FULTON, KY., FRIDAY, JANUARY 6, 1939.

NUMBER FORTY-EIGHT

MARRYING 530. HAS UNITED 6000 COUPLES

There may be a magistrate somewhere who has married more people than South Fulton's "Marrying Squire" S. A. McDade, but he hasn't been heard from so far, so our best man seems to wear the crown. "Squire" McDade united the 6000th couple sometime during the Christmas holidays.

He isn't sure what couple was his six thousandth but he performed the ceremony during the holidays, and believes it was a Mayfield couple.

Squire McDade not only married the 6000th couple during Christmas, but he broke a couple of his own records. During the period from December 10 to December 31, he married sixty-eight couples; the greatest number he had ever married in day one month before this, that December, was sixty-five, shortly after World War.

Squire McDade also broke a record in the number married in one day, when he tied the nuptial knot for twenty-one couples on December 24. Previously his record for weddings in one day with thirteen. He married eight couples on Christmas Day.

Squire McDade began his twenty-first year as a magistrate last September 1. Performing marriage ceremonies is his only function as a magistrate now, and he has averaged well over a couple a day during his service.

Salvation In New Understanding

The year just closed was momentous one, not only for the United States but for the entire civilized world. It was a year of crises, of dramatic and far-reaching changes in the structure of governments and peoples. By the narrowest of margins, a world war that seemed certain was averted. Yet, at the same time, major, though undeclared wars are in progress on two of the continents, brute force has become the principal weapon of modern diplomacy, and there can be no real stability in the world, no permanent rest for the nerves of the troubled billions who inhabit it, so long as this is true.

Coming home to our own country, 1938 opened with business declining on every hand, and with depression deepening. At the year's end, one of the sharpest improvements in business in our history was registered over a period of five months and the immediate prospects favor a continuation of this trend. Some of the grave differences between industry-at-large and the National Administration appeared to be nearing reconciliation. The inevitable deduction to be made from the important, off-year elections in November is that the thinking of the electorate is turning toward the conservative side. Spokesmen for manufacturing industry publicly express confidence. All this is highly encouraging. It gives great cause for hope that a depression a decade long may be at its end. But, even though this is true, it would be folly to overlook, or to underestimate, the many vital and unsettled problems that the American people still face.

Our largest single industry, railroading, finds its condition growing steadily worse. Better business during recent months has naturally resulted in some increase in railroad traffic. But the basic difficulties facing the lines—rate problems, excessive stringency of regulations, heavy taxation, and direct and indirect subsidization by government of their principal competitors—remain the same. There can be no real prosperity in America as long as an industry which spends a billion a year for supplies in normal times, which employs hundreds of thousands of well-paid workers, and on which we depend for the transportation of the great bulk of the products of our farms and factories, can look forward to nothing save increasing deficits.

The political problems affecting

(Continued on Page Five)

Fulton Bulldogs Score 2 Against Wingo

Tuesday night at the local gymnasium the Fulton Bulldogs defeated the Wingo basketball team by a score of 22-22. The Bulldogs showed a great improvement over the past games in their passing and goal shooting. Line ups are as follows:

Pos. Fulton (32)	Wingo (22)
G—Dalton, 2	Smithson, 2
G—McAlister, 6	Saxon, 1
C—Brady, 2	E. Clapp, 2
P—Thomas, 11	B. Clapp, 8
P—Williams, 4	Turner, 2
Sher. Wingo—Gray, 7, for Saxon, Fulton—Gossum, 6, for Brady.	

The pups also defeated the Wingo second team by a score of 28-24. The winning goal was made by McClellan in the last minute of the game. Next Friday the Bulldogs will meet Mayfield on the home floor. Their schedule was made complete Tuesday morning when a game to be played with Clavert City on January 20 was arranged.

COUNTY AGENT

J. B. WILLIAMS

Corn Loans Now Available

Farmers who have complied with their corn acreage allotments can now secure the 5% loan on corn that is stored in cribs that meet the requirements.

The corn does not have to be shucked as was thought earlier in the fall and cribs that are not completely surrounded by other parts of the barn even though they are over 7 ft. wide will be accepted. The corn must be inspected and a moisture test made to determine the loan value after the moisture is determined. The corn must be insured then the papers can be presented to the local agent or to the commodity credit corporation at Louisville.

For more details producers should call at this office.

Cotton
Farmers who intend to grow cotton this year for the first time should come to the office at once and make a request for an acreage allotment. A small acreage is reserved for this type producer and unless an allotment is secured a penalty will be applied to the conversion payment in 1939.

FULTON HOSPITAL

Mrs. Emm Stokes, Route 4, is improving.

Mrs. E. L. Sanders was dismissed Thursday.

Lois Jackson of Water Valley received treatment last week.

Miss Anna Lara Burnett, Route 1, is improving after a recent appendectomy.

Mrs. Bob Connor of Corinth, Mississippi is slightly improved after a recent operation.

Joan Joyner was dismissed Saturday after a tonsillectomy.

BIRTHS

Mr. and Mrs. Bob Pollack announce the birth of a boy born Wednesday, December 28 at the Fulton Hospital.

Mr. and Mrs. Floyd Hardy announce the birth of a son, born Wednesday, December 28 at their home.

Mr. and Mrs. Raymond Hendley announce the birth of a son, born Wednesday, December 28 at the Fulton Hospital.

Mr. and Mrs. W. S. Scott of Wingo, Route 1, announce the birth of a daughter, born at the Fulton Hospital Sunday, January 1.

Mr. and Mrs. Raymond Gambill announce the birth of a son born at the Fulton Hospital Wednesday afternoon, January 4. The baby was named Michael Bruce.

LODGESTON HOMEMAKERS TO MEET NEXT WEEK

The Lodgeston Homemakers Club will meet in an all day session next Wednesday, January 11th. The lesson will be "Preparing Meals in the Pressure Cooker."

Hal Kiser has returned from a visit with his parents in St. George, S. C.

EDWARD FLIPPIN TAKES LIFE

Mr. Edward Flippin committed suicide at his home near Harmony Church, Sunday about 5:30. Mr. Flippin used a pistol and shot himself in the head and the bullet penetrated the back of his scalp. He sustained a large gash in the back of his head when he fell to the ground. No reason was given for his action.

Funeral services were held Monday afternoon at the Harmony Church by Rev. Baker with burial in the church cemetery.

He is survived by his widow and one daughter, Helen, formerly of Fulton, now of Baton Rouge, La.

A. R. Roam Is New Manager At Grant's

A. R. Roam of Dawson Springs, Ky., is now in charge at the local Grant & Company Store, succeeding W. K. Cummins, who has formed a partnership with J. D. Stephenson in Stephenson Grocery on Commercial-av.

Mr. Roam and family have moved to Fulton and taken a house on Fourth-st. He is an experienced merchandiser and a man of pleasing manner. Fulton welcomes him into the local business circle.

