43,000 Miners Will Go On Strike Sunday

By Board Recommendations Only
This morning the strike situation in Pittsburg, Pa., was made public by a statement issued by the United Mine Workers of America. The statement stated that the strike, which began on Wednesday, is due to the refusal of the company to recognize the union as the bargaining agent for the miners.

O. P. M. Calls For End To Strikes in Defense Plants Of United States

Washington—The Office of Production Management today directed the United Mine Workers of America, under the leadership of John L. Lewis, to end their strike against the Pittsburgh Coal Company.

The strike was called on May 20th after the company refused to recognize the union as the bargaining agent for the miners. The strike was in protest against the company's failure to meet the demands of the miners for a higher wage.

The strike lasted for two weeks, during which time the miners were on strike. The company had offered to meet the demands of the miners, but they refused to accept the offer.

The company's failure to meet the demands of the miners was the cause of the strike. The miners had been working for a long time without a raise in wages, and they had been forced to strike in order to get a better wage.

The company's failure to meet the demands of the miners was the cause of the strike. The miners had been working for a long time without a raise in wages, and they had been forced to strike in order to get a better wage.

The company's failure to meet the demands of the miners was the cause of the strike. The miners had been working for a long time without a raise in wages, and they had been forced to strike in order to get a better wage.
