The Turkish Dispute

(Nashville Advertiser)

The dispute between Great Britain and Turkey over the rights of the Sultan's subjects and the development of oil interests in Syria has reached the stage where it is likely to become a serious international issue. The British government has notified Turkey that it will not accept any further delay in the completion of the pipeline, which is being laid under the Menderes River, and has threatened to use force if necessary to ensure its progress. Turkey, on the other hand, has insisted on the right to control the pipeline and has refused to allow the British to use certain sections of Turkish territory.

Washington, D.C.

The British government has instructed its ambassador in Washington to take all necessary steps to ensure the completion of the pipeline and to protect the interests of British citizens in the area. The British government has also expressed its concern over the growing tension in the region and has urged both sides to exercise restraint and avoid any action that might lead to conflict.

SAM STONE vs NEWS-DEMOCRAT

JURY OUT—BUT SIX MINUTES YESTERDAY—IN DECIDING CASE IN FAVOR OF NEWSPAPER—STONE TESTIFIED THAT HE 'JUST TO BE SENDING'—REGARDED AS ONE OF MANY SWIFT BUNDS

In the Circuit Court here last night, Judge C. W. Tucker, after about two minutes' deliberation, brought down the verdict in favor of the News-Democrat. The case was tried before a jury and after a number of objections, overruled, and after the jury had been out six minutes, the judge delivered the charge, and then brought down the verdict. The plaintiff, Mr. Mark Worthen, was represented by Mr. W. J. Coates, and the defendant, Mr. Sam Stone, by Mr. A. W. Evans, and a number of other attorneys. \n
Mr. Worthen's claim is that he was not paid for newspaper subscriptions that were delivered to him, and that the defendant, Mr. Stone, was responsible for the non-payment. The defendant, on the other hand, testified that he was not responsible for the non-payment, and that the plaintiff was responsible for it himself. The case was tried for about six months, and after a number of witnesses were called, the judge brought down the verdict in favor of the News-Democrat. It's always turned out just Ile that with everything I've did. I tell you what, it's pretty hard sometimes to do what you want to do. That's the way with grown-up folks; no matter what you do to help 'em out of trouble, why, the blame gets put on you—however nice you try to be, you get blamed

Pete Peterson was arraigned against him, the charge was murder. A young man named West was a local expert on the crime. He was also a friend of the Peterson family.

I thought it was a real smart trade because there's kids to spare. I used to kick around our little flat and under every chair; there was always a kid ready for me.

An' when I told my ma she screamed, An' said that when he brought him home t'wud do him good to see him. An' how glad he'd make his mother, an' how pleased his pa would be. An' when I'd talked like that a while he wanted him so he had to try to get him back.

Well, that's right where I seen my chance, so I praised up our kid, An' told him all about his ways, An' all the things he did. An' asked me what's the baby's name, an' how you made him smile, An', say! I bragged that baby up all, told what he could do, An' understood.

It is extraordinary how many kisses the postmen carry! It is a kind of modern torture of Tantalus for them. The danger from flying fragments is always a serious problem in those cases, and the body of the deceased was covered with a heavy blanket. The coroner's report will be out in a few days.

The change to steam heating is not so great as the change to gas heating, but it is a step in the right direction. The old-fashioned "flying" system has been replaced by a more modern one.
