### Prepare For Clean-Up Week

#### C. OF C. MEETING

An interesting and instructive meeting of the Chamber of Commerce was held Tuesday night with President R. H. Wade, presiding.

Several ladies were present, including Miss Florence Hauswald, supervising nurse of Child Health Demonstration, who addressed the assembly, announcing May 1 "Blue Ribbon Day," when children eligible for blue ribbons would be awarded. Mrs. Hauswald outlined briefly how each business firm could cooperate in making the day impressive by displaying in their show windows "Health Products for Healthy Children."

It was a happy suggestion and no doubt every business firm in Fulton will be glad of the opportunity to show his merchandise in an attractive and appealing way to the child and especially to parents.

The Fulton County Health Department has been active in Child Health demonstration work for some time. The various schools throughout the county have been visited and parents and children instructed as to what must be done to meet the requirements adopted by the Health Department for a child to be eligible for a blue ribbon.

Mrs. Jake Huddleston, president of the Woman's Club, briefly addressed the assembly, announcing that Dr. Hugh Cradler will be in Fulton Friday afternoon at 2:30 at the Chamber of Commerce rooms to consult with various heads of civic organizations in perfecting plans for "Blue Ribbon Day."

#### Secretary's Report

Secretary Davis briefly reported the various projects the Chamber had under consideration and the work being done. The report on Fulton-Dukedom highway was flattering and from all indications this road will be given consideration by the State Highway Commission and may be constructed this year.

The report on hospital left the members in doubt as to whether Fulton is to have such an institution, however, the question was discussed by several members and it may be that a stock company will be organized and a 25-unit hospital established here.

The discussion on Clean-Up Week waxed warm and Mayor DeMyer assured the members of the Chamber that no time would be lost in getting the work under way and the date announced when every civic organization and citizen would be asked to cooperate in cleaning up the city thoroughly and removing all abandoned cars from vacant lots and streets.

It was unanimously voted that a banquet be held at an early date which will be announced as soon as the committee can arrange the program for the occasion.

In his report, Secretary Davis announced that \$4,100 had been pledged on this year's budget and he felt the balance could be secured if given a little assistance. The Chamber of Commerce must continue to function if we expect Fulton to grow and prosper and every loyal business firm and citizen should do their part in the work and share in the prosperity.

For a short time we will accept subscriptions for this paper and the Memphis Weekly Commercial Appeal—both papers one year for only \$1.25.

#### COURTESY, EFFICIENT SERVICE ALWAYS

By R. B. Kemp, Clerk to Trainmaster, Fulton, Ky.

(In I. C. Magazine)

The English language is a combination of many tongues, and the analysis of a single word from its derivation would likely lead one back to the time of Caesar. But possibly the most peculiar thing about our language is the flexibility of most of the words. By an intonation or inflection of the voice we can change the entire meaning of a word or group of words.

However, in analyzing the word "courtesy," if you could emblazon it across the sky from horizon to horizon and scan it with the most powerful telescope, if you could tear it into small bits and give each minute part a thorough microscopic inspection, you would find there is nothing lacking whatsoever. You could not add nor detract one iota from its potency or latitude. The word "courtesy" is a perfect symbol of "genuine politeness" for it could be nothing but politeness, and unless it is genuine it is not true courtesy.

The value of courtesy cannot be exemplified by a single illustration, only insofar as the particular results obtained are concerned; but it can be truthfully said that the sum total of the results will always be more than the effort expended.

It has been said that "A soft answer turneth away wrath," and courtesy is that soft answer. It is the embodiment of kindness, friendliness, politeness and sincerity, and, like the bread cast upon the waters, it always returns a hundred fold.

The speed of our modern transportation and distribution and our close contact through the various means of communication have minimized the vast dimensions of our great country to such extent that we might easily be considered comparable to a small community of several years ago, each living next door neighbor to the other. Therefore, it behooves us now more than ever before really to be neighbors and to take advantage of the extension to our environment by practicing the same courtesy and politeness, commonly known as "neighborliness," and erasing all boundaries of sectionalism.

It is the duty of every employee, for his or her own sake, to be courteous habitually and to build for himself or herself a reputation for pleasantness. By building our reputations in this manner we shall add to the reputation of the Illinois Central System—that of "Courteous, Efficient Service Always."

#### MRS. COWARDIN AT HOME

Friends of Mrs. R. H. Cowardin will be glad to learn that she has returned home after months of treatment for a broken hip suffered in a fall last winter. She is reported getting along nicely and on the road to recovery.

#### STOCKHOLDERS NOTICE

A dividend of one and one-half (1½) per cent on the par value of each share of the 6% Cumulative Preferred stock of this company for the quarter ending March 31, 1930, has been declared payable on or before April 15, 1930, to stockholders of record at the close of business, March 26, 1930.

Secretary

### Selecting the Easter Bonnet

### O. E. S. Silver Anniversary

There are several events in one's pathway before you, so you may reach the golden days ahead. The O. E. S. Silver Anniversary is one of the most important events that act as mile stones in life's pathway. Some are repeated yearly, as birthdays, others only come once. Such an event took place Monday night when the local Chapter of the Eastern Star celebrated their Silver Anniversary. They will have other birthdays and they will pass unnoticed but never another Silver Anniversary.

Preparations have been going on for some time toward making this event one of the most enjoyable events ever happening in Fulton. Invitations being sent to the original Chapter who organized this Chapter twenty-five years ago, but of this number only three were able to attend.

A few words here to explain why such a celebration should be going on. "Twenty-five years ago, fifteen of Fulton's best citizens met to organize a Chapter of the Eastern Star, the Ladies Auxiliary of the Masonic Order, and with the assistance of a degree team from Paducah, this Chapter was formally instituted."

Monday night the ceremonies were very impressive. Mrs. Lora Johnson, of Bruceton, Tennessee, who at the time of the instituting of this Chapter was the presiding officer, deputized by the Grand Worthy Matron to act in her stead, was again at the head of the line of those who took active part twenty-five years ago. She was followed by Mrs. Laura Gideon and Bro. Joe Randall, these three were the only members present of the original degree team. Following were the ten members present of the charter members: Mrs. Eunice Robinson, Mr. W. J. Willingham, Mrs. W. J. Willingham, Mrs. Laura Taylor, Mrs. Jennie McDade, S. A. McDade, Mrs. Jessie Martin, M. F. DeMyer, Mrs. Maggie Bard and "Cousin Buck" Morris.

