Handsome Prizes To Be Awarded

BEAUTIFUL TROPHIES NOW ON DISPLAY

While passing P. H. Weaks' Sons store this morning I saw two beautiful silver trophies in the window, and found upon reading the cards attached they were the two cups being given at the poultry show this fall at the Fulton county fair. One cup is being donated by the Honorable W. V. Gregory, Congressman from this district and is for the best bird entered from this district. This is the third cup Mr. Gregory has given at our poultry show, the other two being won by Mrs. D. J. Perry, on cock birds entered from her wonderful Buff Orpingtons. We will see if she repeats this year.

The other cup is the second cup given by the Honorable Jere Cooper, Congressman from the Ninth District of Tennessee. The cup last year was won by Miss Mattie Vincent, on a White Wyandotte Cockerel. The cup given by Hon. Finis Garrett, the last year he was in Congress was won by Mrs. Stella Milam, on a White Wyandotte hen.

While I was viewing these cups I could not help but compare the poultry shows being held here each year now with the shows that were held a few years ago. I asked Supt. Watkins, or "chicken" as he is known to every one here in Fulton, how many chickens he had in the show last year, he fidgeted all up and said we didn't have any chickens in the show last year, but we did have seven hundred and forty standard bred fowls in the show. Do you know this is a wonderful display of poultry for a county fair, and was about 200 more than was at the West Tennessee District fair held in Jackson, and I am told that poultry show gets about \$600.00 from the state for poultry alone. While the show here is put on by the fair association aided by the poultry association, and all the money paid out by the poultry association is donated by individuals who have the welfare of not only the fair at heart but the whole community at large.

Right here I want to say Supt. Watkins certainly deserves great credit for his untiring efforts in producing such a good show, and if the superintendents in the other departments worked as long and as hard as he does, we would have the best fair in the middle section of the country.

Then I thought what inducement was brought to bear upon the two Congressmen to get them to donate these two beautiful cups. Supt. Watkins said he just asked them if they would donate the cups to help the show, and they responded gladly. Mr. Gregory was over to the fair last year and asked to see the cup he had donated. A messenger was dispatched to the home of Mrs. Perry and both cups were brought in for him to see. He remarked, "As long as I am Congressman from this district and as long as you put on poultry shows as good as this one, you can expect a cup from me every year." Readers, that is the kind of interest Mr. Watkins has installed in his "chicken" show. And that is the kind of interest Congressman Gregory takes in his district. He is always on the job and has made such a good impression upon his constituents, that this year he has no opposition in his race for the office he now holds. At present, he, with other members of a committee, are going up and down the Mississippi river planning for

great improvements in that great river, and we are glad we have such two good men right on the ground as Congressman from our district also the state line, our near neighbor Hon. Jere Cooper. While we haven't kept up with Mr. Cooper's work in Washington as we have with Mr. Gregory's still we have been told he is entirely satisfactory to almost every voter in the Ninth district. West Tennessee and West Kentucky certainly are lucky to be represented by two such good men.

GOV. HORTON GIFTED LEADER

In our neighboring state of Tennessee on Thursday, August 7, the voters will elect their state ticket in a Democratic primary.

One of the outstanding candidates on the ticket is Gov. Henry H. Horton who is seeking re-election. We, here at Fulton, Kentucky, on the state line, have felt the benign influence of the Horton administration, which has been an inspiration, especially in road building. In fact, too much cannot be said about this "man of the common people, a man from the farm who knows the hardships and trials of the farmer and whose sympathies are with the rural people of the state, and a man who is carrying on the affairs of Tennessee in the interest of the citizenship thereof." No wonder he is loved and admired and it is our prediction, that on August 7, he will receive an overwhelming majority and finally re-elected governor. He has been tried and not found wanting. He has made a record of which the people of Tennessee and her neighbors are proud.

Will Speak In Union City Monday, 2 P. M.

On Monday afternoon, August 4, at 2 o'clock Gov. Horton will address the voters at Union City. A large delegation of Fulton citizens, especially of South Fulton, Tenn., should avail themselves of the opportunity of hearing this gifted leader at this time as it will probably be the last speech he will deliver during the campaign.

KILLED BY DAD'S TRUCK

Child Falls From Auto and Is Crushed Under Wheels

Hubert Nichols, 4, son of Mr. and Mrs. Kuy Nichols of Milburn, was killed west of Mayfield Sunday when his father's milk truck ran over him. The family was enroute home when the baby fell out of the cab and under the wheels. His body was crushed.

Miss Willie Belle Mayes will open her Studio of Music in Fulton in September. For information call telephone 229.

MARVIN CROCKER HURT BY CAR

Marvin Crocker, son of R. C. Crocker, of Riceville, was painfully injured last Friday, when he was struck by a car on the highway.

Crocker is employed on the highway work on Route 51, and was returning from work on a truck. Nearing his home he jumped from the truck, and ran around it to cross the highway. He failed to see another car which was coming from the rear and was struck and knocked down, but not seriously injured.

Wake Up! Fulton Citizens

We understand that engineers have been making a survey routing Highway No. 51 through the Highland, passing Fulton up entirely.

Is it possible that the new highway commission which has won our confidence and the Lieutenant Governor whom we hold in highest esteem would endorse such a movement? We can hardly believe it.

Fulton worked and sacrificed to get the Mississippi Valley Highway through our town and now that we have concrete streets for tourists and the traveling public generally to enjoy why re-route 51 and leave us out entirely?

Fulton is one of the largest and best improved towns on Highway 51 in Kentucky and there is no sane reason why the routing should be changed.

It may be that we have no reason to be disturbed, however, it is the opportune time for Fulton citizens to act in unison and look after the interests of the community. We want all the tourist travel we can get routed through our city.

WELCOME DR. CURLIN AND FAMILY

Dr. and Mrs. C. W. Curlin and family, formerly of Hickman, but recently moved to Fulton, are now at home to their friends at 414 Eddings street. We welcome them to our city. It will be remembered that Dr. Curlin purchased the large Seates apartment house on Carr street several weeks ago which he is converting into a hospital, a much needed institution in Fulton. Dr. Curlin has been a resident of Fulton county for many years with a successful practice and maintaining a hospital at Hickman.

Dr. A. G. Neill, a prominent physician and surgeon, is associated with Dr. Curlin at the Curlin-Neill Hospital on Carr street, which will soon make its opening announcement.

Middle-age is that period in a Fulton man's life when he finds happiness in sitting on the front porch and watching some other member of the family mow the lawn.

Canning

Brieflets

Home is often a place where a Fulton man goes after his day's work to take up his listening where he left off in the morning.

