## THE LISTENING POST

● Little folks are pretty much alike, be they human babies or just puppies. That was what I thought the other night at the Illinois Central Station. (This station, by the way, is the same old barn which it has been for a number of years; totally inadequate for the convenience of passengers, but I did not start out to write about the station and the need for a new one. This is merely aside, as it was centuries ago, when at the end of every oration in the Roman Senate, old Cato always concluded by saying "Carthage must be destroyed." He kept that up for twenty years until his Romans did finally destroy Carthage and plowed under what had been a great city.)

● But, getting back to my subject, which has been forgotten for the moment, I was standing by a train which pulled in from Chicago. The express boys removed some of the boxes and crates which filled an express car and I suddenly saw a messenger on the inside draw his hand back swiftly from a small crate. Then I heard an exasperated bark, and saw dimly the outline of a dog inside the crate.

● The crate was taken from the car, the messenger handling it quite gingerly, and placed on the truck outside. The dog inside began to bark and then settled down into steady whimpering and crying, and from limited experience with dogs, I knew that it must be a puppy inside the crate. The crate was left for some time on the truck and all this time the puppy inside kept up his steady crying and whimpering. I have had a couple of puppies around my house at one time or another, and I knew that the puppy in the crate was homesick, bewildered, sorry for himself, and was generally not satisfied with the world. The confining crate, the roar of the train, the smoke, the passing people, all united to make him scared and terribly homesick. I do not know whether dogs think or not, although they do have great intelligence. It may have been only memory, only instinct, which caused this puppy to howl and whimper, but I know that in some dim recess of his brain, if any, he was remembering his own kennel, his brothers and sisters, his mother, the former free days of puppyhood, and the only way he knew to express himself was to whimper and cry.

● I saw, too, that a great majority of people like dogs. Dozens of men and women passed by the crate on the truck, and very few failed to stop. Most of them tried to speak words of good cheer to the disconsolate puppy. A few tried to caress him, but this proved to be a dangerous matter, for that puppy snarled and bared his fangs whenever a hand neared him. I guess he thought he was in grave danger, and was using his only means of defending himself. I have an idea I could have made friends with him had he been outside the crate, but inside he was fearful and suspicious of all human approach and I had no desire to take a chance of feeling his teeth.

● For ten or fifteen minutes the puppy continued to whimper until at last some of the express boys moved him away to a darker spot where not so many people were passing. His whimpers grew fewer, he barked and snarled no more, and finally, when I passed him on the way out from the station, I saw him curled up in the bottom of the crate, sound asleep. He had

## IMPORTANT NOTICE WATER CONSUMERS

Your attention is called to the payment date of water bills due October 1st. Please call at City Hall and pay same. Paul DeMyer, Mayor. Adv. 244-171.

## Petroleum Firm Asks Increase In Crude Prices

### Higher Cost And Threatened Shortage Basis Of Request

Bartlesville, Okla.—The Phillips Petroleum Company said today it had proposed a 25-cent-a-barrel increase for crude oil prices Oct. 15 but deferred action at the request of Price Administrator Leon Henderson.

The present top price for crude in the Oklahoma-Texas-Kansas area is \$1.25 a barrel.

Frank Phillips, chairman of the board, said a price increase first was suggested by the company about July 15 but that the company was asked to delay any action for 90 days. The company made a second proposal, Oct. 7 in a memorandum which asserted:

"The United States is approaching a shortage of crude oil and of petroleum products because of the decrease in discovery of new reserves x x x.

Demand Rising

"The demand for crude oil is now 20 per cent larger than in 1937 and 10 per cent above 1940 and is steadily rising. x x x

"The price of crude oil should be increased immediately for the following reasons:

"1. The declining rate of discovery must be reversed. The stimulating effect of price on exploration is the only effective and practical means of accomplishing this.

"2. The cost of finding new reserves has risen threefold since 1937 and is steadily increasing.

"3. The cost of finding, acquiring and producing crude oil has increased 42 cents a barrel since 1937.

"4. Rising costs of labor, material and taxes are affecting the entire production situation and are threatening the small wells of settled production with premature abandonment."

### NAVY CREDITS GREENLAND GROUP TO COAST GUARD

Washington.—The navy disclosed Monday that the seizure of the German-sponsored radio station in Greenland and its Norwegian supply ship was by a Coast Guard vessel, which was a part of the navy's patrol of Greenland waters.

The Norwegian vessel was not armed, nor was resistance put up by either its crew or the personnel manning the radio station ashore, the navy said.