These formed a circle around the Star and were introduced to the visitors. They were then escorted to seats of honor reserved for them. The present chapter officers then formed a circle around the Star and were introduced. In the center of the hall was an immense cake weighing thirty-five pounds, beautifully decorated, surrounded by twenty-five silver candles. After the introduction of officers the candles were lit and blazed forth in a silvery flame merging into gold typifying the twenty-five years are past. The golden future is before you, keep your lights lit to light up the

#### Fulton Women Injured In Overturned Car.

Mrs. M. F. Powell, Mrs. L. C. Boaz and Mrs. W. B. Jones suffered injuries Wednesday morning when the car in which they were riding with L. C. Boaz turned over near Union City. Mrs. Powell, fractured shoulder and collar bone; Mrs. Boaz, broken rib; Mrs. Jones, slightly injured; Mr. Boaz escaped unhurt.

The party were en route to Dyersburg to attend the bedside of Miss Marie Pewitt, who was reported seriously ill.

#### BELOVED WOMAN MEETS UNTIMELY DEATH

Funeral services for Mrs. Cecil R. Burnette were held Saturday morning at Union church, conducted by the Revs. A. D. and W. D. Rudolph, of Paducah, interment followed in Mt. Moriah cemetery, in charge of the Fulton Undertaking Co.

Besides her grief stricken husband, the deceased is survived by her parents, Mr. and Mrs. J. P. Moore, of near Crutchedfield, also three brothers and three sisters.

The untimely death of Mrs. Burnette is keenly felt by a wide circle of sorrowing friends throughout this entire section of country. She was a good neighbor, an ideal wife, and an inspiration to her husband in making home life a paradise on earth.

Mrs. Burnette died of wounds sustained when she accidentally stumbled over a disc harrow in the yard at her home five miles west of the city on the Hickman highway, Wednesday night, April 2. Mr. Burnette was in the poultry yard attending some brooders and Mrs. Burnette went out to investigate what was detaining him when he failed to return to the house in a reasonable length of time and the horrible accident happened. Attracted by her groans, Mr. Burnette found his wife lying on the ground suffering from the injuries sustained in the fall against the harrow which ruptured a blood vessel in the breast.

He hurriedly placed her in a car and started to town for medical attention, but shortly after they reached Wolberton's store three miles from Fulton, the gentle spirit took its flight and today the model home which had been the love and inspiration of happiness is filled with grief and sorrow.

#### WOMAN'S CLUB

The Woman's Club met in general assembly at the Chamber of Commerce Friday afternoon at 2:30 o'clock. Interesting reports were given by the treasurer, librarian, and the various chairmen showed the club year has been most active.

This was the last meeting for Mrs. Nall to preside.

The club has been most successful during her wise and careful leadership. One of the outstanding features during Mrs. Nall's administration was "Friendship Day."

In her final report, she explained appreciation of the very fine cooperation given her by the various committees.

Mrs. Nall then presented the newly-elected president, Mrs. Jake Huddleston, with her gavel, and a beautiful corsage bouquet of roses and violets. Mrs. Huddleston graciously accepted and gave an outline of her work, naming her standing committees.

The other new officers to take charge of the club work, are Mrs. Warren Graham, first vice president; Mrs. M. C. Nall, third vice president; Mrs. T. M. Franklin, corresponding secretary, and Mrs. Fred Worth, treasurer.

Mrs. Gus Thomas of Frankfort, was a welcome guest, and made an interesting talk on legislative action, and told of some of Frankfort's club activities.

Mrs. Nall was given a rising vote of thanks for her extraordinary endeavors during her term of office.

The club voted unanimously to accept membership in the Fulton Chamber of Commerce on recommendation of the executive board.

Charge of the program with Miss Zoline Alexander as leader. Each number, beautifully given, was as follows:

Minuetto in B. Minor (Schubert) — Jane Grymes.  
In Colonial Days (Rolle) — Susie Fall, Ruth Nall.  
Air, de Ballet (Chaminade) — Sara Owen.  
Reading, "The Pot of Gold" — Julia Frances Beadles.  
Etude Fantastique (Frindl) — Rachel Eledge.

Hostesses for the afternoon were Martha Norman Lowe and Dorothy Williams.  
Pages: Virginia Meacham, Ruby Boyd Alexander.  
Tea and sandwiches were served during the social hour.

#### MR. AND MRS. BUTLER RETURN HOME

Mr. and Mrs. Sam Butler have returned home from St. Louis where Mr. Butler was treated at a hospital. Friends will be glad to learn that he is improving and his recovery from his recent illness is hopeful.

#### H. H. HASTINGS PASSES AWAY

Funeral services for H. H. Hastings were held Tuesday afternoon at Chapel Hill church, conducted by the Rev. R. A. Wood, interment followed in the church cemetery, in charge of the Fulton Undertaking Company.

Mr. Hastings died Sunday evening at his home on College street at the age of 73 years.

Besides his widow he is survived by two grandchildren one brother and one sister.

In the passing of H. H. Hastings the community has lost a good citizen and the Methodist church a faithful member. For many years he resided near Harris, Tenn., where he was successfully engaged in farming until his health failed him, and he removed to Fulton. He was well known throughout this entire section of country, and enjoyed a wide circle of friends who sincerely sympathize with the bereaved widow in the loss of her beloved husband.

## POULTRY EMANCIPATION

The woman's suffrage movement certainly started a lot of things which it had not the least intention. This new equality seemed to spread and spread all over the country, into the towns and villages, out on the highways and onto the farms, and lo and behold, even into the barnyard. It seemed as if even the chickens had ratified the amendment. The hens began to get fussy, nothing seemed to satisfy them. They were becoming disgusted with the housing situation. They were getting tired of the exposure of roosting in the buggy shed and then the garage or the rafters of the back porch, and in some sections they were reported as persistently slipping through the back door and perching on the kitchen cabinet. Of course, many of these were sacrificed and died as martyrs to the cause, but it was enough to enforce attention and make it a national agricultural question. And why shouldn't be? Poultry was becoming a national commodity and an immense source of revenue to the farmer.

