Thousands Are Returning To Work

From press dispatches received in all sections of the country, manufacturers, retailers and other members of the trade report that the return to work is coming on more smoothly and steadily throughout the country as the economic situation improves. Factories in the larger cities have been busy for several weeks, and in branch assembly plants throughout the country reports of operations Monday after a period of idleness today are buoyant. Almost the entire body of the trade is represented in the branches of the firm, and the situation is the same as in other parts of the country.

The butcher gave liver for the dinner. The G. A. R. has a new post and the E. V. F. has a new headquarters building. The I. O. O. F. is getting ready to move into its new home. The Ladies Auxiliary is making special preparations for the annual meeting.

Start the New Day Right
With An Appetizing Meal

by JOSEPHINE B. GOSSARD
Director, Home Economics, Fulton High School

If you plan a home lunch several days a week, it's wonderful for the family in time and
money. In addition, you have the satisfaction of knowing that the food you serve is
wholesome and nutritious. If you are not sure just what you can do in the way of
serving an appetizing meal, let me suggest a few menus. These are based upon the
principles of home economics which tell that one should serve the foods in
harmony with the season of the year, that meals should be planned with due regard to
the growth and development of the child, that good home cooking means
appetizing dishes which will attract the child to the table.

It Always Pays to Plan
Even a Lone Home Lunch

by JOSEPHINE B. GOSSARD
Director, Home Economics, Fulton High School

Help our Merchants
to help YOU

Everyone will agree that a man succeeds and
prospers only when he spends LESS money
than he receives in a given period of time.

Let's apply this great economic test to the
situation in this town. Our business men have
invested—and continue to invest—their money
in stocks of goods brought here to your very
door to meet your daily needs.

Through the pages of this paper they advise
you of their ability to serve this community.
All of us know that they deserve our patronage.
And remember, the more you trade with them
the more funds they can invest in larger stocks
and new lines.

Help the Ads in this Paper
and save yourself money by trading at home
**SHIFT YOUR DIGESTION INTO “HIGH”**

By E. V. McCollam, Ph.D., Sc.D.

Bone and muscle tissues need proteins in the form of muscle and blood, and fat for protection of the body and storage of food energy. Many of the vitamins and minerals also need fat for carrying through the body. Fat serves as a reservoir for energy in the body. It is necessary for the manufacture of the insulation of animals, the blood and other fluids of the body, and the insulation of the body as a whole. It is necessary to the formation of the brain and the nervous system.

**In Case of Emergency**

When you want a thing in a hurry you rush to a local store and get it. But do you realize that the existence of the store is dependent upon continued business?

If every person in this community were in our store, only for 24 hours there would be no more than one-eighth of the small goods department.

Your boards to the regular business that would have to be done at home. It would be profitable to you as well as to the consumer community.

Sunday Guests

Mr. and Mrs. Guy Gingles entertained the following guests at dinner Sunday: Dr. O. O. Gingles and Miss. The guests included Mrs. J. V. Rusk, Kerrey, Ky., Mrs. J. V. Rusk, Kerrey, Ky., Mr. and Mrs. W. F. Durand, Stover, Ky., Mr. and Mrs. Harry Deaver, Lewiston, Ky., Mr. and Mrs. Hugh Gingles, Kerrey, Ky., Miss Deaver, Murray, Ky.

**WIFE, GAS, SCARE MAN IN DEAD OF NIGHT**

"Overcome by drunk, ran in the dead of night, I stared my husband. He got after me, and ended the way," Mrs. E. O. Gingles explained.

"I was half-awake when I turned off the light in the room while I was working on the gas. I was only a few feet from the room where the gas was situated. I was half-awake when I went into the room and found the door open. I opened the door and saw the man lying on the floor. He was unconscious and had a cut on his head. I called the doctor, and he came and took him to the hospital."

**Proper Care of Eggs**

"By the time the eggs are laid, they are already past their peak of quality. The quality of the egg is not determined by the size of the egg, but by the number of eggs laid per day. The chicken that lays the largest eggs is not necessarily the best egg-laying chicken. The quality of the egg is determined by the number of eggs laid per day. The chicken that lays the most eggs per day is the best egg-laying chicken."

**HOG FEED**

**PROPER CARE OF EGGS**

Warm Up Their Appetites by Passing These Peppers

Looney Child Passes Away

Mary Looney, son of Mr. and Mrs. J. M. Looney, passed away suddenly at his home on Jackson last Thursday night and was being reared by his grandparents and his death is a great sorrow to them. The little one is safe in the heavenly home, General J. W. Cammack of Fairview, accompanied the body to the funeral service, held at Walnut Grove in the country, conducted by the pastor, Rev. L. F. McCay, and burial took place at Walnut Grove in the country of age. Little Looney was an orphan and was being reared by his grandparents, and as they were of death was sudden caused from an infected hand. The cause of death was tetanus caused from an infected hand.

JAMES W. SMITH

Editor and Publisher

The young parents have many friends both here and abroad, including many friends in the state and county. They have been living in the house for over a year, and have been very happy here. The funeral service was held at the old home, and the body was brought to the funeral service in the presence of many friends in the place.

FULTON Undertaking Co.

Editorial Department

The young parents are well known to many of their friends, and have many friends among their neighbors.

Old World Recipes

Roast Park and Chestnuts—

1 lb. chestnuts and 1 lb. hard maple or birch nuts.

In a dish of water, boil the chestnuts in 2 cups of water for 10 minutes. Remove them and put in a dish of water. Add 2 cups of water and 2 tablespoons of sugar. Boil for about 20 minutes until the nuts are tender. Drain and serve hot or cold.

To Secure Best Results

From Bill Ford, Fordyce

To secure the best feed for the bull in the fall and winter, it is necessary that he become fat and sluggish. There is no better feed for the mature bull than turnips. In feeding the mature bull, it is necessary to supply him with a little more starch and fat than the young bull. Turnips contain a great deal of starch and fat, and should be supplied in the fall and winter in the best feed for the bull. Turnips should be fed in the fall and winter to the mature bull.