Father of Fulton Woman Dies in Michigan

M. K. Neighbors, age 65, father of Mrs. Bill Looney of Fulton, died in the American Legion Hospital at Battle Creek, Mich., Thursday night, Dec. 31, and interment was made at Three Rivers, Mich.

He is survived by two daughters, Mrs. Bill Looney of this city, and Mrs. E. J. Clements of Oklahoma; three brothers, R. A. Neighbors of St. Louis, R. B. Neighbors of Pontiac and H. B. Neighbors of Three Rivers; three sisters, Mrs. D. V. Rowe of Pontiac, Mrs. Monroe Phillips of Florida, and Miss Fannie Neighbors of Memphis.

Meeks Replaces Gilbert As Malco Manager

Hiram M. Meeks arrived this week to succeed Malcolm Gilbert as manager of the Fulton and Strand Theatres in this city. These shows are owned and operated by the Malco Theatres, Inc., of Memphis, Tenn., and the change in management was announced early this week. Mr. Gilbert, who came here last January from Morrilton, Ark., goes to West Point, Miss., where he will be in charge of a theatre operated by his company.

Mr. Meeks, who has been with the Malco company for the past four years, comes here from Hot Springs, Ark., where he was assistant manager of the theatres there. He is a native of Jackson, Tenn., where his parents, Mr. and Mrs. George Meeks, now reside. Mr. Meeks and wife have taken an apartment at the home of Dr. R. T. Rudd on Commercial-av.

Mr. and Mrs. Gilbert leave this week-end for West Point, where he will assume his new duties, at the Ritz theatre.

MRS. STORES SUFFERS FRACTURED ARM

Mrs. Emmie Stokes, Route 4, sustained a serious fracture of her left arm Saturday when she fell on the steps of her sister's home, Mrs. Mary Lane in Clinton.

Mrs. Stokes was brought to the Fulton Hospital and is remaining there for treatment.

TICKLE STOPPER

Insulation is the doctor's latest remedy. Many of our houses are too cold and drafty during the winter. By insulating them with at least four inches of mineral wool in both side walls and second floor ceilings, they can be made more healthful, as well as more comfortable. It is the prolonged exposure to drafts, cold floors and walls that accounts for a large percentage of winter colds, doctors believe.

"I am the beginning and the ending." —Revelations, 1-8

FULTON B. & L. IN 25TH YEAR

Twenty-five years ago the Fulton Building & Loan Association was organized—that was in 1913. From that beginning this institution, which is operated and managed by local people for the purpose of assisting citizens of this community in the purchase and ownership of homes and other real estate, has grown the present strong organization.

During the past year this institution has made steady progress with stock in force totalling \$741,000, and with the installment savings shares providing a plan for systematic savings, with dividends credited a regular intervals, the number of persons adopting this method of saving has steadily increased. A study of the institution comparative statement will be of interest.

Officers are Joe Browder, president; I. H. Read, vice president; Frank Carr, attorney; J. E. Fall, secretary-treasurer; W. C. Reed, assistant secretary-treasurer.

Directors: N. G. Cooke, W. P. Murrell, J. D. Davis, Ab. Jolly, Vodie Hardin, J. E. Fall, Joe Browder, I. H. Read, R. H. White.

CAPITOL COMMENTS

By DAVID M. PORTER

Sometime ago we put ourselves out on a limb by making a prediction on the coming Governor's race. The limb has, through the months, grown stronger and stronger, and we may put ourselves up as fortune tellers for business in the coming year, because events seem to indicate that what we said will come true.

The State political big wings are divided into two factions. The Administration, under Governor Chandler and Keen Johnson, and the Anti-Administration under Barkley, Logan and Rhea, with the Brennan faction in Louisville aligned with them.

The present situation is that Lieutenant Governor Keen Johnson will be the Administration candidate, although, rumor has it that Dan Talbot is luke warm in this connection. The Anti-Administration faction has been looking the field over, feeling the political pulse and keeping their ear to the ground, but has not been able to find a candidate that is strong enough in their estimation to beat Johnson, and so they are going back to their original plan to run Senator Logan for Governor, and John Y. Brown for Lieutenant Governor. Logan, so rumor says, can and will win, and will shortly resign his place as Governor, after he is elected, take a Federal Judgeship. John Y. Brown will then be Governor. It is claimed that Logan will appoint, when elected Governor, Tom Rhea to fill his unexpired term in the Senate. Logan is a strong candidate, has never a political race, is popular with the politicians and the masses, and a forceful campaigner. John Y. Brown is a strong speaker of the rabel-raiser type, who can hold his own with any other candidate. He would bring the labor vote with him, and this ticket at the present time seems unbeatable, because the Administration faction has to contend with the fact that Frederick A. Wallis is sure to run, and his vote getting strength will split the ticket. It is rumored that Wallis had a conference with Rhea last Tuesday in Louisville in an effort to secure Rhea's backing. There may be a compromise there with a possibility that Wallis would swing his support to the Rhea faction, and obtain his old office back as Commissioner of Welfare, after the election.

Charles D. Arnett, Secretary of State, is gaining much strength in his campaign. There are numerous candidates mentioned, including Lawrence Hager, Judge Roscoe Fulton, head of the F. H. A., Shaelford Miller and others, but we believe by April, the lines will be closely drawn. The battle will be between the Rhea and the field cleared for action.

A mature reel has never been caught at sea.

(Continued on Page Five)

Jerry McClure Dies Of Burns, Sunday

Jerry Ward McClure, age 6, son of Mr. and Mrs. M. D. McClure died Sunday evening in the Fulton Hospital from burns received while shooting fire crackers in the yard of his home on Route, Johnson Grove Community.

Jerry's clothing caught fire while he was trying to smother a blaze of a grass fire that caught from the fire cracker.

Funeral services were held Monday evening at the Johnson Grove church, conducted by Rev. Woodrow Fuller. Burial followed in the church cemetery.

He is survived by his parents and several brothers and sisters.

Wm. B. Humphreys Dies In Chicago

William Bush Humphreys, son of Mrs. W. C. Humphreys died Sunday night in a Chicago Hospital after a brief illness. Mr. Humphreys was a native of Fulton many years ago. The message of death was received by Trevor Whyne, a relative of Humphreys. Funeral services were held in Louisville, Ky.

DEATHS

J. W. SHEPHERD

J. W. Shepherd, age 70, well known citizen of this community, passed away at his home on Third-st., December 27, following a short confinement. Funeral services were conducted December 29, from the First Methodist church by Rev. Wilford, assisted by L. K. Bishop, pastor of the First Christian Church of Paducah. Interment followed at Fairview cemetery here.

Mr. Shepherd was a retired employee of the Illinois Central railroad. He entered the service here as engine watchman on April 20, 1884, for the Chesapeake, Ohio and Southwestern Railroad, which became the Illinois Central August 1, 1896. From that job he served as brakeman, freeman and engineer, until September 11th, 1888 when he made his first trip on the main line freight service between Paducah and Memphis, being assigned a regular engine.

