ARMISTICE IS
MARKED HERE
WITH PARADEJudge Ira D. Smith Delivers
Address in Court House
Following MarchBUSINESS HOUSES ARE

Miami Football Game
at Paducah

The thirteenth anniversary of the Armistice ending hostilities in the World War was appropriately commemorated here Wednesday.

The American Legion post sponsored the morning program which was conducted in the court room with two minutes of silence following a brief patriotic address by Circuit Judge Ira D. Smith, of Hopkinsville.

A prayer was offered by Rev. E. B. Motley and taps were blown by Legionnaire Roy A. Weatherly.

Promptly at ten o'clock, the Legionnaires, led by the snappy drum and bugle corps, began its parade. After several marches around the court square, the Legionnaires marched up Main street to Eighth where they were joined by the Murray high school band under the direction of J. English.

The parade then continued downtown where the band rendered a patriotic air. A number of townspeople and visitors from the county joined the former soldiers in the court room to hear Judge Smith's splendid address.

Murray was another "Deserted Village" Wednesday afternoon when a great majority of citizens joined the college students on the junket to Paducah to witness the game between the Thoroughbreds and Miami (Florida) University.

A number went on the special train which left Murray at 12:15 the C. & O. Express Company carried scores of passengers in special buses while hosts of others motored through.

Practically every business house in Murray was closed for the afternoon and most of those who did not go to Paducah listened in to the play-by-play broadcast of the game.

Museum Gets Adz of
American Pioneer Days

Mr. J. J. Moore brought to the Ledger and Times Office Monday an adz which is said to have been used in building the first cabin in the city of Philadelphia, Penn. The implement was used on this pioneer construction job by the then master of Mr. Moore's great grandfather Moore, a native of Ireland, in the latter's day of apprenticeship.

Mr. Moore has requested the Ledger & Times to turn the adz over to the Murray State Teachers College Museum and that will be done the latter part of this week after readers have had an opportunity of seeing the adz in this office.

The adz is well preserved, though somewhat rusty and dull. Mr. Moore's says its handle, which is wooden pegged, is more than 80 years old.

Who Will Save This
Child from T. B.?

The local chapter of the Red Cross has reported a four-year-old child compelled to sleep in the same bed with an adult in the last stages of tuberculosis on account of inadequate sleeping facilities.

The chances are 100 to 1 that this poor, unfortunate baby will contract this dreaded disease unless someone comes to the rescue with a donation of a bed.

Who will come forward and give a half bed with springs, and perhaps mattresses and some covers to save this child's life? Just notify Miss Mary Williams, secretary of the Red Cross, at the court house, and the organization will come for bed and deliver it.

Largest Collection of Gold Coins in This
Section Owned by W. W. McElrath of City

There may be a larger collection of coins in this country than that of W. W. McElrath, of Murray, but we have to be "satisfied." Every time the old coins become a feature of The Ledger & Times, the enterprising reporter has been trying to get Mr. McElrath to give him an account of his collection. It is believed to be the largest amateur collection in this country, though some professional collectors and dealers may have a larger or more valuable assortment.

Two of Mr. McElrath's coins are listed in a recent magazine article of interest to coin collectors as 5,250 times their face value. They are coppers minted in 1795. The fact that these coins are worth \$52.50 each is ample evidence of their scarcity and consequent worth.

Mr. McElrath has been more than 35 years in the gathering of this collection. He keeps the coins adequately secured in a strong box and has them listed in a little black book.

To list them individually would take a column or two in this newspaper but Mr. McElrath was kind enough to let us browse

Alleged Dog Trade
Leads to Trouble

A dog was instrumental in the leading to trouble here last Friday at the County Courthouse between Rex Mason, of the county, and the Span brothers, of Paducah.

It was charged by Mason that the Span brothers came by his home, and informed members of the family that they had made a trade with him for his dog. They left one that they had and took his. Mason had them brought before County Judge C. A. Hale but they were released from the charge. After the decision of the court Mason was not satisfied and trouble followed that led them back into the courthouse. They were released on their own bond to appear for trial.

Mason was said to be getting decidedly better of the fight when officers separated the men.

Tobacco Situation

By authority of the Federal Farm Board at Washington the management of the Western Tobacco Growers' Association has been placed in the hands of a committee of three men.

The discussion will be an instructive talk in the field of landscape gardening with lantern slides and pictures to illustrate his work.

CALLOWAY LEADS
DISTRICT DEMOSGives Biggest Percentage of
Democratic Votes Among
Larger Counties.

Calloway county was the banner Democratic county of the First Congressional District in last week's election in which the First Congressional District gave LaFolton a majority exceeding 27,000, the largest within the past several years.

The Calloway county vote of 8781 was more than 25 per cent Democratic. Calloway county cast a slightly higher percentage of Democratic votes but the total vote in Calloway was only a fraction of the Calloway vote.

Considering size and majority, Calloway clearly qualifies as a banner Democratic county of the Gibraltar District.