It was no longer a question of eggs for breakfast and fried chicken on Sunday, but it was the question of many dollars every week for good fresh eggs which strongly reinforced the farmer's much needed working capital. With the hens making themselves so valuable, why shouldn't they demand good homes? In the pioneer days the wing may not have been such a bad piece to eat because all the hens had to have good wings in order to fly half way to the top of a pine tree to get a decent night's sleep. And then they had to work all day to get enough to eat to give them strength to fly up the next night. No wonder they were doing unusually well to lay a hat full of eggs throughout the year. And where they did lay them! It is undeniably a thrill to crowd into a crevice in the hay loft and find a dozen eggs, but it isn't nearly as thrilling to eat some of them. It is quite a holiday to climb up over the granary and find last year's hat containing several eggs, but it isn't nearly as nice to have company on a rainy day and have to crawl all over the barn looking for enough eggs to make some salad.

It's a great game, but a costly one. Can a farmer afford to play it? Who ever heard of a bunch of Wall Street brokers running up and down fire escapes looking for hidden packages of bonds, and you never heard of a banker declaring a day off and having an Easter egg hunt with ten-dollar bills. Well, this is exactly what the farmer is doing when he lets his hens roost in the trees, lay all over the farm and stand around on rainy, cold days with ruffled feathers. The chickens and not the farmers are the ones that need relief.

This finally became so apparent that farmers in the North and West began to construct houses for their flocks. At first they were mere roosting places with no windows and a house-cleaning only once a year. They paid so well for even this that larger, better ventilated and better lighted houses were built. Then it discovered that chickens might be kept all through the winter season in the house and fed a prepared ration. This kept them in better health and kept the eggs in a much cleaner state. Even the laying season was lengthened and one might collect the eggs at any time by merely inspecting the neatly built wall nests, and the movable roosts allowed the droppings boards to be cleaned at frequent intervals. The hens might scratch merrily in the straw litter with the sunlight streaming on them through the open front. No wonder the hens got in such good spirits

that they lengthened their working hours and didn't even kick when some people put in electric lights and began getting them up in the middle of the night in hopes that some of the more backward would lay an extra egg or two.

This movement for bigger and better poultry houses gradually spread over the country, down from New England, over the Central States and finally into the South. Here, especially, the new houses caused the industry to grow by leaps and bounds. With padlocked houses petty thievery was greatly reduced, and as one travels through the Southern states he can't help but notice the new regime in poultry edifices.

## NOTICE TO 4-H POULTRY CLUB MEMBERS

The Fulton Hatchery, Fulton, Ky., has just informed me that it will supply baby chicks to club members at the following prices:

Heavy or general purpose breeds as Rhode Island Reds, Plymouth Rocks, Wyandottes, at \$8.50 per 100 chicks.

Leghorns and other light breeds at \$7.50 per 100 chicks.

These prices are very reasonable for purebred chicks, and if you have not to date gotten your chicks to have eggs setting, get in touch with the hatchery and get your project started.

It is time that every member ten your chicks or have eggs set. The earlier you get started, the more you will make out of your project. Late hatched chicks do not grow and fatten nearly so readily as do the earlier hatched chicks. Also the pullets from early hatches get their full growth earlier in the fall and start laying before winter, whereas the late pullets will be slow in maturing and very likely will not start laying until the following spring, which means that they will not lay while eggs are highest priced. The early pullets lay heavily throughout the winter months, while eggs are highest priced. This simply means that if we want to make the most money from our hens we must get them early and grow them fast.

## Corn Planting Time Will Soon Be Here

It will soon be time to plant corn again but do not get in too big a hurry and plant too quickly. We all know that corn planted after the ground warms up comes up quicker and grows much faster than corn planted early while the ground is cold. There will be much less planting over to do and less damage by cut worms and other insects if corn is planted after the soil is warm. Very early planting is often due to poor germination because the kernels rot instead of sprouting.

Fertilizer Pays Large Dividends When Used on Corn. Do not fail to use fertilizer on at least part of your corn crop this year. If you will only try a few acres this year, 99 chances out of 100 you will fertilize your whole crop next year. When a man once uses fertilizer on corn and sees for himself the increased yields, which mean increased profits from fewer acres, he will always be a booster of fertilizer.

What kind of fertilizer to use. The kind of fertilizer to use on corn depends considerably on the type and condition of the soil. Perhaps the most extensively used commercial fertilizer for corn is 16% acid phosphate (super phosphate). Nitrate of Soda is also being used extensively and giving splendid results. And of course we all know what effect a good coat of barn yard manure will have on corn yields.

125 to 150 pounds of phosphate per acre will always pay several dollars for each dollar invested in its use in growing corn. When manure is used it will also pay to use phosphate. The manure furnishes nitrogen, the most essential plant food necessary for making the grain. Phosphate and manure work well together. The phosphate reacts with the manure, making available all of the nitrogen contained in the manure.

Nitrate of Soda: When manure is not available or a cover

crop of clover has not been turned under, nitrate of soda will be found very profitable to use on corn land. In other words, nitrate of soda furnishes the nitrogen that manure would have furnished had it been used. 150 to 200 pounds per acre of nitrate of soda will give great increases in corn yields. This material is not used under the row at planting time as is phosphate, but is applied with a drill beside the corn rows after the corn is a little over knee high. Side-dressing is the term used to express this use of nitrate.

For your own good, try at least a few acres with these fertilizers this year. The cost of fertilizer will be small compared to the value of your increased yields. Not only will you get larger yields but your corn will mature earlier and be of better quality. We all know what advantage it would have been to have our corn mature earlier this past year.

For further information on the use of fertilizer for corn or any other crops get in touch with your county agent. Different crops will be found to use different fertilizers. Use the correct type.

## NATIONAL CHILD HEALTH DAY, MAY 1

Mrs. Jake Huddleston, President Woman's Club, appointed May Day Chairman for Fulton. May 1 is National Child Health Day and is the happy accounting of the communities activities and progress in Child health. It is also the time of awarding the blue ribbons to the children coming up to the ribbon standards. This is the day of interest to all in Fulton county. Mrs. Chas. Travis, President of the Red Cross of Hickman is the Chairman for May Day in that city. Dr. Anna Veech, Director of the Mother and Child Health of the Kentucky State Board of Health of the Kentucky State Board of Health is the State Chairman.

The purpose of May Day — National Child Health Day is to make practical for American Communities the ideal set forth in the Child's Bill of Rights.

