Vol. 6 No. 20

FULTON, KY., APRIL 4, 1930

R. S. Williams, Publisher

## I. C. Will Spend Ten Million

That the Illinois Central System will spend approximately ten million dollars in 1930 for new equipment (locomotives and cars) is announced by L. A. Downs, president.

In addition to 1929 equipment orders remaining unfilled at the first of the year, which will cost more than one million dollars, the Illinois Central System is now about to ask for bids on 2,330 units of equipment the aggregate cost of which will be slightly less than nine million dollars additional.

The equipment to be ordered will include:

- 9 oil-electric locomotives.
- 1,000 auto-furniture box cars.
- 1,000 open top cars.
- 200 flat cars.
- 15 mail, baggage and express cars.
- 15 passenger carrying cars.
- 20 electric suburban cars.
- 65 cabooses.
- 2 rail motor cars.
- 4 dining cars.

Many noteworthy features are included in the equipment that will be ordered. Two hundred of the auto-furniture cars will be over 50 feet long and will have end doors to facilitate loading certain kinds of shipments. Five hundred of the open top cars will be of the mill type, of extra length and with drop ends; the other 500 will be of the hopper type.

The oil-electric locomotives will be for switching service at Chicago, releasing switching engines now used there for service elsewhere. The 20 electric suburban cars (10 with motors and 10 trailers) will help to take care of the growing electric suburban service at Chicago. The two rail motor cars are for use on short runs, replacing steam trains.

The passenger-carrying cars will have improved seating arrangements. The dining cars will have electric refrigeration. Five of the other passenger-train cars will be for mail and baggage and ten for baggage and express, and five of the latter will also be for use in the shipment of horses.

The equipment on order at the first of the year included five oil-electric and four straight electric locomotives for use at Chicago, six baggage and mail cars and five baggage and express cars, the latter also for use in the shipment of horses.

### GROWTH OF RAILWAY TAXATION

Explaining that his statement is made "in order to give the real payers of railway taxes information to which we believe they are entitled," President L. A. Downs, of the Illinois Central System, presents in his April letter to the public a discussion of the growth of railway taxation. According to President Downs, everyone uses railway service in some form and thus helps to pay the taxes that are collected from the railroads.

Railway taxes, in dollars per year, have been running as follows, Mr. Downs reports: 100 million in 1911; 200 million in 1917; 300 million in 1922; 400 million in 1929. The daily rate has increased in these eighteen years from \$280,000 to \$1,100,000. Since 1913 the tax collector's slice of the railway dollar has grown from 3.8 cents to 6.3 cents.

In 1929, according to Mr. Downs, the owners of the railroads relinquished to the tax collectors their earnings from the work of 377,500 employees using 54,200 miles of railroad, 12,700 locomotives, 11,600 pas-

senger-train cars, 506,700 freight cars and other railway facilities to a total value of \$6,000,000,000.

TERRY-NORMAN P. T. A. TO HEAR DR. GRAFF

On Tuesday afternoon, April 8, Dr. Graff will speak to the Terry-Norman Parents, on Child Management.

There is such close relation between the keeping of health habits, and the building of character, Dr. Graff says, "Also that the health, happiness and efficiency of the adult man and woman depend to a very great extent upon the type of habits they acquire from their training and experience during early life.

Dr. Prather points out that any information which gives the interested parent a better idea of the mental life of the child, methods that may be utilized in developing desirable habits, and suggestions for overcoming undesirable habits may be considered well worth while.

Mrs. Whitnell, president of the P. T. A., urges a full attendance.

There will be a special exhibit of health posters and of proper toys for children.

### AMERICAN LEGION AUXILIARY CONFERENCE

The first District of Kentucky units of the American Legion Auxiliary, met in an all day session at the club room of the American Legion, at the Palmer House in Paducah, Friday, March 28.

Mrs. J. R. Snow, District committee woman, conducted the meeting. Mrs. W. R. Lynch, National rehabilitation chairman; Miss Mary B. Brawner, of Frankfort, president of the Kentucky auxiliary, and Mrs. K. R. Patterson, chairman of the World War Orphans work, were the chief speakers.

At noon a lovely luncheon was served at the Ritz hotel to seventy-five guests. Chief Paduke quartette gave a lovely program. The afternoon session was called at two o'clock. The Marceles, National anthem of France, was sung in her native tongue, by a lovely little war bride.