In October, 1897, Mr. Shepherd was given a regular passenger service run. Then in 1902 he took a job as engineer for the Frisco, working between Memphis and Birmingham, Ala., for a while, later between St. Louis and Newberg, Miss. On December 10, 1904, he returned to the Illinois Central System as an engineer. Then on December 1, 1908, he was promoted to general foreman of the Fulton shops. Six years later, on March 1, 1911, he advanced to the position of Traveling Engineer between Paducah and Memphis.

From there he was transferred to the north Fulton and Cairo district, the Blufford district, in 1922. Then in 1930 this job was discontinued due to the depression. Returning to the Fulton shops as general foreman, he was retired on August 1, 1932, after having devoted nearly half a century in railroad service.

Mr. Shepherd was a member of the Brotherhood of Locomotive Engineers, member of the First Methodist Church, a Knights Templar, Mason and Shriner.

He married Miss Annie Baumgard of Paducah on February 13, 1890, who survives. He also leaves one son, James Winfree; one sister, Mrs. Will Vancay of Denver, Colo.; and many other relatives and friends.

JOHN W. FINCH

John W. Finch, age 64, died Thursday, December 28, at 8:12 P. M., at his home two miles east of Crutcheville. Funeral services were held at Rock Springs Friday, December 30 at two o'clock, with Rev. Byrd officiating. Interment followed in the cemetery there.

Mr. Finch was a native of this county, having spent his entire life in this vicinity. He is survived by one sister, Mrs. John Swift, Hickman; two half-sisters, Mrs. Lena Hicks and Mrs. Tom Newberry of Crutcheville; one half brother, Charlie Finch of Crutcheville; his

(Continued on Page Five)

1939 WILL BE YEAR LIMITED PROSPERITY

Total business by end of 1939 will be as good or better than at any year-end since 1929, according to Roger Babson, famed statistician, in his annual forecast. It is his estimate that business will show a 20 per cent increase during the year, although there will be times when business will mark time, so to speak.

Jobs, wages, retail sales, stocks, and even farm prices are slated to show good gains. It is possible that the sharp rises of 1937 will be topped, but all in all, 1939 will be a year of moderate prosperity.

Contrary to the opinion in some schools of thoughts that 1929 represented a pinnacle of American business, Mr. Babson believes that the years ahead are certain to bring even larger volumes of business. It is true that some factors are less favorable than in 1929. Among them are taxes, bureaucracy, and lack of faith, but Babson gives the following favorable items:

1. Our population has grown 7,000,000 since 1929.
2. Thousands of new products have been invented.
3. Production efficiency has soared 50 per cent in ten years.
4. A huge deferred demand for goods has piled up.
5. Credit reserves are the greatest in history.
6. Production costs are lower than last year.
7. Wholesale and retail inventories are relatively low.
8. Confidence is returning as "business bailing" lessens.
9. Billions will be spent on armaments and pump priming.
10. Building is on the threshold of a real boom.

For these and other reasons the forces of recovery are still predominant. At present business stands 18 per cent above the same period last year, and indications are that business will work along slowly upward in the first half of the year, showing approximately a 25 per cent above the same period last year, and indications are that business will work along slowly upward in the first half of the year, showing approximately a 25 per cent increase over the gloomiest months of early 1938.

Curtalement of drastic New Deal legislation is expected to be one incentive for business advancement. To summarize Babson's report would reveal the following information:

Business is expected to show a 20 per cent gain over 1938, with a gradual uptrend with the second half best.

Relief from new anti-business legislation by Congress.

Moderate increases from current lows.

Produce prices to rise; income higher.

More jobs, steady wages, increased strikes.

Ten per cent gain in retail trade, with prices marked up.

Flood, clothing to lead five per cent rise in living costs.

Building activities will show steady gains in 1939, with real estate values showing advancement, but rents steady.

No war for the United States, England or France.

1939 will be a far better year than 1938.

SINGING CONVENTION TO BE HELD SUNDAY

A Singing Convention will be held Sunday, January 8, at the City Hall at 1:30 o'clock. Many out of town entertainers including quartets from Paris and Paducah will be on the program. Everyone is cordially invited.

COTTON GINNING REPORT FOR FULTON COUNTY

Census report shows that 8374 bales of cotton were ginned in Fulton county from the crop of 1938 prior to December 18th, compared with 8387 bales for the crop of 1937.

If you know yourself to be a shiner—acknowledge it.

THE NEW YEAR

It is nice to wish each other a Happy and Prosperous New Year, but both terms are relative and we know that true happiness and actual wealth cannot come to all of us in the year we are about to enter.

At that happiness and wealth do not always go together. For true happiness is a spiritual thing, something deep inside of us, depending on our health, our adjustment to life, our character and our outlook.

So the finest and most practical things we can wish each and every one of our readers for the New Year are Good Health, Understanding, Contentment and Peace. There we wish for everyone in the community in full measure, with all the Happiness and Prosperity that is possible in this old world.

Making New Year's resolutions does not amount to much, for few of us have the will-power to keep them long and it is extremely hard for anyone to make a sudden change. Changes are gradual. But it is well at the end of the year to take inventory. Taking a personal inventory will enable us to check up on what we are doing and where we are going.

Every business takes inventory at the end of the year to find out just what they have in stock and to make plans for the coming year. It would be just as wise for each individual and each family to take inventory right now and make plans for the new year. It would help to keep us on the right tracks.

It is also well to look around us and take stock of our community. See if we have done our part in the upbuilding of the community the past year. See what improvements we would like to make in the coming year. Plan what we can do to help the community make them. For we are a part of the community and the community is a part of us.

In a material way there is every reason to look upon 1939 with confidence. Business and industry are one the upgrade in the nation as a whole and right here in Fulton. Prospects for 1939 are distinctly encouraging.

So each of us should enter the New Year with confidence and the determination to help ourselves and our community to the best of our abilities during 1939. By working together we can accomplish many things during the coming year and we can make our community a better and more pleasant place to which to live and work.

The News appreciates the support you have given it during the past year. We pledge you our best efforts to make the paper even better in the coming year. It is your newspaper and we are here to advance your best interests. In that spirit of friendship we extend to one and all our greetings and our best wishes for the New Year.

FARMERS MAKE PROFIT

That there is profit in growing soybeans is best confirmed by the fact that the 1938 crop was America's largest, and brought new money to many farmers who had never before touched this crop. In many districts where oats had been grown at a loss, a large number of farmers had turned to soybeans at commendably high prices compared with other crops.

According to Lamar Kishlar, a

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

research authority, production of soybean oilmeal from the current crop may exceed 920,000 tons, although this spectacular new cash crop is but 16 years old. Production figures in the four leading states of Illinois, Iowa, Indiana and Ohio were surprisingly large.

More than 95 per cent of the soybean oil meal produced in the United States is used in feeds for livestock, pet stock and poultry. Many of the best commercial feeds contain this highly nutritious and palatable protein ingredient, which is relished by all animals. A leading stock feeding expert recently said:

"Soybean oil meal, while the newest important feed ingredient we have today, is here to stay, and its importance in both manufactured and home mixed feeds is destined to increase by leaps and bounds during the next few years."