## The Child's Bill of Rights

The ideal to which we should strive is that there shall be no child in America:  
That has not been born under proper conditions  
That does not live in hygienic surroundings  
That ever suffers from under-nourishment  
That does not have prompt and efficient medical attention and inspection  
That does not receive primary instruction in the elements of hygiene and good health.  
That has not the complete birthright of a sound mind in a sound body.  
That has not the encouragement to express in fullest measure the spirit within which is the final endowment of every human being.  
—Herbert Hoover.

## Route 6 News

Mr. J. W. Smith and O. C. Wolberton motored to Sharon, Tenn., Sunday.

Miss Mozele Underwood spent a few days of last week with relatives in Martin, and also attended the singing Convention at Sharon, Tenn.

Mrs. George Eams is spending a few days with her daughter, Mrs. O. C. Wolberton, after a prolonged stay with her son, Louis Sams, of Bardwell. Mr. and Mrs. A. J. Wright, of Fulton were Sunday afternoon guests of Mr. and Mrs. J. W. Smith.

Mrs. J. W. Smith visited Mrs. O. C. Wolberton and family, Monday afternoon.

Miss Louise Wolberton is suffering from tonsillitis at this writing.

Mr. and Mrs. David Cox and little Mr. Edward Wolberton visited the former's parents, near Paducah, Saturday night and Sunday.

Mrs. Ed Gates, Mr. Justin Atterberry, Mrs. T. J. Reed and Mrs. O. C. Wolberton attended the funeral services of Mrs. Cecil Burnett at Union church, Saturday morning.

Mr. and Mrs. Hayden Donoho visited Mr. Flemings' family, Sunday night.

Mrs. Ella Adams, of Detroit, who has been visiting Mrs. T. J. Reed, has gone to Fulton to spend a few days with relatives.

Mr. and Mrs. Will Balkman were Saturday night guests of Mrs. T. J. Reed.

The Bible Class conducted by Mrs. D. B. Christianson of Fulton, met with Mrs. J. W. Smith, Saturday morning.

## Beelerton News

On last Saturday, the Juniors entertained the Seniors with an outing to the lake. We went boat riding that morning and then had a fish fry. There were twenty of us present and everyone enjoyed the day very much.

The big singing convention, that we have been looking forward to will be held here on next Friday and Saturday the 11 and 12. We expect some good singing and want large crowds. Be sure and attend.

Rev. Lee filled his regular appointment at Wesley last Sunday. There was a large crowd at S. S. and church.

A play entitled "A Hoodooed Coon," will be given here on next Saturday night week. This is a play chock full of fun. Look forward to it.

Mr. and Mrs. Cloy Piper and family of Clinton spent Sunday afternoon with Mr. and Mrs. J. B. Pharis and family.

Rev. Lee was the dinner guest of Mr. and Mrs. Cornell Hancock and family, Sunday. Misses Mary and Mildred Cook spent Sunday with Mrs. Lee Underwood of Clinton.

Mr. and Mrs. Walker Coon and family, Mr. and Mrs. Jesse Hicks and daughter, Mr. and Mrs. Irl Hicks and family, and Mr. and Mrs. Raymond Vaughn spent Sunday with Mr. and Mrs. Jasper Bockman and family.

Miss Ima Fite spent Sunday with Miss Evelyn Byrn.

Mr. and Mrs. Auzie Phelps and family, Mr. and Mrs. Ernest Bennett, Mr. and Mrs. J. D. Dixon and son, and Mr. and Mrs. Wallace Webb and family were the Sunday guests of Mr. and Mrs. John Bostick and family.

Mr. and Mrs. Richard McAllister and Mrs. Myra Kirby were the dinner guests of Mr. and Mrs. Will Best and family, Sunday.

Mr. and Mrs. Will Clark and family of Crutchfield attended church at Wesley, Sunday.

Mr. and Mrs. Will Guyn, Mrs. Sarah Howell, and Mr. John W. Howell were the Sunday guests of Mr. and Mrs. John Howell and family.

Miss Mary B. Walker and Mr. and Mrs. Raymond Vaughn of Murray spent the week end with home folks.

## FULTON, R. 3 ITEMS

Mr. and Mrs. Euen Yates and mother were the guests of Mr. and Mrs. Clarence Hicks, Sunday.

Mr. and Mrs. Ted Gardner and Mr. John Harris of Fulton

were the guests of Mr. H. L. Cannon, Sunday.

Mr. Amon Williams has returned home after spending a week with his brothers in Detroit, and purchased a new car. Rebel Moody, A. R. Vaughn, Ted Gardner, Harbert and Silas Cannon went to Hickman, Sunday.

Mr. and Mrs. Wallace Trousdale were the guests of Mr. and Mrs. McClure, Friday night.

Mr. and Mrs. E. A. Cannon and children spent Saturday night with Mrs. Martha Cannon of Water Valley.

Mr. E. H. Gordon and Mr. I. H. Williams have gone to Detroit.

Miss Roselle Vaughan spent Sunday night with Miss Mary Nell Vaughan.

Mr. and Mrs. Rebel Moody were the guests of Mr. and Mrs. H. L. Cannon, Sunday.

Mr. Hayden Harris and Mrs. Maud Cannon were the guests of their aunts, of Woolen Mills, Thursday night.

Mr. Will Melton and children spent Sunday night with Mr. and Mrs. Buen Yates.

# POULTRY

(By J. T. Watkins)

Today while I am writing this article, the sun is shining brightly, the air is warm and has that feeling of spring in it, and I am just wondering if spring "have cum." I hope so at least for I have about fifty young chicks just about ready to take out of the brooder house and put on the ground. I have had some real good luck so far this year with my chicks as it seems they haven't decided to die as much as in former years. Knock on wood. There seems to be a tendency to raise lots of baby chicks this year and I consider it a good move, for I believe the

crop will be short up through Illinois, Iowa, Wisconsin and Michigan, where the last cold wave played such havoc with everything it surely hit the poultry business a whack also.

I am in receipt of a letter from Mr. Newton Bright, Commissioner of Agriculture for the State of Kentucky. He is one of the big men in the State Fair which is held at Louisville each year, and he deprecates the fact that the people of Western Kentucky do not take as much interest in the fair as they should. Well, I am of the same opinion as he. We have as good poultry in our show as they have in Louisville and I would like to see a good bunch of poultry go up there this year from the Fulton Poultry Association. And this also goes for other live stock. Just as good hogs and sheep can be raised here in this county as can be raised anywhere, only you have got to invest in good

stock to start with and then follow up your lead and you can produce just as good as anyone.