What kind of a country is it getting to be, where Halloween lasts two weeks and the Fourth of July is like a Sunday on the farm?

Another thing that is easy to understand in these days when so little is hid, is why silk manufacturers have to pay so much larger income taxes than the cotton planters.

Fulton people had better dispositions before the auto came and they found that it is possible for a road to have more holes in it than there are holes in a bachelor's socks.

Personally we'd rather get our picture in the papers by writing a testimonial for a patent medicine than for dropping 15,000 feet in a parachute.

Up in Newfoundland hailstones fell weighing 10 pounds, and after they busted all that was needed was liquor and mint.

The only time a Fulton boy is as helpless as he is when he is in the path of a tornado is when he is in the clutches of a pretty girl.

In running for the Senate the first essential is to lay aside a million or so for educational work in the primary.

One of the greatest drawbacks about dandelion wine is that it is finished and ready for use it is still dandelion wine.

The ideal husband is the Fulton man who treats his wife like a new auto even after they've been married ten years.

A turtle in New York state has lived to be 600 years old. But who would want to be a turtle for 600 years.

Autos are claimed to have raised the intelligence of the people but you would never know it on those curves in the road where other drivers are trying to cut in.

The Fulton boy who is seeking a job with a punch in it might try getting a position as a railroad conductor.

We now have baby autos, baby golf courses and baby kitchens—in fact, everything now in the baby line seems to be popular but the babies themselves.

ROUTE 4, FULTON, KY. (New Hope Community)

The Homemaker's Club met at the home of Miss Katherine Kimbro Friday afternoon with a good attendance.

Revival services, being conducted by the pastor, Rev. A. L. Mayes, are in progress at Mt. Vernon this week.

Miss Delma Moore of Crutchfield spent the weekend with his sister, Mrs. Carl Phillips.

The ice cream supper given school Saturday night was by the P. T. A. at New Hope well attended. Quite a nice sum was realized which will be used for improvements to the building.

Mrs. John Everett is visiting her daughter, Mrs. Ruth Hales near Clinton.

Mr. and Mrs. J. P. Moore and Mr. and Mrs. Paul Moore were Sunday guests of Mr. and Mrs. J. R. Elliott in Crutchfield.

Mr. G. A. Everett has been on the sick list for the past few weeks.

Union City Banker Passes Away.

Lee Garth, 50, president of the Old National Bank of Union City died Tuesday morning from an illness of double pneumonia. Mr. Garth was one of the leading bankers of West Tennessee and had been connected with the bank for several years. He was president of the Old National Bank for the last four years.

Funeral services were held Thursday.

Mr. Garth is survived by his widow and two sons, Campbell and Albert Lee, also two brothers, the Rev. John G. Garth of Charlotte, N. C., and Prof. Russell Garth of Denver, Col., and one sister, Mrs. J. E. Ramseyer of Fort Wayne, Ind.

The deceased was well known in Fulton and his wide circle of friends regret his passing.

Principal Resigns.

H. H. Mills, principal of Water Valley High School and president of the First District Education Association, has resigned, it was learned today. Mr. Mills will go to New York next month to enter Columbia University for study on his Ph.D. degree.

Mills has been principal of Water Valley High School for 6 years and was to have been head of the school at the opening of the new term Aug. 25. He was named head of the F. D. E. A. at Murray last November and had planned much of the program for this year's sessions. He will be succeeded by M. G. Martin, Eddyville, first vice president of the education organization, who will assume the duties of president.

So Says Tradition

"In our country the land is rather flat. We don't know where to locate the poorhouse."

"What you mean?"

"Every poorhouse I ever heard of was located over the hills."

Worst Part of It

Judge—You, a respectable young man, stole a coat. In consequence you have lost your post, and brought trouble and sorrow to your parents.

Accused—Yes, and the coat was too tight in the bargain.

Deserved a Discount

Man—How much do you charge for pulling a tooth?

Dentist—Four dollars.

Man—Well, how much do you charge for just loosening it?

OPEN MAYFIELD HOTEL AUGUST 7

Mayfield's \$350,000 hotel will be opened Thursday Aug. 7, officials of the Hall Hotel Company announced. The new hotel, erected by Mayfield citizens, is to be formally opened by the directors and managers. Mr. and Mrs. C. T. Winslow, Mayfield, will manage the new hotel.

Gov. Flem Samson, U. S. Senator Alben W. Barkley, Congressman W. Voris Gregory and Mayor W. T. Vaughn are among the invited honor guests. A six-course dinner and a dance will mark the opening of the new hotel.

UNION CITIZEN PASSES AWAY

C. L. Andrews Was Owner of Jewelry Store Here

C. L. Andrews, highly esteemed and well known business man of Union City, and owner of the Andrews Jewelry Store here, died at his home in Union City Thursday night of last week. Funeral and burial took place there Saturday.

Charles Andrews, who is in charge of the jewelry store here, is a son of the deceased. Many friends here extend sincere sympathy.

TWO DIE IN WRECKS

Mayfield, Ky., July 2.—Relatives have been informed of the death of Pearl Pitman, 46, in an automobile wreck near Akron Saturday night. Details of the motor accident were not learned. He left Mayfield 18 months ago to reside in Akron. Besides his widow, he leaves three sons, Ruble, George and J. D. Pitman; three brothers and two sisters.

Wayne Williams, 32, another former resident of Mayfield, was killed Saturday night near Cairo, Ill., while enroute here by motor from Independence, Mo. He died when a sedan, occupied by five former Graves countyans went off the road on a curve and landed against a tree.

His brother, Turner Williams, was driving. He and other occupants of the car escaped with minor injuries.

Community Building

Why Living in Small Town Has Advantages

Prof. Walter B. Pitkin bases a prophecy as to the rosy future of the small town, which he makes in the Household Magazine on four things: The healthier living conditions in small towns, the realization that the majority of city dwellers are as poor as their country brethren, the new shift of industry away from big cities and the better opportunities for acquiring one's leisure in the country.

Small towns, he says, have sunshine and freedom from smoke. Out of every thousand inhabitants of the big towns, you cannot find more than three or four who are better off in their jobs than the people you meet in Main street or around by the post office. And now comes the new American revolution! Industry begins shifting to the small towns. No man in his senses thinks of starting a factory in a metropolis nowadays unless he is making something which cannot be made elsewhere. And, finally, concludes Doctor Pitkin, "If you live far from the clamor of Broadway, you can pick and choose your leisure pursuits effectively. And, having picked them, you can hold to your course with few or no distractions. And that, I maintain, is half of happiness. To do what you like, in the way of exercise, play, reading, music, inventing, dreaming, or what not, without having a mob of peddlers yelling at you to do something else."

