Modernize Fulton Water Plant

Fulton is now on the eve of another progressive step forward. The city is figuring on electrifying its water plant, as reported by Councilman T. H. Irby, L T. Bass, and J. C. Colley, yesterday. Restless recently on a sight-seeing tour to get first-hand information and meet those in other plants, the proposed Fulton water plant, operated by electric motor, will get its first period of operation.

While Fulton now possesses a board of its excellent water, but for the completion of the proposed electric plant up to the present time, has been put to more than in charge and a pointed, exci-

tion. The expense of trying to get a machinery together and serve the people efficiently has been a heavy burden on the city. The new method of studying and considering various plans of operation. The electrical way is modern in every way, and we understand it is a saving in operation, the city has succeeded in reaping the benefits of this method for many years.

The time has arrived when something must be done to avoid a water crisis and to understand it is the necessity for a water plant.

Should that old machinery remain at the plant as of today and it may at any time, with a very high cost to the city, something have to be done.

OUR MESSAGE OF SERVICE

There is going to be a lot of activity in the building line this year. Architects and contractors, carpenters and masons all, are busily sharpening up their pencils and their tools, and getting set for business. It is not just the young married folks alone who are going to build homes—those who dream of happiness in homes of their own—but many others who have long, too long, been living under the roofs over their heads are going to try this year to realize their desire to have a home of their own.

Whatever you plan to do by way of BUILDING or REMODELING or PAINTING, we want you to feel perfectly free to come in and consult our service department without the slightest obligation. Whether it's a big house or a bungalow, a new garage, new roof or new floor, a sun parlor or a sleeping porch, an alley fence, or built-in fixtures—we are prepared to give you unequalled service and low prices on Quality Material.

LET US HELP YOU MAKE YOUR DREAMS COME TRUE.

FOOD LIKE YOU GET AT HOME.

This is truly a home-like restaurant because it has endeavored to break down the prejudices based on the theory that restaurants could not serve food like you get at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they come here as frequently to eat.

Years of catering to the appetites of particular people make it possible for us to serve appetizing meals. The next time you want to eat away from home, bring your family here.

Star of My Life

Can we break the breath of life.
True peace, the joy of heaven.
Blind self-paths for me to tread.
At home in my own place bright.
Though childhood days of brightness
Are memory, storage pure and fair.
You led me ever from the depths
Of pleasure hours from ends of earth.

Start of my life—
My mother—

New interests will grow.

HIS testimony to the SWP

With greater faith that your one key

Nor shall that light grow brightly

The cloud that first covers my stars

To peace and happiness

And memory, as comfort to sustain

Still since, I stand thus I said.

Start of my life—

My mother.

I know’st not without sorrow

You’ve lighted the light before my feet.

For I have passed the forge

But your true life, unclouded beam

Thru I have seen you not fail;—

For that I know you take

Start of my life—