Work is progressing nicely on the White Feather Farm. We have the first house ready for the stock, and by fall will have everything up in ship shape. We will then be ready to welcome visitors to see our efforts to help put Fulton County the BEST poultry county in the State. What we are doing others can do in different sections of this county and set examples for the others to pattern after, then will Fulton County become the BEST.

## IT CAN BE DONE

Someone said that it couldn't be done. But he with a chuckle replied. That maybe it couldn't, but he would be one. Who wouldn't say so, till he tried. So he buckled right in, with a bit of a grin. On his face, if he worried he hid it. And started to sing, as he tackled the thing. That couldn't be done, AND HE DID IT.

I just inserted this little bit of poetry in my story to show that we can make Fulton County the BEST poultry county in the state. By installing 100 standard bred hens on every farm we will make the grade. Another way to advertise Fulton county is for several of us to make other shows and fairs besides the Fulton, there are no reason why we should not send at least 200 chickens to Dresden, Trenton, Jackson, Paris and other shows in this locality. When we win at these shows it is bound to advertise your stock and in doing that, you advertise your community.

Mr. Brown, the county agent, has given me the names of 85 young folks, who have joined the 4-H club to raise poultry. There are no reasons why these young fanciers can't show at these other shows and bring home some of the ribbons to decorate their school rooms. Suppose we try it out this fall and see if we can hang it on some of these other fellows. Now I don't want to close this week's story without again reminding you to come in and pay your year's dues and join the Poultry Association. Are you aware it is the good work being done by this association and others around the country that has placed poultry on its high pinnacle? When poultry associations were in their infancy, so to speak, nice fat hens brought the nice sum of around one dollar and fifty cents per dozen and eggs sold at the stores for ten cents per dozen. So don't wait until the show before you join, do it now. We want at least 100 actual poultry raisers to join our association and help us boost the poultry game, and put on a good show at the fair. The dues are only one dollar per year.

## American Legion Auxiliary

### A Membership in the American Legion Auxiliary—What Does it Mean?

(Continued From Last Week)

When we invite the mother, wife, sister or daughter of a Legionnaire to become a member of our auxiliary we want her to know very definitely what we are offering. We want her to know why we place such a high value on our Auxiliary membership and to feel the significance of belonging to this great organization as we feel it.

The Auxiliary also stands always ready to move to the relief of communities stricken by disaster. In recent years it served with the Legion in the great disasters in the Mississippi valley, in New England, California and Florida, being the first in the field with an organized force of workers. It fed, sheltered and clothed refugees and assisted them in the re-establishment of their homes after the disasters had passed. In many other disasters of lesser extent the Auxiliary came forward and did the women's share of the work of rescue, relief and rehabilitation.

The Auxiliary, by allying with other women's patriotic organizations in a great national defense conference and by placing the defensive needs of the nation before a large section of American womanhood, is helping to combat a movement which would strip America and leave it defenseless in a world where war is still a very present possibility.

No body of women in America is more desirous of maintaining peace than the women of the Auxiliary. They know from bitter good-byes and agonizing months of worry what it means to have the country go to war. Many of them are living in the shadow of grief cast by the war's losses, yet, as much as they would like to believe that there never again be war, they are forced to recognize that war is still a fact in the world and as such its possibility must be faced. They are raising their voices to demand that the country shall be prepared so that if it is ever again assailed it can be quickly and successfully defended without the sacrifice of the thousands of lives that have been the price the nation has paid in the past for its unpreparedness. In this work on which may rest the future safety of the nation an Auxiliary membership gives a part.

(To Be Continued)

## Route 4, Fulton Ky. (New Hope Community)

Mr. and Mrs. J. A. Kendall, who have made their home in Albany, N. Y., for the past few years, have returned and will make their future residence at their old home here.

A pall of sadness has been thrown about the entire community since the sudden passing of Mrs. Cecil Burnett last Thursday.

Mrs. Burnett spent her entire life here up until her marriage eight years ago and was loved by all. She was a leading member of the church here and will be sadly missed in its activities.

Our deepest sympathy is extended to the bereaved family. Mrs. George Jackson, who has worked in St. Louis for the past few months, returned to her home here last Monday.

Rev. Byron Cullen, of Melber, filled his regular appointment at New Hope Sunday.

Mr. and Mrs. Cleatus Binford, of Crutchfield, were Sunday guests of her father, Mr. J. W. Howell.

## FINE EGGS FOR SALE

## U. S. AIDS ROAD FUND.

### Tennessee Gets \$1,072,535 Additional for Highways

Nashville, Tenn., April 7—Tennessee's great road plan will be pushed more rapidly by \$1,072,535 additional federal aid announced this morning, said Highway Commissioner Robert H. Baker, when informed of the Washington announcement.

The appropriation of this extra amount, said Commissioner Baker, brings the year's total aid from federal sources to \$2,672,535.

With the season of greatest activity in road building coming on, this new amount will mean even more speed in perfecting the system of Tennessee's highways, he declared.

He said "Under the terms of the increase the state will have approximately \$2,672,535 available for federal aid projects alone in the state. It will greatly increase our rapid development of the approved federal aid work for the year 1930.

Send The Advertiser to a friend one year—only \$1.00.

### That New "Red Strand" Fence

Five Reasons Why  
It's the Fence to Buy

- (1) An extra heavy coating of zinc on open fourth steel wire that has copper in it gives Red Strand Square Deal fence 2 to 3 times longer life.
- (2) Full gauge wires last longer and make a stronger fence. Square Deal fence is never under gauge.
- (3) The famous Square Deal knot will absolutely not slip—guaranteed. It holds line and stay wires in a firm grip.
- (4) Stiff stay wires make for added strength and demand fewer posts. They prevent sagging and keep the fence trim and tight.
- (5) NO EXTRA PRICE—you get all these advantages in Red Strand Square Deal Fence at NO EXTRA PRICE.

MADE ONLY BY

### Brieflets

Nobody in Fulton ever expected to live to see the day when nice girls would use their lips to hold a cigarette, but we still hope we'll never live to see one when he-men will wear ear-rings.

The increase in the sugar tariff tastes sweet or sour, according to what part of the country you happen to be living in.

A housewife may pare an apple, but it takes Cupid to pair a couple of lemons.