Mrs. Claud Nelson, of Marion, Ky., the Department chairman, and their committee, then gave their reports. After a round table discussion the meeting was adjourned till next year, was accepted.

Those attending from Fulton were Mrs. J. R. Snow, Mrs. Earl Taylor, Mrs. C. C. Parker, Mrs. B. O. Copeland, Mrs. N. E. Houston, Mrs. H. B. Houston, Mrs. J. T. Jordan, Mrs. Sam Winston, Mrs. Ray Graham, Jr., Mrs. Ward McClellan, Mrs. T. B. Neeley, Mrs. C. C. Weatherpoon, Mrs. J. L. Weatherpoon, Mrs. U. G. DeMyer, Mrs. W. W. Morris, Mrs. L. H. Howard, Mrs. J. C. Scruggs.

### TO POULTRY RAISERS

Prof. F. C. Old, one of the South's foremost authorities on poultry diseases and flock management, will conduct a disease-control school at Union City in the County Agents' office, 10-12 a. m., and 1-3 p. m. daily, April 9-10. All lectures free.

Submit your poultry problem to Prof. Old and get his suggestions. You owe it to yourself, to your flock and your community to attend the disease-control school at Union City, April 9-10.

A nice gift. Send The Advertiser to a friend one year—only \$1.00.

## And the Cat Came Back

## New Evidence Of Leadership

Snow-White Motor Company Displaying DeSoto Straight Eight

The display rooms of the Snow-White Motor Company reflect new evidence of leadership. You know Bob White and J. Ramsey Snow are local dealers for DeSoto cars and the new models displayed in their show rooms are being admired by all who visit their garage on Fourth street.

In offering a Chrysler-built Straight Eight at a new moderate price, De Soto further exemplifies those advanced principles of performance, appearance, and modest expenditure that have created such universal appeal in the new famous DeSoto Six.

The DeSoto Straight Eight, typifying as it does the trend to eight-cylinder motor cars, is definitely the car of today. Sterling quality heretofore found only in high-priced automobiles is now available to the motorist of average means.

Conservatively modern in fleetness of line, it is magnificently powerful, nimble in congested city streets, a veritable flash on the open road, compact, yet powerful, permanent, reliable, decidedly inexpensive to purchase and inexpensive to operate.

It offers everything that could be desired in a motor car. In every characteristic—performance, beauty, economy, comfort and price—the De Soto reflects the leadership of Chrysler Motors.

By all means you should visit the Snow-White Motor Company and inspect the De Soto Straight Eight.

### Repair Department

You should also go through their repair department, said to be one of the best equipped plants in Western Kentucky. They specialize on wrecks, fenders, bodies, tops and radiators, also greasing and washing.

They can take your old car, or a wrecked car into their shop and make it look practically new. They are equipped with modern machinery that can take a dent out of a fender or body of a car so perfectly it looks exactly like new, and it is surprising at what moderate cost. All work entrusted to

of her, she hath done what she could. Her sorrowing family and friends have the blessed assurance that a life so well spent can but reap a rich reward in the land that is far away.

No day is dark and dreary, In the land that's far away; No one is worn and weary, In the land that's far away. No friends are ever parted, No tear is ever started, No one is broken hearted, In the land that's far away.

Mrs. Fowler is survived by two sisters, Mrs. John Melton and Mrs. George Combs of this city, one brother Henry Knight, of Borger, Tex., two nieces, Mrs. R. H. McManus, of Canton, O., Mrs. Henry Arnett of Dallas, Tex., and one nephew, Jack Knight, of Borger, Tex.

The funeral service was held at Trinity Episcopal church, Sunday at 1 p. m., conducted by Rev. Whitmyer, Rector of Union City Episcopal church, and burial followed in Fairview cemetery.

—Written by a Friend.

### OBITUARY

Mrs. Lavenia Fowler died at her home on Norman street at 3 o'clock Friday morning.

March 28. Surrounded by her family and friends, she fell asleep until the resurrection.

Mrs. Fowler had only been confined to her room for a short time and many who were interested in her condition were not aware of her serious illness until they heard she had passed away. She was the daughter of Mr. Charles Knight and Mrs. Jennie Knight, both deceased.

She, with her family, consisting of her father, mother, two sisters and one brother, moved to Fulton from Paducah when she was quite a young girl, and since then she has considered this city her home. She has seen the town grow from a small village of several hundred to a city of several thousand inhabitants, and during that time she has been a prominent figure in everything pertaining to the city's welfare.