Because of the increasing demand for soybean products, farmers who have not already done so might profit by investigating the possibilities of this new cash crop.

LAST OF GREELEY'S CREW

A recent news item mentioned the fact that General David L. Brainard, 82 years old December 21, is the last living survivor of Greeley's Arctic expedition, which made history from 1881 to 1884, by its explorations in the far north.

Brainard was a sergeant in the regular army at this time, but was later commissioned a second lieutenant for his heroism in connection with the expedition, of which he was one of only seven survivors, the remaining 18 having died of starvation, except one who was shot for stealing food from his comrades.

On May 13, 1882, in company with Lieutenant Lockwood, Sergeant Brainard went on beyond the rest of the party and reached north latitude 83 degrees, 24 minutes—the farthest north ever attained by man up to that time.

Two relief expeditions failed to reach Greeley, but a third under command of Lieutenant-Commander (later Admiral) Winfield S. Schley of the Navy, found the wretched survivors in June, 1884, and returned them home.

Brainard served in the army with distinction until his retirement as brigadier general in 1918. Greeley became a major general in 1906 and died in 1935 at the age of 91. Their rescuer, Admiral Schley, died in 1911.

General Brainard was awarded, in addition to his army citation, high honors by several American and British scientific societies. At the age of 82 he can look back upon a distinguished career in the service of his country.

WHAT MUST WE DEFEND?

There is perhaps no subject concerning which the people of the United States are more in accord than that of national defense. Every true American wants to see his country safe from invasion.

But the question just now most pertinent concerns the scope of defensive measures should include. The question might be divided somewhat like this:

Should we be prepared to defend only the continental United States and the possessions which are indisputably our own territory, such as Hawaii, Puerto Rico, Alaska and the Panama Canal?

Should we go to war to defend the Philippines, which by their own request have been granted entire independence to become fully effective after a transition period of a few years? And what about other republics in this hemisphere?

Should we go to war of necessary to defend commercial or personal interests of Americans throughout the whole world?

Should we go to war to aid Great Britain and France, for example, as we did in the World War—and for what?

The answers to these questions must have a definite and a vital bearing on the nature, extent and cost of the proposed new defense program.

But the answers cannot be given until it is known to what extent we intend ourselves with other nations over matters which are of little importance to our own people as a whole.

The Kozloff brothers of Reading, Pa., play their cousins, the Goodman brothers, in an annual game of basketball to decide the superiority of the families.

To win a wager, Ned Smith tried selling genuine \$5 bills on downtown Los Angeles streets. Of hundreds who stopped to listen to his offer, only two bought.

SCHOOL NEWS

FULTON HIGH

The opening of school Monday morning found a strange looking student body, not to mention the faculty. The thought of parting with 1938 and its holidays left the students in a rather disgruntled mood and only the announcement of another partial holiday could bring life back in to them. School was again dismissed shortly after noon in order that all might listen to the various Bowl games. Classes were resumed Tuesday morning and all looked natural again. Possibly the fact that basketball was again in the minds of everyone brought them back to reality. It is thought now that 1939 will prove to be a very successful year in every way.

Some of the Bulldogs found themselves playing ball against one of their old classmates, Paul Smithson. Paul, who lived here several years ago, is now living in Wingo where he is a member of the basketball squad. Wonder if Paul felt any pangs of homesickness.

Twenty-one student nurses at the Methodist Hospital at Memphis, Tenn., repeated the Florence Nightingale pledge for nurses last Saturday midnight. This meant that they had completed their after-enrolling for the three-four month's preliminary training course. One of these students was Iris Martin, a member of the 1938 graduating class. Her many friends wish her success in her chosen field of work.

The teachers have ordered all examinations which will arrive in time to be read during the work on January 16-20. At this time a thorough check-up will show what has or has not been accomplished by the students and faculty since September 12, 1938.

Wednesday morning the high school pupils enjoyed a moving picture sponsored by the Red Cross. The name of the picture was "Why Not Live." The same picture was shown Thursday morning for the junior high pupils.

SOUTH FULTON

Mr. James C. Good of Mickey, Tennessee and Union University has been elected to fill the vacancy of coach and science teacher caused by the resignation of Leon Smith. Mr. Good arrived Tuesday to assume his duties.

South Fulton boys and girls will meet Dixie on the local floor Friday night, January 6. Dixie girls have been beaten only once in four years on their floor, and that defeat was handed them by the Martin team this season. The South Fulton Red Devils will miss the brilliant scoring of their star forward, Morgan Omar, Jr. due to an ear injury. He hopes to be back on the team in a week or two.

The school has received two new sets of the Encyclopedia Britannica through the medium of the P. T. A. A new Twentieth Century Dictionary has also recently been added to the reference books of the library.

The ball teams will go to Troy Saturday night, January 7.

The faculty members spent the holidays in various ways, such as:

Sarah Pickle and Blanche Howard—went to Tiptonville.

Martha Roach—sick.

Mrs. Elbert Lowry—moved.

J. B. Cox—Cox family reunion at Carle, Ill. Searched for coach in Jackson, Martin, Murray, and Nashville.

Mrs. J. E. Thomason—Alabama.

Mrs. R. M. Kirkland—Benton and Paris.

Allie D. Williams—Sallisaw, Oklahoma.

Christine Johnson—Home in Murray and visited in Paris and Paducah.

Chinese leaders assert that the Japanese actually occupy only one seventh of the territory penetrated by their invading armies. However, the Japanese hold most of the cities, railways and industrial centers of the area, while the Chinese continue to live in comparative peace in many of the small towns and rural sections.

Drivers of all public vehicles and motor trucks in France must submit to a physical examination.

ROUTE FOUR NEWS

Lowell Irvine, aged 35, died at his home Sunday at 2 A. M., after a short illness of scarlet fever and heart complications. He is survived by his wife, three sons, Billie, Charles, and Bobby; his mother, Mrs. Sammie Irvine, one brother, Leslie, and one sister, Mrs. Dean Lee. A short service was conducted by Rev. J. C. Gilbert, Sunday afternoon followed by burial in Mt. Moriah cemetery.

Mr. and Mrs. Gus Moran and son moved last week to the Harper farm near Clinton.

Mr. and Mrs. W. C. Latta and son, Cleo, Jr., of St. Louis spent the holidays here with relatives.

Mr. and Mrs. William Haynes and family of Clinton, visited Mr. and Mrs. T. B. Watkins, Wednesday.

Miss Ada Herrin is visiting Mrs. Annie Finch near Crutchfield for a few days.

AROUND TOWN

In Fulton during the holidays, Roy is now located in Paducah—it will be remembered that he was manager of the Fry Shoe Store for some time. Roy is looking forward to an uplift in business during 1939, an increase being encouraged by tremendous expenditures in the construction of the Gilbertsville dam, the seawall at Paducah, and other federal projects in this district.