The status of the score or more persons who were on the ship or at the radio station will be investigated separately and their cases decided upon individually, the navy said. The personnel and the supply ship are en route to the United States. Three men, one described as a German Gestapo agent, were seized ashore and the rest aboard the Norwegian vessel.

Now is a good time to renew your subscription.

## High Court Of United States May Take Stand On Communist Issues

Washington.—The Supreme Court may take action Monday opening the way for a straight-out ruling on whether the Communist Party advocates violent overthrow of the United States Government.

This question is presented in an appeal by William Schneiderman, state secretary of the Communist Party for California and a native of Russia. It is one of 378 cases waiting action at Monday's session. Schneiderman seeks a review of a decision upholding cancellation of his American citizenship on the ground that he concealed his membership in the Communist Party when applying for citizenship.

Interest in the case was heightened by the possibility that a decision would have a bearing on pending deportation proceedings

## BEAVERBROOK URGES MORE TANKS FOR SOVIET ALLIES

Germany Has 30,000 To Use Against East Front

London.—Lord Beaverbrook, Minister of Production, Sunday reported the Russian belief that the Germans had 30,000 tanks for their eastern campaign and were using 14,000 in the present attack on Moscow, and called for a British and American production of 30,000—a program "vaster than any yet laid down" or even contemplated.

The minister, who was head of the British delegation to the Moscow conference on aid to Russia, said in a broadcast that Britain and the United States had agreed to supply "practically everything" the Russians had asked.

All "We Can Give"

"Certain," he added, they had agreed to supply them "with all that at present we can give."

He did not say how many tanks the Russians had requested, but said Britain must mobilize a super tank army for the "day when our defense operations are abandoned in favor of the attack."

## YOUNG MEN'S CLUB SPONSORING GAME HERE FRIDAY NIGHT

The Young Men's Business Club is sponsoring the Homecoming football game to be played here Friday night between the Fulton Bulldogs and the Trigg County Wildcats, and already the members of that group have tickets for sale. The regular gate admission for the game will be 50 cents, including tax, but if tickets are bought earlier from the members of the young men's organization they can be secured at 40 cents with the tax included. The athletic association is absorbing the tax in both cases.

## QUARTER FOUND IN PARKING METER PUZZLES OFFICIALS

Titusville, Penn.—Titusville officers couldn't understand how a quarter got in a parking meter designed to take nothing larger than a nickel. But Police Officer Andy Wald had the answer.

A motorist asked Wald for change for a quarter. The officer did not have the change, but he did have the key to the parking meter. So he unlocked the meter, gave the motorist his change, and dropped the quarter into the box.

## CARL WILLIAMSON HEARD ON RADIO PROGRAM LAST NIGHT

Carl Williamson, son of Mr. and Mrs. T. E. Williamson, Hickman highway, who is stationed at Maxwell Field in Montgomery, Alabama, was a guest on the Alka-Seltzer radio program last night.

Carl was one of the three guests on the program, the others being a boy from England and a girl. The two boys were asked by the master of ceremonies to tell the young lady "good-bye" just as they would their best girl back home. Carl replying, "Honey, this is no time for words."

## Opponents In Purchasing Probe Remain On Friendly Relations

Frankfort, Ky.—In view of some harsh things said in the four-week-old state purchases investigation, the casual and outwardly friendly relations between avowed opponents during hearing recesses must have surprised the layman who dropped in to observe the proceedings.

Such unrelated subjects as fishing and horse racing were favorite conversation topics during these pauses in the more serious business of taking testimony.

Men Talk Across Table

It wasn't unusual to find J. Howard Henderson, The Courier Journal's editorial columnist who had been attacking the Division of Purchases from the witness stand, and Purchasing Director Marion C. Howard talking calmly across the table in this manner:

Henderson: "I hear you went over to Herrington Lake yesterday. How're they biting?"

Howard: "Fine. When you going?"

Henderson: "I'm heading over there tomorrow if I don't have to be here."

Assistant Purchasing Director Frank Tanner, another veteran angler, frequently joined in the conversation.

## DETERMINATION OF FCC AUTHORITY IS ASKED BY GROUP

White Asks Senate Hearings Be Taken Up Again

Washington.—Congress was urged by Senator White (R., Maine), Sunday to determine beyond question whether the Federal Communications Commission has exceeded its authority in issuing so-called antimonopolistic regulations covering chain broadcasting networks. The regulations, originally issued in May, were amended Saturday. Senator White told reporters he was not concerned with whether the amendments were desirable but that he doubted the commission's power to prescribe either the original rules or the amendments.

In its Saturday order, the commission suspended indefinitely a rule requiring the National Broadcasting Company to dispose of one of its two networks, increased the stations.

