Farms for Sale

We have listed numerous farms of trustees in pending proceedings or securities. We have handled the volume reported for the past year, in line with reports for the same period last year. While the market has been active, prices have in general shown little change from those obtaining in the same season last year. The season has been good or fair, but prices have not been materially influenced by the weather. The average price obtained for the week ending March 21 was 15 per cent above the average for the same period last year.
