It is not the young married folks alone who are going to build homes—who dream dreams of happiness in homes of their own—but many others who have long, long, long, been renting the roofs over their heads are going to try this year to realize their desire to have a home of their own.

Whatever you plan to do by way of BUILDING ... REMODELING ... REPAIRING ... we want you to feel perfectly free to come in and consult our service department without the slightest obligation. Whether it is a big house or a bungalow, a new garage, new roof or new floor, a sun parlor or a sleeping porch, an alley fence, or built-in fixtures—we are prepared to give you unequaled service and low prices on Quality Material.

Paying the Investor

The notes and fares which railway pass-
takers are distributed through the
railway organization. One part, by far the
larger, goes to the employee or agency
that has made the sale. The other part is
paid to the railroad, usually through
some organization for fuel, materials
and repair.

The third part, the smallest, goes to the
owner and his family. If the railroad
would have to pay its operating expenses,
the railroad would have to raise the fare
of the train which could be detrimental
for the passengers.

Everyone who ships or buys grain
who controls the rail line and
wherever they may possess their
land, in a piece of 20 acres.

The cost of a carload of grain depends on
the weight of the car and the distance
the grain is to be hauled. Grain
should be hauled in the season
when it is dry and can be
transported with ease.

Looking at that way, the railway plant is
in the best condition to operate.