She was married to Mr. Albert Fowler in 1890. Mr. Fowler has been deceased for a number of years. Mrs. Fowler was one of the best known and best loved women in Fulton. She united with the Episcopal church when quite young and has always been one of its most devoted members and enthusiastic workers. The needy never called to her in vain, and it can be truly said

## Bailey Huddleston Steadily Improving

Friends of Chief of Police Bailey Huddleston will be glad to learn that he is steadily improving at the I. C. hospital, Paducah.

### VANDERBILT GLEE CLUB DELIGHT LARGE AUDIENCE

The Fulton P. T. A.'s are to be congratulated on presenting the Vanderbilt Glee Club in concert at Science Hall in our city, Thursday evening, April 3. It was a real treat to the large crowd in attendance and a return engagement would be hailed with pleasure. Each member of the club is a star artist of the highest order, and their visit here was a brilliant success. They were under the direction of Stetson Humphrey, Director of the Voice Department of Ward-Belmont College.

The fine musicianship of the Club is demonstrated by the fact that it has been invited to sing before the American Embassy in London, England, on July 4, 1930. The Club will give this presentation as one of its public appearances in European centers. Other appearances will be Paris, and other metropolitan cities.

## LIONS MAKE PLANS FOR EASTER

Lawson Roper Named to Attend National Convention

The Lions held a very enthusiastic meeting Friday, and made plans for their annual Easter egg hunt. They are planning for the largest hunt in the history of the club. Thousands of eggs and hundreds of prizes will be given away.

Lawson Roper, president of the Fulton club, was elected delegate to the national convention to be held in Denver, Colo., July 15 to 19. Twenty-one hundred clubs will be represented, also clubs from five foreign countries. Vodie Hardin was named alternate.

Smith Atkins, Dudley Smith and E. C. Hardesty were elected as delegates, and Dr. Russell Rudd, Abe Thompson and F. H. Riddle, alternates to the district convention at Ashland, Ky., May 18 to 19.

The program for the day was in charge of Prof. H. W. Moss, of the South Fulton High School. He had as his guest, Miss Thelma Flippo, who gave a very interesting reading. Miss Flippo is representing the South Fulton school at the inter-scholastic league at Union City this afternoon.

Several solos were sung by Mrs. H. W. Moss, accompanied by Miss Cantrell. The club was very fortunate in having these talented ladies with them today.

President Roper asked that the club cooperate with the Marshall Alexander Post of the American Legion in supporting and boosting the Drum and Bugle Corps, Morris Chawing was called upon to make a few remarks about the organization and purpose of the drum and bugle corps.

## CHILD HEALTH CONFERENCE AT TERRY-NORMAN SCHOOL

There will be a child health conference at Terry-Norman School, Wednesday, April 9, from 1 to 4 p. m.

Mrs. Smoot Morris, health chairman, asks the members of the P. T. A. to assist in inviting all mothers with children from one month to six years to attend.

Checkings will be made at this time for those eligible for blue ribbons awarded May 1.

## FULTON DENTIST IS NEW PRESIDENT OF DISTRICT SOCIETY

Meeting of Southwestern Association Held at Cobb Hotel

Dr. J. C. Scruggs, of Fulton, was elected president of the Southwestern Kentucky Dental Association for the ensuing year, at the annual election of officers Friday evening, at Paducah, in the Hotel Irvin Cobb. The society enjoyed a banquet, followed by a social session and business meeting.

Dr. Scruggs succeeds Dr. Julian Dismukes, of Paducah, as president of the Southwestern association. Dr. Dismukes president at the banquet. Other officers chosen by the dentists are Dr. John Stokes, of Mayfield, vice-president, and Dr. L. L. Duley, of Paducah, secretary and treasurer.

Talks were made by visiting dentists. Dr. J. G. Mathis, of Louisville, spoke on "Denture Construction," and Dr. T. N. Crutcher, of Louisville, made an address on "Economic Phases of Dentistry." Both talks were appreciated by the society. A general discussion followed the two addresses.

The meeting was attended by thirty-five dentists, representing nearly all of the West Kentucky counties. Fulton, Ky., was chosen as the meeting place for the June gathering of the society. The October meeting will be held at Mayfield.