Licensing period of standard radio stations from one to two years, and ordered that the proposed rules become effective Nov. 15.

## HOSPITAL NEWS

Haws Clinic  
Mrs. Enoch Campbell and daughter are doing fine.

Ila Mae Allen is about the same. Mrs. Glenn Dillon and son, of Crutcherfield, are doing fine.

Clifton Stevens, Route 6, Union City, has been dismissed.

Mrs. Elynn Humphreys has been dismissed.

Mrs. Britt Baker and daughter of Union City are doing fine.

Mrs. Joe Bell, Union City, has been admitted for treatment.

Scott Ross, Dukedom, is improving.

Mary Bowman is improving. Bud Norman underwent an operation this morning.

Robert Landers was admitted for treatment of injuries.

Fulton Hospital.

Mrs. Lester Brown has been dismissed.

Mrs. Julia Rawls remains about the same.

## I. C. NEWS

K. E. Dawson, trainmaster, and R. C. Pickering, clerk, are in Memphis today.

H. K. Buck, trainmaster, is in Jackson today.

F. R. Hays, vice president and general manager, Chicago, was in Fulton last night enroute to Haleyville, Ala.

K. E. Dawson, trainmaster, was in Mayfield yesterday.

G. C. Christy, general superintendent equipment, Chicago, was in Fulton today.

And, another time, as Henderson left the hearing room, he accosted J. Dan Talbott, finance commissioner.

"Gimme a match, Dan," said Henderson.

"Here's a match and a cigarette, too," replied Talbott.

The relationship between Attorney General Hubert Meredith, whose demands led to the investigation, and purchasing officials was not quite so cordial but at times both he and Talbott threw in some light humor at the hearings.

Once, after making a remark about Talbott, Meredith turned to the finance commissioner and said:

"There, now I've said something nice about you."

And Talbott retorted:

"Well, that's one time anyway."

And Talbott, on one occasion praised Meredith as "an honest, efficient lawyer."

Despite taut nerves, flareups were comparatively few and brief, and the atmosphere of the hearings generally was friendly.

Principals in the investigation often called each other by their first names even while talking for the record.

## EXPLOSION KILLS SIX AT NAVAL AIR STATION

Dozens Injured When Blast Occurs At Sitka, Alaska

Sitka, Alaska.—An unexplained explosion in an underground dynamite magazine at the Sitka naval air station shortly after noon Sunday killed at least six service men, injured dozens of persons in the nearby fishing village and damaged defense and private construction.

The blast reverberated across quite a large island just as hundreds of civilians and Army families were listening to the benediction in a Sitka church at 12:10 p. m. The concussion sent windows cascading into the streets in showers of broken glass, inflicting cuts on many women and children walking out of the church and along the narrow streets of this island town.

A Navy official said the dynamite which exploded had been stored in the magazine by contractors employed to build hangars and houses on the Government property.

A Naval Board of Inquiry was called.

## SENATE VOTES BOOST IN R. F. C. BORROWING

Washington.—A \$1,500,000,000 increase in Reconstruction Finance borrowing power, about two-thirds of which is intended to provide capital for an expansion of the nation's steel production, won final Congressional approval Monday.

The Senate passed the authorization measure with but little debate and sent it to the White House after Majority Leader Barkley (D-Ky.), outlined plans for building government-owned production facilities to be operated by private companies.

Senate Taft (R., Ohio), told his colleagues that inasmuch as Congress had already granted authority to the R. F. C. to carry on such a program, there was "little to do" except grant the request for borrowing power.

Limit Raised to \$ Billion  
He observed, however, that the new authority, which, that the new authority, which would raise the corporation's borrowing authority to slightly more than \$8,000,000,000 would mean newly created purchasing power. An estimated federal appropriation deficit of about \$10,000,000,000 plus anticipated R. F. C. spending of \$1,500,000,000 during this fiscal year, he declared, would "create a terrific threat to the price structure."

Now is a good time to renew your subscription to The Leader.

## GOVERNOR TO BE SPEAKER THURSDAY NIGHT AT MAYFIELD

Rally Planned In Honor Of Head Of Welfare Department

Mayfield.—W. A. Frost, native of Graves County and present State Commissioner of Welfare, will be the guest of honor at a homecoming rally to be held here Thursday night at the courthouse when Governor Keen Johnson, J. Lyter Donaldson, state highway commissioner; Dr. A. Y. Lloyd, director of the Division of Public Assistance, and others will appear on the program. The meeting will start at 7:30 o'clock.

