## THE LISTENING POST

It appears that Mayfield people have at least given up hope of securing a defense plant. W. H. Brizendine, former mayor of Mayfield and well known business figure there, recently published a letter in the Mayfield Messenger in which he openly said that all hope for the plant had "gone with the wind," and asserted that he had letters in his files from Senator Barkley which proved this assertion to be true. He also said that loss of the project was brought about by the short-sighted, self-seeking interests brought to bear against the location of the plant in Graves county; claiming also to have proof of this charge in his possession. Mr. Brizendine makes these assertions without reservations and says he knows what he is talking about. "I am not making guesses," he concludes.

The recent scarcity of news regarding this project had led many people here to believe that all was not well, for at the beginning Mayfield seemed to have reached a definite and hard-hitting plan of action. When that matter was announced several weeks ago it seemed almost certain that Graves county would be given a project, the only point of argument being whether it should be located in the northern area or in the southern section. But as week after week went by it began to appear that something had slipped and now it seems that the opportunity has been lost. However, it is not likely that any one man, even Mr. Brizendine, can speak for the War Department. Or, his open letter may have been part of a plan to smoke out some chiselers who were trying to reap some heavy profits from possible location. Such things have been done before and will be done again, and it might be possible that news from Washington shortly would set Mr. Brizendine's claims aside.

However, assuming that the Mayfield man is correct, some fine steps are being taken by the leaders of the eight Purchase counties west of the Tennessee River. This section has been organized under the name of West Kentucky National Defense Committee, and a permanent and hard-hitting group has been set up. All necessary data is being secured regarding the section, such as population, area, unemployment, power, transportation, freight rates, farm conditions, health and other factors.

A final meeting is to be held in Mayfield within the next few days, probably Monday, and then definite steps will be taken to bring this section squarely before the War Department. Efforts will be made to prove that this Purchase area has been hurt by depressed conditions, that it has all the elements necessary for a defense plant, and some permanent way will be set up by which the committee can have personal representation in Washington.

Congressman Noble Gregory has had a big part in the organization of the new body and seems hopeful that it can really accomplish something. Mr. Gregory is vitally and deeply interested in this territory and has done a lot of work on securing some sort of plant to be located somewhere in the territory. He believes that this permanent organization can really get something done.

It does appear to be the logical way in which to carry on efforts from this section. We can do more by being united than by having various towns try to get the job done. We have a large population, we have a good territory, and we have been more or less ignored in the location of defense plants. Let us hope that the new organization can get something done.

## Draft Service Extension Bill Given Approval

### Measure Sent To White House For Roosevelt Signature

Washington, — Final Senate approval sent to President Roosevelt today legislation extending the service periods of all Army, Navy and Air Corps personnel for 18 months. The Senate vote was 77 to 19. Senate attaches said they assumed the bill would be flown to President Roosevelt at sea in order to get it on the books as quickly as possible. General George C. Marshall the Army chief of staff, originally fixed August 1 as the deadline on which the measure could be enacted without inconvenience to the Army.

The final Senate vote, terminating weeks of dispute in both Houses, came after only eight minutes of debate. Although the Senate originally had approved the service extension by a vote of 45 to 30, Senator Johnson (R-Calif.) demanded the second vote today. "There are some of us here who are opposed to this bill," he said, "and we should have a chance to vote on it."

The measure, passed by the single vote margin of 203 to 202 in the House Tuesday, would retain selectees, National Guardsmen and reservists for a total of two and a half years. Regular enlisted men, who signed up for a three-year period could be held for a four and a half years. Today's Senate action was acceptance of the House bill.

Under the legislation, all men who had served 12 months would receive a \$10 monthly pay increase.

## U. S. Bomber Develops "Bug"

### As Flight Tests Are Continued

Spokane, Wash. — Mechanical difficulties which have developed in the tricycle landing gear of the crack medium bombers of the Army Air Corps—the North American B-25—may keep the planes out of operation during the maneuvers in Louisiana and Mississippi next month, officers disclosed today. Maj. J. J. O'Hara, executive officer of the 17th Bombardment Group of the Second Air Force temporarily based here, said last night the difficulty would necessitate a mechanical change at the factory of the landing gear of all B-25's in service—about seventy-five so far—and a redesigning of the faulty piece.