An easy way for a Fulton man to get his wife's opinion of himself is to mention in her hearing that Babe Ruth gets \$80,000 a year for knocking a few baseballs over the fence.

Considering the way traffic signals are ignored, we don't blame the women for dressing as though they might land in the hospital before they get back home.

It has gotten so that when a pedestrian leaves the sidewalk he is also in grave danger of leaving his family.

A lot of young women around Fulton who can't even get a meal with a can-opener manage to make a hash of their married life.

The modern home is a building that is put up to enable the family to get the auto in out of the weather.

Next to playing the saxophone we believe the fellow in London who bored a hole in the pin has discovered the best way to waste time.

It has been our observation that every Fulton man who makes a fool of himself is usually too big a fool to realize it.

Having been thrown from a horse, Col. Lindbergh should take a hint and pass up those risky modes of travel.

About the only difference between the old-time dime novel and the modern mystery story is the price.

We like to see a Fulton man using faith, but not to the extent of putting to much of it in his brakes.

On a highway they'er road-hogs, but in Congress they are progressive Senators.

A blind man invariably has a dog. If he had tried the stuff on the dog first maybe he wouldn't have been blind.

Last spring's coat may keep the average Fulton woman as warm as a new one, but it won't keep her as happy.

**Kentucky Allotted  
\$943,000 Road Fund.**

Washington, April 7—Secretary Hyde today apportioned among the 48 states and Hawaii \$48,750,000 of the additional \$50,000,000 authorized by congress as federal aid for highway construction in the fiscal year beginning July 1, 1930. Kentucky was allotted \$943,073 for the fiscal year of 1931.

This supplementary appropriation was authorized by a bill signed by President Hoover on April 4 which also provided for the appropriation of \$125,000,000 for each of the fiscal years, 1931, 1932 and 1933, an addition of \$150,000,000 yearly over the present appropriation.

Congress provided \$75,000,000 by a previous act and Secretary Hyde apportioned this among the states and Hawaii on December 2, 1929.

### Among the County Agents

Six model brooder houses have been built and equipped with 1,000-chick capacity coal brooder stoves in Estill county. These beginners are starting with from 200 to 300 baby chicks each.

Fifty farmers have tested samples of corn in Henderson county. The tests ranged from 14 per cent to 100 percent, according to County Agent Dyer.

The farmers in Athertonville community of Larue county are becoming interested in tile draining wet bottom land. Tile drainage has been installed in 35 acres as a demonstration this spring.

The junior club enrollment has increased from 23 in 1927 to 166 in 1929 in Daviess county.

The farmers in Mason county are planning a county-wide lamb show and sale this spring.

A hundred farmers are sowing lespedeza in Webster county this spring for the first time. The individual acreage runs from three to 25.

Five carloads of lime were bought and distributed in Knox county in February as reported by Earl Mayhew, county agent.

Two girls, members of 4-H clubs, made \$145 profit on one-fourth acre of tobacco in Green county.

More than 100 Pulaski farmers are using common lespedeza in pasture mixtures for the first time this spring.

There are a sufficient number of cows in Boyd and adjoining counties to supply the whole milk market, and farmers are turning their attention to the quality of their stock.

### HELPING YOUNG FOLK TO BECOME BANKERS

Through the American Institute of Banking, which is the American Bankers' Association's educational section, the banking profession is educating 35,000 bank men and women in the technical and scientific departments of their work. These students are enabled by this institute, which is entirely non-commercial in its operations, to obtain a grasp of the finer points of banking without interrupting their employment or interfering with their earnings, in their bank jobs.

The courses given, including banking economics and law and bank administration in all the departments, have been worked out under the direction of senior college educators and the lectures are always given by practical men, such as lawyers in the legal courses, experts in banking operations and college professors in the economics courses. There are chapters with meeting rooms in over 200 cities and also a number of smaller study groups are fostered with correspondence aid.

It has been said that the A. I. B., as it is familiarly known throughout the banking field, is the greatest adult educational organization in the world and is supplying the banking business with the largest supply of trained workers each year that any comparable line of business is receiving. The organization holds an annual convention attended by hundreds of young bank workers as well as senior bank officers actively interested in furthering the institute's educational work, at which numerous technical subjects of practical banking application are presented and discussed. This year's convention will be held at Denver, Colorado, June 18 to 22.

### JUST LIKE HOME FOOD

Smith's Cafe is in reality a home-like restaurant because it has been trying to overcome the prevalent idea that restaurants can't serve food like you get at home.

Scores of patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they eat here so regularly.

Years spent in catering to the appetites of particular people make it possible for us to serve wholesome, tasty meals. The next time you feel like eating away from home, bring your family here.

### A CHANCE TO WIN

The Highway Education Board, with headquarters in Washington City, has asked us to interest boys and girls in and around Fulton in its annual prize contest for essays on safety. The contest this year is just starting and it is open to the pupils of all elementary schools. The subject to be written on is: "What am I doing to set a good example on the Highways?" Teachers will write on: "Teaching the essentials of Street and Highway Safety." The first prize for pupils is a gold watch and a trip to Washington City. The first prize for teachers is \$500 in cash and a trip to Washington City. There is no reason why one or more of the prizes should not come into this section, as our boys and girls, as well as our teachers, are as capable of writing essays on these subjects as are those of any other community. If you want any additional information on the subject, write to the Highway Education Board, Washington, D. C. We have no further information at hand than given you here.

### EATING AND SAVING

Your pork chops, cabbage and beans may be costing you a little more than they did at the close of the year, but according to a report just sent out by the government, enough has been lopped off of other commodities to make the cost of living lower right now than it has been for four years. Wonder how many Fulton housewives can say: "Yes, I've noticed that."

We're getting coffee far cheaper than at any time since the war and since the price of pre-war prices. On the side of this it's pretty hard to notice any change in the price of a family's groceries. The government figures, of course, cover the nation as a whole. And even then the decline is so slight as to hardly be worth shouting about.

But the change is lower it still more is here. Thanks to old Mother Nature, and the opportunity she provides for growing a little garden truck of our own instead of being forced to the can opener should be seized upon. Our meats may not be declining to any noticeable extent. But with "garden sass" and greens to be had for the picking, we can taper off on the meat dishes for awhile. The reason of economical living is again here. And we haven't much sympathy for the family that can take advantage of it by making a garden, but for no good reason at all, fails to do so.

