POLICE CHIEF'S PICTURES

Dr. W. C. Eubanks left yesterday morning for Athens, Ga., where he will be called by a telegram announcing his father's death. Mr. Eubanks, of this city, is a young and promising policeman who has served this city and has been known for his punctuality.

The procession of the chiefs of police in Paducah, Ky., the pictures of the chiefs of police community. Dr. Eubanks will be absent.

Is being repainted and repapered for Stanford, KY., while the artist is working on the former mayor's portrait. Deputy City Jailer Joseph was called by a telegram announcing his return, who have served this city and hang several days.

The likeness of Nashville, Tenn., was arranged the likeness of Nashville, Tenn., Philadelphia, and Clint Wilcox, both of the Festival. Geary and Clint Wilcox, both of the Festival.

is preparing to put an engorged picture on the street wall, and one of Captain Frank Harlan to be added to the Courthouse wall.

Msers. Collins and Atkins are she

of seven feet of gas in the oven, they can finish biscuits and act directly on the oven without baking the moment the burners are lighted.

You put the baking right in the cold oven, before or right after the flame is lighted. This seems unusual, doesn't it, but nevertheless it is so.

One Cents Worth of Gas
Will heat the oven and do a quick baking

Hot Biscuits and Coffee Served

Delicious Biscuits and Excellent Coffee Served All Week FREE!

The features of visibility on "Direct Action" Gas Ranges is one new and unique in store construction. In a Direct Action Gas Range seven feet of gas will finish biscuits on BOTH RACKS. This includes heating oven and baking.

DO YOU KNOW WHAT THIS MEANS? It simply means this: It is necessary to every other gas range to heat the oven for 15 to 20 minutes before baking is commenced: to get the oven in shape for baking it takes from 10 to 12 feet of Gas.

In the "Direct Action" with a consumption of seven feet of gas, you can finish biscuits on both racks. There is only one range that can do this and that is the "Direct Action." No heavy Deflecting Plates, so the heat from the burners act directly on the baking from the moment the burners are lighted.

You put the baking right in the cold oven, before or right after the flame is lighted. This seems unusual, doesn't it, but nevertheless it is so.

Municipal Ownership of Public Utilities

Sweep... Country Like Wild Fire

FROM MAINE TO CALIFORNIA AND FROM CANADA TO THE GULF. TOWNS AND CITIES ARE INSTALLING THEIR LIGHTS AND WATER PLANTS, AND CUTTING LOOSE FROM CORPORATIONS.

In the Electrical World, May 5, 1906, Missouri is preparing plans for a municipal electric light plant. Another town in the state is about to install a water plant. Recently, new electric and water plants have been installed in several municipalities in the state.

One of the biggest municipal electric and water systems in the state is the one at Paducah, Ky. The city recently installed a new electric plant at a cost of $200,000. The company has agreed to sell the plant to the city for $200,000. The city plans to take over the plant and operate it as a municipal enterprise.

The city of Paducah has been petitioned by a number of citizens to establish a municipal electric light and water system. The petitioners argue that a municipal system would be cheaper and more efficient than a private one.

The question of municipal ownership of a water and light plant is one that concerns the people of Paducah. The current system is under the control of a private company, and the rates charged by the company are considered to be too high.

The city has been petitioned to take over the plant and operate it as a municipal enterprise. The city council is considering the petition and may vote on the matter soon.

The People's Side of the Question.

Not the Register nor the Advertiser is in favor of buying the plant, but favor putting in a new one. The city did not get a square deal in that affair, the Register and Advertiser say. The corporation has agreed to sell the plant for $200,000, but the city is not interested in that.

Eighty per cent of our people are in favor of operating the street railway and light plant. The registered voters are in favor of municipal ownership of a water and light plant. The people of Paducah are paying all the way through their rates for the service.

Consorters for water and light plants can only give approximations for more exact details and specifications are placed before them, and they are told that the company has agreed to sell the plant for $200,000. The city is not interested in that.

The city of Paducah has been petitioned to take over the electric and water systems. The petitioners argue that a municipal system would be cheaper and more efficient than a private one.

TWENTY-ONE HEROES NAMED BY CARNEGIE

Commission Picks Money on Hold
In That Many Persons Perished

Pittsburgh, May 17—Twenty-one
heroes were named tonight, bringing the
roll of those honored by the Carnegie Hero
Fund to 198. At a meeting of the fund's
executive committee, the following individu-
als were passed upon, it was
announced. All eight of those named were
awarded $500, and two were made the
beneficiaries of bronze medals.

1. Albert C. Bower, a member of the
Yankee Doodle fire company, was
awarded a bronze medal for his rescue
of a man from a burning building.

