The Meridian Water Works.

One of the greatest enterprises ever undertaken for municipal convenience in the city of Meridian, Miss., is the water works company of that city, and it is already a great success at recent estimates. The city has extended its service to several points in the vicinity.

The purpose of Meridian is exactly like that of Paducah in the matter of water works; it seems that the Meridian water works business is very much like that of the one undertaken by the company in Paducah. The franchise calls for pure, or filtered water, and the city has the right to buy the water at specified rates. Ten years ago the water company of Meridian was in the market for $2,000, but the city would not buy the franchise unless a deposit of $10,000 was paid, and the franchise was then extended to Paducah. Since then the company has been用水水 and finding itself in a profitable position, and the franchise was then extended to Paducah and the city secured the water at $2,000 per year, if they should wish to stop the business.
