THE TRI-WEEKLY NEW ERA.

—PUBLISHED BY—

TUESDAY, AUGUST 9, 1887.

If somebody don't give Louisville a park she'll bust.

The Call Telephone is the "railroad-liner" paper in the State.

The State Central Committee has been accorded the cap and bells.

A decision is soon to be given out in the Chicago Anarchists' case.

The worst count that was ever made was the recent count of the election returns.

There are 300,000 more women than men in England. Queen Vic. is 800,000 of them.

We notice among our exchanges that the election "rooster" is occupying a variety of attitudes.

And now they say it will be "Sherman and Bradley" for '88. That is a choice combination of bloody shirt and bombast.

Between the race for speaker and the scramble for Public Printer the people of Kentucky will take a seat in the tub.

When the Inter-State Commerce Commission gets through with the "long and short haul" they will be ready to be hauled off.

An Ohio girl refused to kiss a grass widow and he shot her five times. A common widower would have only shot three times.

A Republican was ousted from the Pension office in Cincinnati for using indecent language about Mr. Cleveland. Sherman can make this a campaign issue.

A New Orleans newspaper man discusses the "Heavenly situation." No one who has been in that city will believe that the writer knew what he was talking about.

A Chattanooga artist committed suicide to escape starvation. Now a New York critic of high repute, says he was the finest painter in America, yet the Tennesseeans were buying his pictures at \$2.00 apiece.

The French General Boulanger wants to fight the French ex-Minister Ferry to the death. Boulanger is defending the honor, say of the French Army, while Ferry is preserving a little common sense for the infant Republic.

Some of the papers of the State, even some Democratic papers, are renewing the old quarrel about Gen. Buckner being the wrong candidate. This is not only the old talk but it is uninteresting. For goodness sake, boys, let up!

An exchange says a Spanish officer has invented a war vessel that will stay under water four days. When the ingenious Spaniard finds out how to keep a ship under water 40 years he can get a job over there sinking our Republican navy.

The inauguration of Simon Bolivar Buckner as Governor of Kentucky, will take place in this city on Tuesday, August 30th, this being the fifth Tuesday succeeding the day of the general election, as provided by the constitution.—Frankfort Capitalist.

If all the reasons why the Democratic majority was cut down were gathered into a book it would be a veritable comedy of errors. The reason it was cut down was because it was cut down, just the same process the old cow went through when she crossed the road.

The Louisville Commercial claims to have discovered evidence that will upset Mr. Caruth's majority and seat his Republican opponent in the next Congress. The Commercial has been claiming Bradley's election and many other things. In fact, the Commercial is hardly ever in the same boat with the truth.

Alaska with its 577,800 square miles, was purchased of Russia in 1867 for \$7,000,000. This is our latest Territorial acquisition. Within eighty-four years we have obtained by purchase, treaty and annexation, 2,752,723 square miles of territory, costing \$52,200,000 in cash direct, not considering the cost of war.

Perhaps it will help us through the dog-days to read that the Hartford Post predicts an early fall, and for these reasons: The locust swarms a week earlier than has been noticed for years; the crickets were abundantly soon in their coming; the dahlias, which are an August plant, blossoms in July; the golden-rod adds its willowy stalk, with innumerable buds of blossom, to the army that is beckoning to autumn.

Wong Ching Foo, a literary Chinaman, writes the North American Review a caustic essay on "Why I am a Heavener?" In treating the subject he makes a sarcastic attack on Christianity and American civilization. Wong got his education in a Christian land, and the reason he remains a heavener is evident in his essay. There are a great many people who overstep gratitude and conviction to achieve notoriety.

The Georgia Legislature appears to be an unique sort of body. That body has now before it a bill that, in the shape of a law, would enable a landlord to throw a debtor tenant into jail and keep him there. The bill provides that any person who receives advances upon a contract to work the lands of another, either in the capacity of a renter, cropper or wage-worker, and fails, without good reason, to comply therewith, shall be deemed guilty of a misdemeanor.

Kowan county needs attention. This thing of sending soldiers up there may serve a purpose but it does no permanent good. The school house and the church are the paces for the disorganized condition of society there. Let their desperadoes be killed off by bibles and not by bullets. The only sure way to enforce law is to inspire a reverence for law. No people ever obeyed the rights of society or legal enactments until they had been brought to see the beauty of equality and justice.

A VOICE FROM HICKMAN.

The following communication has been received from a worthy citizen of Columbus. We can assure him that he has misconstrued the intentions of our people. We do not wish to bias the "Ideal," in fact, so commanding are the excellencies of this matter that the O. V. has concluded to hold it. It is partly on these terms that we will vote the O. V. tax. It matters not whether the O. V. or any other company builds the road, the point is we want it and as matters now stand we believe the O. V. will more quickly complete the enterprise than any other agency. Surely "Hickman" cannot dissent from these views. The following is his letter:

HICKMAN, KY., Aug. 3rd, 1887.

Editor New Era:—

We in Hickman county are afraid that the proposition of the O. V., if accepted by your people, will scatter to the winds all the very flattering hopes we lately had of a railroad from Hopkinsville to Columbus. The time selected, whether intentional or not, by the O. V., to introduce their proposition, is most propitious, at which time, either, or at any other time, could an enemy of the "Ideal" road have hoped successfully to divert the monetary aid of Hopkinsville to the "Ideal" road.