Development of City Depends on Planning

It was only ten or fifteen years ago that planning, and along with it zoning, came to be regarded as absolutely necessary in the larger cities of this country. It was soon evident that only by such means could the hazard growth be replaced by orderly development in the interest of rapidly increasing numbers of urban residents. The desirability of the same protection for suburban areas and smaller centers is a product of more recent years. The spread of this enterprise is an indication of the improved conditions which are a part of the modern city.

In giving the result of a recent survey of the situation, the Department of Commerce, through its Division of Building and Housing, notes this fact: "Cities having planning commissions are believed to be more apt than others to exercise foresight and true economy in the laying out and improvement of streets, the location of parks, playgrounds and buildings, the development of transit and transportation, provision for street traffic, and in the equitable regulation of private use of land through zoning ordinances."

Good Citizen Defined

Good citizenship is loyalty toward community, state and country. It begins right at home. A citizen who delights in keeping his own premises clean and up and developed, who cooperates with each worthy cause or development that promises improvement, advancement, or uplifting of his community; who supports his home institutions and enterprises so far as economics permit; who obeys the law; who loves order and peace; who takes pride in helping to develop and maintain these conditions, with a similar spirit and attitude prevailing for state and country, is an example of what constitutes good citizenship.—Ruth Adele Barr, in Grit.

Must Speed Up Planting

During recent years tree planting has received great stimulus in the states largely because of the help that the federal government has been able to give. In 1925 only 15 states were distributing planting stock to its citizens, says the American Tree association. Thirty-two states are now engaged in this activity. Nevertheless it is going to be necessary to speed up America's planting program at least ten times in order to reforest our denuded lands with reasonable promptness.

Makes for Civic Good

Just as the improvement in the home influences the family, the modernization of a house does a certain amount of good for the community. In the last analysis, a city is but a collection of homes and anything that improves a part is working for the good of the whole. Modernizing lifts up a city out of its ordinary commonplace position and transforms it into a live progressive community, filled with busy individuals striving for their betterment.

Be Liberal With Paint

Paint has many virtues. Besides beautifying your home, it will increase its sale value and, in fact, the value and desirability of the entire neighborhood. Particularly applicable in this connection is the oft-quoted but very true Dutch proverb: "Good paint costs nothing for it saves more than its cost."

Fewer, Better Schools

Cook county (Ga.) decreased its schools from 30 to 11 in less than a decade, replacing old buildings with consolidated schools.

REVENGE

The young bride was standing on the tiled porch using a new pair of field glasses. "Darling," she cried, "the real estate agent who told you that our house was only a stone's throw from the station is getting out of the train now."

"Oh, is he?" returned her husband grudgingly. "Well, give me a brick out of the garden and I'll do my best."

Alimony for Him

"I guess I'll have to give him up as hopeless," she sighed. "Is he as bad as ever?" asked her dearest friend. "Yes," she replied. "I've bought him the right shaving cream, the right tooth paste, made him use the proper tobacco; in fact, I haven't overlooked a single ad, and still he is impossible."

Results of the Fray

"Say, old man, you are a sight! Why, you are pasted with fudge and smeared with chewing gum. Get mixed up in a candy store?" "Worse than that," I attempted to ampire a basketball game between two girl teams.

A Small Matter

Clarence Littlebeck—Thinking of you all day has given me absence of mind. Dolly Dill—Don't worry. You'll never miss it.

NOT WILLING TO HELP

"No—he's willing everything to his wife."

The Real Student

The merry boss to pleasure turns. While we eat simple hominy. The one who pays the taxes learns Political economy.

A New Recipe

"John," said Mrs. Newlywed, "run to the drug store quick and get a bottle of paste." "Library paste?" asked her husband, in surprise.

"Yes, if you can't get kitchen paste, I'm going to make some French pastry for your dinner."

Liquid Chicken

Freshman—We sure have a fine landlady. She saved me the tenderest part of the chicken when I was late for dinner yesterday.

Soph—What part was that?

Freshman—The gravy.—Capper's Weekly.

More Modernism

Jack—Why did you break with Alice, I thought you were crazy about her?

Jim—I am, but I decided I couldn't stand it to live with her folks.

No Good Cook

Leban—My wife is a canny housekeeper.

Sayonara—My wife doesn't know how to cook either.

MODERN VERSION

Tortoise—Let it be understood before we run this race, that I want 75 per cent of the gate receipts and all movie rights!

Three Miles on a Pint

Bill thought his gas was getting low. He struck a match, the tank let go! Bill called three miles right in the air—Three miles on a pint is pretty fair.

Splendid Test

John—What is the best way to find out what a woman thinks of you?

James—Marry her.

DAIRY FACTS

FEEDING GRAIN TO DAIRY COWS

Wise Feeder Will Supply Balanced Ration.

(By J. W. LINN, Extension Dairyman, Kansas State Agricultural College.)

Balanced rations are just as important to the dairy cow in summer as in winter. To maintain the balance and keep up the high production record, grain must be fed.

Grain feeding is always more expensive than roughage or pasture feeding in Kansas. If grain feeding is more expensive than roughage or pastures, there can be only one reason for its use, and that is to supply nutriment that the heavy producing cow cannot get from the roughage or pasture.

Profit from dairy cows is linked so closely with high production that it is impossible to separate them. In other words the cow producing 400 pounds of fat is making two and a half times as much profit as the one making 200 pounds of fat.

The wise feeder will feed a balanced ration and do so according to production. He will feed such as to have the same ratio between protein and carbohydrate—about one to six.

The grain ration that will usually be found most profitable is two parts of corn to one part of oats or bran. This will be true until the grass begins to dry up or grow short. It is important to again increase the protein part of the grain ration at which time the 4-2-1 ration which consists of four parts corn, two parts bran or ground oats, and one part cottonseed or linseed meal should be used.

The second important thing in profitable grain feeding is to use the grain according to production because the cow producing 50 pounds of milk will need about three times as much grain as the cow producing 20 pounds.

Production Best Guide for Feeding in Summer

It's the high producing cow that needs grain while she is on pasture, according to L. W. Ruppel, of the animal husbandry staff at the Wisconsin State College of Agriculture.

Some have the idea that their cows do not require grain because they turn up their noses. When they first go out on pasture, they will find, according to Ruppel, that the cows will soon find out that the grass is not all that it seems to be.

Little have been on the grass about a week, grain will keep them from slumping in production.