Other state officials who will attend the rally include Zellmer Peal, secretary to Governor Johnson; Robert Humphreys, secretary of the Democratic State Central Executive Committee and Colonel Jack W. Nelson, director of the state highway patrol.

Sponsors of the event here include county officials and personnel of the district offices of old age assistance.

The Governor's party will be in Hopkinsville Thursday afternoon for a dedication ceremony and Friday they will go to Eddyville to formally dedicate the installation of a new cell block at the Eddyville state prison.

## MARINE CORPS NEEDS RECRUITS

Since 1775 the United States Marine Corps has helped keep this country out of war, and when necessary has upheld our rights throughout the world. This great organization will continue to do just that, but the circumstances of the world today necessitate the rapid increase of the Marine Corps to 75,000 men. Tennessee has always given more than her share of men to the Corps, and U. S. Marine Recruiting Officials in the state are sure that Tennessee will rise to the occasion again in this time of need.

For the benefit of young men between the ages of 17 and 30 from this vicinity who wish to obtain first hand information about the life and opportunities to be found while serving with the "Leathernecks," the Marine Corps Recruiting Service will have two sergeants at the Fire Station in South Fulton, Tenn., from Monday October 20th through Friday October 24th.

Men desiring to enlist in either the U. S. Marine Corps Reserve for the duration of the present National emergency, or the regular Marine Corps for four years, will be examined, and if found qualified will be given transportation to the District Headquarters in Nashville for enlistment. Men enlisted will be sent to the Marine Barracks, Parris Island, S. C., for six weeks training and then will be given a ten day vacation. Upon the termination of this vacation they will be ready to take their places at one of the regular posts and stations the Marines have scattered all over the world, on land, at sea aboard the larger ships of the fleet, and with Marine aircraft units.

## Members Of Cabinet Urge Ship Arming

Knox Says Risk Of Programs Less Than British War Losses

Washington.—Three cabinet members and other officials called on Congress today to remove the ban against arming American merchant ships and one of them declared that even "the risk of war itself" must not deter this country from aiding Britain.

Secretaries Hull, Stimson and Knox told the House foreign affairs committee also that the neutrality act's prohibition against American merchantmen entering combat zones ought to be removed in the interest of insuring delivery of lend-lease supplies to British ports.

"The risk we incur in arming our ships and sending them to sea," said Knox, "is far less than the risk of allowing England to lose the war."

Bitterest Condemnation

In one of the bitterest official condemnations yet of the Nazi campaign of conquest, the usually mild-mannered Secretary of State Hull told the committee:

"The blunt truth is that the world is steadily being dragged downward and backward by the mightiest movement of conquest ever attempted in all history. Armed and militant predatory forces are marching across continents and invading the seas, leaving desolation in their wake. With them rides a policy of frightfulness, pillage, murder and calculated cruelty which fills all civilized mankind with horror and indignation."

"Institutions devoted to the safeguarding and promotion of human rights and welfare built up through the ages are being destroyed by methods like those used by barbarian invaders sixteen centuries ago."

Repeatedly warning that the Nazis are bent upon world domination, Hull said this country and elsewhere to grasp that fact "has been, and still is the greatest single source of peril to those free peoples who are yet unconquered and who still possess and enjoy their priceless institutions."

## 600 PERSONS ATTEND REVIVAL

The revival being held by the Rev. C. E. Autrey of Union City at the local Baptist church reached its climax last night with the biggest crowd of the meeting attending. Approximately six hundred persons were in attendance to hear the Rev. Autrey's forceful message on "One Minute After Death."

Mr. Highfill has been conducting a great musical program throughout the revival, leading the best singing ever heard in the Fulton church.

Tonight and tomorrow night are the last two nights of the meeting and record crowds are expected by the pastor of the church for those two nights.

### The Fulton Daily Leader

Daily Since 1888

Hoyt Moore — Editor and Publisher  
Martha Moore — Associate Editor  
Nola Mae Cullum — Assist. Editor

Published every afternoon except Sundays and holidays, at 400 Main Street, Fulton, Kentucky.

Entered at the Fulton, Kentucky Post Office as mail matter of the second class, June 1888, under the Act of Congress of March 1, 1879.

#### WITH WHAT?

The rising tide of British clamor, having a hearty echo in Russia, that Britain open a new Western Front to relieve pressure on the east would indicate that the people—or a portion of them—have quickly forgotten the tragic lessons of Dunkirk and Crete.

That an unexcelled opportunity exists to create a diverting movement none would gainsay, but none who are so loudly demanding that it be undertaken suggest how it shall be done without laying Britain wide open to attack elsewhere.