## SENATE APPROVES 244 MILLION FOR NAVAL EXPANSION

### Submarine Base in Pacific Is Included in Bill

Washington, — The Senate approved Thursday an amended House bill authorizing the expenditure of \$244,929,800 on naval public works projects, including the beginning of construction on a submarine base at Wake Island in the Pacific, a naval magazine in the Gulf Coast area, naval air stations at Whidbey Island, Wash., and Barbers Point, Hawaii, and a radio station at Cape May, N. J.

The Senate restored to the bill a \$1,500,000 item previously eliminated by the House for a railroad connection from Fredericksburg, Va., and the naval proving ground at Dahlgren, Va.

## A. L. P. To Back LaGuardia For Third Term As Mayor Of N. Y.

New York — Unqualified support of the strong American Labor Party is assured Mayor F. H. LaGuardia in his campaign for a third term in New York City's highest office, but he faces a contest in the Republican primary.

John R. Davies, former president of National Republican Club, filed with the board of elections as a candidate before the filing period expired last night. Brooklyn District Attorney William O'Dwyer filed as Democratic candidate.

Louis J. Lettkowitz and A. David Benjamin, chairman of the Republican Law Committee of New York and Kings Counties declared many of the 13,206 signatures on Davies' petition will be challenged and Benjamin asserted the Mayor will not have Republican opposition.

The full support of the A. L. P., which gave LaGuardia 500,000 votes in 1937, was signified by failure of the party's left wing to designate any candidate. Previously, the A. L. P. right wing had pledged support to the Mayor.

## MAYFIELD MAN SAYS PROJECT FOR GRAVES COUNTY LOST

### Claims He Has Positive Evidence From Barkley

Mayfield, Ky. — W. H. Brizendine, business man and former Mayor of Mayfield, announced in an advertisement here Thursday that prospects of any defense project being established in Graves County or this section had "gone with the wind."

Mr. Brizendine stated he had positive evidence to this effect from Senator Alben W. Barkley.

## BRITISH REQUESTED TO INCLUDE RUSSIA IN DAY OF PRAYER

London, — Britain's fourth national day of prayer since the outbreak of the European war was announced Thursday for Sunday, September 9, and a special call made to remember in prayer the armies and people of Russia.

The Archbishop of Canterbury, primate of all England, at the request of King George VI issued the "special call to remember in prayer the armies and people of Russia and their heroic resistance to the military might of Germany and new and grave anxieties which are rising the Near and Far East."

## 19 GERMAN SAILORS TELL BOAT'S SINKING

Lisbon, Portugal, — Nineteen survivors of the 5,522-ton German freighter Frankfurt arrived here today with stories of how their blockade-running ship was sunk in midatlantic by a British cruiser.

The freighter, previously reported intercepted by the British Admiralty, was sunk by shell fire, the survivors said, and twenty-six of the crew, including the captain, were taken aboard the cruiser.

The nineteen previously had refused to go aboard the Panamanian steamer Norden Sunday because of fears of internment. The Norden took aboard one wounded man and wirelessly the position of the rest who were picked up by the Portuguese destroyer Vouga.

## GREASE STATION FOR CATTLE FOILS FLIES IN TEXAS

Copeville, Texas, — Texas farmers who have cattle and oil and flies are getting rid of the flies.

George Longely led the way with a cow defiler that works thus: Rock salt and other minerals are placed in wire inclosure. Gunny sacks, dripping in crankcase oil, hang on the wire.

When the cows duck under to get salt, they get oily. Flies don't go for oil.

Now when the cattle feel the flies attacking, animals march up to the triangle get themselves a new grease job.

## CAR WRECKS

Another accident occurred here Sunday when the Noah Vetch car overturned in loose gravel, one half mile south of Salem church. Occupants of the car were Miss Kathleen Vetch, driver; her sister, Miss Narine Vetch, of Detroit; and Misses Mary Jo Woodson, Ernestine and Willie Orene Hutchins. All were carried to the Fulton hospital for treatment but none were seriously injured. After making an X-ray of Narine, all returned to their homes.

Len Bugg and Nelson Montgomery were the first to arrive on the scene and helped to get the victims out of the overturned machine which, according to observers, turned over twice. The girls were enroute to Sunday school. The car was towed into Fulton for repairs.

Gifford McAllister of Dukeedom wrecked his automobile near Fulton, Wednesday afternoon, enroute here for a two-weeks' visit with his grandparents, Mr. and Mrs. G. H. Locke and other relatives. The car is in a Fulton garage, waiting for insurance adjustments while Gifford laments—not the damage but the non-use of it while on his vacation.