The proper way to determine how much grain to give during the summer, Ruppel believes, is to feed according to production. A Holstein, producing over 30 pounds of milk per day, should receive grain at the rate of one pound for every four pounds of milk produced above 20 pounds. That is, a cow producing 50 pounds of milk should have five pounds of grain. Jerseys and Guernseys should have a little more grain than Holsteins, and when the pasture is poor, the grain ration should be increased.

Equal amounts of corn and oats make a good mixture for the summer grain ration. A little oil meal may be added to make the feed more palatable. Protein supplements are not usually necessary because sufficient protein is obtained from the average good pasture. When pastures become poor during the dry season, some protein feed is beneficial.

Heavy producing cows pay best.

To feed cows well is to feed them profitably.

In calf production, the influence of a good bull is of major importance.

Feeding dairy cows according to the amount of milk they produce is a profitable practice.

Milk can't be manufactured without salt and water. See to it, therefore, that the cow, the ewe, and the sow have plenty of both.

All kinds of young animals thrive best on green pastures. A green patch, enclosed with a temporary fence, often solves the grazing problem.

Creameries which buy whey cream should have no fear of ill effects from mixing it with the regular supply of cream, if the quality of the whey cream is equal to that of the regular supply.

To keep the average butterfat production on a steady increase, a herd owner must cull unprofitable cows.

Destroy all breeding places of flies by hauling away manure daily and preventing accumulation of any filth.

Since milk is one of the most easily contaminated foods, it is important that it be kept away from disagreeable odors and in a cool place. A brick or cement milkhouse furnishes the needed conditions in a most satisfactory manner.

A Two-Dollar Dinner For Six

Clear Bouillon.....20¢
Cheese Dumplings with Tomato Sauce.....52¢
Bacon Strips (1/2 lb.).....28¢
Mixed Vegetable Salad.....48¢
Baked Orange Custard.....46¢
Demi-tasse.....5¢

Cheese Dumplings with Tomato Sauce: Sift two cups flour, four teaspoons baking powder, and three-fourths teaspoon salt together, and cut in two tablespoons shortening and two tablespoons cheese. Add three-fourths cup milk, roll one-fourth inch thick, and cut in 1-inch squares. You will need seven-eighths cup (three-eighths pound) of grated cheese. Distribute the rest of the cheese on the squares, about one tablespoon of each; bring corners and edges together and pinch tightly. This should make twelve dumplings.

For the sauce, sauté one tablespoon chopped onion in two tablespoons butter until golden, add two tablespoons flour, and stir smooth. Add the contents of a No. 3 can of tomatoes unstrained, and cook a minute with one-fourth teaspoon sugar and salt and pepper to taste. Drop the dumplings onto the boiling tomatoes, cover tightly and steam ten minutes. Serve at once.

Mixed Vegetable Salad: Drain a well-chilled No. 2 can of vegetables for salad. Mix together two tablespoons French dressing and two tablespoons mayonnaise, stirring until smooth. Combine with the vegetables. Serve on lettuce.

Baked Orange Custard: Cut tops off six medium oranges, making a saw edge. Scoop out all the pulp, mash and press through a sieve. Add four tablespoons sugar to juice, heat to boiling, and pour slowly over three slightly-beaten eggs. Add one-fourth cup moist coconut and pour back into orange shells. Place in a shallow pan with a little hot water, and bake in a slow oven, 325°, for 40 minutes. Serve cold.

Lesson for August 3

NAOMI AND RUTH: A STUDY IN RACIAL RELATIONSHIPS

LESSON TEXT—The Book of Ruth. **GOLDEN TEXT**—And hath made of one blood all nations of men for to dwell on all the face of the earth. **PRIMARY TOPIC**—Ruth a Helpful Daughter. **JUNIOR TOPIC**—Naomi's Faithfulness Leads Ruth to God. **INTERMEDIATE AND SENIOR TOPIC**—Our Neighbors of Other Races. **YOUNG PEOPLE AND ADULT TOPIC**—The Way to World Brotherhood.

I. How Naomi and Ruth Were Brought Together (1:1-15).

On account of famine in Bethlehem of Judah, Naomi with her husband and two sons sojourned in the land of Moab. After the death of her husband, her two sons married Moabitish women. After a time her sons died also. After the death of her sons, Naomi resolved to return to her homeland, having heard that the Lord had visited his people in giving them bread. They went to Moab to escape trouble but only got into more. This is always the case when God's people go into the world to escape difficulties. It was not until Naomi was thus chastised that she resolved to return. When the time came for her to go, Ruth and Orpah accompanied her for a distance.

II. Ruth's Noble Choice (1:16-18).

Greatly as Naomi loved her daughters-in-law, she would not have them go into this matter blindly. She wished them to know the seriousness of their action.

1. No chance for them to marry again (v. 11).

Naomi told them that she had no more sons for whom they could wait. In that day for a woman to be unmarried was the greatest disgrace. Society differed then from now. No women were open by which women could earn their living.

2. Heathen gods must be renounced (v. 15).

Idolatrous worship could not be carried on in the land where God's people dwelt. This was delicately touched upon when Orpah went back. She went back when it was plain that there was no chance for her to get a husband. After Orpah's return Naomi put an additional test upon Ruth, that of giving up her religion. Ruth was equal to the occasion. Her mind was fully made up. She was willing to accept as her God the One who was able to produce in his subjects the nobility of character she had observed in Naomi. Ruth's determination was so definite and unflinching that her expressions have come down to us in words which "no poetry has outlived and no pathos has exceeded, and which has gone through centuries with the music which will not let them be forgotten." She was determined to share Naomi's journey, her home, her lot in life, and grave in death, whatever or wherever that would be. To crown it all, she renounced her heathen gods and worshiped Jehovah, the true God.

III. Blessings Which Attended Ruth's Choice.

1. She found the true God (1:10).

Instead of a heathen god who was unable to help her, she had the Living God, the God of Israel.

2. She found friends (ch. 2).

As she went to glean she was led to the field of Boaz, a man of grace and wealth. The servants of Boaz treated her with consideration.

3. A good husband and happy home (chs. 3 and 4).

An honored place in the Israelite nation (4:13-17).

4. She became a link in the chain of the Redeemer's ancestry (4:18-22 cf. Matt. 1:5).

The one who fully decides for Christ and gives up all for Him shall receive a hundredfold in this life and in the world to come eternal life.

The story of Ruth is a fine example, first, of right racial relationship. The union of Ruth with Israel was around the true God. And, second, of dispensational truth.

(1) The famine in the land indicates the testing of the Jews in the great tribulation.

(2) The going into Moab indicates the sojourn of the Israelites among the nations.

(3) The sickness and death in Moab indicates the chastisement of the Jews and their sorrows in the present age.

