplifier, another new Radiotron, the UX-215, is used widely as an outstanding part of the audio systems. The UX-227 and other standard tubes also retain their popularity for the specific uses for which they are best suited. The famous super heterodyne circuit is employed in one of the newest Radiolas, attracting attention at the shows, but quantity production has put this model for the first time in a price class within the reach of the vast majority of listeners.

The entire control mechanism of one modern radio receiver. Illuminated dial numbers show on the escutcheon window when the set is turned on.

Simplified tuning in some models exhibited takes the form of tuning and volume control from one combination knob. In others it is aided by a magnified tuning scale which throws illuminated numbers of a size which can be read easily upon a translucent composition window in the escutcheon. This Radiola tuning scale is the research laboratory's answer to the problem of tuning receivers placed in positions where the light is not good.

In the Sixth Annual Radio World's Fair in New York a radio Pageant of Progress, prepared at a cost of more than \$100,000 by the Exhibition Division of the Radio-Victor Corporation, traced by means of historic apparatus, replicas and true to scale models the story of radio from Marconi to the present. Similar historical exhibits of radio are being placed by Radio-Victor in other shows. George Clark, manager of the Exhibition Division, is secretary of a committee cooperating with the Smithsonian Institution and government officials in creating a national museum of radio, which eventually will house many of the exhibits being shown by his company.

Television demonstrations under the auspices of the Radio Corporation at the New York show indicated real progress, but the engineers whose brilliant work was responsible for the improvements were careful to point out that other problems still remained to be solved before television would be practical for home sets.

## OWNERS OF RADIO IN EVERY STATE

An interesting insight into the widely distributed ownership of the radio industry in the United States is given by the summary and classification of the stock of the Radio Corporation of America, the largest radio organization in the world. The latest statement shows stockholders in every State in the Union. Ninety-nine per cent of the class A common stock is owned in the United States, much of it being in the hands of small investors.

Although there is a good showing in the industrial East, as in the case of all stocks, New York State having 1,291 class A common stockholders, Illinois has 357 stockholders in the same classification. California lists 134 class A common stockholders, almost as many as New Jersey, which has 140.

Among the thirty-four foreign countries in which there are holders of class A common stock are such widely separated points as Argentina, Austria, British Guiana, Honduras, Egypt, India, Venezuela, Norway, Japan and Ireland.

## First Baptist Church

Cor. Eddings and 3rd Sts.  
C. H. Warren, Pastor

"Take time to be holy."

Friday, 7:30 p. m.—Study class in church administration.  
Sunday, 9:30 a. m.—Sunday school, J. S. Willingham, general superintendent.

10:50 a. m.—Sermon and worship.  
2:30 p. m.—Deacon's meeting.

6:15 p. m.—All B. Y. P. U's.  
7:20 p. m.—Sermon.

Wednesday, 6:45 p. m.—Teachers' meeting, all departments.

7:30 p. m.—Prayer meeting, and monthly business meeting.  
Thursday, 7:30 p. m.—Choir practice.

The study course in "Church Administration" being sponsored for the men of the church is increasing in attendance and interest. The class meets at 7:30 p. m., every Friday, and a cordial invitation is extended to all to attend these classes. You will find the discussions both instructive and interesting. It is handled from the angle method which insures a varied discussion; something to meet the particular needs of the individual.

The monthly Sunday School Workers' Council meeting met at the church last Monday evening, with a good attendance. General Superintendent Willingham presided over the meeting. Reports of the various departments were read and discussed, and a round table discussion of the various needs of the school was very beneficial. We have a great program outlined for the winter.

The public is cordially invited to attend all services of this church. You will find a hearty welcome.

## BEELERTON HIGH SCHOOL NOTES

The Beelerton ball teams enjoyed a truck ride to Cunningham last Friday night, where they played two games. These were very interesting, and Cunningham players are real sports. The girls' game was 11-3 in our favor. The boys' game was tied in the finish and after an extra three minutes was played, our boys won by a score of 20-19.

Beelerton ball teams met Arlington on the Bardwell court last Saturday night for two games. The girls' score was 8 to 5 in favor of Arlington. Although we lost, we know it was a nice game. The boys' score was 15 to 6 in favor of Beelerton. Arlington players also show good sportsmanship.

Beelerton has two debating teams this year, and we are working on our speeches. Those on the affirmative side are Evelyn Byrns, Margaret Walker and Agnes Pharis. Those on the negative side are Robert Foy, Macon Shelton and Ollie Millner.

We will dismiss school next Wednesday to take the Thanksgiving holidays.

## BELOVED WOMAN PASSES AWAY

Mrs. M. F. Slaughter, former resident of Good Springs community, near Fulton, died at the home of her son in St. Louis, Sunday. The remains were brought to Fulton. Funeral services and burial took place at Good Springs. Deceased was loved and highly esteemed by a large acquaintance who sincerely sympathize with the bereaved.

Mrs. Slaughter, who was well and favorably known in this community having been reared in the Good Springs neighborhood, leaves five sons and three daughters, as follows: Luther and Raymond Slaughter, Fulton, Ky.; Summie, Ira and Garland Slaughter of St. Louis; Mrs. Ethel Kinsley, England, Ark.; Mrs. Fannie Clark, Searcy, Ark. She was making her home with one of her sons in St. Louis at the time of her death.

