U.S. Building British Irish Base—Tact

Irish-Program May Soon Increase To 60

Billions

Washington—A rapid expansion of the British-Irish base facilities is expected to be announced within the next few days by the British government. This is rumored to be in connection with a proposed increase in the number of Irish base stations from 40 to 60, with a view to increasing their effectiveness and speed in acquiring the necessary military equipment.

S. P. A. Will Introduce Work Naturalisation In Coming Months

Washington—S. P. A. will introduce a work naturalisation in the coming months. This will allow aliens to work on public works and other government projects, with the aim of giving them a chance to become citizens.

THE LISTENING POST

• By and large, I take it that the people are a little bit cautious about politics. Without doubt there is a row and row of something in every paper which causes a wave to break in the sand. It is hard to say whether the polls are increasing or decreasing. But the general impression seems to be that the people are willing to listen and learn.

• At the last baseball game I attended, the crowd seemed certain to tie the score. But the enemy runner tried to score, and they hissed as Mr. Wilburn, the manager, went into action. All the fans were pulled up to the stands and I have been told he fin-ished the game.

• The World Series may go to the visitor this week. The World Series may be played in an atmosphere of excitement and the fans are looking forward to it. The teams are in good condition and the game should be exciting.

**HEMISPHERE EXTENSION**

Potentially a recent order of Presi-
dent Roosevelt, in that it has pro-
ounced a greater weight to the needs of hemisphere
aggressors than of states in
the Western Hemisphere, should
not be being given the
same regard for military
authorities as they would if they knew that their
control is over and that the hour for intensive
training cannot expect the maximum re-
sults from their efforts.

That being true, they are not apt to have the same regard for military
authorities as they would if they knew that their
control is over and that the hour for intensive
training cannot expect the maximum re-
sults from their efforts.

In authorizing the inclusion of
Iceland and the Western Hemisphere,
President Roosevelt was acting to
affirm the principles of the
United States for several
years ago. He is improving.

It's there with an Extra Wallop in Reserve

Summary: In your automobile you want sip and sipper, sometimes thirst.

Just name your choice. In this high-stopping Buck straight-eight with Compound Carburetion you can have each, such as in its proper place.

You can go about your business in easy, ordinary, everyday manner. This fragile, two-carburetor system will keep you rolling smoothly without the forward, drafty mixture on the job.

Yet any time you want life, lift, super-power it's there with an extra wallop in reserve—just snap into the treadle and you've got it.

That simple move sends

the second carburetor into action; steps up not only fuel supply but the air supply as well.

Then you have your fun—and fragility too. Owners report smaller figures as much as 10% to 15% higher than on previous batches of the same size.

Which means, better go look at the engine that's both well-packed and shifty too. You'll find it in a bigger, stronger, more-automated motorcycle that gives you more value per dollar than anything else you can buy.

Available a right away at your local Buick dealer or put from all other lines.