The German general staff insists that it is by no means using all Nazi resources on the Eastern Front, nor is there anything to indicate that a staff which has shown such great efficiency so far has become so senile that it is overlooking potentialities elsewhere. If a portion of the British populace—and most of the Russian—is thinking in terms of the Western Front offensive, it is a sure bet that the Nazi general staff thought of that at the same time it planned the Russian invasion.

Russia is shuddering under the terrible impact of Nazi blows. The assumption is that should she lose in the sectors now being defended that she will continue the war from beyond the Urals. The hard-

### FIFTEEN YEARS AGO

(Oct. 14, 1926)

Coach Nolen Hughes and seventeen football players for the Fulton High School left this morning for Sturgis, where they are to play the Sturgis Bears tomorrow afternoon. The team traveled on an Illinois Central train and before the train left a huge pep meeting was held at the station. Coach Hughes was not hopeful of winning, as Sturgis has one of the best teams in the Conference. The boys who made the trip were Ual Olive, Bee-ler Jackson, Lester Newton, Arch Huddleston, Joe Holland, Fred Sawyer, Everett Norman, James Shuck, Buster Shuck, William Howard, L. J. Morris, Virgil Chapman, Billie McWhirter, F. Thompson, Raymond Williamson, Clayton Ramsey and Harry Maddox.

The Lotus Club met yesterday with Miss Maureen Taylor in Fair Heights.

T. W. Freeman of Frankfort, secretary of the board of vocational education, visited the local schools this morning.

J. E. Fall and A. M. Nugent attended a meeting of building and loan associations in Paducah yesterday and both appeared on the program as speakers. The local association is now thirteen years old and had made a remarkable record, carrying over \$420,000 in loans and being capitalized at one and a half million dollars.

The local Rotary Club will meet this evening 6:30 instead of having the regular noon meeting. The district governor, George Tomlinson, will be guest speaker for the meeting.

pressed British cannot go on assumption. Once they assumed that they were about to make a pact with Russia and assumed that, as a result, the Nazis would be immobilized. The reverse happened and a war began.

If Russia's losses in her current sectors the road to India will be open. The Middle East will again be fully threatened. Japan will no doubt seize the opportunity for attack in the Far East. The invasion of the British Isles is yet a strong probability. Those who clamor for a Western Front will have to decide where Britain should weaken herself in order that the clamor be satisfied.

If there is anything at all in the theory of the British Isles and Em-

pire being a line of American defense, then British, not Russian, interests come first. The stark truth is that Britain neither has the manpower nor the equipment to establish a Western Front and at the same time protect the Isles and the vital gateways and areas of the Empire. Her anti invasion forces in the British Isles haven't all the equipment they should have.

British and American aid is going to Russia to the limit of current ability to provide it. The Russian resistance is heroic. All in the democracies hope it will be ultimately successful, but the stark truth is that all which Britain could put into a Western Front diverting movement would not be enough.

Winston Churchill is the same Churchill who planned the Gallipoli venture of the World War. If there was a gambler's chance we believe, above all, he would take it, but Winston Churchill knows what so many seem to be forgetting now, that one more great error on Britain's part will be her last. When that last error is committed, this country will face totalitarianism and the forces no one has yet defeated by itself—Commercial Appeal.

### FARM MACHINERY TO BE GIVEN PRIORITY

A statement from the University of Kentucky College of Agriculture and Home Economics calls the attention of farmers to the recent priority ratings which the Office of Production Management established for farm machinery. Two orders were issued, one of which assigned a defense rating permitting the delivery of materials for making repair parts for farm machinery. The other order gave the highest civilian rating to the delivery of materials needed for the manufacture of farm equipment.

The Washington announcement of the rulings said that "the action of the Office of Production Management . . . gives recognition to the unspectacular but basic contributions farmers are making to the defense program. This is the best assurance that the nation's farmers will be able to carry on their vital food-for-defense program."

It is expected that farmers will experience no difficulty in obtaining parts for repairing and maintaining equipment or deliveries of new machinery needed in the production of crops and livestock.

The rulings do not include hand tools.

### LISTENING POST

(Continued From Page 1)

done all he could, and at last weariness had overcome him, and just like a baby that had been fretful and dissatisfied, he had fallen asleep. Many times I have seen a baby do this, and I thought, as I looked at the scared puppy, that there is not much difference in babies, whether they be human or just bewildered puppies.

By this time I guess the puppy has reached his destination. The new owner has taken charge, and after a couple of nights that puppy will forget his old home and be happy in a new one.

