VOICE OF THE PEOPLE UNHEARD BY ALDERMEN

MORE PETITIONS WERE PRESENTED LAST EVENING ASKING FOR VOTE ON LIGHT AND WATER PROPOSITIONS. BUT THE REQUESTS WERE TURNED DOWN COLD, AND WITH DECISIONS WHICH SERIOUSLY CHALLENGE THE AUTHORITY OF THE CITY.

At last night's meeting of the aldermen, there was some comment from the floor that the city's streets needed a good wash. The subject was mentioned by Alderman Tom Miller, who said that the streets were dirtier than ever before, and that something should be done about it. But nothing was done in the meeting, and the motion was carried by a vote of four to one. Alderman Tom Miller, who was absent last night, has been criticized by the people for not being in the city when the petition was presented. He has been accused of being a "no-show" alderman, and it is feared that he will be re-elected if he does not change his ways.

COMMENCEMENT EXERCISES VERY ENTERTAINING AFFAIR

The Kentucky was filled with hundreds of people last night, as the schoolchildren returned to school at 3 o'clock this afternoon for their card-school news.

Lawrence, May 7.---Lawrence High School opened its doors last evening with a very entertaining commencement exercises.

Harry F. Williams, president of the Lawrence High School, welcomed the students and the committee who had come to conduct the exercises. He said that the exercises were a success, and that the students had shown great spirit.

Mr. Williams then introduced the principal, who read a paper on the history of the school. He said that the school had been in existence since 1870, and that it was the first public school in the county.

The exercises were then opened with a prayer by the pastor of the First Baptist Church.

The exercises concluded with the singing of "The Star-Spangled Banner."

Man Uses Mount Power in Drumming

An ingenious Drummer, Dexter, owner of the greatest of the drumming companies, has for some time been experimenting with steam, and he has now discovered a new and wonderful process for turning out drums. The process is as follows:

1. Obtain a steam engine.
2. Attach a drum to the engine.
3. Turn on the steam.
4. The drum is now ready for use.

This process has been tried out on a large scale, and the results have been most satisfactory. The company is now preparing to go on tour with this new method of drumming.
