SPACED OF CHRISTMAS PRESENTS IN FULTON

Members of the Fulton News who are the "Spirit of Christmas" are busy and early making ready for what will probably be the last minute rush. Any kind of gift that one may desire can be found in the stores and the mail orders have already been shipped. But you will have to act quick if you want to get any of the new items that are coming in.

In the downtown district local merchants, many of whom do a large part of their business in the fall and winter, are currently getting ready for the Christmas season. A few of the most popular items that are available are:

- Christmas trees
- Christmas lights
- Christmas cards
- Christmas gift wrap

The final two weeks of December are often the busiest for merchants and store owners, who are trying to make sure that their merchandise is available and that their customers are satisfied.

In addition to the stores, many local organizations are also preparing for Christmas, including the Boy Scouts, who are already at work preparing for the holiday season.

**Economic Highlights**

The Philippines has been described as a potential economic powerhouse due to its strategic location, abundant natural resources, and a rapidly growing workforce. However, the country has also faced challenges such as political instability, corruption, and a high debt burden. The government has implemented various policies to foster economic growth, including infrastructure development, tax reforms, and investments in education and health. Despite these efforts, the country remains vulnerable to external shocks and needs to continue to improve its governance and accountability.
