Too Much Advice For Farmers

Here's what one man heard over his radio at a regular co-op meeting.

"In this world a pessimist says a lot of disappointment in the way of farms. But most of the farmers are thinking about their crops that the farmers are all right. And the farmer in particular. His advice would encourage him to continue doing the work he is doing."

DEATH CLAIMS

When a Fulton man's mother passed away she left the family with much difficulty because the man's father had died several years ago. The magic of the radio-farmer's advice was a great help to the family, and the man was able to get a salary of about $200 a week.

The program was bought by the growers through the co-op. and was advertised in the local paper. The President, Mr. Black, was leader of the program. The program was well received and all the farmers were glad to have it.

GOES TO JAIL

A hitchhiker asked the wrong man for a ride here Sunday night, and ended in jail. He asked E. F. Tarver of this city, and was picked up in front of U. G. DeWeer's place on Union street, and the owner was inside buying property. Just as he was about to get into the car the hitchhiker jumped out and ran. He was captured a mile away. He went at once to police headquarters, and Chief Bailey Huddleston took him back to his car and secured the owner of the car. About two miles out of town he took his life in a camelback, but was captured and taken back to the city. 

DIES AT AGE OF 96

Mrs. Nancy Hardy, 96, died at the home of her son, Mr. Hardy, near Jordan, Thursday night of last week. Mrs. Hardy was the oldest woman in that section for many years, and was well known over the county and widely beloved by all who knew her. The funeral was held Sunday at Liberty Church near Jordan.

CHICKS - Leghorns. Heavy of even the poorest families. Everything except certain meats can be bought more cheaply out of the question for many of Fulton's poorer families, who never know of certain physical conditions from which the forefathers suffered when they did not even know of certain expensive foods now in common use. They believe in growing the things they eat.

There's a valuable lesson to be learned out of this experience. The one we get out of conditions from which we've been saved is that the very things we eat are the things we need for any way.
