**FULTON EXPANDS AS LIVESTOCK MARKET**

For many years Fulton has been noted as a livestock market, but since the installation of livestock pens here several years ago the livestock business has expanded and the establishment of several stockyards, makes this market a leading one.

**LIVESTOCK MARKET**

A large number of livestock is being handled at the Fulton stockyards, and there is a very active market for cattle, hogs, and sheep. The stockyards are located on the north side of the town, and are well equipped with pens and pens for cattle, hogs, and sheep. The stockyards are well lighted and are very clean.

**FULTON TEAMS SPLIT TWO GAMES OF THE SEASON**

The South Fulton Rebels and the South Fulton Angels split two games of the season. The Rebels won the first game 19 to 16, and the Angels won the second game 47 to 25. The games were played in the South Fulton gym.

Forward, Young Americans!

The tournament of Europe is fought today, but the war is not over, for wages at Broadway and laborers at Broad Street have not yet laid down their arms. The story of America's determined fight for life is not yet told to future generations. The few dreams of America's hoping boys and girls are not brought to light. Thousands of dreams of all ages, dreams of every size, are glowing now in America today—here and July—shoetdy to the American child. The open-and-shut fan

It has never been entirely out of style, I am told, the open-and-shut fan, but certainly does not have the prominence that is had at present. It had a vogue in the 19th century, with the temperature being much higher than it is today. The open-and-shut fan was used to cool the air by creating a breeze. It was a popular accessory among women, as it was seen as a symbol of elegance and refinement.

I recall a story of a woman who was attending a garden party in the 1800s. She was struck by the heat and was unable to find any relief from the oppressive heat. She was saved by a man who handed her an open-and-shut fan. She was grateful for his gesture and it became a regular accessory for her.

The open-and-shut fan is still used today, mostly as a fashion statement. Many women carry them, especially during the summer months. They are also used by men, often as a symbol of wealth and status.

In conclusion, the open-and-shut fan has a long history and remains a popular accessory today. It is a symbol of elegance, refinement, and a touch of old-fashioned style. Whether you use it for practical purposes or simply as a fashion statement, the open-and-shut fan is a timeless accessory.

February and March Deals

To Start Baby Chicks

More Meat Expected From Poultry and Pig Farms

Accumulating large numbers of fine, heavy chicks February and March, farmers from the entire Swift organization, is the Head of Swift & C United States, is poised awes. simplicity of the financial state- featured package is dressed for Valentine's Day. The process for creating the package has been updated to ensure maximum benefits and early chicks grow faster and are harder to damage by disease.

Facility producers should take advantage of the efficient and economical prices in the continuous delivery of baby chicks. With additional prices in flight, these chicks are expected to be the lowest delivered price on the market. (New Years day is expected to be the lowest delivered price on the market.)

As long as the people support greatly to the feed supply in a war torn world, there is little alarms cif law.

The Reciprocal Trade Agreements program is a program of negotiation of such trade agreements as will be in the interest of our own and international trade. Our economy is dependent upon our export trade, and the maintenance of this export trade is a matter of vital concern to all our citizens. It is a matter of great importance to the entire nation, and our national security rests upon the prosperity of our economy and the strength of our export trade.

Governor Surges of Oregon, like many others, is among those who are disturbed by the increasing cost of living and local administration, he recently said, that the administration of a sound national security policy is "a very great threat" to the efficiency and economy of operations within our state. He pointed out that the problem of national security is not only those of foreign relations, but also of foreign trade policy.