2. John A. Devine, a member of the
same fire company, was made the
beneficiary of a bronze medal.

3. William E. Frank, a member of the
Mining Engineers Protective Fire
Company, was awarded a bronze medal.

4. James A. F. Hoag, a member of the
Eighth Avenue Fire Company, was
awarded a bronze medal.

5. William J. Feeley, a member of the
Johnstown Fire Company, was
awarded a bronze medal.

6. Charles D. C. Gantt, a member of the
Sheep Street Fire Company, was
awarded a bronze medal.

7. Joseph A. Hoyer, a member of the
Eighth Avenue Fire Company, was
awarded a bronze medal.

8. John G. Jordan, a member of the
Fireman's Home Fire Department, was
awarded a bronze medal.

The $500 award was made to:

9. Henry W. Glass, a member of the
Allegany Fire Company, for his rescue
of a man from a burning building.

10. John B. Hoge, a member of the
Galloway Fire Company, for his rescue
of a man from a burning building.

11. William L. Wolff, of Coudersport,
was made the beneficiary of a bronze
medal.

12. William J. Villari, of New York,
was awarded a bronze medal.

13. William P. F. McLeod, of
Albany, was made the beneficiary of a
deck medal.

14. Arthur D. Meader, of Boston,
was awarded a bronze medal.

15. Charles E. C. Jones, of
Cincinnati, was made the beneficiary of a
deck medal.

16. Charles L. King, of Seattle,
was awarded a bronze medal.

17. Robert E. Allen, of
Washington, D.C., was made the
beneficiary of a bronze medal.

18. William F. M. Clark, of
San Francisco, was awarded a
bronze medal.

19. William H. Galloway, of
Portland, was made the beneficiary of a
bronze medal.

20. August D. Landis, of
Philadelphia, was awarded a bronze
medal.

21. John E. Neff, of
Chicago, was made the beneficiary of a
bronze medal.

The names of the honorees were
announced by J. P. Morgan, who presided.

Of Interest to Women

A Dutch physician claims that the... best way to keep children's feet warm is to keep their heads cool. This, he says, is the most effective way to avoid colds. He further states that by keeping children's heads cool, it is possible to keep them from catching colds. This is a very interesting claim, as it suggests that the way we keep our children warm is just as important as the way we keep them cool.

The same physician also claims that the best way to keep children's feet warm is to keep their heads cool. This is because the feet are the most sensitive parts of the body and are the first to feel cold. By keeping the feet warm, the body will naturally keep the rest of the body warm as well.

In conclusion, this Dutch physician's claims are very interesting and may offer some useful tips for keeping children healthy. However, it is important to remember that the best way to keep children healthy is to keep them active, well-nourished, and well-rested.

John S. Porteous Marble Granite

The Best Stone on the Market

For not only is it possible, but it is necessary, to keep children's feet warm. This is because the feet are the most sensitive parts of the body and are the first to feel cold. By keeping the feet warm, the body will naturally keep the rest of the body warm as well.

In conclusion, this Dutch physician's claims are very interesting and may offer some useful tips for keeping children healthy. However, it is important to remember that the best way to keep children healthy is to keep them active, well-nourished, and well-rested.

COMMITTEE TO BE SEEN TThis MORNING

STATE SUPPLEMENT TO FacT. JOURNAL—SELECTED TOPIC OF AD-

Just Two More Weeks Of Study for the Children. When Wills Be Re-

antsified.

In late April the residents of Paducah were still waiting to hear from the secretary of war, who had intimated that he would send an assistant engineer to the city to give the local authorities an opportunity to study the condition of the levee that would vary subject to the condition of the high water. The engineer was to decide whether or not the city should build a new levee or repair the old one. The city council had already voted to repair the old levee, but the engineer was to make a complete examination of the situation and report his findings to the council.

ASSISTANT ENGINEER

Mr. Washington Says He Cannot Take Another Offer is Needed.

The city has purchased a new engineer's office, while arriving in Chicago, Mr. Washington said he had no intention of taking another offer, as he had no desire to leave the city until the city council had decided on a course of action concerning the levee.

City Engineer L. A. Washington recently said he had been informed that he was to be removed from his position as city engineer and he would take another offer if he were not satisfied with the new position. The city council had already voted to keep him in his position, but the engineer had not been informed of the decision and had not been paid for his services.

Spectacles

Just to refresh the memory of the citizens of Paducah, who have been wondering what to do with their old spectacles, there is a sale of spectacles going on at the harbor's department store. The sale is limited to ten pairs and will end shortly. The store has a large stock of spectacles and is offering them at a reduced price.