Dr. A. C. Wade and family have just returned from a trip to Savannah, Tenn., Fulton, Jackson and Mobile, Ala. Dr. Wade says that

Mobile is expecting a sharp advancement in business, as the newly consolidated ship building yards are put into operation for the construction of new ships in connection with the extended national program of armament for protection.

Under Michigan laws, cats off of their owner's premises are regarded as predators, and may be shot at any time.

There is one birth in the United States every 14 seconds one death every 22 seconds, one immigrant every 15 minutes and one emigrant every 14 1-2 minutes—making a net gain in population of one person every 35 seconds.

Neither industry nor agriculture can prosper for very long if the other is economically sick.

IMPROVEMENT SEEN IN FARM OUTLOOK

The national outlook for agriculture prepared by the U. S. Department of Agriculture indicates that there will be some improvement in the farm situation in 1939.

Increased business activity and raising consumer incomes are expected to stimulate domestic demand for farm products which will more than offset less favorable foreign prospects.

THE AWFUL PRICE YOU PAY FOR BEING NERVOUS

Quivering nerves can make you old and haggard looking, cranky and hard to live with—can keep you awake nights and rob you of good health, good times and jobs.

What you may need is a particularly good woman's tonic—and could you ask for anything whose benefits are better proved than Lydia E. Pinkham's Vegetable Compound? Let its wholesome herbs and tonic help Nature build up more physical resistance and thus help calm your shaking nerves, give more energy and make life worth living again.

More than a million women have reported benefit—why not let Lydia E. Pinkham's Compound help you, too, to get "snapping" again? Try it for 30 days. If you feel better, it's no question but that it's doing the job. If not, return it for a full refund. IT MUST BE GOOD!

A brief of the outlook for the principal crops and products grown in Tennessee, prepared by the U-T Extension Farm Management Department from the National outlook statement follows:

Outlook in Brief

TOBACCO—Supplies of Burley in 1939-40 will be large relative to disappearance unless 1939 production is reduced. Foreign countries are growing more of their own tobacco and U. S. leaf will probably represent a smaller proportion of total world consumption this year than at any time before.

COTTON AND COTTONSEED—World consumption of U. S. cotton in 1938-39 is expected to show little change from 10.9 million bales consumed last season. The increase in consumption promised in this country is likely to be offset by prospective decreases in the use of U. S. cotton in Europe and Japan. The world supply of cotton in 1938-39 will again be the highest on record.

WHEAT—A curtailed U. S. wheat acreage is the prospect for 1939, but the world wheat acreage

is not likely to be decreased. Unless world yields are materially below the 1939 average, domestic wheat prices in 1939-40 may continue low compared with recent years.

TRUCK CROPS—The 1938 acreage and production were the largest on record, returns not so good. With acreage reduction in prospect for many vegetables and consumers' income increasing, prices to growers are likely to be "somewhat higher" next year. The sweet potato acreage seems likely to be about the same as in 1938.

HOGS—Larger slaughter supplies of hogs, continued expansion of hog production, and improvement in consumer and storage demand for hog products highlight the hog situation. Changes in consumer income during the next few months will be a major factor in hog prices.

CATTLE—Increased consumer income plus smaller cattle slaughter will be price strengthening factors but the large supply of hogs and all meats will be price-depressing factors. Cattle numbers are expanding but in the present cycle are not expected to reach as high a peak as in early 1934.

SHEEP AND WOOL—More sheep and more wool is the outlook for this year. Unfavorable returns from lamb feeding last year discourage some feeders. Some improvement in demand for meats and in wool prices is expected.

HORSES AND MULES—Numbers of horses and mules will continue downward for several years, as the production of colts, although increasing, is still insufficient to replace worn animals dying off.

POULTRY AND EGGS—Larger supplies of both poultry and eggs are expected in 1939 but any depressing effect on prices should be partially offset by increase in consumer's income. The present favorable feed and egg price situation is expected to result in an increased hatch next spring.

DAIRYING—Any marked improvement in milk and butter prices is likely to depend on further business recovery and a rise in the general price level. The long time outlook is for comparatively large milk production and increasing cow numbers.

HOMEMAKERS PLAN PROGRAM FOR FARM AND HOME MEETING

Sessions for members of homemakers' clubs and other farm women will be one of the features of the 27th annual Farm and Home Convention at the Agricultural Experiment Station at Lexington the last week in January. Arrangements are being made for an attendance of several hundred women from 60 to 75 counties.

Many phases of homemaking will be discussed by Kentucky women and by speakers from other states; among them Dr. E. L. Bishop, health director of the Tennessee Valley Authority; Miss Bess Rowe, editor of The Farmer's Wife magazine; Dr. R. Bruce Tom, Ohio recreation specialist; Miss Grace E. Frysinger of the United States Department of Agriculture; Mrs. Olivia Rossetti Agresti, former secretary of the International Institute of Agriculture; and Mrs. Marie Louise Diescher, Kansas farm woman leader.

Farm organizations meeting during the convention include dairy cattle clubs, the Kentucky Horticulture Society, the Kentucky Beekeepers Association, the Kentucky Rural Church Council, the Kentucky Seed Improvement Association, and the Kentucky Veterinary Medical Association.

Noted speakers include L. J. Taber of Ohio, master of the National Grange; Wayne Dinsmore, secretary of the Horse and Mule Association of America; Dean C. L. Christensen of the Wisconsin College of Agriculture; P. O. Wilson of the National Livestock Marketing Association, Chicago; Fred C. Elford, representing the Canadian Department of Agriculture; and President Frank L. McVey and Dean Thomas P. Cooper of the University of Kentucky.

OLDEST INSULATION

One of the oldest house insulating materials, if not the oldest, is mineral wool, a fibrous insulation made from spun rock, slag or glass. An article which appeared in the April 1887, issue of the Scientific American, described mineral wool by name and advocated its use in walls, floors and ceilings as both a heat and sound insulator. Even at that time—more than 50 years ago—the magazine prophesied that all buildings would eventually employ some form of insulation.

UNCLE JIM

American, like Egypt of old, might well store up food during years of plenty for use in lean years.

Many farmers sell their wheat for what the miller gives and buy their flour at what the merchant takes.

The use of lime offers more immediate returns and greater rewards to Tennessee farmers than any simple resource at their command.

In general, where soils are deficient in these minerals, lime and phosphate applied together on hay and pasture crops are three times as effective as either one alone.

Tennessee farmers are using seven times the amount of lime they used three years ago, but they could well afford to use four times as much as is now being used.

The beginning of the new year is farm inventory time. Make a list of all you own—real estate, livestock, machinery, crops, etc., giving approximate value of each.

An annual inventory is valuable in settling an insurance claim in case of fire or other destruction, settling an estate, or making a credit statement, and is an essential part of any farm business record.

Resolve now to keep farm business records in 1939. It's the best way to know how to repeat the good and avoid the bad practices in the future. Records will show you where the money comes from and where it goes.

