Campfire services will be held at Chapel Hill Monday night. The services will be conducted by the local Campfire Council.
Good Tools for Good Work

It is our declared policy to make our rail road a good place to work by assuring employees both reasonable wages and fair treatment in working conditions.

To these must be added our provision of the proper tools to enable them to perform their tasks with the greatest ease and efficiency.

The tools which the employees of the Illinois Central System use in the transportation of freight and passengers consist of our property, mainly road and equipment. In these tools we have invested some $75,000,000, or just about $25,000 per employee.

Behind each of our workers therefore is an investment in tools equivalent to the cost of a fully equipped farm, a well-stocked store or a small factory.

This investment is constantly being increased as improvements are adopted for the betterment of the service our railroad provides for its patrons.

ECONOMIC HIGHLIGHTS

As this column points out each week, American industrial production has continued to expand, and the rise in prices has been slower than might have been expected. The trend toward a reduction in demand has continued and the weather has been such as to retard the expansion of the market. However, there are indications that the recession is not as severe as was feared and that business will recover.

THE SPIRIT OF PIONEERS

Some of the businesses associated with this month are growing steadily. The demand for many of these goods and services is increasing. The economy is not as healthy as it was last year, but there are indications that it will improve.

Look and Listen!

A new product, the Fulton Pure Milk Co., has been introduced. It is produced using the latest technology and is said to be of excellent quality.

BROWDER MILLING CO.

The Fulton Pure Milk Co. has been successful in expanding its market. The company has been able to maintain a steady growth.

Tune Up Your CAR Now!

Does your car have the ZIP! . . . the power and speed it had when it was new?

You are getting as many miles from a gallon of gas as good drivers.

It's true that motors run a mighty long time without serious trouble, but don't forget that the highest, most modern, most expensive engine loses efficiency if it gets slightly out of adjustment.

To bring back your car's efficiency, let us give your motor a complete TUNE UP with our modern equipment and trained personnel.

DON'T DELAY—Bring your car in and ask our trained staff of mechanics to give your motor a TUNE UP.

We know the importance of an efficient motor. A car's efficiency if it gets slightly out of adjustment. Let us help you keep your car running smoothly, economically and trouble-free.

WE WILL—

* Clean and Adjust Points
* Adjust Generator
* Take Reva Carburetor, Clean and Re-assemble
* Clean Gas Lines
* Clean Air Cleaner
* Clean Fuel Pump
* Tighten Water Connections
* Adjust Tappets

Give Your Motor a Complete Overhauling

DON'T DELAY—Bring your car in and assure yourself of smooth, economical trouble-free driving!