## REVIVALS

## SOCIAL SECURITY TAX INCREASE IS ADVOCATED

### Morgenthau Urges Plan to Prevent Inflation

Washington, — Treasury Secretary Morgenthau today advocated increasing Social Security taxes for the double purpose of preventing inflation during the emergency and cushioning readjustments later.

The Secretary told a press conference the proposal was part of the suggestions he intended to give Congressional committees studying price control legislation and other anti-inflation measures.

He said he had no details in mind, especially as to how much the tax ought to be increased. At present, employees and employers are taxed at the rate of 1 per cent each on the amount of pay rolls. In informal discussions among officials previously the figure of 3 per cent each has been suggested.

"That," Morgenthau said, "is the direction we should be moving in. I prefer expanding Social Security to any compulsory savings ideas."

"We should also move," the Secretary added, "in the direction of separation wages so that whenever this is over there will be accumulated to the credit of defense workers several weeks' pay to tide them over when the defense industries shut down."

He said he was also unprepared on this proposal to say exactly how it would work. Many employers, however, already have agreements with their employees to pay them a specified number of weeks pay depending on length of service when jobs are terminated.

## U. S. OPENS HEARING ON RAIL PAY DEMANDS

Chicago, — Mediation, the second step in efforts to settle the colossal wage dispute between American railroads and their employees, began with three conferences today.

The National Railway Mediation Board started hearings on the case of the five big operating brotherhoods demanding a 30 per cent increase in basic rates of pay for approximately 350,000 workers.

During the day the fourteen non-operating unions, representing 850,000 employees, intend to present their demands for wage boosts of from 30 to 34 cents an hour.

The Federal agency was scheduled to listen to the railroads' side later.

## Herdman Urges Court Test Of Airport Financing Proposal

Frankfort, Ky. — Warren county officials were urged by the attorney general's office today to have the courts pass on a proposed financing plan for the acquisition of an airport field near Bowling Green for \$35,000 on which the federal government has approved expenditures of \$332,000 for improvements.

County Judge G. Duncan Milliken, Jr., wrote that the county must furnish the airfield free of encumbrances for the project. He said the county planned to deed to a holding company its county farm of 150 acres, excluding buildings, and the city of Bowling Green to deed several lots and a 19-acre tract of land.

The holding company, in turn, would lease the land to the city and county for rental payments with the option that they might regain the property later.

He said the holding company would mortgage the land for \$35,000 to a bank and this money used for the purchase of the airfield.

Assistant Attorney General Guy H. Herdman said he "would certainly like to see Bowling Green and Warren county get this airport" but he cited several objections to the plan.

"This is an opportunity, the loss of which would be irreparable," he wrote Judge Milliken, "but nevertheless it must be obtained legally."

One question, he said, was whether the county and city legally could convey the holding company properties "entirely foreign to and distant from the airport." He explained that in most similar cases the improvements were made on the same site as the public property.

Another consideration, he added, was whether the deed of the county farm to the company would endanger loss of the farm through failure to pay rent or exercise the option to regain the land.

He advised prompt action in the courts to decide the matter but suggested an alternative.

Pointing to the federal requirement against any lien on the property, he said:

"If the banks of the city would loan the money to some airport corporation and the city and county could enter into a gentleman's agreement that they would levy a subsequent tax to pay this off, then it would be legal for the reason that there was no obligation on the city or county to pay it and the banks took the risk of the levy of the tax."

He reminded the county, however, that it could not levy a special airport tax such as in Louisville but would have to provide for the indebtedness from its general fund.

## Many Applaud Peace Aims Set Forth In Parley

### Others In Congress Question Alliance With England

Washington, — The Roosevelt-Churchill pronouncement of peace aims was warmly praised by administration's supporters in Congress—and some of its critics—but others among the opponents of the President's policies asked whether it constituted an alliance with Britain.

One of the latter group, Senator McCarran (D-Nev.), asserted that the declaration was made "on the unwarranted assumption that the United States is a belligerent in his war. It is tantamount to a declaration of war by this country which is the province of Congress only."

Senator Brooks (R-Ill.), who has criticized many administration moves in the field of foreign affairs, commented, however, "the statement sounds very much like a preliminary bid of peace which I believe an overwhelming majority of the American people would welcome, providing it is a genuine bid for peace and not a camouflage to move us into war."

Senator Bridges (R-N. H.) declared "it's a healthy thing that such a conference was held and that the post war aims of the two great Anglo-Saxon nations are made known at this time."