### THIS IS THE MONTH

Talking to a Fulton man who has done a lot of painting in his life, he tells us that those who follow the trade of house-painting always prefer to do it in the early spring. The reason, he says, is that insects are not then flying around and alighting on the paint as it is being put on, or sticking to it before it has a chance to dry. "It makes a cleaner job and saves a lot of annoyance to get at it early," he says. We pass the tip on for what it is worth, and it certainly ought to be worth something to those who have a paint job to do but who still are postponing it for one reason or another. Get at it now—the ideal season of the year. The same goes for whitewash. Apply it now before the insects get started, and they won't be so plentiful during the later and warmer months. April is the ideal clean-up and paint-up month of the year. The end of it ought to see our town shining and in better shape to ward off disease epidemics than it has ever been before.

### POWER OF "PIN MONEY"

By-products, which for many years were turned over to the farmer's wife as spending money, are now putting the farms of the country on a cash instead of a credit basis. This is shown by government reports from sections of the middle west which indicated a decline in credit purchases and a corresponding gain in cash sales by retail merchants in the agricultural districts.

Men engaged in food production declare that the produce end of farming is revolutionizing the agricultural industry and packing house business. One large packing house now has over 100 produce stations scattered over the middle west where poultry, eggs, milk and cream are bought. Instead of old-time haphazard marketing, farmers are now marketing eggs twice a week for cash, separating their cream from the milk and selling the cream twice a week for cash, and feeding the skimmed milk to hogs, chickens and other animals, which are marketed at longer periods—but all for cash.

All this has made a marked difference in purchasing by the farmers. Instead of having to be carried on a credit basis for eleven months, he is in most cases now paying cash for what he buys. And development of roads and use of the auto has helped him. So it looks as though the very thing that rural housewives around Fulton once depended upon for "pin money" are going to prove the best investment on the farm.

### CAR THIEVES BUSY

Fulton car owners will be interested in learning that of the 300,000 autos stolen in the U. S. last year, all but 25,000 were recovered. And yet those had a total value of \$20,000,000. The same bulletin also states that practically all of the cars stolen were unlocked at the time. That's something else to think about. Can the motorists of this country afford to donate \$20,000,000 a year to the auto thieves? Wouldn't it be better to turn the key in the lock before leaving the car and spending your share of that \$20,000,000 for gasoline and oil? Auto hoboos are now roaming the land. If your car looks better to one of them than the car he is driving he will often risk a chance of getting away with yours if he finds it unlocked. And especially is this true, if you park it in the city. It takes but a moment to lock it, but a whole year's search has failed to locate 25,000 of them that were left unlocked last year.

### ABOUT OPPORTUNITY

We quite often hear some local citizen deploring what he calls "a lack of opportunity." They argue that the time is past when a young man can begin at the bottom and rise to a position of leadership in great corporations. Stories of telegraphers who live to occupy the presidential chair of some great railroad are connected with a by-gone age, rather than the present. Last week, two comparatively young men who began as office boys took over the reins of a \$100,000,000 Chicago utilities corporation. And this is but one example of what is happening daily in smaller organizations. The significant thing behind these "success" stories is that in every case the subject made an early connection and kept it. The fable of the tortoise and the hare still has its moral and it still holds good. But modern go-getters too often find the slow pace uninteresting. The fate of the "floater" is just about the same today that it was yesterday.

### Brieflets

Many old-time Fulton marriages were permanent simply because the frying pan isn't quite as hot as the fire.

It isn't so much the delay over the tariff bill that hurts. It's the fear that in the end the senate may quit talking and do something.

The only thing harder to love than a wife who hates housework is a husband who thinks housework is what a wife was born to do.

Most any Fulton father can make a crime wave of his own by telling a kid he is going to lick him and then not doing it.

The best proof of good manners is being able to look like you're sorry when some fellow tells you how he hates to pay the tax.

If your conscience makes you feel that everybody you meet in Fulton is suspicious of you, it's time to move out of town.

When the doctor says you need a change of climate, that means he is tired of monkeying with your imaginary ailments.

The strangest feature of the new parrot disease is its failure to get an appropriation from congress.

There would be a lot more happiness in the average Fulton home if a man's faults did not worry his wife any more than they do him.

As a drink, radiator antifreeze fluid appears to be about as deadly as canned heat.

If there is any pin the modern girl would have less need of than the hat pin, we would guess it would be the clothes pin.

After passing through the winter months we're ready to admit Fulton women are more efficient than men. No man could battle a bad cold with a four-inch lace handkerchief.