## Smith's Cafe

Neat and Attractive Service and Food the Best  
It is a pleasure to go to this place for a lunch or full meal.

## PRICE HOME DESTROYED BY FIRE

The pretty dwelling of John T. Price on Walnut Street was destroyed by fire Tuesday morning. Practically all of the furnishings were removed with little damage. The loss was partly covered by insurance.

## CHURCH PROPERTY DISAPPEARING

Residents of Rock Springs community near Crutchfield are much disturbed over some one removing furnishings from the church building.

It has been reported that benches have been taken from the Rock Springs church and not returned and members are praying that the guilty have a conscience and see that everything is taken back so no trouble will be incurred.

## McFadden News

Mr. and Mrs. Cleveland Bard and children, of Fulton, spent the week end with Mr. and Mrs. J. F. Bard.

Mrs. Vada Bard and son, Layman and Miss Hattie Hampton spent Sunday with Mr. and Mrs. C. J. Bowers.

Mr. and Mrs. C. L. Herring were Sunday afternoon guests of Mr. and Mrs. P. C. Dillon.

Mrs. Annie Oliver of Detroit spent a few days of last week with Mr. and Mrs. W. J. Walker.

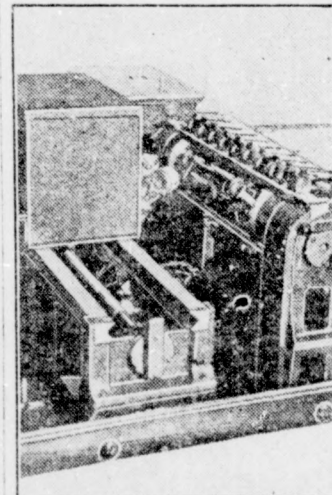

Mr. and Mrs. Cleveland Bard and children, Mary Frances, and Joe Wallace, spent Sunday in Murray.

Mrs. H. L. Uzman and son, Floyd, spent Sunday with Mr. and Mrs. P. C. Dillon.

## PHOTORADIO MAKES STRIKING ADVANCE

Photoradio has made such strides recently that it promises more than ever to fulfill some day the forecast of Owen D. Young at a dinner given in 1923 to General James G. Harbord, President of the Radio Corporation, that it eventually will make it possible to flash whole pages of newspapers across the ocean.

The most recent developments are the simplification of photoradio apparatus, greater speed and the reduction in rates between New York and London which just has been announced by W. A. Winterbottom, Vice-President in charge of communications of R. C. A. Communications, Inc. The reduction was made possible by the simplification and the greater speed. The new rate is figured in centimeters.

The "heart" of a high speed facsimile transmitter

but is approximately \$2 a square inch. The old rate was \$3.20 a square inch. The accompanying cut shows the group of lights, called the "doughnut light," which center illumination on a point on the picture or printed matter placed on a roller across from them. This light beam is reflected from the picture or printed matter into the photocell box behind the lights. The "doughnut" is on a carriage which moves across and back in front of the roller. After every trip the carriage makes from one side to the other, the roller turns ever so slightly.

As the spot of light from the "doughnut" passes back and forth the lightness and darkness of the points it touches change the intensity of the reflected beam. The reflected beam produces electrical impulses, which are amplified, sent by radio to a receiver hundreds of miles away and changed by the receiver to electrical impulses again. These electrical impulses cause a neon light to glow at intervals timed perfectly with the beam of light reflected from the picture on the transmitter. The glow of the neon light is reproduced on photographic paper, placed in the same position on a roller on the receiver that the original is in on the transmitter. Thus an exact duplicate of the original is made.

## LIFE'S LITTLE JESTS

### GO BACK, LAD

Matrimonial Agent—You don't like the photographs of any of these? I will show you one more and if that is not suitable I can do nothing for you. Now, how about this one?  
Client—Yes, that is just the type of lady I like.

Agent—Then what about an interview with her?  
Client—Unfortunately she is my divorced wife.

### Before and After

Mr. Pester—Cleaning house just because a few women are going to drop in this afternoon? You never make such elaborate preparations when I entertain my friends.

His Wife—No, but I clean up five times as much after they leave.

### For the Laboratory

"Five hundred dollars for that old worn-out diver of yours! Impossible! Who'd ever pay that?"

"The auto school. They wanted it for the students to practice on, and it certainly had everything that could be wrong with a car."

### Enjoying the Game

"Do you enjoy bridge?"  
"Some parts of it," answered Miss Cayenne. "I particularly like the moments when cards are being shuffled and everybody has time to give out the gossip."—Washington Star.

### WILL PROBABLY SUCCEED

"Say, Jerry, are you really serious about taking up the saxophone?"  
"Sure! I'm tryin' to run the family out of our upstairs apartment."

### Bringing the Bad News

The ticker tape comes rolling fast and brings me deep regret. It always lets me know, at last, I have misplaced my bet.

### When Courage Failed Her

Circus Director (impatiently)—What in blazes is the matter with Mlle. Carreno? Why doesn't she get into the lion cage?