Chairman Connally (D-Tex.) of the Senate foreign relations committee said the statement embodied "principles of noble and lofty conception with which I feel sure the people of the United States will agree." Senate Majority Leader Barkley declared it "will be well received by all peoples resisting aggression," and Speaker Rayburn called it a "very sane statement" which "expressed a great and laudable hope."

#### WHY NOT BE REALISTIC ABOUT IT?

Without any reservations and leaving no room for doubts whatever, France has gone over to the side of Nazi Germany. In a speech to his own people Petain made all this clear. He said flatly that the future for France was totally ringed about with German control of Europe, and in effect pledged what little help France had to Germany. That he was forced into this position makes no difference. It is likely that extreme pressure was placed upon him by his Nazi masters, but this makes the alliance no less threatening to the peace and welfare of the United States. To all intents and purposes, France is now allied with Germany—and Germany, according to all that we have said in this country, is our moral enemy. We have pledged our best effort in helping England defeat Germany, and when France moved openly to the side of Germany she became our enemy.

Those things being as they are, there seems little use in further parleying with France. For months we have tried by strange and devious diplomatic methods to retain the friendship of France. We have tried to supply certain supplies to the starving people of France. Great efforts have been made by certain groups in this country to devise some plan of feeding hungry French people. Quite an element in the United States seemed to believe that help could be given France which would not help Germany, and there have been many who seemed to believe that Hitler would keep his word about allowing American help to France to go untouched.

That dream should be dissipated now. Petain's action places France squarely on the German side. Petain looks to Germany for all future aid. Very well. Let it be. Mark France down as a friend of the enemy. Say nothing else about helping that stricken nation. Regard her in every way as a potential enemy. Throw whatever pressure there is on her and keep that pressure on until victory is won. Perhaps then France might be restored. We can be a better friend now by being her enemy and seeing her delivered from her present allies than by keeping on with vague diplomatic moves.

To be perfectly realistic in this situation may require some straight out warlike actions. France has certain colonial possessions which can be a direct threat to this country. Dakar in Africa is one, and for months Hitler has been moving in on this strategic port. It may be too late now to do anything about this. Months ago we might have taken it without much trouble, but by now it is likely that taking Dakar would require such a major effort that we are not up to it.

This is not true regarding Martinique. In this harbor are certain units of the former French Navy. A French airplane carrier lies in the harbor there. Many American planes are there, caught when France collapsed last year, and there is quite a lot of gold which belongs to France. Hitler can use all these things and will use them if permitted. We can beat him to it if we act swiftly and without reservation. We have the power to take those things and we have the power to retain this important base. It is there now under French command. Tomorrow it may be under German command and it will then be a terrible threat to us.

## Fifteen Years Ago

(Aug 15, 1926)

The water carnival at the swimming pool last night attracted a large crowd despite a heavy rain. Various events were quite interesting and twenty local swimmers passed the Red Cross tests.

Mrs. Trevor Whayne suffered painful burns when gasoline she was using to clean some clothing became ignited.

Mel Simons, former outfielder on the local Kitty League team, has been sold to Birmingham of the Southern League. He is to report there for the remainder of the season.

A washout on the Louisville line of the Illinois Central near Mayfield caused considerable traffic delay today.

A Hardy taxicab, stolen recently, was located yesterday in St. Louis and will be returned here at once. The car, a self-drive taxi, had been missing for eight days.

Ernest Hancock and Leslie Nugent will be among the speakers to be heard at the farmers' meeting here on August 31.

Jimmy Hughes and J. W. Holland, believed to be from Memphis, are held in the local jail on a charge of stealing an automobile recently.

#### THE ADMIRAL BECOMES A HITLER FOR A DAY

Followers of the career of the assiduous Admiral Darlan must before now have noticed the parallel between his advancement and that of his illustrious model.

For both fuhrers—major and minor—stepped to power over the senile bewilderments of old men. Just as Hitler courted the weary and ancient Von Hindenburg, does his imitator follow suit with the feeble and fatalistic Petain. Just as one old man slowly relinquished the reins to a strong and grasping hand and never even knew that his course had been changed, so another old man hands over the future of France to a watchful follower whose eye remains fixed upon the barometer at Berlin.

There, indeed, the pattern shows its major variation. Hitler, in every stage of his ruthless career, has remained possessed always by the dream of German might. Never, through all the wild gamut of his schemings, does he seem even to have contemplated subordination of the Reich at the bidding of a stronger power. In this important respect, to say nothing of the superior scope and variety of his betrayals, he differs from the run of anxious little counterfeits such as Darlan who sell their national souls for the illusory glory of becoming a Hitler for a day.