### WHERE CRIME STARTS

Here's something we want every father and mother around Fulton to ponder over. Figures gathered in criminal courts, penitentiaries and reformatories all over America, just made public, show that the majority of crimes now being committed are carried out by boys between the ages of 10 and 24. Most of it is petty banditry or thievery—robberies of small grocery stores and filling stations—where the boys know a little cash is always on hand. All the boy needs is a cheap revolver, and that is always easy to get. If he is successful in his first attempt he will be encouraged to stage one on a larger scale; and then he is started on a full-fledged career of crime. Warn your boy of the fate that befalls those who carry revolvers. Align yourself with any movement that seeks to prohibit their sale, locally or by mail, to anyone who is not by law entitled to carry one. It's the surest way we know of to discourage crime.

Hand us a dollar bill and get your name on the Advertiser list as a regular subscriber.

### IT'S A WHOPPER

Let's not get so used to watching the auto industry spread out that we can't see any other industry grow. Turn your eyes for a moment to the comparatively new business of hatching and selling day-old chicks. In January of this year 493 commercial hatcheries reported to Uncle Sam that they had hatched 3,977,768 salable chicks during the month, or a gain of almost 800,000 over January, 1929. Few, if any of them sold for 12c each—that's a fair average. Now figure for yourself the tremendous money turnover in the baby chick business, keeping in mind that your figures are for only one month and for only 493 hatcheries, while there are tens of thousands of people hatching and selling throughout the United States. We can't all make money in the chicken business, but we can all enjoy reading about other people doing so, while keeping in mind the fact that it is growing to be one of America's biggest industries.

### BETTER WATCH OUT

The season of longer daylight, and more working hours, is with us. But with all the added activities we venture to say scores of people around Fulton are even now planning where they will go on a motor trip a little later on. And that is a good idea, too, for half the success of a vacation jaunt consists in planning it well in advance.

But the point we want to make is that this year they are apt to find, if they travel any considerable distance, that the old toll gate of earlier years has not been completely abolished, as the country at large has been led to believe. Private interests have been busy building bridges here and there, until today they are becoming so numerous as to really make quite a dent in the motorist's pocketbook. And quietly, but none the less forcefully, private interests are seeking franchises for roads on which they can also collect toll.

Unless the car owners and taxpayers of the country are alert—and they are one and the same now—the toll road is going to come back in greater strength than it was in the days of the horse and buggy. It was a necessity in early days, for then roads could hardly be secured in any other way. But today, with a gasoline tax in every state, with personal taxes on the cars that use the gas, and with a license plate fee also going into the state treasury there is no excuse for privately-owned roads, and no alibi for a single mile of unimproved main-traveled highway. The car owners of our state cannot afford to go to sleep on the job or the toll gate will be back as sure as night follows day.

### OUR MESSAGE OF SERVICE

There is going to be a lot of activity in the building line this year. Architects and contractors, carpenters and masons all, are busily sharpening up their pencils and their tools, and getting set for business. It is not the young married folks alone who are going to build homes—who dream dreams of happiness in homes of their own—but many others who have long, too long, been renting the roofs over their heads are going to try this year to realize their desire to have a home of their own.

Whatever you plan to do by way of  
**BUILDING — REMODELING  
REPAIRING**

we want you to feel perfectly free to come in and consult our service department without the slightest obligation. Whether it's a big house or a bungalow, a new garage, new roof or new floor, a sun parlor or a sleeping porch, an alley fence, or built-in fixtures—we are prepared to give you unequalled service and low prices on Quality Material.

LET US HELP YOU MAKE YOUR  
DREAMS COME TRUE.

## Sunday School 'Lesson'

(BY REV. P. H. FITZWATER, D.D., Member of Faculty, Moody Bible Institute of Chicago.)  
(©, 1929, Western Newspaper Union.)

### Lesson for April 13

#### THE CHILD AND THE KINGDOM

LESSON TEXT—Matthew 18:1-14; 19:13-15.

**GOLDEN TEXT**—Suffer little children, and forbid them not, to come unto Me; for of such is the kingdom of heaven.

**PRIMARY TOPIC**—Jesus, the Children's Friend.

**JUNIOR TOPIC**—Jesus the Friend of Girls and Boys.

**INTERMEDIATE AND SENIOR TOPIC**—Growing in the Kingdom.

**YOUNG PEOPLE AND ADULT TOPIC**—The Sin of Neglecting and Misguiding Children.

**I. The Greatest in the Kingdom of Heaven (vv. 1-4).**

1. The disciples' question (v. 1). The prominence given to Peter in connection with the announcement of Christ's purpose to build the church and the payment of tribute with the money in the fish's mouth, provoked jealousy on the part of the other disciples. The transfiguration scene revealed the divine person and the program of His kingdom. Seeing that the kingdom was to come to realization despite the tragedy of the cross, disciples wished to know their place of rank in the kingdom.

2. Jesus' answer (vv. 2-4). He taught them by placing a little child in their midst.

(1) Condition of entrance into the kingdom (v. 3). The great question was as to whether they were really in the kingdom. Their behavior revealed the fact that they needed conversion. Before they could even see, much less enter into, the kingdom, they must be born from above (John 3:3, 5).

(2) Whoever possesses childlike humility is the greatest (v. 4). The child is dependent, lowly and modest. Those who have been born again, or converted, have these characteristics.

**II. The Lord's Identification With His Believing Ones (vv. 5-9).**

1. Receiving the believer in Christ's name is receiving Christ (v. 5). Through faith in Christ we become God's children and so completely is our life interwoven with His that He regards treatment of us as treatment of Himself.

2. The peril of causing a believer to stumble (vv. 6-9).

To cause to stumble means to give occasion for a moral fall. The particular occasion was to be seen in the selfishness which were expressing themselves in their contention for pre-eminence. Their behavior was not only an injury, but a stumbling block to others. Everything causing one to stumble, though it be as vital as hands and feet, should be removed.

**III. Believers Are Specially Cared for by the Heavenly Father (vv. 10-14).**

1. They are under angelic guardianship (v. 10).

So precious is the believer in God's sight that angelic messengers are provided (Matt. 1:10). These angelic messengers have access to the very throne of God, even beholding His face. So high is the honor bestowed upon believers that the highest angels are sent to guard them.

2. The Son came especially to save such from their lost condition (vv. 11-14).

The Heavenly Father does not will that any one of these should perish. They are objects of the Father's seeking love. The salvation of the humble believer has been secured by the incarnation and the sacrifice of the Good Shepherd.