(4) The return to the land indicates the gathering of Israel to their own land, Palestine.

(5) Ruth's decision indicates the gathering of the Gentiles through the influence of the Jews.

(6) The marriage between Boaz and Ruth indicates the union of the church with Jesus Christ.

Adds Charm to Character

Small kindnesses, small courtesies, small considerations, habitually practiced in our social intercourse, give a greater charm to the character than the display of great talents and accomplishments.—Ketty.

The 20th Year

**BALDRIDGE'S
STORE
TO CELEBRATE
One Day Only
with 20c prices**

20 years ago Saturday,
Aug. 2nd,

At 9 o'clock in the morn-
ing we

Started business in
Fulton and

In appreciation of the
patronage

We have had for the
past 20 years,

We are going to cele-
brate the 20th

Year with 20c prices.

Will mention just a few
below

In order that you might
know

What we mean of 20
years ago.

White enamel Tea
Kettle20c

White enamel Dish
Pan20c

White enamel Per-
colator20c

White enamel Stew
er20c

White enamel Com-
bined20c

White enamel ware, Tea
pans, etc.,

Percolators, sauce pans

Dish pans, convex ket-
tles, 20c.

Most everything will go
As it did 20 years ago.

Glassware, queensware

Towels, hosiery, rugs,

Stationery, candy, no-
tions,

Hardware, toilet arti-
cles

To appreciate the val-
ues

Come in and see, Look
our

Window displays over.

Our store will open Sat-
urday

Morning at 9 o'clock,
and we

Will sell this way for
The one day only, Sat.,
August 2.

We thank you for the
past

20 years of business and
Pledge ourselves to
give

Better service, prices,
etc.,

In the future than we
Ever have in the past.

Yours for service,

A. G. Baldrige, Mgr.

**BALDRIDGE'S
VARIETY STORE**

Route 5 News

July 20th two young couples
of this community entered the
bonds of matrimony—Mr. Dar-
rel Terrel and Miss Annie Kath-
erine Brown of Ruthville, and
Mr. Dewey Grissom and Miss
Corine Jones.

Mr. and Mrs. Grissom will
make their home with Mr. and
Mrs. Aaron Butts.

We wish these young people
much happiness.

The meeting at Oak Grove
was largely attended, and in-
terest increased from the be-
ginning. Brother Brooks of
Fulton preached the plain gos-
pel of Christ, which resulted in
the baptism of 15 and the ad-
dition of two others to the Oak
Grove congregation. These
were Mrs. Pet Cavender and
Mrs. Jones. Those baptized
were: Robbie Watts, Minard
Nanney, Russell Parish, Wil-
liam Duncan, Paul Colley,
Ouida Burke, of Linnville;
Paul Colley, Ray Pucket, The-
ma Jones, M. W. Duncan,
Apal Balden, Edd Coltharp,
Mary Francis Jones, William
Harrison, Mrs. Martha Rhod-
es and a Miss McClain. Bro.
Brooks will preach at Oak
Grove each third Sunday af-
ternoon at 2:30. At Knob
Creek each fourth Sunday af-
ternoon.

A card from Mrs. P. P. Ridg-
way states she is enjoying her
trip to Big Springs, Texas.

N. O. Dalton is very ill with
what appears to be typhoid
fever.

Bro. Warlick, of Dallas,
Texas, has been holding the
meeting at Knob Creek this
week, which I attended for a
couple of days. Three addi-
tions by baptism, two coming
from other churches.

The Mt. Moriah meeting was
postponed till the fifth Sunday
in August.

Miss Evelyn Foy is spending
this week with Doris Finch.

Mrs. Etta Binkley is spend-
ing a few weeks with her
brother, W. H. Finch, and
family.

WATER VALLEY ROUTE 1
(Blair Vicinity)

The dry weather has become
a serious matter. Crops are
suffering severely in this com-
munity. Stock water also has
become a serious proposition
with most every one who does
not have a pump well. We
prayerfully trust that all who
are in need of rain may get
rain soon.

Mrs. J. T. Robey has been
spending a few days in Padu-
cah at the bedside of her
daughter, Artie, who has been
seriously ill in the I. C. hos-
pital.

Miss Virginia Faye Cooley
visited little Anita Gene Stew-
art Saturday night and Sun-
day.

Misses Corma Lee Cooley
and Trudie Mae Singleton vis-
ited Misses Margarette and
Janette Wilson Saturday
night.

Mr. John Boaz has purchas-
ed a Ford car.

Mr. Audie Herron, of De-
troit, visited Mr. Alvin Stew-
art last Wednesday.

Mrs. A. G. Stewart and little
daughter, Anita Gene, visited
Miss Artie Robey, who is in
I. C. hospital at Paducah, re-
covering from a serious opera-
tion.

666

Relieves a Headache or Neuralgia in
30 minutes, checks a Cold the first
day, and checks Malaria in three days

KENTUCKY SWELTERING

110-Degree Temperature Cap-
tures Honors for State

Record high temperatures
were recorded in Kentucky
this week. Earlington captur-
ing the dubious honor of be-
ing the hottest place in the
state and probably the nation,
with an official reading of 110
degrees, the highest in the his-
tory of the government rec-
ords there.

Paducah and Bowling Green
were neck and neck in second
place, official highs of 108 be-
ing recorded in both cities.
Owensboro reported a 105 de-
gree official reading and Hick-
man, in the far western part of
the state, 103 degrees, while
Fulton registered 108.

Louisville was well up in the
list with 104 degrees, the high-
est mark in 12 years and three
degrees higher than the previ-
ous high for July 27. The Pa-
ducah, Owensboro and Bowl-
ing Green marks were the
highest in the history of their
local official records.

**"The Rats Around My Place
Were Wise," Says John
Tuthill.**

"Tried everything to kill
them. Mixed poison with meal,
meat, cheese, etc. Wouldn't
touch it. Tried RAT-SNAP.
Inside of ten days got rid of all
rats." You don't have to mix
RAT-SNAP with food. Saves
fussing, bother. Break a cake
of RAT-SNAP, lay it where
rats scamper. You will see no
more. Three sizes, 35c, 65c,
\$1.25. Sold and guaranteed by

Energy Giving Corn

WHEN the children run wild in spring, it's a good thing to have an energy providing and inexpensive dish waiting for them when they come in breathless from their romps. Here's one they'll be sure to like, and which will provide enough food for at least half a dozen of them at a cost of considerably less than a dollar:

A Tasty Dish
Corn and Beef Loaf: Mix together one pound ground rump of beef, one-half pound ground fresh pork, one beaten egg, one tablespoon chopped onion, one-half tablespoon salt, one-fourth teaspoon pepper, one-half cup bread crumbs and the contents of one 11-ounce can corn, and form into a roll. Place in a well-greased

loaf pan and bake in a hot oven (300°) about forty-five minutes.