Sixty-two Boone county farms will have newly-built ponds by the end of the year, according to plan.

Owalee county farmers expect to have half of all tilled land in cover crops.

It's easy for us  
To please careful men  
That's why they all send  
Their suits here again.

YOUR MONEY IS SAFE—  
PAYMENTS CONVENIENT

The Fulton Building & Loan Association offers the easiest and safest and most convenient plan for saving money in an orderly manner that can be found anywhere. To begin with, all your investment, up to \$5,000 is insured by the Federal Government. You run no risk whatever.

The payments are convenient. You merely pay in a stated sum each month, as you would make a deposit in a bank. This is credited to your account and begins to draw interest as soon as paid in. This interest accrual amounts to a considerable sum the pay period, and any person will find it easy to save several thousand dollars under our method.

See us today and let us start you on the road to systematic saving.

## SOCIAL and PERSONAL

M. M. (BOOK) CULLUM, SOCIETY EDITOR—OFFICE 20

### ATTEND RED CROSS MEETING

A roll call Regional Conference for the American Red Cross was held yesterday in Jackson, Tennessee, and attended by the following from Fulton:

Foad Homra, local roll call chairman; Mrs. Martin Hall, Junior chairman, and Mrs. J. C. Scruggs, executive secretary.

### GUILD IN REGULAR MEETING LAST NIGHT

The Guild of the First Christian Church met last night with Mrs. Jake Huddleston at her home on Eddings street, attended by eleven regular members. In the absence of the president, the meeting was opened with the secretarial report and the reading of the minutes by the secretary, Miss Elizabeth Witty. Mrs. Charles Andrews gave the devotional, followed with prayer by Rev. William Woodburn.

Mrs. Andrews also had charge of the program and presented Mrs. Robert Rolland who gave a very

interesting article entitled "Our Church in China." The program was concluded with reviews of the recent convention in Henderson, given by Rev. and Mrs. Woodburn. During a very pleasant social hour Mrs. Huddleston served dainty refreshments.

### DRAMA DEPARTMENT MEETS WEDNESDAY

The Drama Department of Fulton's Woman's Club will meet Wednesday afternoon at 2:30 o'clock at the club home. All recently elected members of the department are urged to attend this meeting.

### WOMAN'S COUNCIL IN MEETING YESTERDAY

Mrs. Jake Huddleston and Mrs. Eston Daws were hostesses to the Woman's Council of the First Christian church yesterday afternoon at 2:30 o'clock, in the home of Mrs. Huddleston, Eddings street. Twenty-one members and one visitor were present.

Mrs. Harry Murphy, chairman, presided over the business session with reports from the different committees being very encouraging. Mrs. Jess Nichols gave the scripture reading and meditation from Acts 2:1-42-46; Galatians 6:2; and John 13:34, her theme being "Christian Imperatives of Democracy."

Mrs. Murphy reviewed "Action for Democracy" and Mrs. Ira Little gave "A Challenge to Christians" or "Democracy in the Home." Mrs. Lon Berninger lead a round table discussion of democracy in the

church, taking up all of the various organizations and functions of the church. Reports from the state Convention of the Deciples of Christ, held in Henderson, Kentucky on October 7-9, was given by Mrs. Woodburn, who reviewed the woman's work, and Rev. Woodburn, covering the convention in general. The theme of this convention was the church in the world crisis, danger and opportunities.

Following the benediction all were invited into the dining room where Mrs. Daws, co-hostess, presided at a beautifully arranged tea table. A social hour was enjoyed by all.

### BIRTH ANNOUNCEMENT

Mr. and Mrs. Glenn Dillon of Crutchfield announce the birth of a son born Monday night, October 13, 1941, at the Haws clinic.

## PERSONALS

### MT. VERNON, ILL., GETS ITS WATER BY RAILROAD TANK CAR

Mt. Vernon, Ill. — This was a normal Monday washday in this city but the water came by railroad tank car from the Ohio river via the Evansville, Ind., water system. Their lake reserves nearly exhausted by drought, the Illinois-Iowa Power Company began shipping water by tank car last night. Today 60 cars, formerly used for oil, were emptied into a reservoir. W. H. Gott, superintendent of the utility, estimated the minimum consumption at 800,000 gallons a day, not including the 200,000 gallons which railroads have been hauling daily for their own use.

Approximately 100 tank cars, with a capacity of 8,000 to 8,000 gallons each will be required daily to meet the need for water.

A special crew read meters today because a new water rate will become effective by which customers will bear 40 per cent of the added expense during the emergency.