Arena Hand—She's afraid to; there's a mouse in there!

### "What's in a Name?"

Mr. Nickelplated—Haven't I given you my name? What more do you want?

His Wife—I want the privilege of signing it to checks that will be honored at the bank.

### Hope

"There was none of this promiseous kissing at parties when I was a girl."

"Well, you're only forty now, dearie. Still young enough to get a few breaks."

### AFTER THE FAST GIRLS

"So you don't think much of the handsome motor cop?"  
"No—he's always chasing after these fast girls."

### Too Bad

Grandpa in a speedy car. Turned the throttle down too far. Twinkle, twinkle, little star. Music by the G. A. R.

### Superior to Influence

"Do you play golf?"  
"I claim to do so," said Senator Sorghum. "But the voice of the proletariat is against me. The caddy thinks differently."—Washington Star.

### The Only Difficulty

She—Darling, do you think there can be people in the moon?  
He—How could there be? Where would they go when there is no moon?  
—Kikeriki (Vicenna).

## The Lure of Corn Bread

By JANE OSBORN

IT MIGHT not have made your mouth water—that street car picture of corn bread—but Hope Mawson had lunched early and lightly, and the yellow square of corn bread made, as the ad said, steaming hot, with a cup of coffee at the side—also steaming—and two nice, neat butter balls on a butter plate—all this was pleasurably tantalizing to Hope Mawson, even though the picture was only an advertisement for Folger's famous cornmeal.

Hope was riding homeward on the street car and the advertisement was directly opposite her, so it was not difficult for her to dwell upon the tempting sight for many minutes.

It was Diana's night to cook dinner, to be sure, but Hope would stop at the corner grocery store, buy some Folger's cornmeal and make some corn bread and have it ready by the time Diana had finished the rest of the dinner.

Here Hope's meditations were suddenly cut short. The conductor was calling "Love-a-lavene," and Hope knew that Love-a-lavene was five blocks beyond her own street.

Brandon Jones, who had been sitting beside her, rose with her and also went toward the door. Hope walked three blocks and then stopped at the grocery store. Oddly enough, Brandon Jones went into the grocery store, watched her as she made her purchase and stammered out with considerable embarrassment: "Boz his cuts, please," when the grocer's clerk asked him what he wanted.

Then Hope proceeded, and the man proceeded. He even crossed the street where she wanted to, and proceeded to her into the hall of the apartment where she and her companions, Diana and Daphne, lived. The hall boy spoke and let him pass. Obviously he was a resident. Yet why, if he lived in that apartment, did he ride on to Love-a-lavene?

Hope was interested in this apparent mystery, but not so interested as to forget her cornmeal. She quickly changed from her office clothes to a washable house frock, and in five minutes more had the cornmeal and flour and milk beaten up as she had seen old Sally do so many times in her childhood.

Daphne and Diana declared the corn bread to be exactly like the corn bread old Sally used to make. They were feasting merrily on it when the bell of the apartment rang. They exchanged surprised glances, for it never came unannounced in that apartment. Hope fled to the door, and there stood Brandon Jones.

"Excuse me," he began, and before he had time to go further with his apologies he sniffed and said: "My, but that smells good! I sniffled. It way up in my apartment, and that's why I came. You see—"

"I'm sure we all would like to have you come in and share it with us," said Hope, looking at Daphne and Diana, who had now appeared in the hall.

And so Brandon Jones was ushered into the living room, where the large table had been spread for dinner. Brandon then explained. He hoped Miss Mawson—the elevator boy told him her name—would accept his apologies.

He had sat beside her on the car and had been interested in the interest she showed in that corn bread advertisement. He had seen her before and knew that she lived in this apartment, so when she rode past her street he knew it must be because of her preoccupation in this advertisement.

He got off where she did and followed her into the grocery store, and to his delight she bought the cornmeal. Later he got the tempting smell of baking corn bread through his open window above—corn bread and coffee, just as the picture had suggested. He was looking for a good rule for corn bread—he thought perhaps he might be able to secure hers.

"You see, I'm an advertising man—Jones of Jones & Hancock."

"Oh, I didn't know you were that Mr. Jones," said Daphne, with much respect, hearing the name of the largest advertising concern in the city.

"And we just took over the account of Folger's corn products—want to make a big thing of it. I thought a picture of corn bread would make a good street car card—tried to get our artist to make it as real as possible. Mr. Hancock thought that was a little too simple—wanted to try something clever, you know. But we thought we'd try it out. So when I saw you, Miss Mawson, reading the advertisement I felt that at least one street car rider was interested. And then, by love, you went to the store and bought the cornmeal. I'll have to tell Hancock—"

Mr. Jones ate two, then three pieces of the corn bread and declared that Miss Mawson was the best cook in the world, and he never said a word about Diana who had cooked all the rest of the dinner.

But then right from the first Mr. Jones had eyes only for Hope.

"And that was as it should be," said the practical Daphne a month later when Hope and Brandon announced their engagement, because usually the men they knew admired all three—"and divided admiration," continued Daphne, "is not conducive to diamond solitaires."