Another delicious and energy giving corn dish is:

Cream of Corn and Mushroom Soup: Cook the contents of one 11-ounce can corn, three cups milk, one large sliced onion, one small stalk celery and one bay leaf in a double boiler for fifteen minutes, then strain. Cut fine the mushrooms from a 4-ounce can and sauté them in two tablespoons butter for three minutes. Add two tablespoons flour, and stir smooth. Add the mushroom liquor slowly, stirring till thick and creamy. Add to the hot milk mixture, and cook again till smooth and creamy. Season to taste with salt and pepper, and add one-half cup cream. Serve in cups. This recipe serves six.

THE FULTON ADVERTISER

POULTRY
(By J. T. Watkins)

Well, I guess you have your premium list and have looked it over and decided what chickens you are going to put in the show. If you have not, get busy and make up your mind, for we want the BIGGEST show this year we have ever had. We want to make a mark for others to shoot at in years to come.

Premium lists for the fairs and shows are beginning to come in. We have received lists from Louisville State and Memphis Mid-South fairs. In looking over these premium lists and comparing the premiums offered by them with the ones offered by us, I can't very well see where they beat us very much. When you take into consideration Memphis gets about \$15,000.00 from the state and Louisville is sponsored by Kentucky, they don't beat us any.

Well, next week will be a busy one for me. I will try and collect all the donations promised us. After that I will drum up membership dollars. And right here I want to say there are at least 100 persons living in the neighborhood of Fulton who should become members of the poultry association. Remember the poultry association has done more for the poultry industry in this locality than any other thing. You should join. We need you. You need us, and united we can do a lot more for the poultry industry, but without your cooperation I am afraid I can't do very much more. It is not right to ask me to do it all. I am willing to do my part. Are you?

The rabbit breeders are figuring on a nice large show. We have 50 or 100 rabbits in sight now and maybe more. Speaking about rabbit shows, Memphis will stage two big shows this season. The first will be held in connection with the Mid-South fair, and promises to be a real show, while the second will be held Jan. 20, and will be one of the largest shows in the Mississippi valley. Rabbits will be entered from all south-eastern states, with possibly Texas and Oklahoma sending in some. Any person raising rabbits will do well to visit this winter show, even if you do not enter any rabbits. There will be lots to learn about the rabbit game.

Remember, we want to make Fulton county the best poultry county in the state, and to do that we will have to have a standard bred flock on every farm. Anyhow, it is as easy to raise a flock of standard breed as it is to raise a flock of "dunghills" and the returns are so much better. Get rid of your scrubs and put in a flock of pure bred fowls and you will never be sorry.

Join the poultry association, pay your dollar for a year's dues and be contented.

Hand us a dollar bill and get your name on the Advertiser list as a regular subscriber.

Among the County Agents

Fifty farm women from Breathitt, Clark, Lee, Harlan, Perry and Leslie counties attended the annual homemakers' camp at the Robinson Experiment Substation at Quicksand.

The county agent has interested several Warren county farmers in establishing good small flocks of sheep as an additional source of income.

The substitution of purebred poultry for mongrel flocks has been a feature of farm progress in Elliott county this year.

Business men have joined with farmers in planning a campaign to put purebred livestock on Es-till county farms. At least one purebred sire will be purchased each month.

Thirty Caldwell county farmers visited Duke Pettit, inspecting his 700-acre farm, including his fields of alfalfa, clovers and grass mixtures, his beef cattle feeding, truck gardening and other operations.

A large number of Grant county farmers sowed millet and cane to produce feed in place of clover, alfalfa and other legumes lost in the drought.

Calloway county Jersey breeders recently reorganized a county association. A show will be held in October, and a county cattle exhibit made at county and district fairs.

Fulton county farmers who are feeding balanced rations to good poultry are reporting profits in spite of low prices.

Good progress is reported among 20 Washington county farmers who are feeding ton liters.

A 4-H Club leaders' recreational training school at Independence was attended by 50 men and women interested in junior agricultural club work.

TITTERS and TATTERS

"Arithmetic"
This is the famous statue of the Goddess of Mathematics which critics claim is obscene. The sculptor is Moe Einstein who designed it in honor of Bossy Gillis, Mayor of Newburyport. The Colonial Daughters have protested its likeness to Martha Custis and officials have forced the artist to put a bathing suit on it until Prohibition goes out.

Seaside, N. J. is offering some nice, fresh, 6% Sewer Bonds, we note in our morning's mail. This reminds us that we have four sections of old drain pipe and a cast iron bathtub that we are offering when, as, and if. No alterations.

The epidemic of short pants now taking the country by storm, induced us to pose in this garb for an artist friend. After carefully surveying the result this column will wear long pants no matter what Lindbergh names his baby.

Business Is Improving
One woman was seriously injured and forty-two others cut and bruised, according to the New York World, in a bargain rush at The Fair Store, Paterson, N. J., when some 500 women waiting in front of the store surged forward as the doors opened, pushing those in front through eight plate glass windows not of the shatter-proof variety.

"The weaker sex! Weaker where?" Last week, Cyrus V. Wampole, the corn savor king, awoke to the strains of a breach of promise suit. The sketch, made in her lawyer's office shows Moe's Mushmouth, late star of "Tramp Life," smiling on grandpa's lap in the jolly days before she decided to sue him for the Bulgarian war debt. She claims he refused to marry after kissing her in a phone booth. The fight is for ten rounds. Winner takes all.

The judicial equanimity of Magistrate Stern, and the peaceful dispensation of traffic fines in Yorkville Court, was considerably disturbed last week by the sight of a Western Union messenger boy waving a \$1 bill and pleading guilty at the rate of 60 cents an hour for Miss Barbara Adam of 797 Madison Avenue.

Hizzoner refused to honor her proxy, raised her bid to two bucks, ordered her to bring it to court in nickels, and warned her against unmuzzling her dogs on restricted lawns.

More Eggs with Wayne Egg Mash

It's great fun to gather the eggs both winter and summer where hens eat this high quality egg mash.

Keep your mash feeders filled with Wayne all the time. Then watch your egg records climb—and your cost of eggs per dozen go down.

If you'll give Wayne Egg Mash a fair trial—we know you'll soon come back for more.

PROVISIONS FOR WEEK-END TRIP

Everybody Enjoys Outings Which Are Inexpensive.

(Prepared by the United States Department of Agriculture.)