A Vermont editor says the best novel a man can read is his own bank book. But we never cared for sad endings.

The cost of putting up a building could be reduced to almost nothing if you could charge the fellows who stop to watch it.

Now that the motoring season is about to open we want to warn all Fulton drivers that a locomotive doesn't whistle just to keep up its courage.

Of course bald men make the best husbands. And a rusty flivver with flapping fenders needs no theft insurance.

### OUR MESSAGE OF SERVICE

There is going to be a lot of activity in the building line this year. Architects and contractors, carpenters and masons all, are busily sharpening up their pencils and their tools, and getting set for business. It is not the young married folks alone who are going to build homes—who dream dreams of happiness in homes of their own—but many others who have long, too long, been renting the roofs over their heads are going to try this year to realize their desire to have a home of their own.

Whatever you plan to do by way of

## Sunday School Lesson

(By REV. F. R. FITZWATER, D.D., Member of Faculty, Moody Bible Institute of Chicago.)  
(c) 1930, Western Newspaper Union

Lesson for April 6

### THE LAW OF THE CROSS

LESSON TEXT—Matthew 16:13-26.  
GOLDEN TEXT—If any man will come after Me, let him deny himself, and take up his cross, and follow Me.  
PRIMARILY TOPIC—Proving our Love for Jesus.  
JUNIOR TOPIC—Proving Our Love for Jesus.  
INTERMEDIATE AND SENIOR TOPIC—Denying Self for Christ.  
YOUNG PEOPLE AND ADULT TOPIC—Cross-bearing in the Christian life.

The lesson topic is narrower than the Scripture text. It includes Christ taking account of His ministry, Peter's confession, Christ's prediction concerning His death and His teaching concerning the cost of discipleship.

1. Christ, the King, Taking Account of His Ministry (vv. 13-17).

1. The place (v. 13).  
It was at Caesarea Philippi, the northern limit of Jewish territory, practically in Gentile territory.

2. The time in Christ's ministry.

The cross was only a few months away. The King had already been rejected. They had charged Him with being in league with the devil and sought to kill Him. It was highly important that the disciples have clear views as to Christ's person in order to stand the test of His trial and crucifixion.

3. Peter's confession (vv. 13-16).

(1) The occasion (vv. 13-15). Two questions asked by Jesus Christ provoked this confession, a. As to the opinion of the people concerning Him (vv. 13, 14). They recognized Him as a teacher and prophet of more than human authority and power. Had He been content with this, He would not have been molested in Jerusalem. It was His persistent claim of being the God-man, the very Son of God, that sent Him to the cross. b. As to the personal opinion of the disciples (v. 15). It was not enough for them to be able to tell what opinion the people held concerning Jesus. It was necessary that they have definite, correct and personal knowledge of and belief in Him. (2) The content (v. 16). It consisted of two parts, a. "Thou art the Christ." This avowed Jesus to be the Messiah—the fulfiller of the Jewish hopes and expectations. b. "The Son of the Living God." This acknowledged Him to be divine. It was the recognition of His glorious person in keeping with the Jewish hope (Isa. 9:6, 7).

4. Christ's confession of Peter (v. 17).

Those who confess Christ shall be confessed by Him (Matt. 10:32, 33). Christ pronounced a blessing upon Peter—not in the nature of reward, but a declaration of the spiritual condition of Peter because of his clear apprehension of his Lord.

5. Christ's charge to the disciples (v. 20).

He asked them not to tell any man that He was the Messiah. The time was not ripe for such testimony.

II. The New Body, the Church, Announced (vv. 18, 19).

Following the confession of Peter, Jesus declared His intention of bringing into existence a new body, to the members of which He would give eternal life, and into whose hands He would entrust the keys of the Kingdom. Peter was to have a distinguished place in this body. Association in this new body cannot be broken by death, for the gates of Hades shall not prevail against it.

III. The King Predicts His Death (vv. 21, 25).

This prediction was no doubt startling to the disciples. They did not yet realize that redemption was to be accomplished through the passion of the cross. So unwelcome was this announcement that Peter cried, "This shall not be unto Thee." Later Peter saw through the darkness to the sunlight on the hilltops beyond. A new hope filled his breast (1 Pet. 1:3, 4). Victory through death is yet the stumbling block of many.

IV. The Cost of Discipleship (vv. 24-26).

Life can be saved only by losing it. If we are going to be Christians, we must share Christ's suffering.