LIGHTENING MAN'S WORK

Science is prolonging the useful life of man in many ways. Machinery has shortened the working day of the industrial laborer and given for more leisure. Typical of this has been the introduction of conveyor systems in factories and even more recently the introduction of new wonder metals for the construction of hand tools, foundry equipment and other material which has to be manually handled during the working day.

These new metals are so light and yet so strong that they amaze those whose conceptions are based on experience with iron and steel. Magalloy is only one-fifth the weight of steel and two-thirds the weight of aluminum. In one foundry where this metal is used for making manually-handled equipment, production was increased by 20 per cent with happier workmen, free from fatigue, because the parts they had to lift weighed

up to 40 pounds less than those which were replaced by Magalloy.

Just a few ounces saved on a hand tool is of extreme importance as all manufacturers know. No one can estimate the annual economic loss due to the moving of dead, useless weight in vehicles and machinery, or calculate the loss of human efficiency caused by fatigue when hand tools are heavier than they should be.

One of the yardsticks of engineering progress is the proper use of the great materials which the metallurgists are making available today. Some believe we may be leaving the iron and steel age and passing into an era of magnesium and aluminum as the trend toward the elimination of dead, useless weight continues.

BUILDING AMERICA'S HOMES

Fifty four per cent of all homes recently completed, according to an article in the American Roofer, cost from \$5,000 to \$10,000 to build. Based on the generally accepted ratio: one week's income equals at least one per cent of the cost of the house, these figures mean that the majority of home builders are in the \$50 and \$100 per week income group.

Houses costing less than \$5,000 constitute only 25 per cent of present construction, while houses costing over \$10,000 are 20 per cent—or one in five—of the total. One third of this latter group represents houses costing more than \$15,000.

Most of these new homes are more than one-story high. One story houses account for only 26 per cent of all structures built, while two-story houses account for 74 per cent.

Tellings of
Kentucky Folklore
BY
Gordon Wilson, Ph.D.

WESTERN KENTUCKY
TEACHERS COLLEGE
BOWLING GREEN, KY.

THE VILLAGE ACTOR

Nearly every neighborhood in other days had its mimic, who could always be counted on for entertainment, both public and private. In Old Fidelity our postmaster-druggist was just such a person. He had a very flexible voice, which could imitate just about every person he had met. He had the knack of looking like the person or thing he was "mocking," as we called it. When the Fidelity neighborhood ran its literary society through the winter and met around from house to house, he was often on the program. Whether he gave a reading, at which he was a specialist, or just pretended to be making a serious speech, he kept us convulsed with his antics. His best performances were in the store, with the loafers or the people who had come for the mail for audience.

As an aid to his acting he developed all sorts of occult tricks. He pretended to know all there is to be known about hypnotism, mind-reading and similar things. I was one of the numerous ones he fooled with his tricks; and yet I was so taken in that I did not dare think him laughing in his sleeve. His fine acting covered up the ordinary bits of deception.

In other times and places he would have been a showman. Probably he would have done best as an entertainer with a medicine show, then very popular. Our rather

awkward boys and men could hardly help envying his skillful hands, his smooth exterior, his flexible voice.

Whenever there were practical jokes to play, he was in demand, for he was the one man of our acquaintance who could do the most preposterous things without cracking a smile. Some unsuspecting young fellow, fresh from the fields would look like fair game to the jokesters. Anybody could suspect them, and they knew it. But the postmaster was above reproach; whatever he did seemed serious. Hence the unwary bit at the trick and was laughed out of countenance by the loud-mouthed gang around the stove.

But our postmaster had many other traits. Frankly, he could make a talk at a funeral that would have done credit to the best preachers of our time, a talk that often had that aloofness that a true critic is supposed to possess. The best speech I ever heard him make was in the old Fidelity cemetery at the funeral of a man of rather doubtful reputation. Just how bad the man had been I never knew; neighborhood gossip made him pretty bad. But the cautiousness and graciousness of the postmaster left us all feeling that it was not our province to say where our late neighbor had gone. To this day I do not know whether the speaker was acting naturally or was merely playing a part.

TOP ATHLETES NAMED

For the second successive year Don Budge has been voted the country's foremost athlete in a nation-wide poll of 63 leading sport writers. During 1937 and 1938 Budge was the almost unanimous choice for first place, but this year he had strong competition in Henry Armstrong, the amazing negro fighter, whose holding of the featherweight, lightweight and welterweight titles at the same time is an unprecedented ring record.

In the poll, conducted by the Associated Press, Budge scored a total of 122 points, to Armstrong's 104, no other athlete coming close to these two. Budge was the first choice of 26 of the writers, while Armstrong was named first by 19. Third place went to Johnny Van-

der Meer, southpaw of the Cincinnati Reds, who pitched two consecutive no-hit-no-run games, which was another world record. He scored 37 points in the poll.

Davey O'Brien, Texas Christian's All-American quarterback, was 4th with 28 points, and Glenn Cunningham, the champion mile runner, stood fifth with sixteen. Some 15 other athletes in various lines scored from one to 14 points. Joe Louis received no first choice votes, but had nine points on second and third choices.

Don Budge recently turned professional and will tour the country during the coming year with Ellsworth Vines in exhibition matches. He is one of the greatest tennis players of all time, and his salary for 1939 is said to be \$75,000.

SALVATION IN NEW UNDERSTANDING

(Continued from Page One)

the public service industries are similarly unsolved. There has been much talk, for instance, of "accords" and "conciliations" whereby the Federal Government would modify its socialization program of subsidizing publicly-owned gas and electric systems. But there has been no definite action. Such agencies as the TVA continue their astounding policy of refusing third-party arbitration of the prices to be paid for private properties they wish to purchase, and to hold the threat of building duplicate plants and transmission lines over the heads of utilities which refuse to sell at prices which would entail serious losses to their bond and stockholders. As a result, utility spending remains at low ebb and this great industry, which could do so much toward revitalizing America, must mark time, while its owners and workers wonder what an unpredictable future will bring.

A cloud of price-boasting legislation hangs over that field in which the consumer is most directly involved: retail distribution. The mass distribution agencies of the nation, which have made such notable strides in reducing costs of almost every necessity and luxury of life, are under attack. Should these agencies be destroyed, so some extremists in Congress and elsewhere seem to desire, the effect will be to reduce the standard of living of every one of those millions of families to which the budget problem is an ever-present worry. Here, then, is another great issue, directly affecting us all, that must be settled before national stability can become a fact instead of a hope. The related problems of debt, taxation and fiscal policy are likewise a drag on progress. Though we are now carrying the heaviest tax burden in our history, the national debt goes steadily higher. Investors are frightened, money needed for industrial expansion cannot be obtained in adequate amounts—and again depression is furthered. The average individual does not yet realize that when a treasury check is signed in Washington it is in effect drawn against his own savings and income.

In spite of our vast expenditures for relief, in spite of improvement in business, little if any dent has been made in the number of the unemployed. Not until private business is able to absorb a majority of relievers, thus reducing the weight of the relief millstone on productive industry, can genuine recovery and stability be possible.

