The past winter, it is to be feared, which it is not, has been one of the mildest in many years. In spite of the mild winter, there has been no real winter weather. And, while I have no records on the weather, it seems now that there has not been as much snow as usual. It has been no winter at all, and there have been few days during winter when we would have had the weather all the past week.

However, it does seem that the weather has been a good one for all the crops. It has been ideal for growing tobacco and cotton, and it has been ideal for growing vegetables. The mild winter has also been good for the chickens and hogs.

March has never been one of my favorite months, but it is a fine month, when it comes. It is a month of promise, a month of hope, a month of new beginnings. March is a month of new life, a month of new hope, a month of new possibilities. It is a month of promise, a month of hope, a month of new beginnings. March is a month of new life, a month of new hope, a month of new possibilities.

BRITAIN GETS A BREAK IN ITALIAN NAVAL DEFEAT

Last Friday was an unhappy day for the British fleet or that part of it which steamed out of its harbors into the Aegean, the Saronic Gulf and the Dardanelles. By the battle of the Dardanelles, an Italian squadron of nine ships, including three battleships, and four destroyers, was shattered, sinking two of the battleships, two of the destroyers and one of the cruisers. The damage done is to be commended, and the loss of battle cruisers Ger-