1. There must be denial of self (v. 24). There is a wide difference between self-denial and denial of self. All people practice self-denial, but only real disciples of Christ deny self.

2. "Take up His cross" (v. 24). This cross is the shame and suffering which lie in the path of loyalty to Christ.

3. Follow Christ (v. 24). This means to have the mind of Christ—to be like Christ.

Flowers That Are Not Seen

If a man could make a single rose, we should give him an empire; yet roses and flowers no less beautiful, are scattered in profusion all over the world, and few regard them.—Martin Luther.

A Life in His Hands

The right thing is not always the easiest; but God has His schools for training, and a life left in His hands will never fail of its highest development here and hereafter.—Selected.

### That New "Red Strand" Fence

#### Five Reasons Why It's the Fence to Buy

- (1) An extra heavy coating of zinc on open heart steel wire that has copper in it gives Red Strand Square Deal fence 2 to 3 times longer life.
- (2) Full gauge wires last longer and make a stronger fence. Square Deal fence is never under gauge.
- (3) The famous Square Deal knot will absolutely not slip—guaranteed. It holds line and stay wires in a firm grip.
- (4) Still stay wires make for added strength and demand fewer posts. They prevent sagging and keep the fence trim and tight.
- (5) NO EXTRA PRICE—you get all these advantages in Red Strand Square Deal Fence at NO EXTRA PRICE.

#### American Legion Auxiliary

A Membership in the American Legion Auxiliary—  
What Does it Mean?

(Continued From Last Week)

When we invite the mother, wife, sister or daughter of a Legionnaire to become a member of our auxiliary we want her to know very definitely what we are offering. We want her to know why we place such a high value on our Auxiliary membership and to feel the significance of belonging to this great organization as we feel it.

For the children of World War veterans the Auxiliary is also doing a very important work. It is aiding thousands of children every year to receive the necessities of life. Destitute children are placed in homes where they can receive their rightful heritage of a wholesome American upbringing. Assistance is given to widows of veterans and wives of disabled men in keeping their families together. Nurseries for the children of the disabled are sponsored at government hospitals. Wherever children of men who served are found in need the Auxiliary goes to work side by side with the Legion to prevent the children from paying in suffering and lack of opportunity for the service their fathers gave to our country. A part in this is one of the privileges an Auxiliary membership confers.

Units of the Auxiliary throughout the country are working with their Posts for the betterment of their communities. They are carrying out projects long needed by their towns and cities and are making accomplishments which will be felt far into the future. They are establishing community center buildings, working for good roads, obtaining playgrounds, beautifying parks, sponsoring units of Camp Fire Girls and Girl Scouts, aiding Boy Scout work, sponsoring the establishment of libraries and night schools, conducting health clinics and aiding hospitals. Scores of different kinds of activities which build up the communities and strengthen the bodies, minds and morals of the citizenship are being carried out.

This work is on such an extensive scale that it has assumed national importance. Through the development of their communities, the Auxiliary Units and their Posts are developing the entire nation and are contributing to the making of this America a better place in which to live. Each member of the Auxiliary becomes a part of this widespread movement for civic betterment.

**PRINTING**

**First Christian Church**

Carroll B. Cloyd, Minister

April 6, 1930

Bible School, 9:45—Charles Gregory, Supt. Are you doing your very best to be present every Sunday morning? Remember our goal—150 on Easter Sunday morning.

Morning Worship, 10:50.

Sermon—"Truth and Sham in Religion."

Some people wonder where secondhand cars go. They don't. And it is quite interesting to note in this connection that even some new cars do not go—to church on Sunday morning. Let's be good to our cars and take them to church on Sunday and they will run better all the week. The same thing is true of our souls. If the average car owner would spend as much time and effort shoning up his soul on Sunday as he does shining up his car to get it ready to misspend Sunday what audiences the preachers would have. Of course you've heard of the fellow who got up early so that he would have more time to loaf. Well, have you ever heard of the fellow who got up a little earlier on Sunday morning so that he would have time to help his wife get the children ready so that the whole family could get to church on time? Honestly, don't you think you owe yourself a little visit to Bible School and church next Sunday morning?

Mid-Week service Wednesday evening at 7:30. The lecture will be on the Galatian Letter. We'll miss you if you do not come.