This brief summing-up can touch on but a few of the great domestic problems that confront us. We may take heart from the progress we have made in the year just closed, but we must bring new understanding to fear if we are to make needed progress in the future.

BUSINESS RECORDS OF FARM IMPORTANT

Keeping some kind of records of the farm operations is advocated by the department of farm economics at the University of Kentucky College of Agriculture. They may be just receipts and expenses or they may be as elaborate as the farmer wishes to take time and trouble to make.

Some farmers make an inventory of their property at the beginning of the year. This includes a list of machinery, feeds, supplies, livestock and real estate.

A record of receipts and expenses is more useful if it includes amounts of items sold or bought as well as dollars.

Another matter which farmers find of value include listing the yields and production of crops, the use of fields, and records of animals.

Some farmers have complete records, showing feeds used for each kind of livestock, kind and amount of fertilizers by fields, products used by the household, and the like.

SOUTH MUST PREPARE FOR INCREASING USE OF COTTON SUBSTITUTES

Cotton growers should look to the future in making their 1939 farm plans and consider the long-range view, says Secretary of Agriculture Henry A. Wallace.

"The South must gradually adjust itself to the increased use of cotton substitutes in foreign countries and study how to earn a living from something other than cotton alone." He suggests three ways in which this adjustment might be made easier.

The first two are practices which have been urged upon cotton pro-

ducers in this country under the AAA programs. One is emphasizing conservation of the soil, with less land in cotton and more land in grasses and legumes, and the second is increased production of home food and feed crops which will improve the standard of living of Southern farm families.

The third line of development named by Mr. Wallace is that of increased industrial activity in the South and elsewhere to provide opportunities for farm boys and girls who either have no chance to get a farm or who do not want a farm.

The 1939 AAA program provides the means by which farmers can conserve their land and increase production of home food and feed crops, he said.

CAYCE NEWS

Mr. and Mrs. Arch Oliver, Misses Lynette and Lynette and Lela Mae Oliver, spent Saturday with Mr. and Mrs. Dood Campbell and family.

Mr. and Mrs. Robert Oliver spent Saturday with Mr. and Mrs. Clifton Campbell and family.

Miss Margaret Hammonds who spent the holidays with her parents, Mr. and Mrs. I. W. Hammonds left Sunday for Bowling Green to re-enter school.

Mrs. Pearl Fisher and Mrs. Ed Sloan and baby Eddie Jean spent Sunday with Mr. and Mrs. Cayce Yates near Union City, Tenn.

Several from here attended the funeral of Mrs. Ed Flippin at Harmony Church Tuesday.

Miss Doris Allen spent last week

in Fulton, Ky., visiting Mr. and Mrs. Leonard Allen.

Mr. and Mrs. James McMurray are the proud parents of a baby girl born last week at the Fulton Hospital. She has been named Clara Mae.

A training school for the Foods leaders of Fulton County Homemakers was held at the school building on Tuesday under the direction of Mrs. Hack.

A birthday dinner was given at the home of Mr. and Mrs. H. A. Campbell in honor of Mr. Campbell the following attended:

Rev. and Mrs. W. A. Baker, Mr. and Mrs. A. J. Campbell, Mrs. E. C. Rice, Hickman, Ky., Mr. and Mrs. Richard Bell, Mr. and Mrs. Roy Parrish and family, Mrs. Emie Cayce, Martin, Tenn., Mrs. Bob Campbell, Mr. and Mrs. John Tyler, Mrs. Ed Cayce, all of Fulton, Mrs. Nell Johnson, Mrs. Fred Evans and children, Mrs. Ora Oliver, Mrs. Mayme Bellew.

WESLEY CHAPEL

Hello! Folks how is everyone this rainy morning. Well, Christmas has come and gone and the New Year is here to some it brought joy and to some sorrow. Harold Laws, son of Mr. and Mrs. T. L. Laws was carried to the Baptist Hospital in Memphis on Christmas Eve in a very serious condition with Malaria. The surgeon there said it was the worst operation of the kind he had ever seen. He also has tonsils and adenoids, but they haven't operated on him for that to date. Friends of his in this community wish for Harold a speedy recovery.

On Dec. 26, B. A. (Ben) Thompson was taken suddenly ill and died Dec. 27. Cousin Ben has been a very close friend of my family and in his going I can say truly a good man has gone. Many hearts have been made sad by his passing. He will be greatly missed by the entire community. He was laid to rest Friday, Dec. 30 in the family cemetery with Bowlin and Riggs in charge.

Mrs. Carl Bowden, Mrs. Carl Fuqua and Mrs. Mary Fuqua spent a few hours in the home of P. L. Fuqua, Sunday afternoon.

P. L. Fuqua has something like flu but is able to be up at this writing.

Mrs. Karon Capps of Ypsilanti, Mich., spent the holidays with her parents, Mr. and Mrs. Cole Smith.

Mr. Adeu Glower and family spent Christmas with his sister, Mrs. Hubert Gatewood.

Mrs. John Watson gave the young folks a party Friday night. Everyone had a lovely time.

GGOD NAILS, GOOD SHINGLES MAKE GOOD ROOFS

Specify good nails when ordering a new roof. Zinc coated roofing nails with large heads are preferable; they will hold firmly and will not corrode. The number of nails specified is also important. Asphalt strip shingles — the most widely used roof shingle — require only four nails per 36 inch strip. These should be one to one and a quarter inches long with heads three-eighths of an inch in diameter.

If you want forgiveness—ask for it.

DEATHS

WADE - HANSON

Mr. and Mrs. J. J. Wade announce the marriage of their daughter, Miss Louise Wade to Mr. Lloyd E. Hanson of Alameda, California.

The marriage was quietly solemnized at six o'clock Sunday evening, January 1, at the home of the bride's parents on Carr-st. and the ceremony was performed by Rev. Woodrow Fuller in the presence of friends and relatives.

The couple took their vows before a beautiful improvised altar banked with fernery and tall white tapers burned at each side.

The bride was very charming in Dubonet velvet. She carried a bouquet of Talisman roses on a matching Dubonet velvet muff. Her only jewelry was a gold necklace watch, a gift from her grandmother.

She was attended by Miss Virginia Bechner of Princeton, Ky., who wore a teal blue with black accessories and wore a shoulder corsage of gardenias. Mr. Hanson was attended by Mr. Floyd Wade, brother of the bride.

Mrs. Hanson attended school in Princeton, Ky., and was graduated from the Butler High school in 1933. For the past two years she has been employed at Baldridge's 5c and 10c store, during which time she has made many friends who wish her much happiness.

Mr. Hanson is a native of North Dakota and was graduated from Columbus, Montana, high school, and is employed as civil engineer of the U. S. naval department at the Naval Air Station in Alameda, Cal. Immediately after the ceremony the couple left for California going via New Orleans.