To the contempt he feels for all the rest of the world, and in particular for those who aid him, the only and original Hitler adds, probably, a measure of particular acidity for the Darlans of his career. They follow the pattern so faithfully so far as they know it, but within them is no remote conception of the perverted passion of patriotism in which it was conceived.—*Courier-Journal.*

### SUNSHINE AND SHADOWS

Indianapolis—Two letters enlivened the work of Indiana selective service headquarters.

One was from a Marion county grandmother who offered to go to camp instead of her grandson who still had a year before finishing college.

"I can cook—I can sew. I could help with the washing. Please let me go," said she. "I'm not doing anything at home here."

The other was from a wife on the Ohio river who said she wished her draftee-husband had been sent to Alaska or some other far off place instead of Fort Knox, Ky., right across the river.

The woman complained he "insists on coming home each week-end."

row it may be under German command and it will then be a terrible threat to us.

There seems little use for delay. We can take Martinique. It will be an act of war, certainly. Politeness never wins wars. Delay never wins. The time seems at hand for direct and swift action.

ROOSEVELT URGES DEDICATION TO LIBERTY

New York. — President Roosevelt today told the Jewish people of America that "we must rededicate ourselves to the task which lies before us in order that all peoples may live as equals."

In a Hebrew New Year message, distributed by the Seven Arts Feature Syndicate, which serves English-Language Jewish newspapers in the United States, Roosevelt said he extended greetings in the "confident hope that the temporary darkness which appears to encompass the world shall not extinguish the light of liberty and the blessings of peace and freedom."

The Hebrew New Year is September 22-23.

## Peterson's Homer In Ninth Is Winning Margin Over Hoppers

A booming home run from the bat of Pete Peterson in the ninth inning, with the flying feet of Frankie Faudem tearing in from second proved the margin of victory for the Tigers over Hopkinsville 11, Fulton 6. Bases on balls—Off Karner 4, off Lake 4, off Emrich 3, off Eckhardt 2, off Burgess 1. Struck out by Lake 5, by Emrich 1, by Karner 5, by Eckhardt 2, by Burgess 4. Hits—Off Karner 5 in 6 innings; off Lake 8 in 6 1-3 innings; off Emrich 1 in 2-3 innings; off Eckhardt 5 in 2-3 innings; off Burgess 5 in 2 innings. Wild pitch—Karner. Passed ball—Ivy. Winning pitcher—Burgess. Losing pitcher—Eckhardt. Umpires—Muff and Beggs. Time—2:27.

The Tigers made no gain last night on the nearest team, as Mayfield won also.

The second game of the series is being played tonight.

With all credit to Peterson's home run, and it was a jim-dandy, credit should also be given to other members of the Tiger squad. The first is diminutive Joe Reese, who hangs around second base for the Tigers and makes hard chances look more or less easy and who also leads the Tigers in hitting. Joe was dropped down to the third slot for last night's game, after having been leadoff man for the entire season. He had been hitting too well for a leadoff man and his services appeared needed for hitting in runs which were already on base. Manager Mullen took over the leadoff job which he gave up when Reese joined the club. If last night's game can be taken as an indication, the change was all to the good for little Joe had three hits which drove in six runs, one perfect sacrifice which set a run up, handled seven chances with one error and in general proved a source of grief to a couple of Hopper pitchers.

The other Tiger who needs a couple of orchids is Julian Burgess, the professor pitcher, who had lost such a tough luck game to Union City the night before. After Lake had been forced out, after Emrich had passed a couple in the eighth inning and was in deep water, Professor Burgess was called in to save the game if possible. He had a couple of men on, and Tony Kvedar lashed a single on him to put the Hoppers ahead, Peterson preventing another run

## Electric COOKING

Is Much

Cleaner—Faster—More Economical

To Get Better Results With Meats, Vegetables, Pastry... To Save Time and Work In Preparing Meals... To Have a Cooler, More Inviting Kitchen—Install a 1941 Electric Range.

### CHECK THESE ADVANTAGES

1. You have better-flavored, more nourishing meals—as healthful elements are retained in foods.
2. You have a cooler kitchen in summer—because practically all electric heat is used for cooking.
3. You have less kitchen cleaning—as electric heat is fireless and smudge-free.
4. You have surprising economy. Electric cooking costs about half what you think... averaging less than 3 cents a meal per family.
5. You banish cooking drudgery, saving much time and work daily—because electric cooking is almost automatic.
