CONSTRUCTION OF HIGHWAY BRIDGES WILL START SOON

State Commission Happens to Advertise and Take Bids within 60 Days

Construction of proposed Parkway highway bridges will be started this day, the state commission having planned to advertise and receive bids within the next sixty days. Reforms made necessary by the failure of the way commissioner for the next Saturday.

Contract for the site of any...and sixty of the most prominent...for the inevitable need of a bridge over the river. From that position on the commission has planned to advertise with the invitation to bid...until the site shall be offered and the contract awarded within that period. A test on the bridge...and no delay will be made until the contract has been advertised. Construction of the bridge would then be started.

LIONS WILL MAKE THE REDEWELL LAKE, JUNE 28TH

Lions of the local club voted to have the first fishing on the lake announced. The official opening of the lake for the Kentucky-Tennessee district took place on the evening of June 28th. JEFFERSON DAVIS MARKER UNVEILED

Impressive Exercises Launched on State Line

Before a large crowd, the new memorial marker of Jefferson Davis was unveiled on the State Line in the presence of Governor George R. Trammell, Governor of the State of Fulton, and the Governor of the State of Tennessee. The marker is a monument to the memory of Jefferson Davis, the 11th President of the Confederate States of America, who was born in this vicinity. The marker is a fitting tribute to the man who was the founder of the Confederate States of America. The marker was unveiled in the presence of hundreds of admirers, including state and local officials, and was greeted with enthusiastic applause.

ANNUAL FISH FRY

The fishing committee held its annual fishing tournament on June 28th. The fishing was held at the Redewell Lake, located in the Kentucky-Tennessee district. The fishing was a great success, with hundreds of fishermen participating.

AS FORD SEES IT

The shortest cut to relief from business depression is an intense development of agriculture and manufacture, with quantities production from the soil, believes Henry Ford in a recent interview.

"It is the only way to compete with stagnation," Mr. Ford says. And residents of Fulton and vicinity who have been wondering how long it will be before the outlook back to normal will find much joy in his additional statement that it will take a good deal less time to get rid of the depression than it took to accumulate it. It says manufacturers need to use the people’s spirit, and that can not be done with talk. It takes action. One expenditure more, based on faith in the future is worth all the words anyone can say. "Speaking out of my experience," he says, "I think the driving power is to keep the work going on one hand and beggars wages on the other won’t help. It is a thing short.”

COWS DON'T MIND FIES IN SUMMER

Using Repellents Only Keeps Animal Quiet.

Owing to the general habit of soot, it is not uncommon for flies to find their way into the stables of cows. As a result, farmers often have to use a variety of methods to keep flies away from their cows. One popular method is the use of natural repellents.

When Harry Proposed

“Harry, I see you are in love.” Harry’s mother stood in the doorway of the living room, her face serious. He looked up from the book he was reading, his heart pounding with excitement.

“I am,” he replied, “and I want to propose to Ann.”

“A proposal?” His mother’s eyes widened in surprise. “I was not aware you were interested in a girl.”

“I have been for a long time,” he said. “And I think she feels the same way.”

His mother smiled. “I see. Well, I will speak to her. And I will tell Ann’s family how much I appreciate your interest in their daughter.”

THE FINISHING TOUCH

“I am meeting you now that my hair is cut,” Harry said. “I was wondering if you would like to go to the movies with me?”

“Of course!” Ann replied, her face lighting up with joy. “I would love to go to the movies with you.”

Harry grinned. “Then let’s go.”

What price congestion?

Gradually the nation is realizing that congestion costs more than it is worth.

The overhead cost of crowding hundreds of thousands of people into a limited area presents a serious problem to manufacturers in metropolitan centers. The cost of congestion enters into their costs of production.

Here is the secret of the small town's new industrial importance—and its industrial opportunity.

The small town of today is equipped for industry because it shows in the widespread supply of electric power which industrial operations are based.

"WORK AT HOME" FAKES

Organizations throughout the country known as Better Business Bureaus and there are branches in every city, are lending a helping hand. They urge everybody to be on the alert for these advertisements, and if possible avoid being swindled.

The promoters manage to stay out of the law by using a new jargon which they call "mail order papers." They are interested in the sick list.

Mrs. Lowry, wife, has a very sick child. Mrs. George Packett is visiting her mother, Mrs. Mattie Cavender, last week.

In almost every city, the promoters are striving hard to weed out the fakers. The ads are alluring:

- Miss Margaret Byam has been trying to get her job with the past week. She also has been trying to build a stock cabin in her own yard. She is trying to make a living trip to Great Falls.

Doll Cavender is still on the sick list.

The government can't have fakers. The ads are alluring:
