PUBLIC TEMPER MOUNTING

Day after day, as strike news continues to fill the newspapers, it is apparent that the temper of the public is steadily mounting. The man in the street, the business man who is concerned with making a living after the strike is over, is getting more and more fed up with the news of walkouts, stoppages of work, riots and other disturbances, while orders for sorely needed war munitions go unfulfilled. Our President is building the United States into a gigantic war machine.

SPORTS

Coach Giles was not particularly impressed or encouraged when he saw the football hopefuls work out on Monday. He said it was a most disappointing day and that he must hope for a better day and more growth in the coming week. The mood of the boys was not particularly high, and several of them spoke of early homecomings to escape the单调 of practice.

Lowest Prices for Sports Equipment

The boys' high hopes for next year are not out for track practice and were not available for this week. The team is still in the process of forming, and it is not yet clear who will be counted on as regulars.

Coach Giles said that better results might have been achieved had the team's practice been conducted under better conditions. He said that the players had been running through drills and practicing, but that they had not been doing so under the best conditions.

In his opinion, the team is not yet ready to take on the best teams in the state, but that they will improve with practice.

In the meantime, the team is working on basic fundamentals, and the coach is hoping for some improvement in the coming week.