### CITY COUNCILS MUST CONDUCT BUSINESS IN PUBLIC SESSIONS

Frankfort, Ky. — City councils must conduct their business at public sessions, Assistant Attorney General Guy H. Herdman said today.

"It would seem to me," he explained, "that the intent of the law was that these meetings of the council are public meetings and the public can attend and hear the discussions and be advised as to the manner in which the legislation is passed and who voted for it or against it."

Herdman added that he believed that attempts to get around public sessions by council resolving itself into a committee of the whole behind closed doors was illegal.

He said such committee meetings of the members present might legally be held simply as meetings of a committee but that any decisions reached must be reported to the council in regular public session and any action including voting take place there.

The opinion was given to Edward L. Fraehlich of the State Highway Patrol, Frankfort.

### CONGRESS IS URGED TO SPEED ENACTMENT ON NEW LEND-LEASE FUNDS

Washington. — President Roosevelt urged congressional leaders today to speed enactment of the \$5,985,000,000 lend-lease appropriation and received assurance that the bill would reach the Senate floor early next week.

Senate Majority Leader Barkley (D-Ky.) reported that the appropriations committee would begin hearings tomorrow and finish them within a few days.

He told reporters that Mr. Roosevelt had urged that the measure be expedited. "All parties," Barkley said, "were anxious to get action as soon as possible so they can make contracts and assure a continuity of supplies." Conditions in Russia were dis-

cussed only casually, he said, with the emphasis on prompt consideration of the lend-lease appropriation. The House passed the measure last week.

Other congressional leaders and administration executives attended the conference.

### WOMAN RETURNS \$2 OVERPAID BY STATE FOR WITNESS DUTY

Frankfort, Ky. — "I do not want to face God with any question mark in my life," said a woman who sent \$2 to the State Revenue Department Monday.

She said she and her husband had been overpaid that much as witnesses in a trial at Somerset, Ky., about five years ago, and remembered it while praying.

The letter was unsigned and bore no identification save a Dayton, Ohio, postmark.

The revenue department said the money would be turned over to the finance department to be credited to the circuit court fund.

### Gas Gas All Time ADLERIKA

Homecoming Game against Trigg County, which will be played at Fairfield Friday night. This will be the second home appearance for the Bulldogs and they hope it will be a victorious one. The last home game was played against Marion, the Bulldogs winning 12 to 0. Trigg, on paper should not rate as a strong team, although the team has played one remarkable game this season. Two weeks ago, rated to lose to Providence by three touchdowns, the Wildcats rose up and fought a better team to a seven-all tie. Of last year's squad, which defeated the Bulldogs in Cadiz 18 to 0, only one player returned, and a new coach has also replaced last year's director. Trigg's record this year is as follows:

Princeton 26, Trigg 7.  
Trigg 28, Elkton 0.  
Trigg 7, Providence 7.  
Dawson Spring 26, Trigg 0.

The figures indicate that Trigg has considerable scoring punch, for they have punched across touchdowns in every game played. The Dawson Spring game was really a sort of upset, for Trigg should have won over the Dawson outfit. The game was played in the mud, and perhaps was decided on breaks. Coach Walters is bringing a young and inexperienced team to Fulton, but he has wisely confined his coaching to only a few simple plays. He has made no effort to teach his youngsters any intricate system for the first year, but his Wildcats are said to be long on grit and speed. It will be no easy thing for the Bulldogs to push them over, and the game will likely be a close affair, with both sides reaching touchdown territory.

This will be the third meeting of the two teams. Two years ago the Bulldogs beat the Wildcats here 18 to 6. Last year the Wildcats blasted the Bulldogs in Cadiz 18 to 0. This will be the rubber game and the Bulldogs are quite anxious to win. If they can regain their early season form, they may accomplish their desires, but the practice this week will reveal whether this will be possible. There is little doubt that the strain of playing three tough games in three weeks had its effect on the team, for it did not reveal the form in the Murray game that had existed early in the season. Against Union City and Paducah the team functioned well, but the strain showed in practice after the Tighman game. Coach Giles knew the team had gone sour before the Murray game, but efforts to improve this condition met with little success, and on top of that the game had to be played a day early. With one more day's practice the team might have been readied better, but that is water over the dam now, and efforts are being made this week to get the team back in top form.

Four more games remain on the card, culminating the Mayfield tilt on the afternoon of November 11. With good luck the Bulldogs might win the three preceding games, although the Russellville game in Russellville next week will be a tough one. In fact, there are no easy ones on the card, but the Bulldogs have the class to whip Trigg.