**FARM NOTES BY COUNTY**  
AGENT H. C. BROWN

**Produce High Quality Lambs**

Now is the time to begin preparing your lambs to top the market. From all indications there will be the largest crop of lambs this year that we have had for many years. This large crop of lambs simply means that if we are to get the most money out of it that we are going to have to feed and care for our lambs better than in the past years. With a large crop of lambs the packers will be in a position to discriminate more closely than in the past what he buys. The margin between prime quality lambs and the average top will very likely be greater this year than for several years. In any event the man who gets his lambs on the market in prime condition at the earliest age will make the most money out of them.

It will pay well to feed your lambs at least until the grass is plentiful in order that they may grow off more readily. It usually pays to feed some even when the grass is plentiful. A lamb creep can easily be made and the lambs will soon learn to come into it and get their feed. A good grain mixture to start the young lamb off on is made by mixing equal parts of ground corn, oats, wheat bran and linseed oil meal. After the lambs are 4 to 6 weeks old, add more corn and oats and decrease the bran and linseed meal.

Cleanliness should be the motto of any sheep feeder, but special emphasis should be placed on this motto by the caretaker of young lambs. The troughs and racks should be cleaned often, and it is a good policy to scrub them with lime water whenever they become noticeably soiled. The lime seems to make the odor about the troughs pleasant to the lambs. Any surplus feed taken from the lamb troughs need not be wasted as it can be fed to the ewes, or used for bedding. Lambs should be fed very sparingly for the first few days. It is best to sprinkle just a little feed in the bottom of the trough at first. The lambs will soon start nibbling the feed then larger amounts can be placed in the troughs. When the lambs are three or four weeks old they will be eating about one-fourth pound per head daily. If confined to dry lot, a lamb will eat about three-fourth pound of grain by the time it is seven weeks old. When on grass, lambs will eat only about half as much feed

as when getting no grass. "Trimming" (docking or castrating) is also necessary if prime quality lambs are to be produced. It pays well to trim all lambs and especially the late lambs. Trimmed lambs have a more pleasing appearance, get fatter and are of higher quality in every respect. The market demands this year will be for trimmed fat lambs, and if we are to make the most out of our lambs we will have to produce the best quality lambs. It is very little trouble to trim lambs and if you are not familiar with the work, call your county agent and he will gladly show you how to do this work.

I am anxious to see all of the lambs in Fulton county made good enough to bring top price when marketed, just as I am interested in seeing every other farming and business enterprise in the county prosper. What ever the task there is only one profitable way to do it and that is the very best possible. Large quantities of mediocre to common grade products will always be a drag on the market. The man who looks after his livestock, crops or business and tries to produce only the best is the man who will make the most money and be of the greatest service to humanity, and be a credit to his profession.

**OFFICIALS CHOSEN FOR CENSUS WORK IN FULTON COUNTY**

All of the enumerators who will take the census of population, agriculture and unemployment have been appointed for Fulton county, it is announced by Miller Hughes, census supervisor for the First Congressional district, known as the ninth census district of Kentucky. A complete list of the enumerators and this districts for Fulton county follows:

Howard S. Stansbury—Fulton town within the corporate limits east of Carr street. Mrs. Ann Harnbeak, territory in Fulton west of Carr street.

Victor R. French—Magisterial district No. 1 outside city of Fulton.

George Hollis Strother—Territory north of Fulton-Hickman highway between Magisterial district No. 1 and Mud Creek, including Cayce and Crutchfield.

Clyde A. Williams—Territory south of Fulton-Hickman highway between Mud Creek and Magisterial district No. 1 boundary line, Jordan included.

Henry C. Roney—Territory from the Mud Creek to Hickman, Magisterial district No. 3.

Miss Frances C. Johnson—Hickman town, east side.

Miss Florence L. Smith—Hickman town, west side.

Claud S. Owen—Territory west of Hickman, including Brownsville, and No. 8 Island.

Marshall A. McDaniel, Jr.—Territory in magisterial district No. 4, including Madrid Bend.

**WINS FIRST PRIZE**

Hickman, Ky.—Announcement was made here today that Miss Doris Dale Briggs, daughter of Mr. and Mrs. Dan Briggs and a student in the Hickman High school, had won first prize in a state-wide essay contest on some subject in home economics, sponsored by the extension division of the State College of Agriculture. Miss Briggs wrote her essay on the subject of dish washing.