There is now one motor vehicle for every five persons in the United States, according to the United States bureau of public roads, or one for every family. There is no doubt but that a great number of families of moderate means who would not have dreamed of taking frequent week-end outings a few years ago are now able to enjoy the possession of a car and the opportunity to use it for recreation in the open air.

Considerable distance may be covered in a Saturday-morning or Sunday-night trip, or more leisurely driving to favorite nearby picnic or camping grounds may be preferred. From the mother's point of view such outings are a blessed release from the former drudgery of Sunday spent cooking and clearing up the biggest dinner of the whole week. Everybody enjoys them, and with a little planning they may be both easy and inexpensive.

Keeping Quality Important.

In planning what food must be carried, as three or four meals will probably be eaten on the road, the prime consideration is the keeping quality. Unless some sort of traveling refrigerator is taken along, it is best to select for the second day's meals foods that do not require being to be palatable or safe to eat. A small camp

An electric icebox hooked on the back of a car to preserve foods while on outing trips.

cooking kit is a very satisfactory part of the week-end equipment. It should include a frying pan and a saucepan, a coffee or tea pot, and some plates and cups suitable for serving hot foods and beverages.

For the first picnic supper one may choose among the entire range of fresh cooked meats or chicken, or if the weather is cool, bring hamburger patties or chops to broil over the camp fire. Salad ingredients like tomatoes, lettuce, celery and cucumber may be carried, to be put together when wanted, or potato salad made at home and brought in a glass jar or enameled carton. Except for tomatoes and cucumbers, which keep well because of their skins, none of these foods should be planned for the second day. The more perishable fruits, such as berries, cherries, fresh pineapple cut up and put in a glass jar, or fresh apple sauce, are best the first day. Hot coffee and ice cold milk may be brought from home in thermos bottles. If lemon juice is squeezed and sweetened ready for mixing into lemonade it will be a refreshing beverage to serve. If sandwiches are wanted, have them the first day. Loaf cake, cup cakes and cookies all travel well, especially if put in a tight tin box.

Camp Fire Dinner.

For a camp fire dinner the second day, the bureau of home economics suggests fried dried beef and scrambled eggs. Both the "makin'" for this dish can be safely transported without ice. Let the boys of the family help to cook this dish. With it have tomatoes or cucumbers, and buns, either plain or toasted, as they will not dry out as much as loaf

ONE OF FIRST BUILT AUTOMOBILE MODELS

This truck-like vehicle, now carefully preserved in the Vienna Technical museum, was one of the earliest models built by Siegfried Marcus, first to use a gasoline-driven motor in an automobile. It was constructed in 1875. Note the rear wheel brakes and the de luxe fenders.

ADVEISER

For dessert on the second day be oranges or whole pineapples, cut up in sections when wanted. Some of the cake from the day before may be left.

A good hot dish for supper the second day will appeal to everybody. A vegetable chowder may be made of potatoes, bacon, or salt pork, canned or dried milk, onion, and celery if possible. Or one of the excellent canned chowders, reheated on the spot, may be depended on, with crackers as the breadstuff. Cheese may be served at this meal, with the crackers, and marmalade or jam. Bottled grape juice will be good for a fruit drink the second day.

In the picnic kit, in addition to whatever cooking utensils are liked, one might keep permanently a bottle opener, can opener, bread knife, table knives, forks, spoons; plates and cups of metal, or paper; paper napkins and waxed lunch paper; salt, pepper, loaf sugar, a small can of evaporated milk — and a box of matches for the camp fire.

THE MOTOR QUIZ

How Many Can You Answer?

Q. Why is it customary in the Philippines to hire chauffeurs?

Ans. The operator of a motor vehicle which injures a pedestrian is subject to arrest and imprisonment until he can prove that he is blameless. For this reason most of the car owners employ a chauffeur.

Q. What is the motor vehicle registration of the Philippines?

Ans. Approximately 29,000.

Q. How many cars are registered in Canada?

Ans. 1,070,819 or one car to every nine persons.

Q. What defect is produced by "choking" the carburetor?

Ans. Pulling out the "choke" causes a raw mixture of gasoline to be drawn into the engine, which fires readily in cold engines. Excessive use of the "choke" causes fuel waste, sooting, oil dilution, fouled spark plugs and irregular running of the engine. When the "choke" is used properly, according to the instruction book, and the spark plugs are in good condition starting should not be difficult even in the coldest weather.

Belgium to Start Eight Production This Year

Production of new eight-cylinder cars in Belgium is expected to start, in quantity, during the current year, according to a report received and issued by the automotive division of the Department of Commerce. This shows that production in Belgium during the past year was 6,000 passenger cars and 1,000 trucks. There was a considerable increase in the number of six-cylinder cars at the expense of four-cylinder cars. The new models of Minerva eight-cylinder cars are expected to reach quantity production during the current year.

AUTOMOBILE NOTES

A young hitch-hiker in the neighborhood reported a lame shoulder after the week-end, from swinging a thumb over it.

"Let me see something that's gone 187,000 miles," said a college boy to the man on a used car lot. "I haven't the time to break one in."

With these automobiles that get up to 240 miles an hour, we assume you jog along at a nominal 100-mile gait, the first 500, to get them properly broken in.

A Wisconsin lad completed a high school course in a year by doing everything four times as fast as usual. This would require driving the coupe 280 miles an hour.

Another rather jolly impasse is when a local driver, accustomed to making inside left turns, meets a visiting motorist who is equally accustomed to the outside type.

KEEPING COOL

Next to cures for a bad cold, there are more recipes for keeping cool than for any other discomfort. But we're not going to add to the list. We're just going to venture a little remark and let it go at that, and that is that it has always seemed to us that the people we meet around Fulton who appear to do the least suffering during hot weather are the ones who do the least worrying. They expect hot weather in summer. They know that fretting and fuming, or even swearing about it, isn't going

to lower the temperature a single degree. They know that if we did not have hot weather when hot weather is due we wouldn't have very much to subsist on when it is gone. They try to smile when others are frowning; they get all the sleep they can, stay in the shade as much as they can, and think pleasant thoughts, as a result they appear to get through the summer season more comfortably than those who get excited and nervous. We're not offering it as anything more than an example. But we'll wager that if you'll try it you'll find it the best way yet to keep cool.

