Neutrality Act Repeal Drive Given Power

Ship Stucklings, G. O. P. Stand Mine Reels Out Killing Law

Washington—The shipping of armed merchant vessels to and from belligerent nations, which was begun a few weeks ago in coordinated action with the Four-Eyes Pact, has been approved by the Supreme Court in an opinion rendered yesterday by Justice Brandeis. The decision was rendered in the case of the United States v. Leinster, et al., in which the appellant, Leinster, was arrested under the Neutrality Act for violating its provisions. The court held that the act is constitutional, and that the government may rightfully enforce it.

United States Officers Say Gas Will Settle Present War

Several hundred men attended the meeting of the United States Officers Association held at the Masonic Temple on Tuesday evening. The subject of the meeting was the present war, and the officers expressed the opinion that gas will settle the war. They stated that they had been informed by military authorities that gas is being produced in great quantities, and that it will be used in the coming conflict.

The meeting was addressed by General Pershing, who declared that the United States is prepared to meet any enemy that may come its way, and that it will use all means necessary to defend its territory. He said that the officers present were fully prepared to fight, and that they would do their best to protect their country.

President Wilson was present at the meeting, and he declared that the United States is committed to the war, and will do everything in its power to bring it to a successful conclusion. He said that the officers present were to be commended for their patriotism, and that they could rely on him to support them in their efforts.

The meeting adjourned at 10:00 p.m., after a lengthy discussion of the present war and its effects on the United States. The officers present were all thanked for their service, and were told that their efforts would not be forgotten.

Silver Bell, G. W. C. L. Crew Last Night

A young man named Brown, who was a member of the Silver Bell crew, was killed last night in the crash of the Silver Bell, a warplane. The plane was en route to England when it crashed, and both the pilot and Brown were killed.

The plane was on its way to England to deliver supplies to the Allies, and was en route when it ran into bad weather. The plane crashed in the English Channel, and both the pilot and Brown were killed.

The pilot was named Brown, and he was a veteran of the war. He was a skilled pilot, and was highly respected by his fellow officers.

The plane was a Silver Bell, and it was on its way to deliver supplies to the Allies in England. The pilot was named Brown, and he was a veteran of the war. He was a skilled pilot, and was highly respected by his fellow officers.

To Have and to Hold

News of a new peace move by Hitler has been confirmed by two recent reports. One was by Berlin before the end of the year, predicting the beginning of a new era, in which Germany would be a great power. The second was by Mannheim before the end of the year, predicting the beginning of a new era, in which Germany would be a great power.

The Berlin report stated that a formal peace settlement was reached between Berlin and Moscow, and that the German government would recognize the Soviet Union. The Mannheim report stated that a formal peace settlement was reached between Berlin and Moscow, and that the German government would recognize the Soviet Union.

These reports also indicated that the German government would make a formal request for the return of its former territories. The Berlin report stated that the German government would make a formal request for the return of its former territories. The Mannheim report stated that the German government would make a formal request for the return of its former territories.

After the Berlin and Mannheim reports were confirmed, the German government held secret talks with Moscow, and a formal peace agreement was reached. The agreement was signed on December 22, 1926, in the presence of the German and Soviet foreign ministers.

The agreement was based on the following principles:

1. The Berlin government would recognize the Soviet Union as a sovereign state.
2. The Berlin government would make a formal request for the return of its former territories.
3. The Berlin government would pay reparations to the Soviet Union in the amount of $20 billion.
4. The Berlin government would halt all military activities and reduce its armed forces to a level of 100,000 men.

The agreement was ratified by the Berlin government on December 22, 1926, and by the Soviet government on December 23, 1926. The agreement was widely hailed as a major step towards peace. It was seen as a victory for the pro-peace faction in Berlin, and a blow to the right-wing opposition.

The Berlin government immediately moved to implement the agreement. It dissolved the Kreisau Circle, and declared its support for the peace move. The government also took steps to reduce its armed forces and to halt all military activities.

The agreement was hailed as a major victory for the pro-peace faction in Berlin. It was seen as a blow to the right-wing opposition, and as a step towards peace.

However, the agreement was also greeted with skepticism. Some warned that it was too early to celebrate, and that the peace move might not last. Others pointed out that the agreement was based on too many uncertainties, and that it was too soon to judge its success.

In the end, the agreement lasted for a year. It was followed by a period of relative peace, during which the Berlin government continued to work towards a permanent peace settlement.

At home, too.

Well, here we are, and time has flown like a flash. The weather has been so fine that I've been able to get a lot of work done. I've been busy with my Coca-Cola vending machine, making sure it's stocked and working properly. It's amazing how much it changes people's lives.

I've also been working on some special orders for some of my regular customers. They always appreciate getting a little extra service from me.

Barbara and her husband, the sales manager of the local hardware store, came by to pick up their order. They always buy enough to last them through the week, and I've been able to keep their machines running smoothly.

I've also been working on some new business. I've been approached by a few new potential customers who are interested in getting into the vending business. I've been able to give them some advice on how to get started, and I'm looking forward to working with them.

Overall, it's been a busy week, but I wouldn't have it any other way. I love being able to help people out and make their lives a little bit easier.

At home, too.

MULE COLT SALE!

Friday, October 24
AT NEWBERN SALE BARN

IN CONNECTION WITH OUR REGULAR CATTLE SALE, WE WILL SELL——

250 MULE COLTS

These mules are from North Missouri and are as good as any. These Colt's will be sold in pairs and singles. If you have any difficulty in deciding which one to buy, just ask me and I'll give you my opinion.

SALE STARTS PROMPTLY AT 11:00 A.M.

NEWBERNE SALES CO.
FLORUS AND BRANNEN, Owners and Operators

APPROVED BY THE IMPS. OF THE FARMERS OF THE DISTRICT.
Football Gossip

The squad would make the trip in cars, for a trip is very uncomfortable for a long trip, and Coach Ellis desires that the team arrive there in time to get the kicker out of sight of people. He has the boys coming home when space becomes available, and if the team arrives there in time, they will be in a position to play a game the day after the trip.

While it appears probable that the Bulldogs will enter the Rose Bowl, and have been favored thus far in avoiding stick-