Able led by County Campaign Chairman R. H. Hood, all the Democrats in Calloway put their shoulders to the wheel and labored harmoniously and incessantly to achieve this record.

It has been said that the great effort in Calloway county inspired other counties to redouble their efforts and pile up their great majorities.

The grand jury convened Monday but was recessed Tuesday until Monday. No report was made.

OUTLAND WARNS OF COMMON COLD

Leads to Many More Serious
Illnesses, County Health
Officer Avers

The common cold, which is responsible for many illnesses, should be given more attention according to Dr. J. A. Outland, stressed the importance of recognizing the cold as an ailment and taking the proper precautions against it. The general public recognizes the common cold as a necessary evil and does nothing as the usual thing to combat it. Statistics show that it keeps more men away from their work and more children out of school than does any other bodily ailment.

Although the common cold is not so serious in itself it is often responsible for many complications of the eyes, ears, nose and throat. It weakens the body resistance and makes the contraction of any disease more likely and often leads to pneumonia and other respiratory diseases.

The cold is a problem for the medical profession although they have many things with which to fight it. The greatest measure of

POSTOFFICE GETS GAME

You can always depend on the postoffice lunch to use its ingenuity.

For some reason, Uncle Sam has not yet made Armistice Day a legal holiday and the postal business must go on just the same.

It happens, too, that most of the postoffice employees are great sports fans and they were almost broken-hearted at having to miss the Murray-Miami game at Paducah Thursday afternoon.

But someone of the bunch had a happy thought. The day being warm and open doors had order, they arranged with Vernon Stubbins to put his radio in the window facing the postoffice and tune it in on the game before he left for the game.

So the postoffice force tended to their duties while the play by play account of the ball game came to them across the street.

Kirksey Kinklets

Everything in the political arena seems to be quiet at the present. The general mass of the people is satisfied with the results of the election.

Grading roads and hauling gravel seems to be the order of the day.

The farmers are busy gathering corn, getting wood, hauling coal and preparing for winter. They have a fine crop of corn this year.

Brother Smith preached his farewell sermon the 1st Sunday. This is his fourth year on the Kirksey charge. We are sorry to give up Brother Smith for he is a good man and we will miss him in our community. We wish him success wherever his lot may fall.

Our school is progressing nicely at present. The young people report a pleasant time at the entertainment Saturday night of the seventh.

Terry Cochran is building a nice concrete business house on the northeast corner of the cross roads in Kirksey. He has his house two stories high at present. He will use the north end of the new building for an up-to-date garage for his customers. Terry is a good mechanic and a fine business man; we wish him success in his new building.

The three elders of Locust Grove church have elected Rev. Cooney Dease of Nashville for their pastor for the coming year. His appointment was for the 1st of January.

Mr. Calvin Harris and Miss Killebrew, daughter of Sam Killebrew of North Kirksey, were united in wedlock on last Sunday.

Their many friends wish a happy union through life. Mr. Acree Miller's little boy is no better at this writing.

Mr. Nesbit McKee and family of Harrisburg, Ill., visited L. A. McKee of Penny, last Sunday. Allen is no better at this time.

There is a fine opening in Kirksey for a Joy Bee Hounsome mill, one that will crush all kinds of feedstuff, such as peas, hay, shock corn, baled oats and so on, at a reasonable price.

Well, for fear this goes to the waste basket, I will ring off.

—Lazzy Ned.

DOWN DOWN GOES UNIT COST as

Goes Convenience

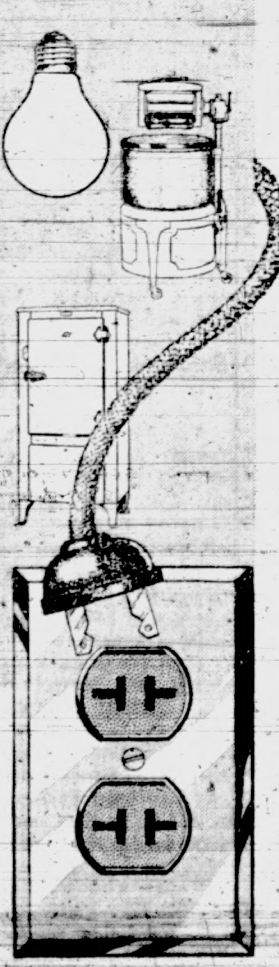

EVERYONE likes to see his dollar buy more and more. Thousands of Associated System customers are now enjoying this experience. And they are also enjoying the added comfort and convenience brought by new labor-saving electrical appliances.

You can reduce your own electric rate—make your dollar buy more, by using more of the electric servants you have always wanted. This is because the more electricity you use the less the average cost. In most homes the use of electricity is now sufficiently large so that additional service is available at only 2 cents per unit (kwh.).

Customers who make full use of electricity find that no substitute will be the same things any cheaper. Certainly nothing else will do so many jobs around the home as quickly or conveniently as electricity. That is why—it pays in dollars and comfort to make full use of electric service.

We will be glad to tell you how you can reduce your electric rates. Please feel free any time to make inquiry at our nearest office. It will place you under no obligation.