YOU CAN'T BEAT IT

A new "racket" appears to be sweeping the Middle West at present, and since it is apt to spread, and Fulton citizens may have a chance to "bite at it," we want to put them on their guard. It is apparently being worked by the same

band of swindlers, of the acquaintance of a neighborhood who little money in bank. On acquainted a member admits that he plays the races, and occasionally displays a "roll" of money he claims to have won. Later on he borrows \$50 or \$100 from the intended victim, but returns twice the amount just to prove he is lucky. He does this several times, increasing the amount each time. Later on he makes a big "touch" but this time he fails to win. He also fails to show up at the appointed place where he was to turn over the winnings. And the trusting acquaintance is out his money. Often it represents the saving of a lifetime. Don't be lured into this "racket," whether the promoter is trying to interest you in horse-races, in the wheat pit or in some particular Wall Street stock. You can't get something for nothing—and you can't beat the other fellow's game.

A VACATION HINT

We don't want to set ourselves up as an authority on touring, and neither do we want to be accused of trying to tell Fulton people where they should spend their vacations. But we feel sure everyone is open to suggestions, so we are going to offer one.

Why not see your own state first? The desire to visit strange territory is natural; we all have a streak of that old primitive wild-life in us, handed down from our forefathers who spent their days wandering in the forest and seeking new scenes and new comforts, as we do now. Just because the places of beauty and historic interest in our own state have not been as well advertised as some of those in other states does not mean they are any the less attractive. There are plenty of places to drive to in our own state where delightful vacations can be spent, and where there are things of interest to see. Fact is, few people around here really know what a wonderful state we live in, and of its many advantages, because they have never visited it.

Get a state map, a road map, and a state history; you can do so handily. Study up your own state a little, and then map out a vacation trip that will take you to the most interesting parts of it. You'll come back with a better opinion of it and better satisfied with the part your labor and your taxes play in maintaining it. You'll also save a lot of money that would otherwise be spent so far away from home that none of it would ever get back.

THE COTTAGE ORGAN

When Uncle Sam's new census tabulations are complete, and they will be in a few weeks, the figures will show the number of radio sets owned in American homes. But we don't suppose we'll be enlightened on something about as interesting—the number of cottage organs still in use.

To the younger generation around Fulton the old parlor organ, once common in American homes, is a distinct novelty. In fact, hundreds of boys and girls around here have never seen one. But to older residents they remain a fond memory of "the good old days," when we lived more naturally because we didn't grab our music out of the air, when our shows were put on by a troupe of patent medicine peddlers instead of through a roll of celluloid film, and when we got our meals with the aid of a cook-stove instead of a can-opener.

Many can go back to the gospel hymns of Sankey and Moody, made more beautiful when played on the little cottage organ, or melodeon, as some called it. Here and there in less settled sections of the country we suppose one could find an occasional cottage organ. But there are not many of them left, and so steadily has been their disappearance that we really might not have missed them had not Uncle Sam started in to count radios. It is just another example of changing times and changing customs; more proof of the fact that nothing in the old world is permanent.

SURPRISE BIRTHDAY DINNER

A surprise birthday dinner was given Friday evening to Mrs. Hester Lowe of Pierce, one of the oldest and most respected women of that place, she being 89 years old on that day.

Mrs. Frank Heflin, of Fulton, a cousin, took Mrs. Lowe for a ride to Union City while the friends, neighbors, children and grandchildren gathered in, and to Mrs. Lowe's great surprise when she returned she found a bountiful supper spread in the front yard, and many greeted her with kind words and smiles. She expressed her thanks to them all.

The guests numbered about 68 as follows: Mr. and Mrs. John Adams and daughter, Montell, and son, Tillman, Mr. and Mrs. Roy Adams and sons, Mr. and Mrs. Leland Adams and daughter, Mrs. J. K. Passmore and daughter, Mrs. Sara Heflin and daughter, Mr. and Mrs. Jim Lowe, Mrs. Odie Rue Lowe and children, Mr. and Mrs. Kelly Lowe and son, Mrs. Don Lowe, Mrs. Alice Wilkerson, Mr. and Mrs. Ernest Norman, Mrs. Posen Norman, J. D. Hopkins, all of Fulton; Mrs. Jerry Ragsdale, Centralia, Ill.; Mr. and Mrs. Jack Patterson and sons, Mr. and Mrs. Joe Matthews, W. L. Matthews, Mr. and Mrs. John Matthews, Mrs. Cora DeMyer and daughter, Roberta, Mr. and Mrs. Riley Smith and daughter, Viola, and son, Omar, Mr. and Mrs. Bud Stem and children, Charles Orleans, Mr. and Mrs. Charles Lowe, L. N. Blackburn, Katie Margaret Allen, Mrs. Alice Johnson, Mr. and Mrs. Osler Morris, Mr. and Mrs. Rob DeMyer, Virginia Griffin, Lillian B. Allen, Mr. and Mrs. Witt Matthews and daughter, Jackie, of Pierce; Mrs. Rosa Stem, of Martin.

GOOD WOMAN PASSES AWAY

Mrs. Lucy Willingham, who has been ill for several weeks, passed away Monday at her home in Wingo, at the age of 81 years. The funeral and burial took place Tuesday afternoon in her home town.

She is survived by the following children: Mrs. D. T. Creedle and Walter Willingham, of Fulton, Tom Willingham, of Dyersburg, Mrs. E. M. Lucas, of St. Louis, and Mrs. C. C. Charlton, of Houston, Tex., and several grandchildren.

She has been very ill for a long time, and was tenderly cared for by her devoted children, who left their homes at various times to attend her bedside. She was a good mother and will be missed by her children. Her neighbors will also miss her, and the town where she lived so long will feel the loss of a good citizen.

McFadden News

Raymon Harrison spent last week with his aunt, Mrs. Willie Jeffress.

Mr. and Mrs. Leighman Elliott spent Sunday with Mr. and Mrs. Tom Alexander of Harmony community.

THE ACID TEST

The acid test of the importance of anything in life is to consider what life would be like without it. Applying this test to the railroads gives an impressive idea of their important place in our national life.

Without the railroads, travel and all that it means in the way of family, social and business contacts would be sadly handicapped. Only railway service offers travelers dependability in all seasons and under all weather conditions combined with speed, safety, comfort and moderate prices.

Without the railroads, the nation's commerce would be strangled. The railroads handle speedily and economically anything in any quantity going anywhere at any time. This all-inclusiveness of service is unshared by any other freight carrier or combination of carriers. Substitute services might be utilized in limited measure, but always at a sacrifice of some of the qualities that characterize railway service. For the most part, commerce would revert to the primitive conditions of a century ago or be put to staggering difficulties, inconvenience and expense if it had to do without the railroads.

Other means of transportation may have some advantages over the railroads in individual respects, but none can rival them in all-around usefulness.

Prudence suggests that an asset so important to the country should be safeguarded. This calls for liberal patronage of the railroads and a sympathetic public interest in their welfare.

Constructive criticism and suggestions are invited.