**NOTICE TO CLUB MEMBERS**

The I. C. Railroad Company will give again this year, seven trips to the International Livestock Exposition and the 4-H Club Congress to be held in Chicago in December. The trip to consist of transportation to and from Chicago. Each county in the I. C. territory may compete for one of these trips. The trip may be awarded to a club member in any standard project. Any previous winners to the National Club Congress are not eligible to compete for one of these trips. The trips will be awarded on the following basis:

"The highest scoring counties traversed by the Illinois Central railroad in each state are to be selected on the basis of the number of 4-H club members in good standing at the end of the season and those doing the highest quality of work applicable to the agricultural needs of the county."

The Illinois Central educational prize is to be awarded

to the club boy or girl doing the best work in each of the counties selected, as stated above.

Club members get on your toes and let's get this prize for Fulton county. This is a prize worth working for so let every club member in our county start his project and carry it through to completion so we can make a good record. Don't hesitate to call on me at any time you need help on any of your project work.

H. C. BROWN, Co. Agent.

**THOMPSON LOSES APPEAL**

A message from Frankfort states that the court of appeals affirmed the decision of the lower court in the case of Thompson vs. Denny, Fulton. This was a suit brought by John M. Thompson, former sheriff, to recover funds deposited in the Hickman Bank, which was closed by the State Banking Department. Thompson lost his case in the lower court, and the superior court

**TAXING THE RAILROADS**

The taxes placed upon the railroads of the United States for 1929 exceeded 400 million dollars. Railway taxes first exceeded 100 million dollars in 1911. In 1917 they exceeded 200 million. In 1922 they exceeded 300 million. Now they are more than 400 million. In eighteen years they have increased from \$280,000 a day to \$1,100,000 a day.

Everyone uses railway service in some form and thus helps to pay the taxes that are collected from the railroads. In 1913 the average dollar paid to the railroads for freight and passenger service bought 96.2 cents of transportation, the tax collectors taking 3.8 cents. In 1929 the average dollar paid for railway service bought only 93.7 cents of transportation, because the tax collectors took 6.3 cents.

On the average, railway employees to the number of 377,500, with 54,200 miles of railroad, 12,700 locomotives, 11,600 passenger-train cars, 506,700 freight cars and other railway facilities to a total value of \$6,000,000,000, worked all last year not for the owners of the railroads but to earn the money to pay railway taxes.

This statement is made in order to give the real payers of railway taxes information to which we believe they are entitled.

Constructive criticism and suggestions are invited.

L. A. DOWNS,

President, Illinois Central System.

CHICAGO, April 1, 1930.

— Dependable for 79 Years —

March 3, 1879.

**POULTRY**

(By J. T. Watkins)

**Let the Hen Scratch for You**

A hen never tires of scratching. If given an opportunity she will scratch a farmer out of debt. Work is a pleasure to her and never is she quite so happy as when she is digging for worms. The harder she works the more eggs she lays. If her owner will give her a half chance she will never allow him to fail financially. There are numerous instances where this has proved true. As a co-worker the dairy cow cannot be excelled. These two animals on the farm make a great combination.

Some of the land in Kentucky is not so good and it takes hard work and scratching to make both ends meet as the old saying goes.

One hundred standard bred hens on a farm no matter how poor the land is, will scratch out a living for themselves and their owner. This, augmented by two or three good milk cows, will convert that poor farm into one of the best in the community.

I have been asked by some of the rabbit breeders here in Fulton to put on a rabbit show during the fair. I would like to do this, but where is the money coming from to pay the premiums? If they get the permission of the fair association to have the show I can surely put it on.

Well, it is only about a month now until things will begin to hum, that is if you want to put on a good show at the fair this year. There will have to be a whole lot of interest manifested during the next thirty days.

There will have to be a good many joiners show up between now and the first of May. That is the time for the regular election of officers for the Poultry Association, also the time to decide about the show, and if there is not a lot more interest shown than has been heretofore, I am afraid the show will not be as big as some of our former shows.

Now, let's try and get as many members into the association during April as we can, so that when we hold our meeting it will be a good one. There should be at least fifty poultry raisers in this community join the association during April. We have six who have paid their 1930 dues and are ready to go. The dues are only \$1.00 for the year. One dollar to help a good cause along. You can pay your dues to the stenographer at the Chamber of Commerce, or to Mr. Drew, the manager of the Fulton hatchery, or to me anywhere or any time you see me.

For a short time we will accept subscriptions for this paper and the Memphis Weekly Commercial Appeal—both papers one year for only \$1.25.