The out-of-town guests were Mrs. W. C. Tanner of Owensboro, Mr. and Mrs. Ira Tanner of Owens-

boro, Mrs. Roy Mitchell and Mrs. Bill Settles and son, Little Bill, of Owensboro, Miss Virginia Bechner of Princeton, Miss Helen Brown of Princeton, Mr. and Mrs. Bob Myers of Charleston, Ill.

TAYLOR - NANNEY

Mrs. Bertie Taylor of Sharon, Tenn., and R. C. Nanney of Melrose Park, Illinois, were united in marriage at the Presbyterian church, during the Sunday school hour Sunday, January 1.

Rev. C. E. Akin performed the ceremony in the presence of Mrs. C. E. Akin and Henry Bethel. They left for Chicago immediately after the ceremony.

EXUM - PLOTT

Sunday evening at the home of Rev. J. N. Wilford, Miss Helen Exum, daughter of T. M. Exum, became the bride of Harry Plott of Harrin, Ill. Attending the couple were the father of the bride, Thomas Exum, brother of bride, Miss Dorothy Elliott, and Mr. and Mrs. Felix Segui.

Mrs. Plott was beautiful in a dress of dusty rose Malison's alpaca made Reddingote style with black accessories. She wore a shoulder corsage of Dubone carnations.

Mr. Plott is employed with the Illinois Central System in Centralia, Ill.

The couple left after the ceremony for Chicago, Ill., for a short honeymoon.

HANLEY - LOCKHART

Christmas Eve Miss Cassie Hanley became the bride of Ray Lockhart, popular young Mayfield couple. The ceremony was performed by Squire S. A. McDade at his home in South Fulton.

The couple was attended by Miss Etheline Luten, of Paducah and Douglas Bowden of Mayfield.

HOLIDAY WEDDINGS

PERFORMED BY REV. WILFORD On Christmas Day, Rev. J. N. Wilford united in marriage, Miss Edna Robinson and William H. Bal-low, both of Hickman. On December 23, Miss Mildred Bledsoe of Bradford, Tenn., and Lawrence Wright to Sharon were married at the minister's home. On December 24, Miss Virginia Peller and Willie Eubank to Spring Creek were united. On December 31, Miss Ruby Davie of Sharon, Tenn., was married to James Erwin of Chicago.

DREW - GRIFFITH

Mr. and Mrs. Vernon Drew of Mayfield, Ky., announce the marriage of their daughter, Juanita, to Marvin Griffith, also of Mayfield.

The ceremony was performed by Squire S. A. McDade at his home in South Fulton, December 10. The couple will make their home in Mayfield.

ANNIE ARMSTRONG

WITH MRS. ALREAD The Annie Armstrong Circle of the First Baptist Church met Monday evening at the home of Mrs. John Alread on Fourth-st., with Miss Ruth Roach as co-hostess.

Miss Myra Searce opened the meeting with a prayer and Mrs. Hugh Rushton, president presided over the business session. Mrs. Alread, secretary read the minutes and checked the personal service report.

Mrs. Earl Collins was the program leader for the evening and presented Mrs. Leon Hutchings, who gave an interesting devotional. The subject of "The Great Commission", was the discussion for the evening. Mrs. John Reeks, Mrs. Clifton Hamlett, and Mrs. Cecile Arnold assisted Mrs. Collins.

The following committee was appointed by the president to serve for the coming year: Mrs. John Reeks, Mission Study Leader; Mrs. Leon Hutchings, Bible Study Leader; Mrs. Jack Rawls, Personal Service Leader; and Miss Myra Searce, Stewardship chairman.

Mrs. Ruston closed the meeting with a prayer and a social hour was enjoyed by the twenty members present.

The next meeting will be held Monday night, January 6 at the home of Mrs. John Reeks on Oak-st. Miss Vera Wilkerson will be co-hostess.

TUESDAY NITE CLUB

WITH THE FREEMANS

Mr. and Mrs. Vester Freeman entertained their weekly Tuesday evening bridge club at their home on Third-st. with the regular three tables of members present.

At the conclusion of games Mr. and Mrs. R. M. Belew held high scores for the evening and each received a lovely gift.

The hostess served a delicious salad plate to her guests late in the evening. The club will meet next week with Mr. and Mrs. George Hester on Edding-st.

THURSDAY NIGHT CLUB

WITH MISS GATES

Miss Tommie Nell Gates entertained her Thursday evening contract club at her home on Central-ave., with three tables of players including two guests, Mrs. Felix Sequi and Miss Monette Jones.

At the conclusion of games Miss Lily B. Allen received high score prize and Miss Eunice Rogers won the bridge bingo prize.

Miss Gates served a delicious salad plate to her guests late in the evening.

DANCE GIVEN AT

ELKS CLUB ROOMS

Miss Winna Frances Price, Jack Parker and Ronald Earle Grogan were hosts to an enjoyable dance given last Friday night at the Elks Club rooms, when a number of their friends were entertained.

The club room was beautifully decorated in holiday motif, and the affair was charmingly carried out, with many of Fulton's younger set enjoying the evening.

CIRCLE 6 IN MEETING

The Circle No. 6 of the Baptist Church met at the home of Mrs. George Winter on Fairview Monday afternoon with thirteen members and two visitors present.

The chairman, Mrs. Winter opened the meeting and read a very interesting devotional taken from the 14th chapter of John. Mrs. W. E. Flippo followed the devotional with a prayer.

Reports from the year book and the activities of the circle for the past year were given.

During the social hour refreshments were served by the hostess.

LOTTIE MOON

CIRCLE MEETING

The Lottie Moon Circle of the Baptist Church met Monday evening at the home of Miss Mignon Wright on Oak-st. with Miss Inez Earp as co-hostess.

Mrs. J. B. Manley opened the meeting with a prayer and the regular business session was held by the president, Mrs. James Warren. Mrs. Russell Rudd had charge of the program and was assisted by Mrs. Charles Walker, Mrs. Warren, and Mrs. Sterling Bennett.

Delicious refreshments were served by the hostesses during the social hour.

TUESDAY CLUB MET

WITH MRS. MOON

Mrs. Gene Moon entertained her semi-weekly Tuesday afternoon club at her home on Pearl-st. with the regular two tables of members including one visitor, Mrs. Wade Joyner.

At the conclusion of games, Mrs. Ernest McCollum held high score and received a gift of pottery.

The hostess served a delicious salad plate and spiced tea to her guests. The club will meet in two weeks with Mrs. E. E. Speight on Fourth-st.

CIRCLE 4 MET

WITH MRS. TAYLOR

Mrs. Earl Taylor entertained the Circle 4 of the Baptist Woman's Missionary Society at her home on College-st., Monday afternoon with eleven members and two visitors, Mrs. Rosie Smith and Miss Martha

Gholson, present.

Mrs. J. C. Suggs, chairman opened the meeting and presided over the business session. The different officers were presented and each made a short talk concerning their activities to be done in the coming year.

Mrs. N. T. Morse was the pro-leader for the afternoon and was assisted by Mrs. Carl Hastings. The program topic was "Faith."

Mrs. Long closed the meeting and a social hour was enjoyed and refreshments were served by the hostess.