"Ideal," into the pockets of a concern whose interests are certainly not to Hopkinsville. Yet we are told "Brutus was Caesar's friend." Permit me to doubt the sincerity of the O. V. in encouraging such an idea. We may be wrong, but we are at least sure that its idea is not one that its people are at all likely to support.

Between the race for speaker and the scramble for Public Printer the people of Kentucky will take a seat in the tub. THE TEXAS ELECTION.

A special election was held in Texas last Thursday to take vote on six constitutional amendments. That which has attracted the most attention, both within and without the State, and has been most actively canvassed, is the one providing for the prohibition of the sale of intoxicating liquors except for medicinal, mechanical and scientific purposes. The other proposed amendments are: To increase the legislative session to ninety days; to restrict the investment of the State University fund to the United States and State bonds; to provide for the assessment and collection of taxes in unorganized counties; to authorize the Legislature to require a registry for voters in cities of 10,000 inhabitants or more, and to reorganize the judiciary of the State.

Prohibition was defeated by a large majority and the result will probably have a telling effect on the Tennessee election next month on the same question as well as on the Prohibition cause throughout the entire South. This movement has developed wonderfully quick, too rapid in fact for its own good, and the sober reflection of thoughtful men.

The Democracy of the "Old Dominion" assembled at Roanoke, last Thursday, and enacted a ringing platform. They said "the wise, conservative, fearless and honest administration of Grover Cleveland, President of the United States, deserves and will receive the cordial support of the Democracy of Virginia." It advocated the immediate repeal of the internal revenue system; declared for a tariff for revenue; asked for liberal appropriations by the Federal Government out of the revenues in the aid of education regardless of color; and after endorsing Gov. Lee and his administration, the platform states: "We assert the determination of the party to liberally provide for our disabled soldiers, and declare that in future the State should provide for the indigent widows of soldiers who fell on the field of battle, or died from the effects of wounds received in the defense of the State."

Several splendid speeches were made before the convention, all of them commending in the highest terms President Cleveland and his manner of doing business.

The Nashville American speaking of the recent election in this State says that our ticket ran on the "Kentucky ideal" and that with "one of the most popular men in the State, Gen. Buckner, as the leader, all turned in and the people gave them barbed wire in all parts of the State; and yet the Republicans with an obscure man came within a few thousand votes of carrying the State."

The idea of calling Bill Bradley an "obscure" man! There is not a Republican in the State but thinks that he is the very essence of greatness. However, after 30 days more we predict the "brown-jerk" plan will never more be heard of.

Moral: turtles bite even when dead.—Todd County Progress.

The author of "Romantic Love &c." claims that love is exclusively a modern sentiment. The writer is unlettered. We confess that every boy at first thinks he is the only fellow that ever sank clear down to the bottom of the human heart, but what's become of Platonic affection and that world of sweet ancient romance that perfumes all the literature of Palestine, Greece and Rome? Ah! boys, there have been lovers and lovers from the time of the patriarchs down and there will be lovers and lovers till Gabriel catches the last man right on the verge of matrimony.

Rev. J. C. Tate, pastor of the Presbyterian church, here, will move to Clarksville about the first of next month. This step will necessitate the severing of his pastoral relations with his church here. This arrangement will be as a personal sorrow to our people. Mr. Tate is one of our most lovable of men, held in most affectionate esteem by every one who knows him and a most able, brainy minister. There will be the sincerest regret at the removal of himself and his estimable family from among us.—Glasgow News.

Mr. Tate was pastor of a church here for a number of years and has many friends in this city.

A Public Outrage.

Sunday morning a drunken blacksmith of this city carried on a most disgusting and indecent performance publicly on the streets.

The individual hired a horse and buggy of Mr. Toke Smith and in an intoxicated condition proceeded to "paint the town red." He associated himself with four licentious negro women by driving them through the principal thoroughfares of Hopkinsville making an exhibition revolting in the extreme. This infamous conduct was reported to the police and Mr. Smith who saddled horses and started in pursuit of the party. After a hot chase through the woods, the officers halted four miles out on the Madisonville road and concealed their animals behind a high embankment. They walked about three hundred yards through the woods and found the buggy. It's only occupant was a negro girl lying on the seat dead drunk. Near her was a flask of whisky and a watermelon. She was aroused from her stupor and at the sight of the "cop" she made the woods hideous with shrieks. She was made to step down and out. The rest of the party were invisible. The buggy and horse were brought to town leaving the white man and his other dusky mates to make their way back on foot. He ought to be drummed out of town.

The True Method
Of curing habitual constipation, liver and kidney ills is to avoid the use of the bitter drastic liver medicines and cathartics, and to take only the pleasant liquid fruit remedy, Syrup of Figs. It cleanses as well as strengthens the system, and does not leave the bowels costive, so that regular habits may be formed and the invalid permanently restored to health. It acts promptly and effectively; it is easily taken, and perfectly harmless. For sale in 50 cents and \$1.00 bottles by H. B. Garner, Hopkinsville, Ky.
