JUDGE NAMED

THE MASTER COMMISSIONER AS REVERE TO WIND UP STEAMBOAT BUSINESS OF SUMMERS AND PEACE.

INJUNCTION FEATURE POST-PONED UNTIL NEXT MONTH.

Judge Reid Named Grand Jury Foreman. Postponing Grand Jury and Banning Alcohol are Issues Before Judge Reid to Rule on.

Yesterday Judge Reid selected his Grand Jury, but postponed the selection of his banquet for the Grand Jury, and also the appointment of the county attorney. The Grand Jury is to be called in on Sunday, and the county attorney is to be appointed by the judge. The Grand Jury is to be called in on Sunday, and the county attorney is to be appointed by the judge.

PUBLIC STORMS SESSION OF SCHOOL BOARD WHILE SELECTING THE TEACHERS.

STORMY FIGHT BEING MADE TO PUT MISS EMMA MORGAN OUT OF SCHOOL. SUPPORTS WANT MISS MORGAN TO BE REVOCED AS THE VOTES STANDS FOR HER AGAINST ALL THE OTHER CANDIDATES: NEw TEACHERS YET TO BE NAMED.

The tension in the public school of Paducah is now beginning to show itself in the actions of the school board. The board is now in session, and the selection of the new teachers is being made. The controversy is especially intense in the selection of the teachers for the high school, and the fight for Miss Emma Morgan's position is becoming very stormy.

HOSPITALS DISCONTINUED

U.S. GOVERNMENT ISSUED ORDERS YESTERDAY TO DISCONTINUE THE PROGRAM OF MEDICAL SERVICES FOR THE NATIONAL ARMS FACTORY.

The U.S. Government issued orders yesterday to discontinue the medical services for the National Arms Factory. The orders were issued after a thorough investigation of the factory's medical services, and it was found that the services were not up to the required standard.

MISSIONARY CONFERENCE

OPENING SERMON TONIGHT BY REV. HUGHLETT OF WESLEYAN CHURCH.

The opening sermon of the missionary conference will be given tonight by Rev. Hughlett of the Wesleyan Church. The conference is being held in Paducah, and will be attended by representatives of various denominations.
Proposed by Engineer Holmes for Relighting Plant to 300 Lights

West Plans for Dynamite and Electrical Machinery for New Lights and Stages and Boxes for 50 Lights.

The board of public works and electrical engineers yesterday received a report from Engineer John H. Haas of the new electrical plant of the city. The report includes a diagram of the plant and details of the work to be done. It is estimated that the work will be completed in six months. The city will save $13,700 by using the new plant.

The joint light committee met yesterday and agreed to succeed Mr. E. P. Noble on the committee. Mr. Noble resigned due to ill health.

The report of Engineer John H. Haas shows that the work of the electrical plant is progressing satisfactorily. The committee recommended that the work be put in at a cost of $13,700. The new plant will be capable of handling 300 lights and will be constructed at a cost of $13,700.

The committee recommended that the engineers at the plant by adding another street, an engine and boilers of 50 horsepower be put in at a cost of $13,700. Over 100,000 pounds of coal will be necessary to operate the plant.

Engineer John H. Haas in regard to the enlargement of the plant said that it is the desire of all those present that the extension be put in as soon as possible. Mr. Haas also stated that the committee is in favor of the enlargement.

The meeting adjourned.

New Orleans Today

Will Spend $30 Daily in Resort eet Out the Paper Producers.

New Orleans, June 13.—A number of the paper producers of New Orleans have announced that they will spend $30 daily in resort as a protest against the recent increase in the price of papers. The decision was reached by the producers after a series of meetings yesterday. The increase in the price of papers is due to the high cost of labor and raw materials. The producers believe that the increase is unjustified and that they will continue to spend $30 daily in resort.

The board of public works will be asked to consider the proposal of the New Orleans paper producers to spend $30 daily in resort. The board has been asked to consider the proposal by the New Orleans paper producers.

THE PLANS ARE REJECTED

**REMINISCENCES OF CIVIL WAR**

By Gen. David Battle, in *Home and Farm*

It would be difficult to induce the group of young men whose amiability and gentlemanly qualities are so conspicuous in every man—among whom are a number of the sons of heroes of the Civil War, now in Civil War camp, to believe in Gen. Lee. But if any of the great army leaders of the world could estimate his comrade-in-arms by the nature of his conduct, that extraordinary one, it will be Gen. Lee. Not that the fame of the one is undeserved, nor was he known him in his private life. In the history of military operations, the nature and full scope of the situation, and as instantly proceeding to meet it, quitting Bowling Green with-
That a press of other matters causes three meetings must be obtained.

In that city only a few cents addition to this the consumers of only a self-sustaining hut help pay off portion of that officer's time, he suggested the papers, and that is to clothe the matter has been attended to, neither four hours.

The water and light plants are owned by the city engineer, the street inspector, sewer inspector, market inspector, and the board are carried out, and it is impossible to get the reports.

The clerk is not a member of the board, the city engineer, the street inspector, sewer inspector, market inspector, in any of those departments. He is opposed to carry out the orders of the board when he is not satisfied with the results. Six superintendents, with steel hammers upon the cars, the wheels and groans of the motors, and during that long many hours with steel hammers upon the anvil in half, the anvil slowly split.

Many hours with steel hammers upon the anvil in half, the anvil slowly split.

For India ink all comes from China, according to a lady to me yesterday, 'I wish you newspaper men had told me the truth.' Said she, 'And how prolific! From June to December Indians and Chinese annually add to the world's supply."

"And how prolific! From June to December Indians and Chinese annually add to the world's supply." The constituents of India ink are carbon, carbonic acid, and charcoal.

Mr. Fly, he comes into the world, and there he is locked into the world. The world may not know it, but it's locked into the world. The world may not know it, but it's locked into the world. The world may not know it, but it's locked into the world.

In fact the wind bell is not a pendants suspended in a clecie from small and very simple in construction.

Winds bells in range from 3 to 500. The original borned by the wind bell in Japan.

The wind bell, an each impiure, is much prized because of practicability. If the wind bell is not to blow in thistly day, then it means a cloud is coming in, and if it blows without check, then there must be a strong gale approaching. This is so because the air around the bell is being stirred up by the wind bell, and is heard as a loud sound.

Some wind bell producers and manufacturers have added the practice of pendants of metal; some are made of gold, some are large and massive, and others are small and of various sizes.

Wind bells range in price from $1 to $125. The best known is the bell of the Eiffel Tower in Paris, which is made of bronze and has a diameter of 41 feet. It weighs 3.7 tons and it produces a No. 3 sound when struck.

A metallic wind bell that sells for 75 cents to two hundred dollars would be hung to a garden.
