Under the direction of Mr. J. Willingham, President of the Savings Bank of Fulton County, the Fulton Savings Bank is organizing a Young People’s Club, which will meet regularly, and the Bank is extending a new credit plan to young people who have saved from their earnings. The plan is designed to help young people starting in business or trying to get a foothold in the world.

The Young People’s Club will meet on the first and third Mondays of each month, and will consist of young people between the ages of 16 and 25, who are members of the Bank. The meeting will be held at the bank’s office, and will be conducted by the President of the Bank, Mr. J. Willingham.

The Bank’s new credit plan is designed to help young people who have saved from their earnings, and will provide them with a line of credit up to $1,000, at 5% interest. The plan requires that the young person have a savings account with the Bank, and that they have saved a minimum of $100 in their savings account. The credit is available for use in starting a business, or for any other purpose.

The Young People’s Club will provide a forum for young people to meet and make friends, and to help each other. The Bank hopes that this will be a success, and that it will be able to help many young people in the future.
Relief At Last For Your Cough

In those cases where coughing is chronic and persistent, the use of lungs tonic and ninety per cent pure honey is recommended. The honey is used as a stomach set; and for the lungs, a teaspoonful of the tonic is added to a tumblerful of boiling water. This remedy is not restricted to persons who have been troubled with coughing for years; it has also been found useful in those instances where the cough is of short duration.

ECONOMIC HIGHLIGHTS

Inventories rose in the country last week, according to the latest reports. The Federal Reserve Board reported that inventories rose in all regions of the country, except the South, where they remained unchanged. This is the second consecutive week that inventories have shown an increase. The increase in inventories is expected to continue in the near future, barring any major changes in consumer spending patterns.
