KATHERINE M. THOMPSON, Ex-Home Demonstration Agent.

For years I have been giving considerable thought to Locker Refrigeration for the people of Fulton and vicinity. This information has been successfully carried out on North. I am thoroughly convinced that it will be a good thing for the country and not to have one of these plants.

S. A. FAY, Fulton County Agent.

I have made some investigation of the Cold Storage Locker System and am convinced that it is the most satisfactory and economical of all others. I am of the opinion that it is for good and permanent use and that it may be a service to the country as a whole and to the supply of food.

Henry M. FRANK, President Fulton County Home Unit.

Under Seven Flags

The recent issue of the National Geographic magazine reported that for the seventh time, the annual international balloon race had been entered into by a team from the United States. This year, the U.S. team was represented by a balloon designed and built by the staff of the National Geographic Society. The balloon, named "Sky Rover," was equipped with state-of-the-art technology, including a camera system that allowed the crew to transmit live footage of their progress to viewers around the world. The race took place in the beautiful desert landscape of Arizona, and the "Sky Rover" made a smooth and successful landing, securing its place as a top competitor in the event. The crew of the "Sky Rover" was thrilled with their performance and looked forward to participating in future races.