**IV. Jesus Receiving Little Children (Matt. 19:13-15).**

We should carefully note the setting of this text. Jesus had been speaking of the sanctity of marriage, which is the bulwark of the home. Into the sacred enclosure of the home comes childhood to complete and ennoble it.

1. Children brought to Jesus (v. 13).

Doubtless they were brought by their parents. Many parents today who are careless as to themselves, desire to bring their children into touch with Jesus Christ.

2. Rebuked by the disciples (v. 13). They regarded children as too insignificant to engage the Lord's attention. Christ places high value upon children.

3. The disciples rebuked by Christ (v. 14).

These words uttered by the Lord have placed a peculiar dignity upon the child. It is Christlike to care for children and no service in the world pays such large dividends.

4. Christ laid His hands upon the children (v. 15).

**For More Peace on Earth**

Less chestiness and more bowed knees make for more peace on earth.—Christian Monitor.

**Condemning Others**

There is nothing more delicately dangerous in the whole Christian life than the condemnation of others.—G. D. Watson.

**Bible and Money**

"But thou shalt remember the Lord thy God; for it is He that giveth the power to get wealth."

**To Honor God**

Large asking and large expectation on our part honor God.—Sel.

March 3, 1879.

### TOXIN-ANTI-TOXIN TO BE GIVEN IN FULTON SCHOOLS TODAY

Dr. Prather announces the following schedule for the giving of toxin-antitoxin which will protect the child for life against diphtheria. He will be at Terry Norman from 11 until 12 on Friday, April 11, and at Carr Institute from 1 until 2:30 on the same date. Toxin-antitoxin is one of the requirements to secure a blue ribbon and applies only for children under ten years of age. Dr. Coogler of United States Public Health Service says that toxin-antitoxin is as harmless as a glass of water. All careful mothers will want to avail themselves of this opportunity unless they have been wise enough to have already received the protection for their child through their family physician.

### Why Toxin-Antitoxin is Necessary to Win a Blue Ribbon

Diphtheria is a disease which causes many children to be very ill and some to die, every year. These illnesses and deaths are unnecessary because toxin-antitoxin will protect children against diphtheria. Toxin-antitoxin is injected into the arm in three doses, each a week apart, and does not cause any discomfort or ill effects. Diphtheria is especially dangerous to little children, and your child is liable to be exposed to it any time. Practically every child between the ages of six months and ten years will have diphtheria, if exposed to it, unless protected by toxin-antitoxin. Because health officials hope to wipe out this unnecessary disease, and this cannot be done until every child between six months and ten years is protected by toxin-antitoxin, this protection is necessary before a child can win a blue ribbon. Have your child given toxin-antitoxin at once; it will help him to be a Kentucky Blue Ribbon child, and more important, it may save him from a terrible illness or death. So far as is at present known, this protection will last for the rest of the child's life.

In Louisville, in 1920, before the campaign to protect children against diphtheria was started, there were about 1,000 cases of diphtheria. In 1926, three years after the diphtheria prevention campaign was started, there were only about 100 cases. As soon as every child under ten years is given toxin-antitoxin, there will be no diphtheria in Louisville. Let us have as good record in Fulton county. Begin now to make your child a Kentucky Blue Ribbon Child.

If under ten years of age, have him given toxin-antitoxin now!

### Willingham Bridge

## Route 5 News

Mrs. Ruthie Moore recently moved to Crutchfield to the Tom Henry Howell place.

Gertrude Moroe's school closed Friday. Miss Alyua Thacker's school at Ridgeway closed Friday. She, the children and the parents, had a picnic and wiener roast at Mt. Moriah church yard.

Welfare Workers met Thursday with Mrs. Harold Henderson. Eleven members and two visitors were present. The ladies will carry lunch, and spring clean for Mrs. Joe Young soon. Mr. and Mrs. Young are both very feeble. At the next meeting we will discuss the buying of another pressure cooker. Everyone who cannot last year wants to can more this year. Everyone interested in this move, try to be present at the next meeting, which will be at the home of Mrs. Roy Watts, April 24.

Mr. and Mrs. T. D. Butts came in from Detroit last Friday. They report Detroit dead and getting dead.

A move is on foot to widen the road from the State line to Stella Nanney's farm. Judge Estes says when we get the right-of-way, the county will grade it. Mr. Ridgway has taken his fence down and is clearing off the fence row. Let us all get busy and try to have a good road next winter.

Quite a lot of grading and dragging is being done on the State Line road, which gives promise of a better road this year.

Sunday school opened at Mt. Moriah last Sunday.

Quite a lot of interest now in baby chicks. Mrs. Stella Nanney received 287 from an Illinois hatchery, Friday, and her incubators are hatching. Mrs. Butts has quite a number, and eleven hens setting.

Mrs. Finch received 394 Friday, 210 of which were sold to Mrs. Newton Turner, leaving 84, which were put with three borrowed hens, two brooders, and this 84 keeping her pretty busy.

Mr. and Mrs. J. W. Scudder, Director of McClain County Health Department, has arrived for a two weeks study of the Mother and Child Health Demonstration in Fulton. Dr. Scudder is President of the Green River Valley Public Health Association and quite outstanding in his work. Dr. and Mrs. Scudder motored through from Calhoun, Kentucky.

### EDNA EARL ROSS

On Wednesday, April 2, 1930, the death angel visited the home of Mr. and Mrs. Basil Ross and took from them their little daughter, Edna Earl, aged 8 years.

Besides father, mother and sister, Bonnie Ruth, she is mourned by her grandfather Osborne, her grandmother Ross, and a host of relatives and friends.

On Friday afternoon the funeral was conducted at the home by Bro. McCoy and Bro. Warren. She was buried in the Palestine cemetery.

Edna Earl was a child so pure in thought and act and so sweet in disposition as to be loved by all who knew her.

To the sorrowing family we would say: Your darling has escaped all the pain and suffering of this sin-tossed world and gone to live in the sweetest bliss with the loving Savior who said: "Suffer little children to come unto me, and forbid them not; for of such is the Kingdom of Heaven."

"As we gather at the table And watch each smiling face, The heart fills with emotion To see the vacant place."

"Yet when the day is over And they all have gone to rest, We feel the heavenly father Does all things for the best."

A nice gift. Send The Advertiser to a friend one year—only \$1.00.
