Do You Have These Symptoms of Malaria?

What Is CHIROPRACTIC?

Possibly you have wondered how this splendid Health Service operated and what means such remarkable results are brought about.

The basic principle of Chiropractic is that normal transmission and expansion of nerve impulses is necessary to health. "Chiropractic is the service of restoring and correcting interference with nerve transmission and expansion, without the use of drugs or major surgery."

Parents of Fulton and Vicinity

Don't Send Your Child Back to School Blindfolded With Bad Glasses

Many a child is backward at school on account of poor vision. As most of parents bring their child of school age for a complete examination of the eyes.

Should glasses be needed the expense is small . . . the great benefit can not be measured.

Phone 114 for Appointment

When your son or daughter is away at school, does your guiding influence remain at home?

All boys and girls leave for school and college, homes are left behind, but home life is difficult to eliminate by letters, but by telephone, home ties can be kept alive and warm.

Telephone visits at regular intervals with children away at school are as intimate as though the children were at home with you. They'll be happier, and do better work. And what a joy it will be to you.

The best plan is to arrange for a special call or get to call home "suddenly" at regular intervals on a particular day. Thus, by using Burgess-Duncan service after regular hours, you can call 114 for 50c, and in the evenings, at correspondingly low cost.