Lexington and Russellville if they can be kept in top form. The Mayfield game, naturally, must be given to the Cardinals on paper. Mayfield, despite the Hopkinsville defeat, looms as one of the class teams of the Conference and may go on to win the remainder of the games on the schedule. Efforts of local coaches will be to get the Bulldogs back in form for the next three games and then take up the Mayfield problem when it comes.

## NEW YORK HAS HARD JOB FINDING ANY NEWSPAPERS

New York.—Newspapers were hard to get in many sections of the city today as a result of a news dealers' strike against eight afternoon and morning papers. Joseph Masello, president of Local 22,371, News Dealers Federal Union (A. F. L.) claimed about 1,600 of the city's 2,100 licensed news dealers as members and said the strike was 90 per cent effective. On most downtown and some midtown stands, only papers on sale were PM and the Brooklyn Eagle, with both of which the union said it had an agreement. In many other places, however, all papers were on sale.

## LEND-LEASE SPEED PLEDGED

Washington.—President Roosevelt urged congressional leaders today to speed enactment of the \$5,985,000,000 lend-lease appropriation and received assurance the bill would reach the Senate floor early next week. Senate Majority Leader Barkley of Kentucky reported the Appropriations Committee would begin hearings tomorrow and finish them within a few days. He told reporters Roosevelt had urged the measure be expedited. "All parties," Barkley said, "were anxious to get action as soon as

possible so they can make contracts and assure a continuity of supplies."

## BRIGHT SUN BLAMED FOR FATAL AIR CRASH

Elizabethtown, Penn.—Aviation inspectors blame a bright sun for a mid-air collision here that killed a young pilot and his girl friend. Claude Judy, Jr., 20, and Jane Stoner, 19, of Middletown, died in the wreckage of Judy's plane after it struck a ship piloted by Bert A. Tripp, of Elizabethtown. Both planes were about 200 feet above the airport when Judy's wing-tipped Tripp's cabin. Judy's plane plummeted to earth and was demolished. Capt. William A. Moore, State Inspector, said Judy apparently was blinded by the setting sun.

## MAN WITHOUT ARMS AND LEGS EARNs LIVING

Minneapolis, Minn.—Less than five years ago Albert Wegner lost his arms and legs by amputation after he was lost in a Wisconsin blizzard. Today, at 21, with artificial limbs, he can walk, eat with a knife and fork, shave himself, write letters, tie his shoelaces, drive his automobile, and earn his living as a machine operator in an artificial limb plant.

## FORMER JUDGE MANTON LEAVES U. S. PRISON

Lewisburg, Penn.—Martin T. Manton, 61, one-time senior judge of the United States Circuit Court of Appeals at New York, was released today from the Northeastern Federal Penitentiary after serving a minimum period of a two-year sentence on conviction of selling justice. Manton, whose judicial ranking was next to that of a Supreme Court justice, was charged with accepting some \$122,000 to influ-

ence decisions over a nine-year period. He was tried in Federal Court at New York. He spent a year, seven months and six days in prison, beginning his sentence March 7, 1940.

## INSURANCE FIRMS READY TO HANDLE DEFENSE LOSSES

Kansas City.—Insurance companies are equipped to handle huge losses in defense industries, such as the Fall River, Mass., rubber plant fire, Walter H. Bennett, New York, general counsel and secretary of the National Association of Insurance Agents, said today. "All the defense plants in the country could be destroyed by sabotage or other calamity, and the insurance companies still would have plenty of reserve to stay in business," said Bennett, here for the association's convention.

## PROPERTY OWNED BY LEGION RULED TO BE TAXABLE

Frankfort, Ky.—American Legion clubhouses are subject to taxation, Assistant Attorney General Guy H. Herdman today advised McCracken County Tax Commissioner O. C. Cates of Paducah. The Commissioner wrote that the Legion post there had bought a home and was claiming tax exemption on it as a public charity. Herdman said the State Court of Appeals had decided homes of the Elks, Odd Fellows and other lodges were not public charities within the meaning of the statutes and therefore not tax-exempt and that the same ruling applied to Legion post homes.

Now is a good time to renew your subscription to The Leader.

## BUGS FOUND ALLERGIC TO RED AND ORANGE

Schnectady, N. Y.—Night-flying insects, including the mosquito, are color conscious, industrial research workers have found.

If you use an orangy-yellow light bulb on your unscreened porch at night, you won't be bothered by in-

sects as much as you will be if the light is bluish, the investigators discovered.

They concluded insects were most attracted by bright blue lights, such as emitted by mercury lamps, and preferred red lights least of all. The investigators carried out their experiment by stringing colored bulbs to which insects traps were attached.
