Police Drive Tickets From Factory

Queen of Car Ownership As Street Strike.. Violence Grows

Bethlehem, Pa., April 14, A delegation of 125 Pennsylvania state police officers, police dogs and private guards from factories throughout the county, swept the streets of the city tonight, hunting the new black market criminals.

Less than an hour before, pick-up trucks swarmed the city by the black market, as a number of police officers were engaged in a violent clash in the streets.

The officers were succeeded by a police detective, who reported to the police station.

Police officers claimed the arrests were because of the attempts by persons to obtain weapons, food and other goods which are illegal during the war.

Play Written By Hotel Bus Boy Is Slated For Broadway Production

New York — The play "The Bus Boy," written by a hotel bus boy, is due to be produced on Broadway next season.

The play was written by a hotel bus boy, who was a regular passenger on the bus to and from the hotel where he worked.

The play tells the story of a young man who, after a series of adventures, becomes a successful business executive.

For George, a assistant, and Donald McLean, who be- long to the same club, the play will be on Broadway.

The play has been presented in a number of small theaters across the country, and has received good reviews.

For George, the lead role, the actor will be Richard Burton, a well-known actor of the stage and screen.

The play has been produced by a number of theatrical companies, including the Circle Theatre Company and the American Shakespeare Festival.

Dykestra: New Mediation

Highway 51 May Be Used As Super-Highway

In spite of the protests, the highway department is planning to use Highway 51 as a super-highway.

This is due to the increasing traffic on the highway, which is located in the heart of the city.

The highway department believes that the use of Highway 51 as a super-highway will help to reduce the congestion on the highway.

The protests have been made by a number of citizens, who are concerned about the impact of the super-highway on the local community.

The highway department has assured the protesters that the construction of the super-highway will be done in such a way as to minimize the impact on the local community.

The protests have been ongoing for several weeks, and it is expected that they will continue for some time to come.

THINKING VERBOTEN

German soldiers in the Netherlands and secret police have been trained "the veryiquintessence of preception" and go about reading people's minds to determine whether they should be interned or shot. The report came from a dispatch sent in by the Nazis, once in Amsterdam but now again in Berlin. It is therefore, not an outright story cooked up by the Nazis of Germany. The world had the word of a Nazi military court for it.

The announcement was in the form of a printed order. Any one, said the court, which had just sentenced 15 Netherlands citizens to death, and 15 others to prison terms, "who dares to express in thought against the German army is playing against a death sentence." It is an old Japanese custom, but it is now new in western civilization. Although it has been the practice under the world's dictatorial regimes to reframe the mind by repressing it, none has pretended to use it now to read us. The mouth is kept shut and the pen dry.

This new order was not altogether unexpected. Germany, mind you, for all the scientific bent toward the occult. In Berlin there are more num- rologists, astrologers palmists, mind-readers and crystal-gazers than in any other city in the world. But a more important factor at the root of all ill will in the Netherlands against the Nazi is the Nazi's drive to control the mind without instituting a new Gestapo.

The Nazis have decided to do as much for what they think they have and that is an act of desperation. The tide of bitterness is rising through the east German areas. If that is not destroyed by bombs andannexation, it will be washed away eventually by the flood.—Exchange.

After the war is ended, to more or less correct those mistakes. But Mr. Willkie is also right when he says that the Nazi philosophy must be destroyed. There can be no peace of any kind until that job is done, and it is going to be a difficult one after the job. It is going to require as much sacrifice and effort as was needed in the first World War, perhaps even as much on the part of the United Nations. But it must be done. The mistakes of the last peace must be avoided with care.

WILLKIE IS RIGHT

Looking into the future to the day when peace finally comes to an end and war-torn world is a bit different, and of course no one can guess what that day will come. However, if no one ever looked forward to that day there would be no plans ready, and it may be well that some men, with forward looking vision, do think of that period. Peace will come some time. This war will not last forever, and when it does end an opportunity will be given to avoid a mistake made more than twenty years ago which probably brought about the present war.

Coach Clos is putting a real
work in on theConfigure.
He is working on the
team to get them ready for
the big game on the backfield.

The schedule for next fall is
still being worked out, but some
of the most important games
will be played on the backfield.

One game will be played in the
expected three-quarter system.

There has been practically no
work done on the backfield.

Coach Clos will try to get a
better team ready for the big
game on the backfield.
